455-3
 Calgary, Sept 24th 1884

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board, files and report thereon, scheduled for convenience, embracing the major portion of the claims preferred to land in St. Albert. This return embraces the great majority who can prove title under the Manitoba Act; some few will have to be reported upon specially, they requiring a fuller report than can be conveniently embraced in this Schedule.

This settlement is nine miles from Edmonton, to the North West on Sturgeon river and Big Lake; in Tps. 83 and 84, Rgs. 26 and 26 W. of 4th; and its history may be briefly cited.

In 1861, the Bishop of St. Boniface, now Arch-Bishop Tache, and the Rev. Fr. Lalonde established a mission of the Roman Catholic Church there, the object being to induce the half-breeds, chiefly of French extraction, then living at Lac St. Ann & the Lesser Slave Lake to settle here, St. Albert. They, the missionaries, could then foresee that it was only a question of a generation or so that these people could submit as they then were from the Buffalo Hunt on the Plains. They were a wild lot and the Mission deserves great credit for the progress

The Commissioner
 Ind. Lands.

Wm. J. Macleod

is

I have the honor to enclose herewith
for consideration and decision of the Board
of Road, files and report thereon, submitted
again at the previous, anniversary of
the Board of Road prepared to send
in to the Board. The return enclosed the
great majority who have told me
the Board will have
to be reported upon especially, they
requiring a fuller report than can be
submitted in this schedule.
This settlement is

will of course, at the same time
 in; and yet the river is not
 so high as it was in 1881, and it is
 not so high as it was in 1881, and it is
 not so high as it was in 1881, and it is

at the 2nd and the lower slave lake
chiefly of great extraction, then living
object being to induce the half-breeds
of the same Catholic Church there, the
the other to be established a mission
the 18th of August, was Arch-Bishop Joubert, and

the, yet. Will 12, and also to
to that early and also, in
a interest of a generation
to that that people and
Thanked it and the path
in the world. They were a well let and
may pay it for the paper

Chlorophyll

which they have made in introducing
in agricultural operations. They have
the highest and most perfect
-but 1870 or 1871, generally the
in the way of cultivation
had been erected in which the
that the last of the year in
they all lost their towers, nearly all
the corner of the farm going over the
over. They, in the morning, usually
returned late in the day or early in
and what they would then do,
and attended to everything they wished
in the way of building or repairing
their houses. About the middle of
September they started out again for
the fall hunt, & very often the
return till the ground was hard with
snow. To illustrate the amount of
work done, we will mention that
some of the best of the hunters
the largest farmer in the township
about, states that in 1871 he
saw the 1st of March, about the largest
game preserve has not to be seen under
cultivation. Deer being the large, and
that date their progress has been very
much more rapid than from the
It is great quantity of them that
nothing but deer. They, if any of them
are good farmers, or even poor, but
there is no doubt that the
their progress has been much more rapid
than the most common deer have

which they have made in instructing them
 in agricultural operations. They, until
 the buffaloes were almost extinct, viz. a-
 bout 1876 or 1877, usually did nothing
 material in the way of cultivation.
 Had houses erected in which they wintered,
 about the last of May or early in June
 they all left their homes, nearly all
 the women & children going with the
 men. They, or the majority, usually
 returned late in July or early in August
 and what hay they wanted they cut,
 and attended to anything they wished
 in the way of building or repairing
 their houses. About the middle of
 September they started out again for
 the fall hunt, & very often did not
 return till the ground was covered with
 snow. To illustrate the amount of
 cultivation they did, Wm. Best, now
 owner of lot No 32, St. Albert, and
 the largest farmer in the Edmonton
 district, states that in 1877 when he
 came to St. Albert, about the largest
 grain grower had not 5 acres under
 cultivation. Such being the case, since
 that date their progress has been very
 much more rapid than prior thereto.
 The great majority of them speak
 nothing but well. Very few, if any of them,
 are good farmers, or even fair ones, but
 those who know their best interests state
 their progress has been much more rapid
 in the north prairie than it would have

anticipated even eight years ago. If such is the case then there are good grounds for expecting progress among the younger portion of the Indians now on their reserves.

There are a few French-Canadian amongst them who have been mining in Montana, California, and British Columbia. They came, some of them, as long ago as 1867, the latest about 1876, and have developed into fair farmers.

In the Spring of 1883 the Rev. Pere Ledue and D. McAlmery went to Ottawa, as delegates on behalf of the claimants to lands in the vicinity of St. Albert, Edmonton, and Ft. Saskatchewan.

Their requests are embodied in a petition, marked "A," attached to this report. The reply of the Minister is marked.

In commencing the investigation into the St. Albert claims, the Rev. Pere Ledue handed me the document marked "C" attached to this report. I have since recommended that the river lot be extended westerly through all of sec. 8-64-26 W. of 4th, excepting the N. W. 1/4, which, I am informed, is occupied, and think it probable that will be done this Autumn. Further I found during my investigation that it would be necessary to extend the river surveys down the river below lot N^o 241, so as to procure it

3977

• *serena*

Other requests are

Don't

[illegible]

several their holdings. That has been recommended and I trust will be done also this season.

If what is recommended is done, all parties in the Parish will be fairly satisfied, and I think all has been that could reasonably be expected. Lots 9 and 10 are very small in area but that is a matter that the claimants have themselves wholly to blame for, caused by fronting their claims both on the little and Big Sturgeon rivers. Also those between lots 2 & 3 are cut off in the rear by the Mission property. The Rev. Mr. Blue informed me that the Mission authorities did their utmost, but without avail, to persuade those who first took up these lots to settle further apart.

On general principles it might be urged that if people had small lots they had only themselves to blame in settling so close together. As far as claims under the Manitoba Act are concerned it would be only fair to limit them to that area. That was no doubt all they thought of claiming at that time. In fact it is very doubtful if that date any of the settlers had an idea of claiming more than the original areas covered by their holdings and improvements. As far as those who took up claims since the transfer are concerned, they had no guarantee or agreement from the Government

that other than rectangular section survey
 would be granted. Now that the right of
 second homesteading is granted no hardship
 is inflicted even if the area is small.
 If vacant and adjacent the claimant
 could either purchase it, or, having applied
 for his patent, homestead again. It is
 true that the right to second homestead
 was not granted with the idea that
 such a right would be exercised in
 acquiring land adjacent to the first one, but
 rather to develop a class of pioneers.
 However in such case if he applied for it
 no doubt the Minister would grant his
 request.

In "b" enclosed herewith you will
 notice that the Hon. Father outlined that
 no matter what the area of the lot it
 should all be granted free under the Manitoba
 Act. The Dominion Land Act too, wisely I
 think, limited the area granted to 160 acres
 unless a greater area was under crop. He
 further states that if the lot falls short
 of 160 acres the claimant is entitled to
 have as a free gift that amount
 and that the balance should come out of
 the nearest unoccupied government land
 whether an odd or even section. It strikes
 me his intention is not incident. If
 the lot being short should have its
 area made up to 160 acres, certainly if
 it exceeds 160 acres it should be reduced
 to that area. So far as the claims
 of the allotment are concerned, if, where

a lot or less than 160 acres, the claimant receives entire lot, and where its area exceed that amount the balance is sold at \$1⁰⁰, sufficiently liberal treatment all be voted out.

Another point has been raised by claimants of the larger lots and that is that they are entitled to 160 acres under the Manitoba Act and by their residence since the transfer to another 160 acres as a homestead.

They were answered that they continued their residence on the portion claimed under the Manitoba Act and not under the portion claimed as a homestead. Their answer was that under the amended act of last session they were permitted to reside any place within two miles of their homestead so long as they put 40 acres under crop and so under the Manitoba Act they would be entitled to patent even if no improvements were made so long as kept in possession of the claim, and if 40 acres are in crop and a habitable house erected though it might be on the portion claimed under the Manitoba Act the claimant was entitled to 160 acres free. In reply it was pointed out that the Amendment to the Dominion Lands Act which they relied made no provision except when entry had been effected, and further sub. sect. f. sect. 81 states that

458

a grant fair and reasonable should be made, consequently if abandoned or stated or improvements thereon made applicable. Lot 160 acres claimed as a Homestead then it would not be "fair and reasonable" to expect 160 acres under the Manitoba Act. Besides if they wished they could acquire the balance of the lot at \$12 per acre and still be eligible for homesteading and that I considered such fair and reasonable but would submit their contention to the consideration of the Minister and Land Board.

The question of heirship in connection with claims under the Manitoba Act arose in several cases. Now at death appear to have made a will. It is also according to the custom appears to have been generally considered the heir. She sold to others, sometimes gave to one of the children, a few gave to the church on condition of being kept the remainder of their lives.

Sometimes she married the second husband claims the land now. In hardly any case were there written transactions. It appeared to me that when little is claimed under the Manitoba Act that little was called into being on the 15th day of July 1870 and all transactions concerning the lot would have to be regular and passed upon by the Minister of Justice, and so in all or nearly all the cases a liberal treatment.

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above matter. I have the honor to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
 Yours, etc.

could be accepted under the Dominion
Land Act or under the Manitoba Act,
and these irregularities did not affect
the right so long as claimant had during
the past 3 years resided upon his con-
firmity with said Act, recommended
they abandon the claim or under the
Manitoba Act and apply under the
D. L. Act. About the only difference
was the St. Entry fee of \$10, but
that seemed to many of them an amount
of considerable moment. Like all persons
who are totally illiterate the great
majority had no idea of dates. The
only date they remembered was the
year of the small pox. In my report
on the Prince Albert Claims that
date was placed in 1871. It may
have been that year that this scourge
visited that portion of the North West,
but probably it was the Autumn of
winter of 70-71. At all events ~~that~~
so far as St. Albert & concerned evidence
would show that it was between July
1870 and Jan'y. 1871 that it visited it.

Although at the
exact date of the transfer, 15th July
1870, it is possible very few of the lots
were occupied, the owners with their
families being on the plains at that
date engaged in the Buffalo hunt.
Very many of them never returned, lying
of that plague ridden and on the plains,
still when it can be shown that prior to

458

that date the lot was occupied,
and subsequently also, either by the
former claimant or his assigns or heirs,
shall recommend the claim under the
Providence Act to be allowed. In many
of these cases there are no written
transfers; never were any and in
most instances they could not
now be obtained. Trust the dis-
patchment of justice will pass them
on this report.

Before closing, this will
embrace the opportunity of testifying
to the aid cheerfully given and generously
offered me by the Rev. Père Sedue
in obtaining evidence on these
claims. He acted as interpreter when
the claimants could speak nothing,
but bore.

All of which is most res-
pectfully submitted.

I have the honor to be,

Sir,

Your Obedt. Servt.

J. P. Jones.

(H)
 Petition from Residents of St.
 Albert, Edmonton, and Fort Geo.
 - Hutchinson.

Petition of St. Albert inhabitants sets forth
 that they have formed a flourishing
 colony, site selected by Archbishop Tache
 in 1861 as Roman Catholic Mission;
 mission was soon surrounded by settlers,
 and claims taken up and improved,
 St. Albert having population of 900 at
 time of transfer. Settlers while awaiting
 river survey, learned last December
 they would only have township survey.

This would prove ruin
 and destruction of the colony; settlers
 being located both side of Sturgeon
 river and along Big Lake, on narrow
 claims running two miles back from
 river, believing they would be so favorably
 dealt with as settlers of Manitoba and
 Prince Albert, township survey would
 disturb every settler in some cases
 placing mine and ten on same section.
 At public meeting last January
 exord. Father Ledue and W. Maloney
 were appointed delegates to lay
 grievances of settlers before government
 and ask as follows: (1) River survey,
 with two mile limits as in Prince Albert
 and Manitoba. (2) Recognition
 of title and issue of patents for same,
 claims being of many years standing,
 before the transfer. (3) St. Albert

to the 1st of January 1881
- and the 1st of January 1882
- and the 1st of January 1883 -

854

[illegible]

(3) The above
 of title and issue of patent for some
 and Hamilton.
 (2) The above
 with the issue date as in the above
 and as follows: (1) The above
 of the above of the above
 (3) The above

Edmonton and Fort Saskatchewan including
-lands set for river survey to be extended
from Edmonton to Fort Saskatchewan with
two mile limit; in case of rear mile
being occupied by settler before survey,
settler on river bank to choose purchase
elsewhere.

(4) Land Office at

Edmonton or vicinity.

(5) Settlers take

confirmed in claims they took up before
survey and before regulations were changed
subject to provisions of Land Act in
force at time they settled.

(6) Representation

in Parliament for the different im-
portant divisions of the territories.

(7) Abolition of

dues from settlers for wood but for
firewood and an acre for building &c.

(8) Appointment

of Land^{nat} Registrar Edmonton or vicinity.

(9) Road between

Edmonton and St Albert, being a public
road fenced and settled on both sides
shall not be changed.

(10) Inhabitants

of St Albert, mostly English and Scotch
half-breds, born in Manitoba or the
North West Territory, natural co-owners of
the land with the Indians, never received
any compensation for abolition of their
rights, though treaty was made with the Indians.

Some of the half-breds were even
issued scrips in Manitoba on ground
that it should be granted them in
the North West Territory.

458

To the Honorable

D. G. Macpherson

Act. Minister of Interior
Ottawa

Sir

We the undersigned, Delegates appointed by the people of St. Albert, Edmonton and Fort Saskatchewan, in the North West Territory, to come down to Ottawa to lay their requests and grievances before the Canadian Government, have the honor to enclose herewith a Memorandum stating briefly such grievances and demands.

In the course of the interview which you kindly gave us on the 7th instant, you listened favorably to our requests, and we were glad to hear that full and ample satisfaction should be done by the government to the population of pioneers that we represent, and we should now feel extremely obliged if such assurances were conveyed to us in writing.

We have the honor to be,
Sir,

Your most obedient servant,
H. S. S. O. M. S.
D. Mahoney.

[Faint handwritten notes at the bottom of the page:]

(B)

458

Department of the Interior
Ottawa

Reverend Sir

I have the honor, by direction of the Minister of the Interior, to inform you that the letter and memorandum of the 10th March, signed by yourself and Mr Maloney on behalf of the people of St. Albert, Edmonton, and Fort Saskatchewan in the North West Territory has received his most careful consideration.

To the several paragraphs of your memorandum he gave verbal reply, when Mr. Royal, Mr. Maloney and yourself waited upon him, and I am now instructed to place his replies on record so that you may carry them back to the people in official form.

(1)

The lands occupied by settlers at St. Albert and other old settlements on the Saskatchewan River will be surveyed into river lots.

These lots will so far as possible be 20 chains of frontage by one mile in depth, but in places where the old settlers have located too closely together to permit of this arrangement a frontage of 10 chains

Rev. H. Ladue

O. M. S.

Care of Joseph Royal Esq. M.P.
House of Commons
Ottawa

(B)

Department of the Interior
 Ottawa

Dear Sir

I have the honor to acknowledge the receipt of the letter of the 10th inst. in relation to the proposed extension of the line of the Canadian Pacific Railway from the present terminus at the mouth of the St. Lawrence River to the mouth of the Saguenay River. The proposed extension is a very important one, and it is very much to be regretted that the Government has not yet been able to secure the necessary funds for its completion.

In the general paragraph of your letter, you state that you have been unable to obtain the necessary funds for the proposed extension. I am very sorry to hear of this, and I am sure that you have done everything in your power to secure the necessary funds. I am sure that the Government will be able to find the necessary funds for the proposed extension, and I am sure that the proposed extension will be completed in the near future.

Yours faithfully,

The Hon. Secy. of the Interior
 Ottawa

I have the honor to acknowledge the receipt of the letter of the 10th inst. in relation to the proposed extension of the line of the Canadian Pacific Railway from the present terminus at the mouth of the St. Lawrence River to the mouth of the Saguenay River. The proposed extension is a very important one, and it is very much to be regretted that the Government has not yet been able to secure the necessary funds for its completion.

Yours faithfully,

O. M. P.

one of the people of the
 of the people of the
 of the people of the

and a depth of four miles will be granted.

(2)

After the receipt of the report, field notes, and plans of Mr. Michael Dean, who has been entrusted with the survey of St. Albert, Edmonton, the next claims of the settlers will be considered, and when good till or prairie plots will be issued promptly or promptly.

(3)

The answer to paragraph one of your memorial will also be a reply to those so far as concerns the rights of the inhabitants of St. Albert, Edmonton, and Fort Saskatchewan, to have their holdings surveyed as soon as possible, and it will be said also that the right of preemption in connection with each plot of land in cases where the land in use of the first holder of a claim claims is found to be occupied by a person who has settled in advance of survey, will be permitted to be exercised by purchase of unoccupied and unreserved government lands elsewhere in the district, if any are available.

(4) The necessary facilities for making their entries and obtaining their plots will be furnished to the inhabitants of St. Albert, Edmonton, and Fort Saskatchewan as soon after the approval of the survey as the production of the lithograph plans will admit.

(5)

The period at which settlers have been

458

- aim of their respective claims, can of course, be established by evidence, and in all cases where it is shown that they went into occupation before the amendment to the Dominion Lands Act which came into force on the 4th of May, 1880, they will be confirmed in their holdings if otherwise legal, to the extent of 160 acres, or a homestead and 160 acres as a presumption, if there be available lands adjoining, whether the same form part of even-numbered or odd-numbered sections, except of course in the case of Hudson's Bay Company's lands which are vested by statute absolutely in the Company, and over which the government cannot exercise no control. Section subsequent to the 4th of May, 1880, must necessarily come under the operation of the proviso added in 1880 to sub-section 5 of section 34 of the Dominion Lands Act, exempting the government from being bound to recognize claims to land taken up in advance of survey, which subsequently prove to form part of a railway reserve or of lands set apart for any other special purpose by the government in Council.

(6)

The representation of the people in parliament is not a subject with which the Minister of the Interior can individually deal, but it is one

for the consideration of the government and with that view I am directed to say that that portion of your memorandum which has reference to the division of the Territory into electoral districts the minister will submit to his colleagues in Council.

(4)

The Dominion Lands Act, and the regulations respecting timber thereunder approved by his Excellency the Governor General of which a copy is herewith enclosed, make ample provision for settlers on agricultural lands on which there is an immobiscant supply of timber for the ordinary purposes of a farm. It will be observed that each agriculturist so situated is entitled to a free permit to cut such quantity of building timber, fencing timber, or fuel, as he may require for use on his homestead not exceeding the quantity stated in these regulations.

The law, however, strictly forbids a settler from cutting wood for sale or for barter, and it is but reasonable that people residing in towns and villages who do not follow the business of agriculture, but are engaged in the professions and trades should pay for timber cut upon Dominion Lands as the residents in towns and cities elsewhere throughout the Dominion.

are required to pay for their fuel.

(8)

The Minister is prepared to consider favourably, at an early date, the request of the people for whom you are acting for the appointment of a registrar for Edmonton.

(9)

The regulation of public highways in relation to the services of the Lieut. Governor and Council of the North West Territories and the attention of His Honor, Lieut. Governor Stenson, will be called to that paragraph in your memorial which has reference to the road between Edmonton and St. Albert.

(10)

The claims of the half-breed population of the North West Territories have for some time been under the consideration of the Minister.

I have the honor to be,
Respectfully and sincerely,
Your obedient servant

(272) J. M. Sanger
Secretary

are required to pay for their fuel. (8)

The Minister is prepared to consider
favourably, at an early date, the request
of the people for an act for the
appointment of a register for
land.

(9) The registration of public buildings
is under the consideration of the
Minister of the Interior. The
Minister is also interested in the
protection of the public buildings
and is prepared to consider the
request for an act for the
protection of the public buildings.

(10) The Minister of the Interior
is also interested in the
protection of the public buildings
and is prepared to consider the
request for an act for the
protection of the public buildings.

I have the honor to be,
Sir, your obedient servant,
J. M. Macdonald

(11) J. M. Macdonald

(C)

Edmonton, Aug. 26th 1884

Dear Sir

I have the honor to inform you that I am in duty bound to require some correction to be made in Mr. Michael Deane's survey of St. Albert Settlement.

In January 1883 I was sent a delegate to Ottawa, with D. Maloney Esq.. You have a copy of the important document handed to us, by direction of the Minister of the Interior.

Where the settlers have located too closely together to permit of a frontage of 20 chains, a frontage of 10 chains and a depth of two miles has been granted. Therefore in the name and in behalf of the inhabitants of St. Albert, I have the honor to request you to extend to two miles, a little more or a little less, all claims in St. Albert Settlement, in order to give to everyone what they are entitled to, in all justice, when such claims are under 20 chains of frontage.

If the second mile in rear has been occupied before the survey, in that case the claimants above mentioned, must be allowed to claim the balance of a full homestead elsewhere

as far as in the vicinity, on unoccupied sections, no matter if they be odd or even.

(c)

1881²⁰ Dec. 20th 1884

Dear Sir

I have the honor to inform you that I am in duty bound to require your attention to the matter in hand. I have the honor to inform you that I am in duty bound to require your attention to the matter in hand.

I have the honor to inform you that I am in duty bound to require your attention to the matter in hand. I have the honor to inform you that I am in duty bound to require your attention to the matter in hand.

I have the honor to inform you that I am in duty bound to require your attention to the matter in hand. I have the honor to inform you that I am in duty bound to require your attention to the matter in hand.

I have the honor to inform you that I am in duty bound to require your attention to the matter in hand. I have the honor to inform you that I am in duty bound to require your attention to the matter in hand.

I have the honor to inform you that I am in duty bound to require your attention to the matter in hand. I have the honor to inform you that I am in duty bound to require your attention to the matter in hand.

All your claims taken before the transfer
ought to be, and in future must be,
given or transferred, immediately after,
when there are more than 100 acres. Do so
otherwise under the name of the
great disorganization, would have been
an injury to the water half used to
that that having been before the
transfer and also have been reported
any long time from the government,
which is a great risk to incur they have a right
to report.

I have been required by many of the
better of the world to take their claims
in my hand, and to deal with for in their
name and belief.

I have the greatest desire
to see everything going smooth and right.
I'll do my best to prevent anything
which will have to be moved, but I feel
myself bound in conscience to protect the
right of those for whom people who
impose upon themselves quite heavy pecuniary
burdens to pay for travelling expenses to
their delegates to obtain.

However it is not the
interest of the government themselves to
give to one full and liberal satisfaction
rather than to have a man who is
satisfied to go out and say that they
were done to go to and see?
I hope, dear Sir,

that you will have with satisfaction
what I am first writing to you, in which

Dr. J. (What under)

All river claims taken before the transfer ought to be, and in justice must be, given as homesteads, consequently free, even when there are more than 160 acres. To do otherwise would be the cause of the greatest dissatisfaction, would prove also an injustice to the native half-breeds to whom that country belonged before the transfer and who have never yet received any compensation from the government, compensation to which they have a strict right.

I have been required by many of the settlers of St. Albert to take their claims in my hand, and to deal with you in their name and behalf.

I have the greatest desire to see everything going smooth and right. I'll do my best to prevent anything which would prove to be wrong, but I feel myself bound in conscience to protect the rights of those poor ignorant people who impose upon themselves quite heavy pecuniary sacrifices to pay our travelling expenses as their delegates to Ottawa.

Moreover it is not the interest of the government themselves to give at once full and liberal satisfaction rather than to incur more and useless expenses to grant afterward what they were bound to grant at once?

I hope, dear Sir, that you will take into consideration what I am just writing to you, in whom

John D. D. D. D.

458

I have the fullest confidence. I do entirely
 rely upon your honor and justice in the
 exercise of the discretionary powers you
 must sometimes make use of in the
 discharge of your trustful and important
 position.

I have the honor to be,
 Dear Sir,
 Your Obedient Servant

I have been informed that the Commission has been asked to consider the possibility of a new Commission to be set up to look into the situation in the Balkans, and to report to the Council of Ministers.

area
of
lot

- 1774 354 ac Russian appears to be a fair figure. Recommend 160 ac. free under man. act. Balance at \$1.50 per ac. (N.B. the claim 160 under man. act. 160 ac. is under man. act. 160 ac.)
- 205 305 A large portion of this lot is in high water lands by the action of Big Lake. Advise all the land to make a Q.C. deed in favor of the claimant. Recommend 100 ac free. Balance @ \$1.00 per acre.
- 182 23 Claiming also the tract 25 claims of the N. 2. 14 34. 53. 26 to 44 on which he has about 2 1/2 acres of leasing. The portion contained at 72 is taken nothing definite can be done with it till further survey is made to ascertain the exact area, but where they are, recommend 100 ac. 100 ac. him at \$1.00 per acre; lot no. 3 patent is issued to him under man. act.
- 166 194 Recommend 160 ac free under man. act. Balance of lot @ \$1.50 per acre.
- 137 216 Claimant is not now living on the lot. Living all over. Offers to buy on this lot but he would not accept it. If man. act. 160 ac. free under man. act, rest of lot @ \$1.00 per acre.
- 108 The area of this lot at present is 63 ac. but if extended to recommended will make in all about 96 ac. If improvements are very meagre. Recommend patent issue under man. act.
- 141 The area of this lot at present is 96 ac. but if extended to recommended will make in all about 160 ac. If man. act. free under man. act, balance at \$1.00 per acre.

[illegible]

and the station ground in back of it is now known as back yard. And just to indicate the rd around station which was a real little bit under it, around D - 235
 was not on 14th surrounded, and so is a summer road

Area of lot 43 acres if extended or recommended will contain in all about 46 ac. Recommended issue of patent under Manitoba Act to present claimant

193

47 ac.

Plough conveyances are very irregular there is no doubt of the Missin Saig, the proper Missin Saig. The improvements however are very small. The lot is held by the Corporation in connection with Mission Lot No 27 adjoining. Recommended issue of patent to Claimant under Manitoba Act.

194

24 ac.

Recommended issue of patent under Manitoba Act.

one of
the

183 30 ac Recommend Patent to issue Manifesta Act

1943 95 ac. He asks in addition to this lot the west half of the fractional N.E. 1/4 of 16-34-25 Co. of 44th M. He grants him an exception over this lot. The combined area of the two would be about 144 acres. As he appears to have made large improvements, I recommend that request be granted and patent issue for both portions under Manifesta Act.

116 77 ac. The present claimant's maiden name was Maria Bellua. She first married one Lawrence who died about 20 years ago leaving one child, a son, who still survives and lays no claim to this lot. In 1868 she married one Joseph Benoit, at which date with her husband's residence ever begun. It has been partitioned by her up to the present time. He died in 1870, intestate, leaving the property to claimant, but widow, and an infant son who still lives with his mother. If under those circumstances it is patent can issue to the widow, and recommend I should. The little lot under the Manifesta Act a perfect clear.

183 233 ac. This lot was originally 2 claims, one, the lower half owned by Ward, who sold to present claimant 1887 and privilege of mining on this he dies, which he did intestate Autumn of 1870, so that it never appears title under west is clear. So far as present is concerned it is probable, I think, that he is an Indian. The present claimant not done under on this lot, been all the time into supply of N.B. Co. when in their employ at St. Albert, lived at #174 with the greater portion of the time he did not. Recommend 160 ac. free under Manifesta Act. Balance as at #174

183 374 ac. Claimant is one of the good farmers in the neighborhood. He also claims 160 ac. under Man. Act, 160 ac. balance to purchase at \$1.00 per acre (See report with this) Recommend 160 ac. under Man. Act, balance as at #174

183 471 ac. Pierre Thibault died intestate leaving 2 sons as widows; the widows also died, and intestate. One of the sons Thibault has never lived in the vicinity of St. Albert, nor has he ever been considered as having any claim on this lot; yet been considered the owner, named Paul Thibault has sold to present claimant, who owns the adjoining section. Wants recommend, if I can, that patent issue to him under the Man. Act. If I can claim of the "bad son", that it be sold for him, too, requires little for lot on which I, he can at once, then to be permitted to homestead it.

264 ac. Recommend 160 ac. free under Man. Act; balance at \$1.00 per acre

218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.
- 157 116 ac. Tax upon being a 1/4 class farmer. Recommended to be permitted to Homestead it.
- 161 149 ac. Recommended to be permitted to Homestead this; but informed that patent will ~~issue~~ ^{issue} with 1000 left to, has received thereon at least 3 years, shows improvements value of \$6000. Is a necessity, for price of 1800 is better.
- 160 102 ac. Purchased by claimant faster 10 years ago nearly. As the family appear to have resided on it the greater portion of the time since; the father gave lot to his bro. some years ago. About 3 or 4 years ago the bro did build a cedar bro. who gave it to claimant who was to be 2nd wife. The father had possession of the claim and gave it to the bro. who gave it to the present claimant about 1 year ago. The bro. demanded \$200 for the right but as the present claimant has to pay some of her (at his own) debt. The amount of \$160, and further the having married again the present claimant there is no claim there. Recommended that the request be granted, the present lot \$11 per acre, but to be required to put in 2 years further residence and make improvements in the lot. Value of \$110 before patent issue.
- 158 213 ac. Recommended to be permitted to make Homestead, Thompson Dubin, the price yet to latter lot \$12 per acre.
- 216 115 ac. The claimant took treaty for me or ten years but no room as to be ascertained that the acres by as being being a city, he refused the money. He is here but improvements as met elsewhere, but considering lot had expense, & their money the reasonably the expense of him, they are ~~praiseworthy~~ ^{praiseworthy}. On the lot Dubin only 5 acres more than 160, mean would be to permit to Homestead it. It may be there are some other plots necessary to be taken by him living, once taken treaty to settle and to full citizenship.

225 135th Recommen patent mine to left on map as he has improved on his last better value of \$6000

186 290th Recommen do he permitted to America 160 ac., presump to share of lot as \$100 per acre.

241 191 Nothing to this that some claimant on sides on the lot. off in, take every for better. Recommen to be allowed to America 160 acres. P. balance @ \$100 per ac. but requires to was to improve the value of \$6000 before patent issue to him.

181 200th Recommen do lot on survey contains 130 ac. of section back he has been recommended and is all about 195 ac. he sold his right to the section to the west for \$220. Recommen if lot is entered he permitted to 1160 acres, price of \$100 per acre. Claimant 1000 acres under a survey over \$200 on lot No 1/4 and later out \$2000. Plus all his plan of settlement to return for work. Claimant appears to be a fair settler. As to the claim to lot 1/4, it may be ignored, it may if lot is not suitable for timber it might be sold at any 2000 per ac. to claimant.

223 100th Recommen has made improvement. No other claimant to 1. Recommen to be permitted to make H. Carter therefore.

222 200th Recommen to be permitted to America 160 ac. presump balance @ \$100, in ac.

210 220th Fair settler. Recommen to be permitted to America 160 ac. presump balance as \$100 per ac.

171 182 Fair settler. Recommen to be permitted to America if estate contains as soon as it applied for it.

Sir

I have the honor to enclose for consideration and decision of the Land Board a letter received from Col Sprout in reference to the N^o 28-47-24 W of 2nd. Sprout vs Van Lusen

If I remember correctly Mr. Hart D. L. O. was asked to report upon in the vicinity on this case.

Should the decision of the Land Board be in favour of Van Lusen I would suggest that he be required to pay Sprout the ^{right} ~~\$7500~~ ^{\$7500} which ^{he} ^{Sprout} has paid for the rails. He will no doubt state they were not worth that much to him; but he at time he retired knew Sprout has some sort of a claim to it. and to say the least his action was a piece of cheap practice, ^{particularly} when he cannot plead he has been a bona fide settler here. His occupation being really agent for sewing machines and agricultural implements

All of which is most respectfully submitted

I have the honor to be

Sir

Yours obedient servant

Wm Leach

H. W. Leach Esq.
 care of the
 Winnipeg
 office

P.S. If not disposed of please put this & other communication from Sprout on list to be taken up when I return to Winnipeg.

Calgary Sept 29th 1884

Sir

I have the honor to enclose for consideration
and decision of the Board of Directors a letter received
from the Board in reference to the \$25000-4-24 W
of 2nd floor. I have no doubt
if I remember correctly Mr. Hunt R. S. S.
was asked to report upon the vicinity
on this case.

Should the decision of the Board be
in favor of the Board I would suggest
that he be required to pay about the 1st of
the 1st of the year for the year. He will
not doubt state that they were not worth that
much to him; but at the time he received
them about the same out of a claim
to it. and to say the least his action was
a piece of sharp practice when he cannot
be held to have been a good faith holder of them.
His occupation being really agent for buying
machines and agricultural implements
all of which is most respectfully

Respectfully

I have the honor to be

Sir

Yours obedient servant

[Signature]

Sept 29

P.S. If any correspondence of the Board
should be received from the Board
or that the Board of Directors should
be informed.

Calgary Sep^r 29th 1884

Sir

I have the honor to acknowledge the receipt of
two communications from you date the 18th inst
one referring to the Hulse's Claim, the other
Special vs Davidson.

I have forwarded both of them to the
Commissioner, so that no delay need ensue
by my not being in Winnipeg. There are
two members of the Land Board there and
if it can be undertaken before I return no
doubt it will. I may not return for
some weeks.

Comps^d to all at Prince Albert.

Burgess, Sept 30 1883

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of dispute between "La Corporation Episcopale Romaine Catholique de St Albert" and M^roise de La Gorgendière concerning lot 48 St Albert.

There are two points to be decided:

- 1st. Which of the claimants is entitled thereto.
- 2nd. On what terms the lot is to be acquired.

1st. There is no doubt the said corporation obtained this lot from Michel Normand, also that La Gorgendière succeeded the said corporation owned, it otherwise he would not have agreed to pay them for it. That no one having resided thereon during the past 8 years and it not being a claim under the Manitoba Act is might be ample grounds for anyone taking possession thereof and commencing residence thereon, but in this case it would appear that this point has been an afterthought and raised to avoid carrying out his agreement. However La Gorgendière is himself in exactly the same position

Commissioner of the Corporation, he having a claim on land on the Sturgeon River which he lost

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the proposed amendment to the constitution of the State of New York. The committee on the subject have considered the same and have the honor to report in the affirmative.

There are two points to be decided: 1. Whether the amendment is in the public interest. 2. Whether the amendment is in the interest of the State.

There is no doubt that the amendment is in the public interest. It is in the interest of the State. It is in the interest of the people. It is in the interest of the future. It is in the interest of the present. It is in the interest of the whole. It is in the interest of the nation. It is in the interest of the world. It is in the interest of the universe. It is in the interest of the God of the universe.

I have the honor to acknowledge the receipt of the enclosed bill and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

The improvement of the river at \$1000 - 000 is a matter of great importance and one which will be of great benefit to the community. It is estimated that the cost of the improvement will be \$1000 - 000 and that the same will be paid for by the community.

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application for patent by the Corporation of "Les Sœurs de Charité du Nord Ouest" for Lot no 22 St. Albert.

So far as the W. 1/2 of the lot is concerned there is no doubt as to the title thereof under the Manitoba Act, also that patent for the East half of this lot should issue but there is a doubt whether legally this Corporation is entitled thereof. Equitably if no doubt is. If it can be done would recommend issue of patent for whole lot.

The Affidavit of the Rev. Père Leduc states as briefly and concisely as possible the position the said East half is in.

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose for your consideration and decision of the Land Board file and report in the case of the application of Angeline L'Heureux for patent for lots 10 and 11 St. Albert.

The enclosed area of the two lots is only 44 acres, the improvements thereon according to the said affidavit amount to \$900.

There is no doubt from the evidence that patent should issue under the Manitoba Act but if so would the present claimant obtain it? He is only one of many heirs. Her son Oliver Leclerc appears to have performed all the improvements and is desirous that patent should issue to the claimant, his mother.

Think what they wish could best be obtained by surrendring it on the part of the claimant. It will only entail a fee of \$10⁰⁰ which is much less than it probably will cost to obtain title under the Manitoba Act, & recommend accordingly.

I have the honor to be,

Sir,

 Calgary, Sept 30th 1884

Dear Sir

I have the honor to enclose for consideration and decision of the Land Board file and report on the case of the application for a patent for Lot No 4 St Albert issue to Saml Bunningham as trustee for the children of one Bellocant.

It is probable that patent should issue under the Manitoba Act but even if not Bellocant's heirs are entitled to patent by reason of his residence and improvements thereon. He resided six years thereon; died last December intestate; 25 acres under crop; house and other buildings worth \$500, fencing \$150. His widow has always and still takes the tithing. The question then arises, Is she an heir? I think not. Besides the widow he left two sons. One 15 years of age, the other 4 years. Bunningham was constituted guardian, a very respectable man. If it can be done would recommend his request be granted.

Lot is 154 acres in area. Recommend a fee patent issue for it. I have the honor to be,

Sir,

Calgary, Sept 30th 1884

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board file and report in the case in dispute between Samuel Cunningham and John Le Devote concerning lot A St. Albert.

The affidavits of the disputants state about as briefly as can be summarized the evidence of both parties, and there is very little difference between their statements.

It is probable Le Devote took possession of the lot with Cunningham's consent and on the understanding that he so doing would not in any way weaken the latter's claim.

From Cunningham's statement he no doubt thought he had a good title to this lot and his right to it was generally conceded in the neighborhood, but that he really had any title is more than doubtful. The lot cost him \$40⁰⁰ in 1868, since then Cunningham has put on it neither residence nor improvements; but considering he had the first right to obtain it on whatever terms the government might offer.

Commissioner
Imm. Lands
Ottawa

As to Le Devote though he has been in possession 17 years, he only has a home.

Copy, Sept 30, 1881

1881

worth \$40⁰⁰, 8 acres land then and in crops,
a very few acres will be all he will require
for some years.

It will be noticed that
a great part of this lot is marsh.
Some years it is valuable for hay, some years
not owing to high water in Big Lake.

After considering all
the evidence submitted would recommend that
Le Devote have 10⁰⁰ sold him at \$1⁰⁰ per
acre, described as follows:

Commencing at the
intersection of the Northernly limit of said
lot A with the Easternly limit of Little
Sturgeon River. Thence Easternly along the
Northernly limit of said lot 10 chains. Thence
South 13° 10' East parallel to the Easternly
limit of said lot 10 chains. Thence
Westerly parallel to the Northernly limit of
said lot 10 chains more or less to the
Easternly limit of said Little Sturgeon
River. Thence Northernly against the stream
along the said limit of said river to the
place of beginning containing by ad-
-measurement 10 acres more or less.

That the remainder
of the lot be sold Cunningham at
\$1⁰⁰ per acre.

 Calgary, Sept 30th 1884

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in case of the application for patent for lot no 49 St Albert, patent to issue to Marcine Beaudry.

The area of the lot in question is 84 acres. The improvements do not amount to \$100.

There is no doubt the lot probably was claimed before the transfer but there is no evidence to show that there was any residence prior to 1877, when Baptiste Robinson obtained it, and has resided there up to date.

Would recommend that patent issue to Beaudry, he to have choice as to which he will select.

First, sell it to him at \$100 per acre; second, the lot being small patent issue on bona fide improvements being put on it total value of \$400; third, Beaudry be permitted to homestead it if eligible.

I have the honor to be,

Sir,

 Winnipeg, Sept 30th 1884.

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board file and report concerning lot no 20 St. Albert.

You are referred to the affidavit of the Rev. Pere Leduc which states as briefly as possible all the facts of the case.

If it be consistent with the Department of Justice to now issue patent to Bishop Grandin or trustee, would recommend it be done. If not the other alternative must be accepted.

It seems clear that title to this lot is given under the Manitoba Act. At present the lot contains 120 acres but if extended or recommended the entire area would be about 176 acres, in which case the area in excess of 160 to be paid for at the rate of \$1⁰⁰ per acre.

I have the honor to be,

 Sep 2

at 11:30 AM
 from the
 Minister
 of the Interior

474

Bathurst
August 14th 1884

Sir
I have the honor by direction of the Commissioner of Dominion Lands to enclose herewith C. G. File 7570. being an application by the Rev. Mr. Williams to purchase the Spt. 14 10. & S. 26 W. 1st 2nd and also if there be no valid claim to the remainder of the section that we can be permitted to homestead and pre-empt it.

The file does not disclose, but I think you are right, has preferred a claim, there is it will probably, be found his claim is a new claim one, further the Presbyterian Mission verbally expressed a claim upon me for a portion of this for cemetery purposes.

While striving to do everything that can be done to assist the Rev. Mr. Williams it cannot be maintained that he should receive special consideration, this fact lies immediately in rear of the Presbyterian Mission property which Corporation has been liberally treated, in regards to their claim there. Mr. Williams is the incumbent of said Mission supported by them and not a settler in this District within the true meaning of settler. Were special consideration shown him, every Minister of all denominations, and creeds might with equal force ask the same, so far as the Gov. is concerned it would not be fair to the pioneer that a piece of land so choicely situated should be granted at this date on the same terms that were accorded in the past. As to Mr. Bruce he is not the class of either the country rancher, useful no doubt to the country, which has been heretofore dealt in a close, has been many years in the North West, and if his object was to acquire a farm, and follow the pursuit of Agriculture he has had many opportunities other than this, he does not seem to have thought of it, except when at Bathurst and Prince Albert. It is imagined, some place was likely to become valuable as a town site.

Taking all the facts into consideration

to Agent
some lands
being left
over.

[illegible]

Dear Mr. [illegible]
 I have the honor to acknowledge the receipt of your letter of the 10th inst. and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

would recommend it be sold by Public Tender, and not subject to ~~any~~ ^{any} ~~other~~ ^{other} conditions, as regards residence its proximity to the Town of Prince Rupert, not rendering it particularly desirable that residence should be enforced. ^{you will therefore authorize this for}
 sale by Public Tender, notifying all interested parties. It is sold by the $\frac{1}{2}$ Sec or less portion, when the $\frac{1}{2}$ Sec is not, ^{quite any} one party can purchase the whole, ^{being} $\frac{1}{2}$ cash balance in 1, 2 & 3 years with interest at 7% per annum payable yearly on the unpaid balance. In ~~additions~~ ^{additions} to the price tendered, the cash value of improvements thereon to be paid into your hands for benefit of party making same. Envelope to be marked ^{and} outside, Tenders for — $\frac{1}{2}$ Sec, and forwarded unopened to the Commissioner together with file and copy of this letter, advertising for 30 days

I have the honor to be
 Your obedient servant
 W. P. Jones
 Sept.

475

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board file and report in the case of the application of Marcine Beaumont for lot no 25 of Albert.

The area of the lot as surveyed equals 63 acres, if extended as recommended will equal about 110 acres.

There is no doubt that patent should issue for this lot under the Dominion Act, but the question of priority comes in and I feared under the circumstances it would not be supported by the Department of Justice and I recommended claims to apply for it under the homestead provisions of the D. A. Act. Under it to land at once apply for his patent & homestead again. From inquiry made ascertained that the applicant is in equity the proper and only claimant to the lot.

I have the honor to be,

Sir,

Yours Obedt. Servt.

450 55
Balgay, Sept 30th 1881

Sir

I have the honor to acknowledge herewith for consideration and decision of the Land Board file and report in the matter in dispute between Lamoureux Bros. and "La Catholique Episcopale Catholique Romaine de St Albert" over the S.E. 1/4 31-56-234. of 4th

The facts of the case are these: In 1878 Lamoureux Bros. and the Roman Catholic Mission and some others formed a joint stock company to build a grist mill on the Sturgeon river, which mill began operation in October of that year. In the course of time Lamoureux Bros. the Mission purchased out the shares of the others and became sole stockholders, each having a half interest therein. This mill is erected a short distance East of the line between sections 31 & 32 in said township. All the building and dam being on the S.W. 1/4 32, the water in the dam flooding a portion of the S.E. 1/4 31. Lamoureux Bros. commenced cultivation ~~East~~ West of mill and now have 32 acres under cultivation of which about 26 acres are on the N.E. 1/4 30 and 6 acres on the S.E. 1/4 31.

In July 1880 Lamoureux Bros. sold their interest ^{in the mill} to the Mission, the latter becoming sole proprietors. A copy of the agreement of sale is attached hereto file and the only portion which has any bearing on this

Commissioners dispute is this:
Ques. Land
C. Simpson

[The handwriting is extremely faint and illegible.]

The museum in Berlin

It must appear as
to their class, they must not sign otherwise.
needed from their land," which were so scarce
all particular attention shall have been
if "have had all the latter the future to receive -
the N.P. & the P.V.P. the inclusion the N.P. &
then are entitled to purchase by reason of their
Barrington P.O. Chapin

will the S.W. & the P.V.P. the P.V.P. the P.V.P.

that should be allowed to be made will

[illegible]

"With the mill Messrs Lamoureux Bros. present
 "under if needed from their land which the
 class allows of land to every mill and in all
 cases it is well understood that the mill brings
 with itself three aparts of land below and
 three aparts above of the actual dam on each
 side of the river, these aparts are equally
 on each side of the said river, the line running
 North and South and East and West."

From the survey.

Plus Agreement was made this year prior
 to survey, consequently it could not be specified
 according to the quarter sections.

The mission has claims
 they should be allowed to homestead with the
 mill the S.W. 1/4 32 and preempt the S.E. 1/4 31.

Lamoureux Bros. claim
 they are entitled to purchase by reason of their
 cultivation the N.E. 1/4 30 and the S.E. 1/4 31, ex-
 cepting out of the latter the portion so received. They
 call particular attention to the words "if
 needed from their land," which were so used
 at their desire, they would not sign otherwise.

It would appear so
 far as the right of the mission is concerned to the
 1/4 section in dispute it remains to be seen to
 this: Is a mill entitled by law to a homestead
 and preemption? The answer to that must
 be in the negative, and if Lamoureux Bros.
 by reason of their improvements are entitled to
 the 1/4 section, all that the mill is entitled to
 is a piece 8 chains 50 links (3 aparts) East
 & West and 17 chains 16 links (6 aparts) north
 and South from out of the East side of the

858
 286
 66
 1716
 1716
 18876

476

$\frac{1}{4}$ section, taking the Sturgeon river as a center.
 As to Lamoureux Bros. claim
 to this $\frac{1}{4}$ section it is not a very strong one judging
 from the amount of improvement thereon. They
 have however been enterprising settlers in the
 country, have built several mills and done as
 much as any, much more than the rest, to
 develop the country and are entitled to liberal
 treatment. It is true the Mission has also, but
 they can be accorded sufficiently liberal treatment
 without granting this $\frac{1}{4}$ section except that
 portion above specified which contains about 140^{acres}
 also and the right to raise the dam 2 feet
 higher. This might be granted here or at
 least at \$1 per acre.

Before this can be granted it
 will be necessary for Lamoureux Bros. to furnish
 a plan of survey and description of this portion
 desired, certified by a D. L. Surveyor.

As to the terms under which
 Lamoureux Bros. are to be granted this $\frac{1}{4}$ section
 that will be treated of in connection with their
 claim to River Lot No 22 7th Saskatchewan

I have the honor to be,

Sir,

Your Obedt. Servt.

I have the honor to enclose for consideration an opinion of the Land Board file and report in the case of the application by James McKenna of homestead and preempt river lots 234, & 23. The fractional parts $\frac{1}{2}$ of the S. W. $\frac{1}{4}$ etc fractional N. W. $\frac{1}{4}$ 34-52-24 W. 4th.

The area of the respective portions are 234 = 78 acres, 23 = 80 acres, fractional N. $\frac{1}{2}$ of S. W. $\frac{1}{4}$ = about 44 acres etc fractional N. W. $\frac{1}{4}$ 34 about 42 acres. Total area about 244 acres.

As will be seen by the map, lot 23 is marked as claimed by Sam Bird. That was done supposing a piece of breaking containing 4 acres and a shanty was on this lot, but McKenna states that by running the line subsequently it has been found that only $\frac{1}{2}$ acre of breaking are on this lot, the shanty and remainder of the breaking are on lot 21 to the west.

The fractional portions of 34 are caused by the river lot survey. McKenna does not claim the S. $\frac{1}{2}$ of the S. W. $\frac{1}{4}$ 34 because an Indian named Daniel Sagoulet has about 1 acre of breaking, a shanty & stable on it.

McKenna settles on this in November 1880 & has resided thereon continuously ever since, is a good settler, has 16 acres broken & fenced, is largely engaged in stock, paying out \$100⁰⁰, horse stable & cattle \$930⁰⁰.

Commissioner

Hon. Land

Commissioner

After considering all the evidence and re-
 commended to be permitted to homestead under lot
 23 & the fractional N. W. $\frac{1}{4}$ 34 containing
 about 120 acres, & prompt at \$2⁰⁰ an acre
 lot 23 and the N. $\frac{1}{2}$ of the fractional S. W. $\frac{1}{4}$
 of same section, containing about 120 acres.

I have the honor to be,

Sir,

Your obedient servant.

Wm. P. Vance

Supdt.

Balgay, Sept. 30th 1884

Sir

I have the honor to enclose for the consideration and decision of the Land Board the report with reference to the application of Henry Blane & Co. Limited to S. W. 1/4 34-63-25 Co. of 4th.

The applicant is not really a farmer but an employee of the N.B.C. since 1880. Since then has been working for the Corporation a large part of the time. As will be seen his improvements amount to only \$820⁰⁰. He is a worthy citizen and father of a large family.

Recommend his request be granted but that patent do not run till his improvements total value of \$500⁰⁰. The area of the lot is 140 acres.

I have the honor to be,

Sir,

Calgary, Sept. 8th 1881.

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board file and report with case of the application by John Fowler to Homestead Lot No. 25 & A pursuant to Lot No. 25, Edmonton.

The area of 25 & A = 59.8 acres, of 25 = 161 acres.

The claimant settles on his homestead claim in Section 81 & has been there ever since. States he has buildings to the value of \$600 & \$300 worth of fencing; 412 acres broken. His valuations are probably high.

After taking all the evidence into consideration, recommend to be permitted to Homestead 25 & A pursuant 25, the latter at \$2⁰⁰ per acre.

I have the honor to be,

Sir,

Calgary, Sept. 30th 1912

Sir

I have the honor to enclose for consideration and decision of the Land Board the application by Joseph Rye of homestead the N. 2. 1/4 11-54-24 W. 4th of range the S. 2. 1/4 of the same section.

Having requested an extension of the River lot matter, until that is accomplished the river lot survey of 81 Albert is tied in to the township and nothing can be done toward granting the desired entry, the recommendation is made in the case on the supposition that such has been made.

The applicant has not any strong grounds for his claim. The improvement of his lot survey on the ground did not amount to more than 2 acres of breaking, he now has 17. It seems never to have occurred to him that he was on a school section. It is doubtful if he knew it. He says the reason he did not make more extensive improvement was not knowing how far the river lot would extend into this 1/2 section.

After taking all the evidence into consideration and recommend to be permitted to homestead all the N. 2. 1/4 of said section 11 outside of the river lot, & the S. 2. 1/4 of the same section, the

Calgary, Sept 30th 1902,

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application by John Cameron held S. 1/2 (fraction) & S. E. 1/4 20. 52. 24. W. 4th.

This claim a preferred through the residence, cultivation & improvement of one Donald McLean. He has 8 acres broken, 25 grubbed, house worth \$50⁰⁰, stable \$30⁰⁰, fencing \$15⁰⁰, putting the breaking at \$5⁰⁰ per acre the grubbing at \$5⁰⁰ (that may be an outrageously high estimate), the total improvements in value would be \$260⁰⁰, residence from 1879 to date he states he has been only 1 month absent in all since 1879, his occupation when living on his claim has been farming. McLean sold it in March 1888 to Cameron, the consideration being \$400⁰⁰.

The area of the N. W. 1/4 will be about 53 acres, of the S. W. 1/4 80 acres, of the S. E. 1/4 160 acres.

I presume it expects 160 acres as a free gift balance at \$1⁰⁰ per acre.

The improvements on the S. E. 1/4 consist of 2 acres broken & improved his claim to same is not allowed.

Recommend patent issue to him (Cameron) for the S. 1/2 in payment of \$1⁰⁰ per acre cash or that a free patent issue

Calgary Sep^r 30th 1884

Sir

I have the honor to inform you that I was yesterday visited upon by Cap^t John Stewart, Francis White, and B. M. Goolsal, who during last Autumn made applications for several mining claims on Castle Mt^t, asking what further steps it would be necessary to take to secure the same. They promised to write me this morning & were told I would forward you their letter with any observations thereon which I might wish to make. They have not done so & as I do not wish to miss this mail I write without

If the regulations are likely to be changed permitting the location to have its boundaries other than N & S. E & W. lines there would be no great difficulty in their conforming to the regulations excepting that the affidavit could not state that applicant was the discoverer. Again should they not be changed and they require to be laid N & S. it would require two or three locations to cover the original

Thus B. not being able to arrange with A & C. desires to take up his claim and to do so has to lay it out in three claims 1, 2, & 3. Would he then be required to put \$500 of improvements on each of the three claims?

Might it not be well to make special cases of all those filed prior to the issue of the present regulations. The option might be

Wm Leance
Sep^r

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose for your consideration and decision of the Land Board file and report in the case of the application by Marguerite Lamoureux (widow) for the E. 1/2 of the W. 1/2 19 - 55-23 W. of 4th.

Her son claims the right to homestead and preempt the E. 1/2 of this section and her case has already been reported to you.

This is in a township applied for colonization purposes to the Edmonton Land Co.

From the evidence it would appear if my recommendations in case of squatters on odd sections in advance of survey are approved she is clearly entitled to this, and recommend accordingly.

To some extent strengthening the claim is the fact in 1878 she purchased from one Burgess his improvements on the portion which consisted of 8 acres of meadow and which has been in cultivation ever since.

I have the honor to be, Sir,

Commissioner

Dom. Lands

Calgary

Your obed. servant.

H. F.

Calgary, Sept. 30. 1880.

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report into the case of the application by Reuben Hugh Belcher to homestead and preempt the W. 1/2 15-34-22 C. 4th.

He went up to this neighborhood in 1878. In winter of 1880 laid claim to this but he does not appear to have made any improvements till 81 - Consequently cannot see on what grounds he can claim his preemption at \$1⁰⁰ per acre.

Lived continuously there from March 1881 to May 1884 upward of 3 years, at latter date he joined the Mounted Police, consequently cannot make his entry as homestead or preemption.

Has 22 acres broken & fenced, all his improvements at his valuation would be \$500⁰⁰ but has had the misfortune of having a stable burnt in 1880 which he says was worth \$100⁰⁰.

After considering all the facts of the case would recommend W. 1/2 of sec. 15 to sold him for \$340⁰⁰ cash, \$2⁰⁰ per acre plus H. & P. entry fee, on that point issue & time for either 1/4 sec.

of the W. 1/2 he may choose in payment of a fee of \$10⁰⁰ he waives all claim

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board a file and report in the case of the application by Ronald? Bishop to purchase the M. 4. 1/4 25-63-25 to 44

Edmond Janet from whom he purchased these improvements is an old settler in the neighborhood and ^{"any"} his case the recommendation has been that he be permitted to homestead one 1/4 sect., preempt another, and purchase the 3rd, &c. but applicant makes no mention of this claim.

If it can be done consistently, would recommend this 1/4 sect. be sold to the applicant at \$2⁰⁰ per acre, & he be allowed till 1st May 1885 to pay for the same.

In this and other similar cases the expression "if it can be consistently done," refers to the setting apart certain lands to satisfy the land grant to the C.P.R. This I think comes within their belt & have not at hand the ^{Board's} ~~Board's~~ ^{Committee's} setting it apart, do not know the date nor exact terms thereof, - consequently am unable to express a definite opinion in each case.

I have the honor to be,
Sir,

Yours, Obedt. Servt.

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application of Pierre Guillelte to homestead the M.S. 1/4 13, & pre-empt the S.S. 1/4 24-43-24 W. 4th

The facts of the case are:

In the Fall of 1881, one Joseph Couture erected a shanty, broke 1/2 an acre, this shanty was partly on sect. 13 & partly on 24. Lived during the following winter in the Spring of 1882 sold the claim to one John Murphy. This Couture had at the same time another claim.

Murphy lived in it one winter, broke 2 1/2 acres more and sold to present claimant in December, 1883 for \$350⁰⁰. The present claimant lived on it for some time last Spring & has broken 12 acres additional all on sect. 13. The house is partly on 13 & 24. State his shanty is worth \$100⁰⁰ & stable \$40⁰⁰ (a high valuation for both) He 3 acres in crop is partly on both 1/4 sects. I personally inspected the claim.

Tell to see that his claim is one that can be insistently allowed. He must be shown when he purchased that he was partly on an odd section, & could have combined his

Commissionary improvements to sect. 24.

Yours faithfully

Calgary, Sept. 20/1882

My dear Sir

I have the honor to acknowledge the receipt of your letter of the 18th inst. in relation to the purchase of the land on the corner of 1st & 2nd Sts. N.W. The land is owned by the City of Calgary and is now being offered for sale by public auction on the 27th inst. at 11 A.M. The price is \$1000.00.

The fact of the sale is as follows: The land is situated on the corner of 1st & 2nd Sts. N.W. and is now being offered for sale by public auction on the 27th inst. at 11 A.M. The price is \$1000.00. The land is owned by the City of Calgary and is now being offered for sale by public auction on the 27th inst. at 11 A.M. The price is \$1000.00.

City of Calgary

Would recommend that the most probable
that can be done to the homestead the
S. 2. 1/4 of 24 & purchase the N. 2. 1/4 of 13 from
at \$2 per acre, 1/4 each, balance in 1, 2,
& 3 years with interest on the unpaid
balance at 6 per cent per annum payable
yearly.

Should be not be able to comply
with these conditions, it is probable he
will not be disturbed in the cropping
of his breaking for some years & for
the future he can improve his improvements
to the S. 2. 1/4 of 24 his homestead portion.

I have the honor to be,

Sir,

Yours obedt. servt.

W. Pearce

Calgary, Sept. 30. 1881

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application by Victor Anderson to N.P. No 8. 1/2 19-62-24 W. 4th

The claim is not a very strong one but improvements to some extent were made before survey & would after taking all the evidence into consideration, recommend that he be allowed to N.P. it, his presumption to be \$2⁰⁰ per acre, or if he prefers, the 1/2 sect. be set him at that rate.

I have the honor to be,

Commissioner
Dom. Land
Winnipeg

Calgary, Sept. 30th 1884

Sir

I have the honor to enclose for consideration report in the case of the application by Jean Baptiste L'Heureux to homestead the N. $\frac{1}{2}$ of M. $\frac{3}{4}$ 6 & S. $\frac{1}{2}$ of S. $\frac{3}{4}$ 7, & preempt the N. $\frac{1}{2}$ of the S. $\frac{3}{4}$ 7 all in Tp. 52 R. 26.

The portion of the M. $\frac{3}{4}$ 6 applied for is all there is outside of the river lot. The claim was taken up in 1880 by one Pierre Delorme, who erected a shanty & lived in it one winter. In summer of 1881 he sold to present claimant who commenced his residence in the Autumn of 1882 & has resided there continually ever since. He has also erected, buildings worth \$300, & fencing \$50 all on N. $\frac{1}{2}$ of the M. $\frac{3}{4}$ 6.

I recommend his request be granted, his preemption to be \$200 per acre.

I have the honor to be,
Sir,

467
Calgary, Sept. 30th 1884

Sir

I have the honor to enclose for consideration and decision of the Land Board herewith file and report concerning the application of Louis Cheirney to homestead the N.W. $\frac{1}{4}$ 16 - pre-empt S.W. $\frac{1}{4}$ of 21 & purchase S.W. $\frac{1}{4}$ 16 fractional. all in Tp 54 Rg. 25 N 4th

So far as the purchase of the S.W. $\frac{1}{4}$ 16 is concerned Am best claims that in connection with his lot no. 32 S. 10th and report thereon is enclosed recommending it be granted to best.

The applicant came from Quebec in 1880. He and his brother lived together on the S.E. $\frac{1}{4}$ 21 adjoining. His brother owned the house. Together they had 60 acres land. The brother claims the $8\frac{1}{2}$ of said sec. 21 as a homestead and pre-emption and is to have 30 acres for present claimant on his homestead. So far the only improvements made by claimant on portion claimed as homestead and pre-emption is fencing to the value of \$50⁰⁰.

There is no reason why he should not homestead the portion applied for, but fail to see that he has any ground for applying for a pre-emption on an odd section, but see no reason why the same might not be sold him at \$2⁰⁰ per acre, $\frac{1}{4}$ cash, balance in 1, 2 & 3 years with interest at 6 per cent per annum on the

468
Calgary, Sept. 30th 1882

Sir

I have the honor to enclose for consideration of the Land Board a matter in dispute between Wm. Best and Louis Oheingny concerning the fractional S. W. $\frac{1}{4}$ 16-54-25 W. of 4th.

Best will probably be able to prove title to three claims under the Manitoba Act now covered by lot no 32. He states he can do four. There is no doubt he is by all odds the most progressive settler in the Edmonton District and further that he has claimed this portion if not always, at least for the past 2 years, desiring it on account of the small lake on it to furnish water to his cattle. I can't understand why Dean did not include it within his lot, unless for the location of the trail. There are only a few acres in it.

Oheingny laid no claim to it till last spring, knew Best claimed it, since then has put up a house which he states is worth \$2000, did it knowing the claim would be settled this season.

After taking all the facts into consideration I would recommend that the fractional S. W. $\frac{1}{4}$ 16-54-25 W. of 4th be granted to Best in connection with lot no 32 St. Albert.

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report into case of the application by James Kirkness for patent for river lot no. 26 Edmonton Settlement.

This will have to be taken in connection with the report on the boundary line between lots 24 & 26, enclosed in my report on the former lot forwarded you some time since from Edmonton. If my recommendation in this is approved then the acre of this lot will be increased materially.

The claimant is a good settler, has been making improvements on the lot since 1872. Commenced residence there in May, 1881, not 1880, and has resided there ever since. His improvements he values at \$1050.

Although he, from date of residence, is not entitled technically to the preemption at a less price than \$2⁰⁰ per acre, by his improvements so long ago manifested his intention to take up this lot, and recommend the area in excess of 160 acres be preempted at \$1⁰⁰ per acre, & H. & P. fees for entry to be paid; time to count from May 1881.

I have the honor to be,
Sir,
Yours obediently,
W. H. H.

477
 Calgary, Sept

Sir

I have the honor to enclose herewith for consideration and decision of the Board, 2 files and reports thereon concerning the claims preferred by Thomas Alderson Anderson to lots 13 & 15 Edmonton Settlement.

Before anything further can be done with reference to lot no. 13 the point on its line between it and 15 A must be decided. This was reported on from Edmonton in July last, and in same report evidence affecting to considerable extent these lots was reviewed.

Though considerable residence has been put in on these lots, it has not been such as the homestead provision of the Dom. Lands Act contemplated. Three parties were entering for the N.B. Co. & others and lived there as it was convenient; did however not employ other its improvements of any considerable extent. After taking all the evidence into consideration would recommend these lots be sold him at \$1 per acre cash.

I have the honor to be,
 Sir,

Your obedt. servt.

Calgary, Sept 5

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board a letter addressed me by Mr. Frank Oliver, Editor & Proprietor of the Edmonton Bulletin, applying for homestead and preemption of the W. $\frac{1}{2}$ of Section 32, & to purchase the E. $\frac{1}{2}$ Sec. 31 & the N. W. $\frac{1}{4}$ Sec. 29 all in Tp. 52 R. 23 W. 4 E.

As for as homesteading & preemption the W. $\frac{1}{2}$ 32 is concerned there is nothing to prevent him doing it & he was advised accordingly.

He first made improvements within months of March 1882 before survey and on survey he found he had 3 acres broken on E. $\frac{1}{2}$ 31 & 2 acres on N. W. $\frac{1}{4}$ 29.

As for as his claim to the N. W. $\frac{1}{4}$ 29 being a school section is concerned I do not think his improvements are sufficient to justify a sale to him.

As to the E. $\frac{1}{2}$ 31 if not alienated with the policy of the government and if little or no land has not been alienated by reason of odd sections for the C.P. Ry., or even if so alienated that corporation will waive their claim there, would recommend the E. $\frac{1}{2}$ of sec. 31 be sold him at \$2 per acre. Cash.

I have the honor to be,

Sir,

Yours obedt. servt.

Chicago

1481 92
Calgary, Sept. 30. 1894

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board file and report in the case of the application by Wm. McDonald to homestead the S.E. $\frac{1}{4}$ 16 and all that portion of the N.E. $\frac{1}{4}$ lying East of Long Lake & preempt the S.W. $\frac{1}{4}$ of 15-53-26 W. 4th.

My own state of settlement and recommendation that so far as pre-empting in an odd section adjacent is concerned his request be granted & the price of it to be \$1 per acre.

He was perfectly satisfied that he had 160 acres on the S.E. $\frac{1}{4}$ 16 till he saw the Sp. plan, & then he decided at once that he was entitled also to all that portion of the N.E. $\frac{1}{4}$ applied for. He was told that there was no provision for what he wanted. If he settled in advance of survey & persisted in doing so on the edge of a lake it was his misfortune if on survey he found himself on a $\frac{1}{4}$ section which does not contain 160 acres.

Judging by the progress he has made in the past the S.E. $\frac{1}{4}$ contains sufficient to exhaust his energies for some years to come, consequently cannot recommend his request be granted; but that he

Capt.

507

Calgary, Sept. 30. 04

Sir

I have the honor to advise for consideration and decision of the Land Board file and report in the case of the application by Joseph Pierre Marier dit La Pierre who wishes to homestead L.S. 4 & 5 Sect 1 and L.S. 1 & 8 Sect 2, 3 & 4 - 25 - and preempt L.S. 12 & 13 Sect 3, 6 and L.S. 9 & 16 Sect 3, 5 - 53 - 25 to 45.

This claim was first taken up by one Baptiste Robertson about 1878 in planting some trees & building a house & a barn and in April 1881, sold to present claimant for \$20.00. Present claimant lived on the place a short time & has been doing all & probably ever since, appears a hard working man with a large family. All his improvements are on the portion claimed as a homestead. He was there long before survey of the 1/2 section & before the survey of the 1/4 section. The place is situated & surrounded by swampy & timbered land. It would never do in the public interest to allow sections to be cut & carved to pieces so to waste & so all his improvements are on the S. 1/4, Sect 1 & 2, 1/4 Sect 2 - 54 - 25 and I recommend to be permitted to homestead & preempt these 1/4 sections.

I have the honor to be,

Sir

483

Calgary, Sept. 30. 02

Sir

I have the honor to enclose herewith a letter from the Revd. Père Ledue asking what value for the Easterly 10 claim of lot 1407, Edmonton, issue in the name of "La Corporation Episcopale Catholique Romaine de St. Albert."

This is a portion of the Lawrence Graham claim already reported on.

Re. Rev. Père Ledue stated that he was prepared to pay for the preemption portion of the Lawrence Graham claim having retained sufficient of the purchase money from Graham to enable him to do so.

I have the honor to be,

March 24th - 1891

Leinster, 1841

Calgary, Sept. 30. 14

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application of Lamoureux Bros. for river lot no 22 as a fee ~~paid~~ and purchase the fractional portion of ~~22~~ 5. P. 55. R. 22 in rear of said river lot, also the right to purchase the N. E. $\frac{1}{4}$ 30 & S. E. $\frac{1}{4}$ 31 - 55 - 25 & 35.

23

Lamoureux Bros. (consisting of Joseph and Francis) have always carried on their operations in partnership, came to the country from Brit. Columbia in 1873, built a grist mill for the N.B. Co. at Edmonton, then built one in which they had an interest on Sturgeon river, where they sold out to the R. C. Mission in 1880, then built a steam grist and saw mill on the river lot applied for. They were pioneers of Ft. Saskatchewan, took up their claim in 1874 & have been residing there for the greater portion of the time ever since 1876.

The reason they settled at Ft. Saskatchewan is mentioned in the general report on the claims at that point and need not be repeated now.

They have proved themselves 1st
commissioned class settlers and in addition to what
I have stated

to be a variable in the letter and to be a variable in

March 1901

1890

they have done for the district with
 way of meeting with it may be stated
 that they have been the means of in-
 -ducing many of their countrymen from
 the Province of Quebec to settle in this
 vicinity.

The area of this lot contains
 274 acres; the fractional portion of
 sec. 5 about 60 acres the N.E. $\frac{1}{4}$ 30 & the
 S.E. $\frac{1}{4}$ of 31 about 305 acres, in all 639 acres,
 not an extravagantly large area for
 two men to acquire. They have sold to
 P. Heimeck & A. McDonald what are now
 known as lots 10 & 20 of H. Sarsdaleman.
 They claim they only sold their improvements
 but the price given shows that Heimeck
 & McDonald must have supposed they were
 acquiring certain rights by reason of the
 purchase.

After taking all the facts into
 consideration I would recommend that
 on payment of \$20⁰⁰ equal to honest
 entry fee patent issue to said firm for
 lines lot no. 22 H. Sarsdaleman, & that
 the fractional sec. 5 in T.P. 55 R. 22
 Co. of 4th, the N.E. $\frac{1}{4}$ 30 & the S.E. $\frac{1}{4}$ 31 in 55
 - 22 Co. of 4th be sold them at \$12 per
 acre, reserving out of the latter $\frac{1}{4}$ sec.
 (S.E. $\frac{1}{4}$ 31) the 14.7 acres allotted to the
 mill together with the right to flood
 if necessary any lands therein which may
 be by raising the dam 2 feet higher than
 it was on the 12 Sept. 1884.

I have the honor to be,
 your obedient servant,
 J. H. Sarsdaleman

Balgay, Sept. 30. 1884

Sir

I have the honor to inform you that one Louise Torangeau lays claim to fractional Section 5 of the S.W. $\frac{1}{4}$ P-54-25 W. 4th.

I have a faint recollection that you spoke to me about some claim there that it could be arranged, you asking the river lots to be extended North, so as to take in the S.W. $\frac{1}{4}$ of Sect. 8.

Could you please give me all the information you can about this, & in what way you think it might be adjusted doing justice as far as possible to all parties. Send it under cover addressed to A. Walsh, Commissioner Dom. Lands, Winnipeg.

Calgary, Sept. 30. 84

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case of the application for patent by Daniel Maloney for the M. W. 1/4 15-54-26 W. of 4th.

There are two points to which I direct your attention: 1st. That his holdings are on Section 16, but only a short distance, a few yards from the portion applied for. 2nd. That his residence lacks a few months of 3 years.

There is no doubt he settled here in good faith. His surroundings were however so swampy that he has never succeeded in growing grain on account of summer frosts. On that account he has abandoned the claim and purchased land at St. Albert. On account of these facts he waived his claim as a presumption though he thinks he is entitled thereto.

After considering all the evidence, we recommend his application be granted, he be allowed to homestead and at once apply for his patent, but his application be still to waive all claim to any portion of sec. 16 adjacent.

We will be notified that he has made considerable improvements.

Commissioner

Don. Land

at Winnipeg

Calgary Oct 1st 1884.

Sir

I have the honor to enclose for consideration and decision of the Land ^{Board} evidence prepared before me today by Joseph Buttin concerning a claim to the W¹/₂ 33-23-1 W of 8th.

He stated he called on Mr Burgess when here last summer and he told him to hunt me up and furnish evidence when I returned. It might be well therefore to have a copy of this made and forwarded him.

This case may probably become one of considerable moment, should the quarry thereon prove as valuable as Buttin states, which is that it is the best free stone in the world. If it is such, there will probably be sufficient for several parties. It is exposed by a cut bank on the east side of the Elbow River and extends at least one fourth of a mile. The face exposed is probably 20 ft in thickness and how far back it extends has yet to be determined. It might be well to particularly direct your attention to the answer begins to Question No 42. & the remark after no. 43.

The claimant first became a bona fide resident on this claim in the Autumn of 1881. Therefore legally he has no claim to this being an old sec., but so far as his claim to that portion of it -

Calgary, Oct. 1st 1884

Gentlemen

I have the honor to inform you that the Minister of the Interior has been pleased to grant your petition to have a road laid out across Lot No 2, Edmonton.

It will however be necessary for you, with as little delay as possible, to furnish, without expense to the Department as stated in your petition, a plan and field notes of said right of way prepared by a D. L. Surveyor so that it may be reserved from out of patent of said lot. The plan of same should show the distance from the North East and North West angles of this lot, that the centre line of said right of way intersects the East and West boundaries respectively. The road to be 66 feet or 1 chain in width, unless in some parts for grading down a hill or other purposes it may be necessary to take a greater width. On the ground good substantial posts or stone monuments to be planted at the intersections of both limits of this road with the East and West limits of this lot; also at all angles in the limits of said road across this lot; The plan and field notes to show the same. The plan to be on a scale of not less than

1 inch to 10 chains. Returns of Surveyor to be sent with the usual way.

It might be well

Calgary 1st October 1885

Sir:- I have the honour to enclose
herewith for your perusal and then
to be forwarded for the Minister's con-
sideration with any observations you
may wish to make - seven files con-
taining claims to lands in St. Albert
Twp. Saskatchewan and Township 55 R. 23
West 4th preferred by
the Corporation Episcopale Catholique
Rougeville de St. Albert.

The Corporation des Reverends Pres
Obats de Notre Dame de la Paroisse de Terri-
toires du Nord-Ouest - and
Societe des Paroisses de la Paroisse
du Nord-Ouest.

The first enclosed is one of our
recent movement that it is probably
advisable to obtain from the Minister
an expression of his views before
making any recommendation in the
case. As will be seen by one of the
files enclosed No 192 containing a
memoir of an interview in April 1885
between Bishop Grandin of St. Albert
and his Vicar General Rev Fr. Leane
representing the foregoing Corporations
and Sir John Macdonald and Sir David
Mackenzie representing the Government,
this matter has already been discussed
to some extent - This memoir was given
to me by the Rev. P. Leane.

Wm. Leane

There are two Church corporations - the
not clearly understood the distinction
between them and at present they would
appear to be one and the same. - I
have stated that the present Bishop
was a member of the order of the
Poor Knights, but that any one of his
successors might not, in which case
there the corporations would become
distinct in their working.

[illegible]

I have a private information.
 that as if I should ever in the course
 of my life be recommended to the
 service of the Government, and have been
 employed in any office, I shall be
 considered as a private individual.
 and shall not be subject to the
 regulations of the Government.

 of my life be recommended to the
 service of the Government, and have been
 employed in any office, I shall be
 considered as a private individual.
 and shall not be subject to the
 regulations of the Government.

22/5/22

There ⁵¹⁷ are two Church corporations. I do not clearly understand the distinction between them and at present they would appear to be one and the same. Pere Leduc stated that the present Bishop was a member of the order of the "Peres Oblats", but that any one of his successors might not, in which case these two corporations would become distinct in their workings.

The greatest praise is due these organizations for the work, ^{besides the} religious teaching, which they have accomplished among the half breeds and Indians in this District, and they merit liberal treatment on that account. In the near future it will probably be found that many claims will be preferred through the establishment of missions among the settlers. In such cases it might be considered inconsistent with public interests to grant the area claimed.

In addition to the claims enclosed these corporations have preferred other claims to lands in St. Albert and vicinity, but these have been based either through purchase of or gifts from former claimants, and have been reported upon and recommendations made the same as if claimed now on the same grounds by a private individual.

File No 135

File N^o 135 refers to the application by "La Corporation Episcopale Catholique Romaine de St. Albert" for lot N^o 27 St. Albert and sections 17, 20, 54, 25, N 4th. This mission was established in 1861 and has been occupied ever since. It is stated to have originally been about one mile in width and extending back to Carrol creek about five miles. This has been narrowed by settlers crowding in too close. If taken up as stated it would have contained upwards of 3000 acres. The area of the present claim is about 1847 acres.

The value of the buildings on said lot 27 according to the statement of the Reverend Curé is upwards of Forty-three thousand dollars. In addition a large amount of stock of one kind and another is kept. There are also about 20 souls, servants and all, living on the property. A school both for boys and girls is also conducted in which both sexes are trained in various kinds of useful labour. The one for girls is conducted by "Les Sœurs de Charité" who also prefer a claim to land in this vicinity. The area claimed does not appear large when the improvements and work accomplished is considered.

File N^o 190 contains the application of La Corporation des Reverend Pères Oblats de Marie Immaculée des Territoires du Nord Ouest for lot N^o 52 and a small portion of lot

The No. 150 appears to the application of
 the Corporation of the City of New York
 to the Board for the No. 150 of the
 and section 170.24-25.11. The section
 was established in 1801 and has been
 recognized ever since. It is stated to have
 originally been about one mile in
 width and extending back to Canal Creek
 about five miles. This has been narrowed
 by various encroaching in the case. If taken
 up as stated it would have contained
 approximately of 300 acres. The area of the
 present claim is about 187 acres.
 The value of the building on the
 lot according to the statement of the
 Corporation is approximately of \$100,000.
 thousand dollars. In addition a large
 amount of stock of one kind and
 another is kept. There are also about
 100,000 pounds of wool, being on the
 property. It should be for 180 and
 181 is also contained in this lot.
 There are various claims in various times of
 various persons. The one for this is
 contained in the books of the City and
 also gives a claim to land in this
 vicinity. The area claimed does not
 appear large when the improvements and
 work accomplished is considered.

of the
 Board

of lot 21 adjoining - the combined area
being about 32 acres - the buildings
on this lot are valued at \$1,350 - the
other improvements are very small - the
being over the bridge is valued at
\$2,500 - but its construction cannot be
considered as strengthening the claim to
it - It has been put on as a speculation
tolls are collected and from the rental
received it would appear to be a

paying one -
The object in applying for the
partition of lot 21 is to acquire control of
a small lake with on it one house
and 22 the intention being in the near
future to build a colony for 200 in its
environs -

The Corporation claims lot 22
through the purchase of 3 claims under
the Hamilton Act - this lot to two such
claims would appear to be clear, but the
thing is doubtful - Can we no reason
why cannot the Hamilton Act a free
lot should not arise and that
the location of 22 apply for rights
will at \$100 per acre.

File No. 182 is an application also for
lot No. 10 to the Corporation and the lot
8-25-22 74 1/2 - proposed by the Corporation
the Government for White Birch Lake -
- vacant the 2000 acres in the lot -
but lot No. 10 contains 178 acres - this
division was established in 1870 and has
been

of lot 51 adjoining - The combined area equals about 321 acres. - The buildings on this lot are valued at \$1,350 - the other improvements are very small. The bridge over the Sturgeon is valued at \$2,000. - but its construction cannot be conceived as strengthening the claim to it. - It has been put up as a speculation tolls are collected, and from the rental received it would appear to be a paying one.

The object in applying for the portion of lot 51 is to acquire control of a small lake partly on it - and partly on 52 the intention being in the near future to build a college for boys on its banks.

This corporation claims lot 52 through the purchase of 3 claims under the Manitoba Act. Their title to two such claims would appear to be clear, but the third is doubtful - Can see no reason why under the Manitoba Act a free patent should not issue, and that the portion of 52 applied for might be sold at \$1.⁰⁰ per acre.

File N^o 187 is an application also for lot N^o 16 76: Snokatchewan and the S^r 4 8-55-22 N^o 4th preferred by "La Corporation des Reverend Peres Oblats de Marie Immaculée des Territoires du Nord Ouest" - Said lot N^o 16 contains 178 acres. This mission was established in 1876 and has been

been continuously occupied ever since. Claims that each mission has been promised 320 acres free - This is not an Indian mission but one established on account of the settlement which sprung up here, largely if not wholly due to the probability of the Canadian Pacific Railway crossing here and the establishment of the post of the Mounted Police, and differs materially from an Indian Mission. Sufficient liberal treatment would probably be accorded if a free gift of said lot was made - some might consider it liberal enough if sold at \$1.00 per acre - So far as the S.W. 1/4 of Sec 8 is concerned the Hudson Bay Co. have the right to claim it. The mission has no improvements on it.

The true Corporation of the Oblat Fathers in file N^o 191 claim the N^o 32-55 23 N 4th through the establishment of a mill and mission - The history of this mill is recited in the case in dispute between the Mission and Lamoureux Bros. E.E. & 31 adjacent - Lamoureux Bros. stated to me that the mill had been a splendid investment so that it would not appear that any strong claim had been made out by reason of said mill - It is true that it has been of great convenience and value to the settlement - It is I think more than doubtful that the mission would sell out

been continuously occupying our since
 claim that such mission has been
 maintained 320 years ago - this is not
 an Indian mission but one established
 in support of the settlement which opens
 up here. It is not a help one to the
 Government of the Canadian Pacific Railway
 crossing here and the establishment of the
 part of the Mounted Police and officers
 necessarily from an Indian Mission
 sufficient liberal treatment would
 probably be received if a free gift of
 this the land. Some might say
 when it is liberal enough is each at \$1.00
 per acre - so far as the gift of land
 is concerned the Government has given
 the right to claim it. The mission has no
 involvement in it.

The true Corporation of the United
 States in file No. 1/1 claim the 17-31-78
 as a 4. through the establishment of
 civil and mission - the history of this
 civil is created in the case in dispute
 between the Mission and Government.
 It is a 4.31 support - Government has
 stated to me that the civil has been
 a splendid investment so that it
 would not appear that any other
 claim had been made out of reason of
 civil civil - It is true that it has been
 of great convenience and value to the
 settlement - It is better more than
 doubtful that the mission would be
 out

 I remain Dear Sir

Sir
 Your obedient servant

Calgary October 2nd 1884.

Sir

I have the honor to direct your attention to the fact that in the vicinity of Maple Creek there are said to be some 60 squatters who desire to make entry. Some of them are in the Swift Current, others in the Calgary District and as it is reported that the Swift Current office is not to be opened till next Spring I would suggest that an official be sent in the near future to grant entries to anyone who may wish to effect the same.

Having decided when this official is to visit Maple Creek it would be necessary to instruct the Calgary Agent to cease taking ^{entries in} ^{vicinity} the same on a certain date and notify you what entries have been effected in that vicinity.

Having a map showing the location of the stations, you could decide what lands entry should not be permitted to be entered.

Those in the mile belt will I presume be entered under the usual conditions applicable thereto.

The receipt book, or rather the stubs of the same should be made a record in your office in case they might be required in the future. As soon as the entries are completed the application forms and fees to be sent to the Agent of the District.

H. Walsh Esq

Commissioner Bone Lands

Winnipeg

Calgary October 2nd 1884.

Sir

I have the honor to direct your attention to the fact that in the vicinity of Swift Creek there are said to be some 50 operations where choice to make cuts. Some of them are in the Swift current, others in the Calgary district and as it is reported that the Swift current office is not to be opened the next spring I would suggest that an official be sent in the near future to ground surface to compare the same with to effect the same. Having decided upon this official is to visit Swift Creek if needed in connection to inspect the Calgary office to clear taking the same as a certain date and certify you what entries have been effected in that vicinity.

Having a map showing the location of the station, you can clearly understand what land entry should be permitted to the station. There in the field with all I presume the entire section the same conditions applying.

Yours:

The receipt book, or rather the book of the same should be made a record in your office in case they might be required in the future. As soon as the entries are completed the application forms can be sent to the office of the District Controller.

H. W. White Esq.
Commissioner of the Land
Department

where the books are situated. To be certain
into their papers. (Lafay and book
current.)

Having observed what is to be done
and the date (it might be well for the
parties to know it day or month in
advance) would suggest parties be
sent to brief current. full date and
shape book. stating there is a certain
day. an officer would be at their service
to receive H & P. current. The day for
brief current. and full date book. There
for shape book. with a day for travelling
between each of these points. of there is not
a journey from there will be a freight.
of there are to be opened for ordinary
entry at discretion that, it might be best
there also.

Perhaps the best way would be to
except the application after, forward them
to the agents of the District & have the receipts
return the receipt to the applicant's D.O. when
by this means if any error was made in copy
the agent would be wholly responsible and if
application should happen to be accepted for
which already existed or which should not
be the first book to return to applicant and
indicate that they could not be granted. Would
be more strongly the latter.

These suggestions are sent for
your approval and action.

I have the honor to be

Very truly yours

[Signature]

P.S. Sample Office should be sent.

which the lands are situated, to be entered into their Registers. (Calgary and Swift Current.)

Having decided who is to be sent and the date, (It might be well for the public to know it say a month in advance) would suggest notices be sent to Swift Current, full Lake and Maple Creek, stating that on a certain day, an official would be at those points to receive H & P. entries. ^{or applications for entry} One day for Swift Current, and full Lake such, then for Maple Creek, with a day for travelling between each of those points. If there is not a passenger train there will be a freight.

If lands are to be opened for ordinary entry at Medicine Hat, he might be sent there also.

Perhaps the best way would be to accept the applications & fees, forward them to the Agents of the District & have the said agents return the receipt to the applicant's P.O. address. By this means if any error was made in entry the agent would be wholly responsible and if applications should happen to be accepted for lands already entered or which should not be the fees could be returned to applicant and notified that entry could not be granted. Would recommend strongly the latter.

These suggestions are sent for your approval and action.

I have the honor to be

S. A. Campbell official should be sent.

In reference to the expenses in connection with the Crown Timber Office at Calgary I would make a few suggestions. I have not seen the bill of expenses for transport and living of the Forest Ranger when out on his trips but from an interview with him on the train the other day, I inferred that he would not trust himself with walking in the discharge of his duties. I supposed that ^{Ranger} ~~constant~~ walking but he appears to think he should on every trip have a horse & buckboard or horse and saddle, where horse cannot be obtained the duties must be neglected. The cause of this opinion was an answer to my interrogatory why on his recent trip to Maple Creek when looking after timber cutting he did not go in and visit the mill on Cypress Hills which is about 20 miles south of Maple Station, which was that he could not get a horse & conveyance at Maple. I suggested a forest Ranger could walk that distance. He observed he supposed he could if it were necessary.

For all the distance the mills and log cutting operations are from the C. P. Ry there is no necessity for any horse hire expense in connection with looking after them, unless there was an object which it is not the duties in connection therewith do not occupy that officials time more than on forest Rangers. As far as Red Deer, there is a stage way two weeks to Edmonton, the fare to Red Deer is \$12.50, and between going out and returning there

The reference to the reference in connection
 with the General Committee office at Cambridge
 would make a good suggestion. I have
 not seen the list of references for Cambridge
 since leaving of the first degree when we
 on his trip but from an interview with him
 on the same the other day I suppose that
 he would not have himself with anything in
 the discharge of his duties. I suppose that
 the discharge of his duties is to be made by
 should be very well as a matter of fact
 as have any doubt, where the committee
 obtained the duties must be neglected. The
 case of this opinion was an answer to my
 inquiry and as his recent trip to the
 bank where looking after the business
 he did not go in case since the death of
 this water is about the same of water
 station where was that he could not get a
 convenience at that. I suppose a first
 degree could not be that distance. The
 as the same is that it was necessary.
 For all the distance the water was
 in cutting operations as from the C. & N.
 there is an account for any more here
 in connection with looking after them, unless
 there was an object where it is not the
 that is common to the same - do not occupy
 that office there since then one fourth of
 . After all that there is a large camp
 this water to be made, the first of that
 is 12.10. and between going and coming

I have the honor to be

J. M. Smith

My dear Sir,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the
S. B. & Co. and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.
I am, Sir, very respectfully,
Your obedient servant,
J. M. Smith

Very truly
yours
J. M. Smith

of just one week which would give him ample time to visit the River Mill there and see what the settlers also are doing.

Up the River his duties lie close to the C.P. by & he could visit anything there is there on foot except up the Kanawha.

Between here and Newcomb there is a stage twice a week each way. He can get off at Sharp Creek. go up it ^{on foot} look after the timber, come down & take the stage again either way in two or three days. There will be no cutting beyond the settlers and Ranchmen & he can stop one night with them. The same observations apply to High River, again at the Pocahontas Hills. He can go in from Maysville Creek & the Leavings. From Newcomb he can go up the Kootenay the Old man and go past to Ft. Kipp and the Coal Banks. He will learn & see much more on foot; than he will driving and I think it is more compatible with the position. There is as you are aware a constant tendency towards extravagance with many Officials, and have given these observations for your information. It would not be politic probably to make this letter official but you can forward it ^{confidentially} to the Committee if you see fit.

I leave the honor to be

In further reference to mine written at
 Baltiford on the 8th of Aug. last. being report
 on the claims of J. R. Benton to the NE $\frac{1}{4}$ 11 and
 SE $\frac{1}{4}$ 11 - 55 - 24 W of 4^E and the McKinnon
 to the NE $\frac{1}{4}$ 11 & NW $\frac{1}{4}$ 12. same Tp. and Range in
 which the recommendation was that their
 claims to the portions of Sec 11. be not allowed I
 have now the honor to state that I would wish
 to amend said recommendation, and grant
 them what they wish. This is done, not because
 I think they were harshly treated in the former
 recommendation; but because certain claims
 as strong in the vicinity of St. Albert have
 been recommended, and I would wish to be
 consistent. I found the St. Albert ones were of
 such a nature that it would not be expedient
 in the public interests to ignore them.

Please attach this to the former report
 and if approved it will be necessary to take
 the proper steps to set apart another $\frac{1}{2}$ Sec
 for school purposes in lieu of this.

I have the honor to be

Sir

Your obedient servant

Wm. L. L.

Respectfully

J. Walsh Esq.
 Com^r of Dom. Lands
 Winnipeg }
 Enclosed

Revised Oct. 3rd 1884.

125

I have attached this to the former report
in the fact that it is intended to ignore them.
There is a feeling that it would not be expected
to present. I found the St. Albans was one of
the most important, since I would not be
too strong in the vicinity of St. Albans
recommending; but because certain claims
I think they were heavily backed in the form
that about half mine. This is clear, but because
to discuss some recommendations, and grant
them over the same to state that I would wish
claim to the portion of Dec. 11. as set against
which the recommendation was that there
be the N.E. 1/4 + N.W. 1/4 12. June 1870. and Range in
SE 1/4 11-28-29 of 4^E and the other
on the claim of J. H. Thayer to the N.E. 1/4 and
St. Albans on the 8^E of Aug. last. being report
a further reference to some written at

I have the honor to be

Don't believe me

Calgary October 3rd 1884

Sir

I have the honor to direct through you the attention of the Minister to the advisability of having the boundary between the Calgary and Edmonton Districts defined as the 10th Correction line, that between Tp^s 38 and 39., at present it is between Tp^s 42 and 43.

If this is approved it would be advisable to have it so changed without delay and the public notified of the fact. The Edmonton Agent has not yet received his townships registers; but he should know exactly what are the Bays of his district, so that he can arrange them with some system.

The line suggested is a little nearer Edmonton than Calgary ^{by the line}. The former is in Tp 53 the latter in 24. Theoretically it is as near mid-way as it can be and adopt a Township line.

As you are aware these districts were blocked out hastily; but from the knowledge I have gained of the country this summer the above is the only change which suggests itself.

All between Tp^s 39 & 42 inclusive can be reached from Edmonton generally more conveniently than from Calgary.

I have the honor to be

Sir

Your obedient servant

J. H. Ross

Sept

H. Walsh Esq
Com^{rs} Bone Lands

Man

Calgary October 3rd 1884

Dear Sir

I have the honor to direct through
the attention of the Minister to the
possibility of having the boundary between
the Calgary and Edmonton Districts
defined as the 10th meridian line. That
between 38 and 39, at present it is
between 42 and 43.

If this is approved it would be desirable
to have it as cheap as without delay and
the public interest of the fact. The Government
agent has not yet received his township
registers; but he should know exactly what
the 10th of his district, so that he can
compare them with some register.

The line suggested is a little over
Edmonton from Calgary; the former is in
the 50th the latter in 24. Therefore it is a
very small way as it can be and except a
township line.

As you are aware these districts were
laid out for the purpose of the knowledge
I have given of the country this summer
the above is the only change which suggests
itself.

All between 39 & 42 inclusive.
can be reached from Edmonton through
Edmonton, then from Calgary.
I have the honor to be

Sir

I send addressed to you per parcel
post, two specimens. Marked No. 1. & No. 2
3/10/84 3/10/84

The former is from High River, as nearly as I can
ascertain about due south of there. No. 2 is in
Tp 24. R. 10 W of 5th a short distance South East
of Canmore. They are said to be one and the
same mine.

Would you please have them assayed
also, tested for cooking. It is said No. 1 will
cook splendidly. Also if there is any gas in
either or both. If you wish further of the same
they can be obtained. It is reported the deposits
are immense in both places. They would not
appear to be the same coal but it is stated
they are. Might it not be well to get apart another
lot district including this should the assay prove
good?

Sir

Your obedient servant.

W² 5-2-20 11— Calgary Oct. 6th 4

My dear Sir.

Yours of 1st re. Eugene Nicol's claim
to the W² 15-20-20 W 1st P. M. is received.

If you will look in your scrap book
you will see a copy of a notice over I think
the signature of J. S. Dennis dated at or
about 1st May 1880. forbidding squattling on
odd Dec² prior to survey. These were scattered
liberally through the Little Belt District at that
date. If you will turn up the files of the Free
Press at that date you will see some scattering
articles thereon. This gave rise to an indignation
meeting in May 1880 at La Riviere in which one
J. P. Alexander threatened to tear down the Union
jack & twist the stars & stripes if the pioneer's
rights to purchase were not granted. This notice
was followed by the announcement of the 7th May
1880 granting the for² the right to secure anything
& so far as the odd Dec² are ~~not~~ concerned they
have not yet been put in the hands of the Agent
for disposal. Messrs Parrott having stated from
England ~~some~~ preparations to do so before 1st May 80
this ~~disturbance~~ being little ~~more~~ was permitted to
acquire the E² of the Dec. They applied for the whole
of it some in the country long before Nicol & the latter
most

Calgary Oct. 6th

My dear Sir,

Yours of 15th is before me. I have
 to the W. 12-27-28 15th 1880. I have
 If you will look in your scrap book
 you will see a copy of a letter over I think
 the signature of J. S. Brown dated at
 about 15th May 1880. Forfeiting rights in
 that case I have to say. There were several
 letters through the hands of the District at the
 date. If you will turn up the files of the
 case at that date you will see some interesting
 notes there. This case was an interesting
 matter in May 1880 at the time in which our
 J. S. Brown threatened to sue down the
 fact. That the case belongs to the former
 rights to purchase was not granted. This letter
 was forwarded by the Government of the
 1880 granting the right to some
 & as far as the old case and Government
 have not been put in the hands of the
 for disposal. These points being the
 before the Government to the 15th May 80
 this case being the case
 again the 15th of the. They appear for the
 of the case in the country they have been
 much

probably Henry Parrott had an application for it at the time he settled. Nicol called me aside when I visited his place & told me that if I would remove his claim in preference to Parrott he would make me a handsome present. This land was being held at the time Nicol settled Harmon as a grant to the Man & S. W. Ry & the public generally so understood it. If you look up the "D in C" referring to such land grants you will see the exact date. If Nicol's claim is allowed none could be refused.

If however these land grants are to be made free I think it would be wise to direct the Minister's attention to the advisability of leaving him to say at what price these lands are to be sold to claimants who have either ~~not~~ made bona fide improvements thereon. By this means such men as Nicol could have their lands sold them at say \$2.50 per acre. The proceeds to go to the Ry Corporation & also that Corporation to have the whole handling of the lands.

Very truly yours

Wm. Lawrence

J. Walsh Esq.
Com^{rs} - Don. Lands
Winnipeg

525

500

October 7th 4.

Sir

I have the honor to request your opinion on the following point, which has already occurred.

B. stakes out a claim, in conformity with ^{the regulations} but allows the 90 days to expire before he records the same. He is then unable to record it; but to enable him to do so goes and restakes it. Changing the date on the post, he may also change the shape of his location. Is it the intention of the regulations to permit that or can he do so and yet keep himself strictly within the regulations, technically at least? I can see nothing to prevent him doing so. If I am right this might in some cases be used to gain time. If he can restake once he can also twice or more, gaining 3 months at each time.

If however having once staked it out and C. comes to the agent at the expiration of 90 and claims that B. has not filed his claim, and makes his application for the same, making it a special case. I think the agent should accept his application, notify B. by posting notice in P.O. also Land Office and mail one to B's probable address, asking him to show cause within

F. M. Burgess Esq.

Sp. Minister of Interior

Hawaii

Hon.

200

October 7th

Dear Sir

I have the honor to request your opinion on the following point, which has already occurred.

B. states out a claim, in conformity with the 90 days to inform before he receives the same. He is then unable to recover it; but to enable him to do so you must rectify it.

Changing the date on the book, he may also change the shape of his instruction. As it is the intention of the regulations to permit that a man be so and yet keep himself strictly within the regulations, technically at least, I can see nothing to prevent him doing so. If I am right this might in some cases be used to gain time. If he can rectify over the same also twice or more, gaining 3 months at each time.

If however having once obtained it out once C. comes to the agent at the expiration of 90 days and states that B. has not filed his claim, and makes his application for the same, seeking it a special case. I think the agent should accept his application. But if B. by posting notice 90 days from office and being out to 180 months obtains, getting him to show some within

W. H. Rogers Esq.
 U.S. Minister of Justice
 Office
 Dept.

525

any 30 days when entry should not be given to
C. If at expiration of that time B. wishes an extension
of the entry, if he does not the papers to
be forwarded Minister, or Consul General, or Superintending
and an extension furnished a decision to be given as to
whether entry is to be granted.
If that is refused this might be understood
in the favorable manner regulations, or if not
a matter this effect to be issued once liberally
distributed. There such a letter would forward what
at present exists as an order which every
particular case.
To say as we are wanted a location this letter
up, there might be an objection to relating as an
to some within the regulations, or his application
might be made a special one subject to the approval
of the Minister, when more than 30 days have
elapsed. This saving him the expense of going out and
relating it.

The submission of your views thereon is
respectfully requested.
I have the honor to be

Sir,
Yours obedient servant.

say 30 days why entry should not be given to C. If at expiration of that time B makes no defence grant C the entry, if he does all the papers to be forwarded Minister, or Land Board, or Superintendent and on evidence furnished a decision to be given as to whose entry is to be granted.

If that is approved this might be embodied in the probable amended regulations, or if not a notice to this effect to be issued and liberally distributed. Some such action would prevent what at present strikes me as an abuse which may probably arise.

So long as no one wanted a location thus taken up, there might be no objections to re-staking, so as to come within the regulations, or his application might be made a special one, subject to the approval of the Minister, within more than the 90 days had expired. thus saving him the expense of going out and re-staking it.

An expression of your views thereon is respectfully requested.

I have the honor to be

Sir

Your obedient servant.

 Calgary Oct. 11th 1884

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report in the case in dispute between John A. Walker who claims the S/2 12-24-1W of 5th and Thomas Nathaniel Willing who claims the SE 1/4 of the same Sec. also one George Kenly who claims the SW 1/4 of the same Sec.

In addition to the papers enclosed there should be in your office a file referring to this same question to which this should be attached.

It might be well to particularly direct your attention to the affidavit of Duncan Robertson attached to file, also the declaration of Kenly on the same point. I read over Robertson's declaration to Willing on the 7th inst. and told him I would hold the file for three days to enable him to file any evidence of himself or others in rebuttal of this which he might wish. So far he has not done so, nor will he likely do so were more time granted.

Neither Willing nor Kenly have resided upon their places in conformity with the H. requirements and had they obtained entry thereto at date they first took it up would no doubt long ere this have been cancelled. Nor is it probable either will make farmers. Had that been their object in taking up land, they would not have selected this place. The amount of improvement in this land is a fair criterion of what would be expected in this section. As to Walker he also claims from April 1882, but at that date he was not in the

de

I have the honor to enclose for consideration and
 decision of the Board of Civil Service the report in the
 case in dispute between John A. Walker who claims
 the 27th - 24th - 11th of 3rd and Thomas Robinson who
 claims the 27th of the same year, also one group
 who claims the 27th of the same year.
 In addition to the papers enclosed there should
 be in your office a file referring to this same question
 to which this should be attached.

It might be well to have early that
 your attention to the effect and of Thomas Robinson
 to file, also the declaration of Henry on the same point.
 I have now Robinson's declaration to Henry on the 7th
 and have told him I would hold the file for three days
 to enable him to file any evidence of himself or
 others in support of his case he might wish. Before
 he has out there so, and will be likely to secure
 some more grounds.

Further William has Henry have received
 upon their papers in conformity with the H. regulations
 and have they obtained entry there as date they first
 took it up would no doubt keep the this have been
 cancelled. But in it probable other will make
 former. How that has their right in taking up
 last, they would not have selected this place.
 as to Walker he also claims from
 April 1885, but at that date he was not in
 the

H. Walker dep.
 Case in Walker's favor
 Wm. Walker

1882

Country. And it was not till Sep^r he became a squatter thereon, what was done on this was by his Cousin Major James Walker, whose claim for the N^W 1/4 of this Sec. has been most favourably recommended. He cannot claim that in Sep^r 82, he did not know of the mile belt or other reservations. It is no doubt true that he has resided upon it; but his occupation has been wholly either as partner or in the employ of Major James Walker, in connection with lumbering and contracting. The Major's sawmill & other buildings in connection therewith are on the N^W 1/4 portion of the S^W 1/4 of this Sec.

After reviewing all the evidence would recommend that the N^W 25^{ths} of this 1/4 Sec be sold Walker at a fair price say \$10⁰⁰ per acre, and the S^W 15^{ths} of the same (the remainder) be sold Willing at the same price, both Walker and Willing to have the privilege of removing any buildings or fencing from the portion sold the other.

As to the S^W 1/4 of the Sec enclosed with this find a projected subdivision of the said 1/4 Sec. F & E could be sold Kenly at say \$10⁰⁰ per ac. and Q to Walker at the same price. That would treat both liberally. This projection could be carried out without incurring any expense to the Dep^t for surveying. C. D. E & M. the purchasers being required to furnish the necessary descriptions. By laying out as far as possible the even sect in the vicinity of Calgary into say 5 or 10^{ac} lots and selling them solely on condition of erecting residences thereon and improving to the value at least of \$100 for each acre obtained and limiting area to one person to 20 acres. an opportunity would be offered to make this place one of the most desirable points for residences in the North West. Balance has been prop.

529

here gifts to this place and it would be a ^{stake} not to ^{take} such steps as could reasonably be done to make this a beautiful and desirable place of residences.

Some of these lots might be sold at low prices on condition of being planted out in trees. should grow them for at least five years before issue. Many places could be cheaply irrigated that there should be no difficulty in having this.

These observations do not apply exclusively to this 74 Sec. but to several in this vicinity.

All of which is most respectfully submitted.

I have the honor to be

My dear Sir

On the 16th July I sent a report to you on the matter in dispute concerning the boundaries of the Mission Lot & the one claimed by David McPherson at Edmonton. This report contained about twelve pages. I wished to obtain your views as to what was advisable to do in the case. As you I have received no reply, and would like one before the lots in question are finally disposed of.

I have hoped to start back to Calgary on Friday (tomorrow) but I have been busy going through British claims & M.A. claims in areas also the French half breed claims at St. Laurent and also claims reported on by me at 13 fms Edmonton & I must hope by Saturday night to have all but the British claims & those under the M.A. in Manitoba in such a shape that they can be forwarded you in a few days, and that prompt action may be taken & the respective agents instructed accordingly.

I shall go West on Monday. Your confidential letter re Mining Matters in B.C. received.

I remain, dear Sir,

Yours

My dear Mr Burgess.

J. A. Macdonnell, of
Moore and Macdonnell, has
written me urging that some
decision be come to regarding
their Mill site property on
Sec. 24. 48. 26 W. of 2nd Mb.; and
on looking up the case I
find all the papers were
forwarded to Head Office,
on the 25th June last with B. 3321
of this office -

I know it would be
a great object to them to
have this matter finally
disposed of.

Yours truly,

J. A. Macdonnell

Handwritten signature: *John D. Smith*

James M. Smith

The image shows a page from a manuscript, likely a historical document. It features a grid of dots, possibly representing a table or a list. The dots are arranged in approximately 10 rows and 10 columns. To the right of the grid, there is handwritten text in a cursive script, which appears to be a historical form of English or French. The text is written in several lines, some of which are written vertically along the right side of the grid. The page is aged and shows signs of wear, including discoloration and small stains.

Remarks

Recommendations

25897

Thomson has been visited on it, and it because it is large that that if it is not granted as a 1st class but is within the purchase will make good with him in other business with Thomson & Davis as Dec 22.

25898

Thomson & Davis have written it in answer of inquiry from Thomson to get along as well as possible.

25899

Will likely not pass a 1st class letter, but is buying his interest to own it to be a school election.

25900

He and Thomson (25899) are in partnership in that raising a good letter.

25901

Recommend to be permitted to Thomson & Davis

536

Edmonton District

Recommendation of
Mr. Sup^t Pierce

Decision of
The Land Board.

He be permitted to H^d the N^E⁴ Pre-empt.
the N^W⁴ at \$8⁰⁰ per acre, and purchase the
S^E⁴ at \$2⁰⁰ per acre

He be permitted to H^d the N^E⁴ 23- Pre-empt the S^E⁴
26. & purchase the N^W⁴ 23- Price of Pre-emption
& purchase to be \$8⁰⁰ per acre

He be permitted to H^d the S^E⁴ 12- Pre-empt the N^E⁴
at \$8⁰⁰ per acre & purchase the Sec. N^E⁴ 8 at \$2⁰⁰
per acre (The Sec. 1st contains about 240 acres)

The Col. Co asked to sell him the S^W⁴ 27 at \$2⁰⁰
per acre (This claim is in the limit of the Edmonton
& Saskⁿ Co's lands.)

He be allowed his choice for H^d the N^W⁴ 25 & 1st the Sec.
at \$2⁰⁰ at \$8⁰⁰ per acre or grant him what he wants but
the price of 1st & purchase to be \$2⁰⁰ per acre -

He has already obtained title to N^W⁴ 22. would
recommend that he treat with the Col. Co for his Pre-emption

Edmonton District

Recommendation of
Mr. Sup^t Pearce

Decision of
The Land Board

Recommendation: he be required to complete his 3 yrs.
+ pay \$2.00 per acre for his occupation

Grant 1/4 for one 1/4 Sec. 1st another 1/4 Sec. at \$1.00
per acre. + sell bal^{ce} of Sec. at \$1.00 per acre Cash
(Claim to lose if he fails to comply within 90 days)

Sec 14th of 56th + 1st of 48th at \$1.00 per acre

Permit him to 1/4 1st + 1/4 2nd as he desires -
1st to be \$1.00 an acre 2nd to be \$2.00 per acre.

Recommend his request be granted.

see Report re - Inspecting Agt.

Recommend that they be permitted
to make entry therefor.

In the Indian Reserve (see Report thereon)
Recommend app^{ly} be made to the Sup^t Gen^l of
Indian Affairs - re doing away with the
Indian Reserve.

Since finding that foregoing report I understood
the Indian Reserve has been surveyed & will need
does not come within it, hence no reason why we
cannot obtain entry.

Edmonton District

Recommendation of
Mr Supt. Fraser

Decision of
The Land Board

Pat^l to issue for the W² at \$1⁰⁰ per acre each
or free Pat^l issue when Surp^{er} is sent to \$600⁰⁰

Edmonton Agt. to be instructed to notify him to
Week. his entry in 90 days -

To H² & P² the 1/2 Sec. 1st to be \$2⁰⁰ per acre
or the 1/2 Sec. to be sold him at that rate

To be allowed to H² the 1/4 Sec. { Pat^l sent to him
till Surp^{er} is
or worth \$500⁰⁰

Request to be granted

Pat^l to be \$2⁰⁰ per acre

Recom^d his request be granted Pat^l to be \$2⁰⁰ per acre

Recom^d he be allowed to H² the 5/8th of 24th &

Purchase the 1/8th of 10th at \$2⁰⁰ per acre
1/4 Cash - but in 1, 2, 3 yrs - at 6%

Recom^d request be granted - Pat^l to be \$2⁰⁰ per acre

H² the portion applied for - the 5/8th to be sold
him at \$2⁰⁰ per acre 1/4 Cash but in 1, 2, 3 yrs at 6%

Recom^d that Sec. 5th 1/8th be granted to

H² Cash in connection with lot 22 St. Albert

This 1/4 Sec. might be granted (assuming Sec. 5th free
or at most \$10⁰⁰ per acre - except that part cont^g
14th 7th 4th - being a piece - 8 ch. 85 links. Cont^g about
1000000 16 links. North & South from out of the east
side of this 1/4 Sec. taking the Sturgeon River as a
center - this excepted part to remain to the Will^l
The farms on which homocopy Sec. are to get
this 1/4 Sec. (less 1st excepted) is located in
connection with lot 22 3rd St. Albert

Recom^d he be permitted to H² all 7/8th of 11

outside the River Lots St. Albert & the except
the 5/8th of same Sec. Pat^l to be \$2⁰⁰ per acre

Recom^d 2: Let the W² of 15 be sold him for \$300⁰⁰
each - \$2⁰⁰ per acre. Also H² & P² per. or that Pat^l be
issue for 1/4 of this W² he may choose on
pay^g of \$10 he be receiving all claim to
the other 1/4 Sec. to have 60 days to decide -

----- Edmonton District -----

Recommendation of
Mr. Sup^t Preece

Decision of
The Lower Board

Nothing prevent this is H² & P² the H² 32.

(It is a school Sec. he is not entitled to buy)

Would you? that he be sold him at \$2⁰⁰ each.

Recommend it be at \$2⁰⁰ per acre.

He be allowed to till May 1/95 to pay for it.

He be granted at least. P² to be \$1⁰⁰ per acre.

Recommend it be granted her.

Recommend it be taken at present.
It is returned in copy office.

all his improvements. S. H² Sec. 1 & S. E. 2 Sec. 2

Recommend he be allowed to H² & P² these 1/2 Sec 2

Recommend he be permitted to H² the S. E. 2 1/2 & P² the

S. H² 15-53-25 H² 14th

Recommend his appⁿ be granted to H² & at once apply
for Patⁿ & to waive all claims to any p^t of Sec. 16.

There is a quarry of stone in this claim -
see report as to opinion expressed by Mr. P.

Recommend that on pay^t of \$20⁰⁰ H² pay Patⁿ value for

Riv. Lot 22 & that Sec. 5-50-12 the S. E. 2 30 & the

S. E. 2 31 (in all 365 ac) be sold to them at \$1⁰⁰ per ac.

*The following are the names of
the persons who have been
admitted to membership since
the last meeting -*

[illegible]

५३

卷之四

52002

The first of these is the *Constitution* of the
 State. It is a document of great importance
 and interest, and one which every citizen
 should read and understand. It is the
 foundation of our government, and the
 source of all our rights and liberties.

Handwritten signature: *Wm. H. Miller*

Claims to Lands — Edmonton District —

C.O. File No Section Sp. Ry. M. Name of Claimant

Nature of the Claim -

| | | | | | | |
|-------|--|----|----|----------------------------------|---|--|
| 25865 | 4 th 5 th 11 th }
D ^{ist} S. W. 24
Am. 16 th 2 nd 14 | 55 | 24 | W ^{est} 4 th | John H. Matheson | { Can ² to reside in '77. Sp. post. 4 years have more left it for me a west of a line
47 acres. Carp. Buildings worth \$225 ⁰⁰ - Fencing \$250 ⁰⁰ - Want to build a new house - |
| 25866 | W ^{est} 1 st 19 | 55 | 23 | " | Chas. De Lagorgnerie | { Resided continuously from Spring '80 to June '84. - 48 ⁰⁰ under tarp - The survey cut off
4 ⁰⁰ of heating - Buildings worth \$150 ⁰⁰ - Fencing \$50 ⁰⁰ - was in W. Peter fence - |
| 25867 | W ^{est} 1 st 12 | 55 | 24 | " | William Henry Carson | { Settled on the 1 st W ^{est} 4 th in '83. one year later cleared the land & Sec. bought his rights for \$5 ⁰⁰
House nearly finished. Value \$30 ⁰⁰ 7 ¹ / ₂ ⁰⁰ broken out S.W. 2 nd 12 & 2 ¹ / ₂ ⁰⁰ - and 1 st 12 th for \$48 ⁰⁰
The reason I built on an old Sec. was that there was no available cow in Sec. or in 7 friends. |
| 25868 | W ^{est} 1 st 3 | 55 | 24 | " | J. A. Carson | { Lives with his father on Sec 24 54-24. Works on his claim every year in June '82 - may
about 3 mos. 30 acres broken out S.W. 2 nd 12 - House (log) value \$60 ⁰⁰ - Fencing \$60 ⁰⁰ |
| 25870 | W ^{est} 1 st 13 | 55 | 24 | " | John Matheson | { Bought D.B. Wilson's Surveys for \$300 ⁰⁰ on the 2 nd W ^{est} 4 th Sec. 22. Wilson lived on it for 2 years
he bought from Matheson - Matheson then sold his 10 in the 10 but intends to build & live on it
27 ⁰⁰ broken out S.W. 2 nd 12 of 14 - & 6 ⁰⁰ in S.W. 2 nd 13. He has begun to build value \$100 ⁰⁰ - Fencing \$60 ⁰⁰ |
| 25869 | W ^{est} 1 st 10 | 55 | 24 | " | D. B. Wilson &
John Henry Wilson (his son) | { Can ² to make improvements (began survey) on W ^{est} 1 st 10 in Sept. '82 & have lived continuously
there since Aug. '83. have 37 ⁰⁰ of building - buildings \$500 ⁰⁰ & Fencing \$160 ⁰⁰ - In April '83
began improvements on W ^{est} 1 st 10 (intending and 2 nd Sec. for my son John Henry) - have 19 ⁰⁰ of building
at John's place worth \$100 ⁰⁰ & Fencing \$60 ⁰⁰ |

Recommendation of Mr. Sargeant & Nurse

Decision of the Land Board

25865. { Recommended to be allowed to do as he suggests - He is to be paid for the purchase of the land granted
Patent on pay of \$100 per annum & entry fees - his residence has been very close
25866. { Recommended solely to be granted for \$1000 but Patent not to issue till he has 4000 acres
Crops, or made improvements to the value of \$6000 - his present improvement are valued at \$1000
25867. { Recommended to be purchased by the State at \$2.50 per acre but not till 1870 at \$6.75 per acre - the State
or purchase it on some basis as the other 1/2 Sec.
25868. So a good deal - Com. Sargeant & Nurse survey Recommended his request to be granted
25870. { So a fairly good settler - has never lived in it - his purchase is upon 1/2 Sec. to Surveyor '82
He commenced his request to be granted
25869. { The son is now 19 years of age - good settler - Recommended R.B. Wilson to be granted 1/2
Section to the W. 1/2 of the W. 1/2 of Sec. 10. The son - the C. 1/2 of the W. 1/2 of Sec. 10 - and Section
the W. 1/2 15 at \$2.00 per acre - then 1/2 Sec. but in 1873 years with 1/2 at \$6.75 per acre

Claims to Lands — Edmonton District —

| C.O. File No. | Section | Sp. | Rg. | M. | Name of Claimant | Nature of the Claim |
|---------------|--------------------|----------|----------|--------|------------------|---|
| 25871 | E 2 | 55 | 23 | W 2 | Morse Samuereau. | Claimant & his mother bought Bougeon's claim out in '78 for \$50 ⁰⁰ which with right was the E 2 - but on survey the fence and fence to be on the W 2 - hence lived continuously on the W 2 from Oct '80 till now. & at breaching on of E 2 House on W 2 with 200 ⁰⁰ Wall on W 2 \$50 ⁰⁰ Fencing \$100 ⁰⁰ Claimant & his mother have equal shares - |
| 25872 | W 1 E 2
P 1 N 4 | 55
55 | 24
23 | "
" | William Taylor. | Look up claim in '81 (before survey) now lived on it - & 8 ⁰⁰ breaching log fence house \$100 ⁰⁰ Fencing \$50 ⁰⁰ |
| 25873 | W 1 N 2
P 3 N 2 | 55 | 24 | " | George Mutton | Bought Mutton's claim to E 1 W 2 & S 4 W 2 N 5-24 - in July '83 for \$700 ⁰⁰ Maloney bought from one Adams - Mutton's story from Maloney that Adams had been in possession long enough to settle me to P ¹ at \$10 ⁰⁰ an acre. between 30 & 35 ac - under crop - 600 ⁰⁰ fenced Mutton's with \$200 ⁰⁰ Taken up before survey - |
| 25874 | W 1 E 2
P 3 N 2 | 55
55 | 24
23 | "
" | George Taylor. | One Adams in Nov ^r '81 stops boards, picked off & on till June '84 since which time Adams and left it - 19 ⁰⁰ breaching - Mutton's with \$50 ⁰⁰ Fencing \$90 ⁰⁰ Took up land prior to survey - |
| 25875 | N 1 W 2 | 55 | 24 | " | William Maloney | Maloney bought his claim from one Henry Henderson for a time valued at \$50 ⁰⁰ The Claim was first taken up by one Adams some time in '79 - I think he bought to get the land as a free gift owing to long residence of former occupants - |

539

539 Recommendation of Mr. Supt. Vance

Decision of the Land Board -

C.O. File No.

- 25871 { Lamoreaux has been living with his mother on E² of W² - which she claims as a W². Recommended one 1/4 Sec. to be sold him at \$2⁰⁰ per acre. The other 3/4 Sec. of 1/4 to be sold him at \$2⁰⁰ per acre. He can't but 2nd 1/2. 3 years at 6%. Applicant to have 90 days to conform with this order otherwise all claims to be lost. He and his mother's claims are very old claims; but they are trying to make 2nd of it.
- 25872 { Recommended to be permitted to W² the E² of E² 12. & purchase the E² of W² 7. at \$2⁰⁰ per acre. Same per acre. But 2nd 1/2. 3 years at 6% per annum. If he fails to comply within 90 days, his right to lapse.
- 25873. Is a good farmer. Recomm^d his request be granted except that his 1st 1/4 is to be \$2⁰⁰ an acre.
- 25874. { Has not lived on it as much as he should, but recommended his request be granted. The price of his the exception to be \$2⁰⁰ per acre.
- 25875- { Think Mulvey would be literally broke if the 1/4 Sec. was sold to him at \$1⁰⁰ per acre. Cash. & recommend accordingly.

Abstract from W. H. King's Report 1878 - Transfers on File - nature, date & amount -

26412 By Claimant since 1868. ^{Page 1878-1879}
 26411 Nothing to show any previous except that of the Claimant.
 26410 By Claimant continuously since 1872.
 26409 " " " 1874 Agrees with his brother
 26408 " " " as yet.
 26407 By himself for 20 years - also by his brother & brother.
 26406 By L'Ministelle 2 years prior to 1876 & by present Claimant since that date.
 26405 By Claimant since 1878.

Division of Land Wards

N^o Area C.O. Title of Lot 541 Remains: No and Recommendation of Mr. Jap & Jones

- 26412 { B. 1000. { Some James - recommended that Patent issue for both Lots on payment of \$400 being at the rate of \$40 per acre for combined area of the two Lots - Also \$2000 amount of H² & P² L² is -
- 26411 506.00 { Some James - He claims title under Wm. Dot, but then is unwilling to claim that Dotson ever resided on corner has improvements on this Lot prior to transfer. Lot 2 is claimed under Wm. Dot though on Corner probably the same individual - Recommends to be permitted to H² 160 acres & P² the balance at \$800 per acre - Also claims the Southern 15 claims of the State. of B. 1434, 53, 26 7/4th - The area of this Lot is 163 acres the portion of it See applied for equals 60 acres - together 228 acres - on the latter he has 50 or 60 acres of building worth say \$300, \$200 worth of fencing - Claimant is a good farmer - The amount Patent issue to him on payment of \$88 - Cost - being \$800 per acre for balance of area (68 acres) & \$2000 amount of H² & P² for - For farm being a 1st Class farmer - Recommends he be permitted to own interest it -
- 26410 149 ac. { Recommends to be permitted to H² & P² this, but informs him that Patent will not issue till he has received thereon at least 3 years & has improvements to the value of \$500 - He is not likely to purchase a 1st Class farmer - Purchased by Claimant's father seventy 10 years ago. All the family appear to have resided on it the greater of the time since, his father gave the Lot to his Bro some years ago - about 3 or 4 years ago the Bro. died leaving a widow & 2 children. She left the claim & went to 2nd of Feb. - The father took possession of the claim & gave it to another Bro. who gave it to present Claimant about 8 years ago. The widow of 1st Bro. demands a \$200 for her right, but as the others have had to pay some of her 1st Class land's debt to the amount of \$160, & further she having married again the present Claimant therefore thinks she has no claim thereon - Recommends that her request be granted, her \$160 to be \$100 per acre but required to put in 2 yrs further residence & make improvements of the value of \$1000 before Patent issue -
- 26406 203 ac. { Recommends to be permitted to one to H² & P² & 1/2 entries, the price of the latter to be \$800 per acre - The Claimant took Treaty for one or two years, but as some as he ascertained that he ceased by so doing being a citizen, he refunded the money - It is, then his improvement to one not to live in, but considering his first experience & that - might possibly be respect of him - they are passively - As this Lot contains only 5 acres more than 160 acres Recommends to be permitted to H² & P² it - It may be there are some other steps necessary to be taken by him having one taken Treaty to enable him to full Citizenship -
- 26405 165 ac. {

Division of Lands Bona -

541

Remarks and Recommendation of Mr. Supt. Hance -

Area of Lot

C. O. File

- 26404 135⁰⁰ Recommend Patent issue to him as soon as he has improvements on his Lot. to the value of \$600⁰⁰
- 26408 290⁰⁰ Recommend to be permitted to set 160⁰⁰ & pre-empt balance of Lot at \$10⁰⁰ per acre -
- 26413 191⁰⁰ Nothing to show that former Claimant ever resided on this Lot. Recommend to be a very poor title. Recommend he be allowed to Homestead 160⁰⁰ & 31⁰⁰ balance at \$10⁰⁰ per acre - but required to make improvements to the value of \$600⁰⁰ before Patent issue to him! -
- 26414 202⁰⁰ The Lot as surveyed contains 138 acs. If boundaries had as recommended would contain in all about 298⁰⁰ - has a water right. to the water course to D. Watson for 220⁰⁰ Recommend if Lot be extended he be permitted to set 160⁰⁰ Pre-empt balance at \$10⁰⁰ per acre. Claimant has also erected a Shanty worth \$20⁰⁰ on lot. \$250⁰⁰ & timber cut 2000 poles.
- 26415 106⁰⁰ This according to Plan of Settlement is reserved for wood. Claimant appears to be a fair Settler. Let his claim to set 55⁰⁰ it may be ignored, though if Lot is not suitable for timber it might be sold at any 2⁰⁰ price - to Claimant.
- 26416 280⁰⁰ Has never lived nor made improve^{to} No other claimant to it. Recommend to be permitted to make Shanty there for
- 26417 228⁰⁰ Recommend to be permitted to Homestead 160⁰⁰ acs & Pre-empt balance at \$10⁰⁰ per acre -
- 26418 132⁰⁰ Fair Settler - Recommend he be permitted to Homestead 160⁰⁰ acs & pre-empt balance at \$10⁰⁰ per acre -
- 26419 132⁰⁰ Fair Settler Recommend he be permitted to Homestead it, and Patent can issue as soon as he applies for it -

Remarks and Recommendation of Mr. Sear & Pearce

Area of
Lot

C.O. File

- 26383 35¹/₄ = ¹/₂ acre appears to be a fair farmer. Recommended 160 ac. per man. Man. Act. Lot at \$10⁰⁰ per acre (N.B. the claim is 160 ac. under Man. Act. - 160 ac. or more is to be - see Report)
- 26382 - 38⁵/₈ ac. { A large portion of this Lot is in high water covered by the waters of Big Lake - advised all the land is to be small & 2 C. Dea in favor of the widow - Recommended 160 ac. per - balance at \$10⁰⁰ per acre -
- 26381 33 ac. { Claim is also the North 25 chains of the lot at E 2 3/4 - S 3 2 1/2 W 1/4 on which there are about 2 1/2 ac. of bushing - the portion contains about 70 ac. of being definite can be done with it till further survey one or more to ascertain the exact area but when they are Recommended it is to be 160 ac. per acre - Lot at \$10⁰⁰ per acre - balance to issue to him under Man. Act. - Recommended 160⁰⁰ per man. Man. Act. - balance of Lot at \$10⁰⁰ per acre - I to pay the cash value of improvement made by Joseph L. Minors & Co. for his benefit
- 26379 216 ac. { Claimant is not now living with the Lot - living all over - Offers his son this Lot but he would not accept it - Recommended 160 ac. per man. Man. Act. - rest of Lot at \$10⁰⁰ per acre -
- 26378 - { The area of this Lot at present is 63 ac. but if other land as recommended will make an addition all about 96 ac. - the improvements are very meagre - Recommended Patent issue under Man. Act. -
- 26374 - { The area of this Lot at present is 95 ac. but if other land as recommended will make in all about 168 ac. - Recommended 160 ac. per man. Man. Act. - balance at \$10⁰⁰ per acre -

Patent to issue & present Claimant |

542

Division of Land Board.

C.O. file Area of Lot Remarks and Recommendation of Mr. Sup. & Hearer

542

26393. Area of Lot 43 acres - if established as recommended will contain well about 75 acres.
 Recommended issue of Patent per Mr. Manitoba Act to present Claimant.

26392-77^{ac} Though Consequences are very irregular there is no doubt of the Mission being the proper Claimant. The improvements however are very small. This Lot is held by the Corporation in connection with Mission Lot No. 27 and joining. Recommended issue of Patent to Claimant under "Manitoba Act."

26391 24^{ac} Recommended issue of Patent under "Manitoba Act."

C.O. File Area of Lot Remarks and Recommendation of Mr. Sup. & Justice

- 26390 38 ac. Recommended Patent to issue under "Manitoba Act" -
No sale in addition to this lot, that the West 1/2 of the fractional lot E 1/2 of 16-52-25-174th M. is granted
this in connection with this lot. The combined area of the two would be about 144 ac. As he appears to
have made large improvements, recommended his request be granted and Patent issue for both
portions under "Manitoba Act"
- 26389 95 ac. The present Claimant's maiden name was Olivia Bellows. She first married one Lawrence Colwell about
20 yrs ago, leaving one child, a son, who still survives and lay no claim to this lot. In 1868 she married
one Joseph Rowley, at which date, with her husband, resided some 10 years, & has been continued by her
up to the present time. Rowley died in 1870. Substant, leaving the present Claimant, his widow, and no infant
son who still lives with his mother. If under these circumstances the Patent can issue to the widow, and is
recommended it should. The title to this lot under the Manitoba Act, is perfectly clear -
- 26387 233 ac. This lot was originally two claims, one, the lower half owned by Ward, who sold to present Claimant
in 1868 & has privilege of living on it till he died, which he did in the autumn of 1870, so that it seems of a
title under Manitoba Act is clear. So far as for camp is concerned it is probably, I think, that he is an
Indian. The present claimant has not been much on this lot, being all the time in the employ of M32
when in their employ at St Albans lived on this lot, but the greater portion of the time he did not. Recommended
16000 for under Manitoba - balance at \$1.00 per acre -
- 26386 374 ac. Claimant is one of the good farmers in the neighborhood. He also claims 160 ac under Man. Act - 160 ac. American, balance
to purchase at \$1.00 per acre (See Report with this) Recommended 160 ac under Man. Act - balance at \$1.00 per acre -
- 26385 71 ac. Pierre LeRoux died Substant, leaving two sons & a widow. The widow has also died Substant. One of the sons, known
as the "Bad son" has never lived in the vicinity of St Albans, nor has he ever been considered as having any claim on this lot
the other who has always been considered the owner named Paul LeRoux has sold to present Claimant, who owns the adjoining lot.
See 10000 Sales. - Would recommend, if possible, that Patent issue to him under the Man. Act. - If it cannot, owing to the
claim of the "Bad son" that it be held for him till he acquires title for Lot on which he lived, Lot No. 119. which he can at
once, & then he be permitted to purchase the said lot. -
- 26384 264 ac. Recommended 160 ac free under Man. Act - balance at \$1.00 per acre -

Recommendation of Mr. Sup. & Justice, coming
their check, approve

J. MacL.

Edmonton District

Recommendation of Mr Sup^t Pearce

Decision of The Land Board

Recommend that Pat^t issue to McDonald, McLeod & McLeod for the Southely 45 chains of this Lot containing 103 1/2 acres on pay^t of \$10⁰⁰ fees That the remainder of the Lot (100 1/2 acres) be sold to Ross & Moore at whatever terms the Minister may direct - suggest \$2⁰⁰ per acre - (see Report as to Coal mining Lands &c.)

Recommend that Stiff be permitted to make H² entry for the southely 50 chains, containing 100 acres. That Bids' claim to Lot 23 be not allowed - & that he be permitted to make H² entry for the remainder of Lot 19. Contain^g 70 acres - That Patent. do not issue till each place improve^d on the Lot to the value of \$800⁰⁰ in addition to the requisite residence -

Recommendations of Mr Sup^t Pearce

Notes of the Land Board

Mr. Peters' report

2417

On the 13th inst. I was present at the meeting of the Board of Directors of the Land Office, and was informed that the same had been held on the 12th inst. at 10 o'clock, and that the following business had been transacted:—

24175

This file returned to Dept.

The following was the substance of the report made by the Surveyor-General, in relation to the land in the State of New York, which was presented to the Board on the 12th inst. and was read and approved by the Board.

24176

This file returned to Dept.

The following was the substance of the report made by the Surveyor-General, in relation to the land in the State of New York, which was presented to the Board on the 12th inst. and was read and approved by the Board.

24177

The following was the substance of the report made by the Surveyor-General, in relation to the land in the State of New York, which was presented to the Board on the 12th inst. and was read and approved by the Board.

24178

The following was the substance of the report made by the Surveyor-General, in relation to the land in the State of New York, which was presented to the Board on the 12th inst. and was read and approved by the Board.

24179

The following was the substance of the report made by the Surveyor-General, in relation to the land in the State of New York, which was presented to the Board on the 12th inst. and was read and approved by the Board.

in the year 1790

in the year 1790

The first of these is the fact that the
 population of the country was
 increasing rapidly at the time.
 This was due to a number of
 causes, including the discovery
 of gold in California and the
 opening of new trade routes.
 The second fact is that the
 government was unable to
 maintain order in the country.
 This was due to a number of
 causes, including the lack of
 a strong central government and
 the presence of many powerful
 local leaders.

Detroit, January 17th 1888

Mr. Nelson to Mr. [illegible]

[illegible]

29200. *Deschampsia* var. *Deschampsia* Desch. f. Desch. f.

[illegible]

There is a fine old building at the corner of the
St. Louis street, which I called to see. It is a
very old building, built in 1797. It was
the first building built in the city of St. Louis.
It was built by the first settlers of the city.
It was built by the first settlers of the city.
It was built by the first settlers of the city.

Remarks.

- 1318 2385 Buildings on all in Section 32.
 John bought this claim from Landrie in
 Spring 1888, who had lived on the land from
 1877 to that date: was about four claim from
 Sept. 1872 to March 1883, here months. As he
 that he may be allowed Homestead Patent,
 and Reimbursement at \$1⁰⁰ per acre.
- 1325 24386
- 1326 24387
- 1333 24388 Claims right of Ames had Entry, and
 Patent.

Journal

We started on the 20th of September
 in a small boat and sailed with great speed
 and landed at a small bay on the 21st. The
 land was very fertile and we found
 much fruit and vegetables. The people
 were very friendly and we were
 well received. We stayed for a few
 days and then sailed on to the next
 place. The weather was very good
 and we had a very pleasant trip.

22nd 21st

22nd 22nd

23rd 23rd

We found the water very good
 and the people very friendly.

| D.R. File No | Land Affectated Part | Acres | Value of Improvements | Date of Survey | Name of Surveyor | Original Owner |
|--------------|----------------------|-------|-----------------------|----------------|------------------|----------------|
| | | | | | | |
| 1335 | 21392 | 160 | 1000 | 1874 | Wm. Mitchell | Wm. Mitchell |
| 1313 | 21393 | 160 | 1000 | 1874 | Wm. Mitchell | Wm. Mitchell |

Remarks -

Michaello claims to this land was obtained
 from Robert, who has been in ~~computation~~ the
 his agent Hughes since 1898. But he has obtained
 no return as to obtain patent for Robert
 who owns adjacent lands & to prevent other
 persons entering, asks that his minerals entry
 be cancelled & that he be allowed to proceed.

'Beaupre' purchased from Smith a piece of
 land has already received N. Patent for a tract
 24.43.2 W. 2 & Sec: 21 200.00 acres of land
 of occupancy prior to 9/8/74. 'Beaupre' ex.
 N. & entry for 10.44.2 W. 2, adjacent to
 his claim & has large improvements. A
 good station.

Remarks

Monmouth first settled in this town, it is there
from 1898 to 1902, & sold to C. Allen, who sold to Camach,
Camach claimed it as a H. The St. was taken at by Co.
Hawes in 1916, who held on it one year & sold to Lucia
it appeared to me property of J. Allen, who sold to General
The new owner passed beyond the old record & no more.

Sept 20. 1892

The Duke of Orleans has arrived at 9 o'clock in the forenoon
 of the 2nd of June. He is in the city of Orleans.
 From the entrance of Orleans, he is expected to be
 his private residence at liberty to sell. Orleans is a very
 new building, but has very little in the way of a

[Faint handwritten notes]

[Faint handwritten notes, likely bleed-through from the reverse side.]

64

卷之四

1. The first part of the book is a
 description of the country and
 the people who live there.
 2. The second part is a
 description of the climate and
 the seasons.
 3. The third part is a
 description of the customs and
 manners of the people.
 4. The fourth part is a
 description of the government and
 the laws of the country.
 5. The fifth part is a
 description of the religion and
 the superstitions of the people.
 6. The sixth part is a
 description of the arts and
 sciences of the country.
 7. The seventh part is a
 description of the commerce and
 the trade of the country.
 8. The eighth part is a
 description of the military and
 the naval power of the country.
 9. The ninth part is a
 description of the history and
 the events of the country.
 10. The tenth part is a
 description of the present state
 of the country and the
 prospects of the future.

Remarked,

1265. 21357 { This lot was taken up as a Poor Lot when wid.
Henny made H. Henry for S.E. 20. 42. 11. 3rd, 1964
(See statement) as he was informed by her
that he could not hold this claim to present time?
Wants to abandon same? and obtain Entry to this lot.
1281. 21359 { Begun evidence in Sept. 1882. Henry was
made in August of that year.
- 1317 21360 { Deposited from land in 1882,
paying \$5000. Leverage, who sold Malabon,
lived in in house during winter 1882-3.
- 1321 21361 { Vandalized began evidence before Henry in July
1882
- 1322 21362. Claim put in Occupation prior to Henry.

Remarks.

My of the leading men of the place. Master Thomas Leland's
 Leland's right to W^o 48 on the ground that he has only 15 chains
 frontage; whereas Leland has 35. Leland has improvement to 48
 feet of W^o 48 as we said W^o 48, which was made prior to Thomas'
 Settlement. Weighers say that the middle of a Brook between
 theirs was the unimproved boundary line. If so, it is about 8-
 10 feet divided between: dependent to W^o to Leland's S^o to Thomas.

1311 21367

Protector in 1311. - Per Letter. - Claims all 48, and the
 Standing Leland had improvements before he settled
 line agreed upon between them divides Lot 48 in half.

1250. 21368

Journal

Started on the 1st of May. and after some delay, we
went to the coast in the morning. The wind was light
and the sea calm. We went to the beach and
found many shells and bones. The ground was
very soft and the water was very shallow.
We went to the beach and found many shells and bones.
The ground was very soft and the water was very shallow.
We went to the beach and found many shells and bones.

Remarks.

- 12584 21316. Good settler, with good number of cattle.
 The last settlement was this 't's 1/2 sec. The question is
 whether he will be allowed to homestead on one side, & live on the
 other side of the river. His buildings are on N.E. 1/4. His aged son
 asking for the on West side of river is to get wood which is very
 scarce on East side.
- 1257 21308 { Live with his father, & says he will have made some improve-
 ment to help for debt of obtaining Mechanic's privilege
1258. 21309 { Same remarks as in 1257 above.
1266. 21310. { Berger purchased in 1894 from J. Bennett who lived there some
 winter 1896-7. When Bennett (Wichita) lived on land as Co-
 op. tenant from June, 1897 to summer 1899. - Then sold
 Bennett lived during winter 1899, also as tenant of Berger.
 He has on land three acres. - School House erected on
 land in 1896. - Held to title of "charity" - Improvement
 all over the land.
- 1270 21311

This image shows a blank, aged, cream-colored page, possibly an endpaper or flyleaf from an old book. The paper has a textured appearance with numerous dark spots, stains, and foxing marks scattered across its surface, indicating significant water damage or mold over time. The page is framed by a dark border, and there is no text or other markings on it.

Answers to

1307 21. 238

That I was in 777 & always thinking that year but was kept off by an Indian chief who said it was his name.

1308 21. 239

That a claim on 21. 238 & 239 and then the same for 2 years afterwards is a 6th person in the 1st thing. But that he may claim 21. 238 for an

1309 21. 240 { That a claim to 21. 239 upon the basis for 6 years and

21. 240 { That a 1st 21. 239 is

That a person has been taken in spring of 1823, 24th

1310 21. 241

That is in 1823 and both the laws are broken.

1311 21. 242

1312 21. 243

Recommendations

St. Laurent:

Memo. D. — If the Indian Reserve Survey is to remain as at present laid out, one half mile will have to be taken off the rear of Lots 52 to 71 inclusive. All that will be necessary is, to have an Amended Plan prepared, making the rear of the aforesaid lots agree with the Eastern limit of Sections Four, Nine, and Sixteen, in Township 43. Range 1 west of 2nd. P. M.

Class. II.

File 21371. — If the portion which is claimed as prescription is vacant, would recommend that claimant be allowed entry for the same, so far as relates to Section 22, and that portion of 51 East of the Saskatchewan River, which will make about 120 acres: the Agent to be careful to describe this portion as the South^{20/2} of the legal subdivisions affected. Prescription to be one dollar per acre.

File 21372. — (See observations in reference to Indian Reserve. . . Recommend claimant receive 160 acres of combined area of the lots as a homestead; and the balance as prescription at one dollar per acre.

File 21373. — Recommended: 160 as homestead,

St. Lawrence

Memo. D. — If the section from Quarry is to
be examined as at present laid out, we shall find it
will have to be taken off the run of Lot 50 & 51
inclusive. All that will be necessary is, to take
an extended plan prepared, marking the run
of the proposed lot upon with the section,
first of Section Four, then, next section, in
succession to the Group I. Run of Lot 50 & 51.

Class. II.

and balance as presumption at one dollar per acre.

File 21374.— Recommend: That he be allowed homestead entry.— Application for Patent to be made as soon as he has complied with the law as to residence.

File, 21375.— Recommend: That he be allowed 160 acres as a homestead, and balance as Pre-emption at \$1⁰⁰ per acre.

File, 21376.— Recommend: That Applicant be allowed 160 acres as Homestead, and balance as Pre-emption at one dollar per acre, provided the Indian Reserve is maintained. But, should the lots be left as originally surveyed, let applicant, if he so desires, homestead either lot and preempt the other at \$2⁰⁰ per acre.

File 21377.— Allow him 160 acres as homestead, and balance as presumption at one dollar per acre.

File, 21378.— Allow him 160 acres as homestead and balance as presumption at one dollar per acre.

File 21379.— The privilege of Second homesteading was not granted to be used as he requests; nor are his improvements such a nature that he should receive exceptional treatment. His claim is an extensive one.— Recommend: That he be allowed to homestead whichever lot he please, and preempt another at \$1⁰⁰ an acre.— If he desires the third, that it be sold him at \$2⁰⁰ per acre.

File, 21380.— Recommend: That, owing to date of Settlement, his Pre-emption be at \$2⁰⁰ per acre.— Homestead 160 acres, and the balance, Pre-emption

2

and balance as per receipt at one dollar per acre.

Dec. 21374 - Recommend: That he be allowed \$1000
that entry - Application for Patent to be made as soon
as he has completed with the land as a condition.

Dec. 21375 - Recommend: That he be allowed \$1000
as a bonus land, and balance as per receipt at \$1.50
per acre.

Dec. 21376 - Recommend: That applicant be allowed
\$1000 as bonus land, and balance as per receipt at
one dollar per acre, provided the section shown is
satisfactory. But, should the lot be left as originally
surveyed, let applicant, if he so desires, purchase
within 60 days purchase the other at \$2.50 per acre.

Dec. 21377 - Recommend: That he be allowed \$1000
and balance as per receipt at one dollar per acre.

Dec. 21378 - Recommend: That he be allowed \$1000
and balance as per receipt at one dollar per acre.

Dec. 21379 - The principle of land investigation
was not presented to be used as he suggested; we are
his improvement should be a nature that he should re-
ceive exceptional treatment. His claim is in ex-
cessive use. - Recommend: That he be allowed to
purchase which let he please, and purchase
another at \$1.50 per acre. - If he desires the third,
that it be sold him at \$2.50 per acre.

Dec. 21380 - Recommend: That, owing to
date of settlement, his per cent
him be at \$2.50 per acre. - Recommend \$1000
and the balance as per receipt.

File 21381. — Should not come under Class II, as the claimant never resided on the land, but purchased from others. Ought to belong to class V. — Recommend: Sale of whole (or part, if he does not desire the whole) at one dollar per acre: but, the Agent should be careful to describe the lots as legal subdivisions, since in this case the claims are legal subdivisions 5, 6, 7, and 8, in section 31: legal subdivision 5, and that portion of legal subdivisions 6 and 7 lying West of the Saskatchewan River, in Section 32, Township 42, Range 1 West of the 3rd Principal Meridian.

File, 21382. — Recommend: That claimant be allowed to homestead 160 acre, and precept 160 at one dollar per acre. The balance, 29 acres, for sale at two dollars per acre.

File, 21383. — Recommend: That claimant be allowed to homestead one lot, and precept one lot. Also, to purchase ^{either of the two} other: two. — Reason: Claimant has shown himself to be an enterprising settler.

File, 21384. — The description is incorrect. — Ought to have been described as fractional part of Legal Subdivision 14, lying East of the Saskatchewan River; and all of Legal Subdivisions of 15 and 16, all in Section 20; and Legal Subdivisions 13, 14, 15, and 16, in Section 21, Township 42, Range 1 west of 3rd P. M.

Recommend: That claimant be allowed to homestead all in Section 20, above specified, and Legal Subdivisions 13 and 14 in Section 21; and precept the balance at one dollar per acre. Care, however, will have to be taken to obtain the correct area, the Preemption being broken by a lake.

Art. 21381. — Should not come under Class II. as the
 claimant was residing on the land, but purchased from
 others. Right to belong to Class V. — Recommend:
 Defendant (or part of it does not claim the whole)
 at one dollar per acre; but the Agent should be con-
 sidered to receive the lot as legal subdivisions, since in
 this case the claims are legal subdivisions 5, 6, 7, and
 8, in section 31: legal subdivisions 5, and that
 portion of legal subdivisions 6 and 7 lying West of
 the back-township River, in section 32, Township
 42, Range 1 West of the 3rd Principal Meridian.

Art. 21382. — Recommend: That claimant be allowed
 to purchase 150 acres, and prepay 150 at one dollar
 per acre. The balance, 29 acres, for lot at two
 dollars per acre.

Art. 21383. — Recommend: That claimant be allowed
 to purchase one lot, and prepay one lot. Also,
 to purchase others, two. — Reason: Claimant has
 shown himself to be an enterprising settler.

Art. 21384. — The description is incorrect. — Agent
 should have described as fractional part of legal subdivi-
 sions 14, lying East of the back-township River; and
 all of legal subdivisions of 12 and 16, all in section 30,
 and legal subdivisions 13, 14, 15, and 16, in section
 31, Township 42, Range 1 West of 3rd P. M.
Recommend: That claimant be allowed to pur-
 chase all in section 30, above specified, and legal
 subdivisions 13 and 14 in section 31; and prepay
 the balance at one dollar per acre. But, however,
 will have to be taken to obtain the correct area,
 the description being broken by a lake.

File, 21385.— Recommend: That his request be granted,— Care being taken to obtain correct area, which is about 140 acres. Description N^W 1/4 L. 5. 13. 14. 15 & 16 in Sec 32, T. 42 N. R. 16 E. and that portion of the N^W 1/4 L. 5. 13. lying West of the base line.

File, 21386.— Recommend: That price of Preemption be one dollar per acre, and that entry be accorded as desired.

File, 21387.— Recommend: That he get 100 acres as Homestead; and the balance as Pre-emption at one dollar per acre. — Patent not to issue until 30 acres have been broken, or other improvements made, to the value of \$500.—

File, 21388.— Should not be in Class II.— Should be in Class IX.— Recommend. Sale at one dollar per acre.

File, 21392 & 3. Recommend sale at one dollar per acre, cash.

File, 21389.— Recommend: That ^{that portion of the S^W 1/4 of N^W 20. lying East of River} 105 acres be granted free: balance at one dollar per acre. Twenty dollars, (\$20⁰⁰), equal to H. and P. entries— to be charged in addition.

File 21391.— Recommend: That homestead entry be granted Sinclair, in whichever quarter-section he may choose: his Preemption to be at \$2⁰⁰ per acre if he decides to take one. But, before Patent issues, he must show improvements to the value of \$400 (four hundred dollars); or, have 30 acres under cultivation.

File, 21390.— Although this claim is irregular,

being taken up in advance of Survey, would recommend that it be granted. Price of Pre-emption to be one dollar per acre.

H. B.

As to class XII, which consists of claims upon lands situated in Section 8, Township 42, and Section 8, Township 43, Range 1, West of the 3rd principal Meridian, would specially direct the attention of the Minister thereto, for his opinion as to whether the Hudson Bay Company have either a legal or equitable claim to the same. So far as those in Township 43, Range 1, west of the 3rd P.M. are concerned, owing to an Indian Reserve being therein, this becomes a fractional Township; and the one-twentieth of the remaining portion may be satisfied from other lands, either in this or other Townships. Further, a Belt, all along the East side of the River Saskatchewan, across this Township, has been laid out in River lots; and the custom has been, not to grant any lots so laid out, to the said Company. There is no reason why the lands along the West side of the River may not have been subdivided; and they are, practically, laid out into River lots so far as relates to these sections, if the claim as proposed be allowed. I therefore conclude that the Hudson Bay Company cannot maintain any claim thereto. In Township 42, same Range, although not laid out in River lots,

being taken up in advance of time, would
recommend that it be granted. One of the
conditions to be met before we can

Class VII. which consists of claims upon
lands situated in Section 8, Township 43,
and Section 8, Township 43, Range 1, west of
the 3rd principal Meridian, would specially
direct the attention of the Minister thereof, for
his opinion as to whether the Hudson Bay
Company have either a legal or equitable
claim to the same. So far as those in
Township 43, Range 1, west of the 3rd P.M.
are concerned, owing to an Indian Reserve
being thereon, this becomes a fractional
Township; and the one-hundredth of the
conceding portion may be subject to
other lands either in this or other Town-
ships. Further, a Belt all along the
East side of the River Saskatchewan, or
cross this Township, has been laid out
in River lots; and the matter has been, not
to grant any lot, so laid out, to the said
Company. There is no reason why the lands
along the West side of the River may not have
been subdivided; and they are, practically,
laid out into River lots so far as relates to
these sections, if the claim is preferred or
allowed. I therefore conclude that the Hud-
son Bay Company cannot maintain any
claim there. In Township 43, Range
Range, although not laid out in River

lots, on the ground, the claims are preferred just as if that had been done; and, if granted as claimed, practically all the lands along the River on the East side, are laid out as River lots.

The Recommendations are made on the supposition that the Hudson Bay Company have no claim thereto. If, however, the Minister should deem it expedient, it might be advisable to request that Corporation to waive their claim; which, doubtless, as in other cases, they will do.

Class. XII.

File, 21394. Recommend: That claimant receive Homestead entry for legal subdivisions 13 and 14, and that portion of 15 lying West of the Saskatchewan River ^{in Sec. 8}, containing about 80 acres; and that the balance be sold at one dollar per acre, cash, - payable within three months from date of notice. Failing payment, purchase to lapse. Portions to be sold being legal subdivisions 13, 14, 15, and 16, in Section Seven, Township 43, Range 1, West of the 3rd principal Meridian.

File, 21351. Recommend, that claim be allowed.

File, 21352. Recommend, allowance of this claim.

File, 21353. Recommend, allowance of this claim.

Let, on the ground, the claims are preferred first
 say that that has been done; and of granted as
 claimed, practically all the lands along the
 River on the East side, are laid out as River
 lots.

The numerous objections are made on the
 supposition that the American Bay Company
 have no claim there. If, however, the
 Minister should deem it expedient it might
 be advisable to request that Corporation
 to waive their claim; which, doubtless,
 as in other cases, they will do.

Class. XII.

File 2134 - Memorandum: That American mine
 prospect entry for legal subdivisions 13 and 14,
 and that portion of 15 lying West of the backlot
 near River, containing about 80 acres; and
 that the balance be sold at one dollar per acre,
 cash - payable within three months from date
 of notice. Mining payments, purchase to take
 portion to be sold being legal subdivisions 13,
 14, 15, and 16, in Section Seven, Township 43,
 Range 1, West of the 3rd principal Meridian.

File 2135 - Memorandum: That claim to be
 paid.

File 2136 - Memorandum: Release of the
 claim.

File 2137 - Memorandum: Release of the claim.

File, 21354.— Recommend: That claim be allowed; but time must be made up hereafter, as claimant's residence in the past has not been in accordance with the Homestead Law.

File, 21355.— Recommend: That Chas. Camière be granted entry as asked by him.

File, 21356.— Recommend: That entry be given claimant: but, the Law as to residence must be complied with, before Patent issue.

File, 21357.— Recommend: That claim be allowed.

File, 21358.— Recommend: That claim be allowed; but the Agents' attention should be directed to the correction of the entry already made by claimant.
From 21351 to 21358. can must be taken in description, owing to the position of the River.

File, 21359.— Recommend: That claim be allowed; but, care must be exercised in granting this entry, as the Applicant, doubtless, claims all down to the River; in which case, entry in addition to what is specified, would have to be given to all that portion of Legal Subdivision ^{in sec. 12,} 16, Township 42, A, Range 2, west of 3rd P. M. lying East of the Saskatchewan River. His Presumption to be at \$2⁰⁰ (two dollars) per acre.

File, 21360.— Recommend: That this claim be allowed.

File, 21361.— Recommend: That this claim be allowed. Presumption to be at two dollars per acre.

File 21374 - Reverend: That claim is allowed; but there must be made up transfer, as claimant residence in the past has not been in accordance with the Amendment Law

File 21375 - Reverend: That claim is allowed; to be granted only as asked by him.

File 21376 - Reverend: That reply to given claimant; but the law as to residence must be complied with, before Patent issue.

File 21377 - Reverend: That claim is allowed.

File 21378 - Reverend: That claim is allowed; but the Agents attention should be directed to the correction of the entry already made by claimant.

File 21379 - Reverend: That claim is allowed; but, can not be received in granting this reply, as the applicant, doubtless, claims all down to the River, in whole case, only in addition to what is specified, would have to be given to all that portion of land between the River and the last of the Range 2, west of 3rd Q. M. being last of the last mentioned River. His description to be at \$20 (two dollars) per acre.

File 21380 - Reverend: That this claim is allowed.

File 21381 - Reverend: That this claim is allowed. Description to be at two dollars per acre.

Class. VI.

9

File, 21367.— Recommend: That this claim be allowed. Preemption and purchase to be at one dollar per acre.

File, 21368.— Recommend: That claimant be allowed to homestead the South half of Section 48, and purchase Lot 49, if he so desires, at \$2⁰⁰ per acre.— It is possible he may have some improvements on lot 49, and would not be able to purchase the whole; in which case he might be permitted to pre-empt the North half.

Class. XVII.

File, 21369.— Recommend: That this claim be allowed.—

File, 21370.— Recommend: That this claim be allowed.— Agent's attention should be called to the question whether all that portion ^{of} Legal Sub-division 16, lying East of the Saskatchewan River in Section 32, Township 41, Range 1, west of 3rd P.M. is not included in this claim.

File, 21302.— Recommend: That this claim be allowed.

File, 21303.— Recommend: That this claim be allowed.

File, 21304.— As regards this file, would leave the question to the decision of the Minister; but, would suggest that Lot 50 be given free, and Lot 51 sold at \$2⁰⁰ per acre.

+ 41 should
be Sp. 42-

Class. VI.

File, 21367. — Recommended: That this claim be allowed. Disposition and purchase to be at our tables per case.

File, 21368. — Recommended: That claimant be allowed to purchase the South half of Section 48, and purchase lot 49, of the same, at \$25 per acre. It is possible he may have some improvements on lot 49, and would not be able to purchase the whole; in which case he might be permitted to pre-empt the South half.

Class. XVII.

File, 21369. — Recommended: That this claim be allowed.

File, 21370. — Recommended: That this claim be allowed. — Agent's attention drawn to the question whether all that portion of legal subdivision 16, lying east of the Sec. 16, Township 32, Range 32, is not included in this claim.

File, 21371. — Recommended: That this claim be allowed.

File, 21372. — Recommended: That this claim be allowed.

File, 21373. — Regarding this file, would have the question to the decision of the Minister; but, would suggest that lot 50 be given free, and lot 51 sold at \$25 per acre.

+ 41 added
to 21. 42.

File, 21305.— Recommend: That homestead entry be granted claimant for 160 acres, and Preemption entry for the balance, at two dollars per acre.

File, 21306.— Recommend: That this claim be allowed,— can bring taken to amend application so as to include that portion of Legal Subdivision 3, in Section 32, lying west of the Saskatchewan River.— Price of Preemption to be \$ 2⁰⁰ per acre.— authorized by Com^r—

File, 21307.— Recommend: That this claim, as preferred, be not granted; but that he be allowed to homestead that portion of the land in question which lies east of the Saskatchewan River; and preempt the South East quarter if available:— the latter to be two dollars per acre in any case.— Should applicant have less than 25 acres of Wood on the portions for which he enters, he might be sold 25 acres of Timber in the vicinity, on any even Section available, at five dollars per acre, cash.

File, 21308.— Recommend: That entry be granted applicant, as requested by him.— Failing entry within 3 months of the date of notice, his right to lapse, and entry to be given to the first applicant

File 21309.— Recommend: That entry be granted applicant as requested.— Failing entry within 3 months of date of notice, his right to lapse; and entry to be given to first applicant.

Class 17

228

File 21305. — Recommended: That immediate entry be granted claimant for 100 acres, and description entry for the balance, at two dollars per acre.

File 21306. — Recommended: That this claim be allowed, — one being taken to support application so as to include that portion of legal subdivision 3, in section 32, being west of the Washburn River. — *Class 17*

File 21307. — Recommended: That this claim, as preferred, be not granted; but that be be allowed to prosecute that portion of the land in question which lies east of the Washburn River; and pursuant the same best quarter if available: — the latter to be two dollars per acre in any case. — Should applicant have less than 25 acres of Wood on the portion for which he enters, he might be able to cross of timber in the vicinity, or any more section available, at four dollars per acre, each.

File 21308. — Recommended: That entry be granted applicant, as requested by him. — Should entry within 3 months of the date of notice, his right to lapse, and entry to be given to the first applicant.

File 21309. — Recommended: That entry be granted applicant as requested. — Should entry within 3 months of date of notice, his right to lapse, and entry to be given to first applicant.

File 21310. — Recommend: That, if claimant is eligible for homestead entry, grant him homestead entry for 160 acres, and preemption entry for the balance at one dollar per acre. If ineligible, and his improvements on the lot are worth about \$400, sell to him at one dollar per acre; but, if his improvements are less than \$400, let the price be two dollars per acre.

File 21311. — Recommend. That request be granted of combined area of lot: to be allowed to homestead 160 acres, and pre-empt the balance at two dollars per acre. If, however, he wishes to take one lot only, on payment of \$2⁰⁰ per acre for all in excess of 160 acres, and the entry fee, grant homestead entry, to be given for the whole of one lot so taken.

File 21312. — Recommend: That claimant be granted homestead entry so far as sections 32 and 33. are affected. The portion of 34 applied for, to be granted as a Pre-emption at \$2⁰⁰ per acre.

File 21313. — Recommend: That application be granted, — Care being taken to include that portion of Legal Subdivision C, of Section 17, lying east of the Saskatchewan River.

File 21314. — Recommend: That this claim be allowed, as asked.

March 17

11

File 21310. — Recommended: That of \$1000000 is eligible for immediate entry grant him a bonus of \$100000, and for the balance of one dollar per acre. If eligible, and his improvements on the lot are worth about \$40000, he will be paid at one dollar per acre; but, if his improvements are less than \$40000, let the price be two dollars per acre.

File 21311. — Recommended: That request be granted of certificate area of lot: to be allowed to him a lot of 100 acres, and for the balance of two dollars per acre. If, however, he wishes to take one lot only, or payment of \$20000 per acre for all or excess of 100 acres, and the entry fee, grant him a bonus, to be given for the whole of one lot as taken.

File 21312. — Recommended: That claimant be granted a bonus of \$100000. As far as sections 32 and 33 are affected. The portion of 34 applied for, to be granted as a pre-emption at \$20000 per acre.

File 21313. — Recommended: That applicant be granted, — one half to include that portion of 34 of section 17, being part of the bar between them.

File 21314. — Recommended: That this claim be allowed, as asked.

File, 21315. — Recommend: That this claim
be allowed as asked.

File, 21316. — Recommend: That homestead
entry, as requested, be granted;
Applicant to put in three years' residence in per-
son, in accordance with the Homestead Act.

File, 21317. — Recommend: That Applicant be
granted homestead entry to the
South half of Legal Subdivisions 13, 14, 15, and 16,
in Section 16; and South halves of 15 and 16,
and that portion of 14, lying East of the River
in Section 17: all in Township 42, west of
the 3rd principal Meridian.

File, 21318. — Recommend: That homestead
entry, as requested, be granted.

File, 21319. — Recommend: That applicant
be granted 160 acres as home-
stead; and the balance as Pre-emption at
two dollars per acre.

File, 21320. — Recommendation same as
21319.

File, 21321. — Recommendation same as
21319.

File 21322. — Recommend: That application
be granted.

File, 21323. — Recommend: That applicant
be

12

File 21315. — Recommended: That this claim be allowed as asked.

File 21316. — Recommended: That heretofore being, as requested, be granted; Applicant to put in three years' residence in her town, in accordance with the Homestead Act.

File 21317. — Recommended: That Applicant be granted heretofore except to the south half of legal subdivisions 13, 14, 15, and 16, in Section 16; and south halves of 15 and 16, and that portion of 14, lying east of the River in Section 17; all in Township 4 S., Range 2 E. principal Meridian.

File 21318. — Recommended: That heretofore being, as requested, be granted.

File 21319. — Recommended: That Applicant be granted 160 acres as here stated; and the balance as described at two dollars per acre.

File 21320. — Recommended: Same as 21319.

File 21321. — Recommended: Same as 21319.

File 21322. — Recommended: That Applicant be granted.

File 21323. — Recommended: That Applicant be granted.

be granted 160 acres as a Homestead; and the balance as a Pre-emption at two dollars per acre.

File, 21324.— Recommend: That application be granted.

File, 21325.— Recommend: That applicant be granted 160 acres as a Homestead, and the balance as a Pre-emption at two dollars (\$2⁰⁰) per acre.

File, 21326, } Recommend: That applicant be
" 21327 } — granted 160 acres as a homestead
 and the balance as a Pre-emption, at two dollars per acre.

File, 21328.— Recommend: That entry be granted: failing which within 3 months from date of notice, land to be thrown open to the first applicant.

File, 21329.— Add to description of the lands—
 "and all that portion of the South half of Legal Subdivision 16, lying East of the Saskatchewan River, in Section 1, Township 42 A, Range 2, west of the 3rd principal Meridian."— Recommend: That request, so amended, be granted.

File, 21330.— Alter the description as follows:
 "the North halves of Legal Subdivisions 13, 14, 15, and 16, in Section 16;
 "and the North half of 15 and 16, and that
 "portion of the North half of 14 lying East
 of

Jan. 17

13

As granted 100 acres as a Homestead; and the balance as a Re-survey of two dollars per acre.

File, 21324. — Recommended: That application be granted.

File, 21325. — Recommended: That application be granted 100 acres as a Homestead, and the balance as a Re-survey of two dollars (\$2.00) per acre.

File, 21326. }
" 21327. } — Recommended: That application be granted 100 acres as a Homestead, and the balance as a Re-survey of two dollars per acre.

File, 21328. — Recommended: That entry be granted; pending which within 3 months from date of notice, land to be thrown open to the first applicant.

File, 21329. — Add to description of the lands: "and all that portion of the North half of legal subdivision 16, lying East of the Backstream River, in Section 1, Township 42 N, Range 2, west of the 3rd Principal Meridian." — Recommended: That as first, so amended, be granted.

File, 21330. — Alter the description as follows: "The North halves of legal subdivisions 13, 14, 15, and 16, in Section 16, and the North half of 15 and 16, and that portion of the North half of 14 lying East of

of the Saskatchewan River in Section 17;— as
 "in Township 42, Range 1, west of the 3rd. pr
 "cipleal Meridian."

Recommend: That Homestead entry
 be granted, on Application thus amended.

File, 21331.— Direct attention of the Agent par
 ticularly to this,— the applica
 tion should probably read "North half of Legal
 Subdivisions 1, 2, 3, and 4, in Section 6; North
 "half of 3 and 4, and all that part of the North
 "half of 2 lying West of the Saskatchewan River
 "in Section 5, Township 43, Range 1, west of the
 "3rd principal Meridian."

Recommend: That claim be allowed,
 Subject to above alteration.

File, 21332.— Recommend: That applicant
 be granted homestead entry
 as requested.

File, 21333.— Recommend: That appli
 cant be permitted to homie
 stead 160 acres of Lot 38, and pre-empt
 the remainder at two dollars per acre.
 If he wishes to secure Lot 39, it may
 be sold to him at two dollars per acre,
 Cash.

File 21334— Recommend: That applicant be
 allowed to homestead 160 acres of
 Lot 62, and pre-empt the remainder at one dollar
 per

"of the Lachetman River in Section 17; - as
"in Township H. 2, Range 1, west of the 3rd. for
"Sale of Minnesota."

Recommended: That Homestead entry
be granted, on application thus amended.

File, 21331. — Direct attention of the Agent for
land to this. — The applicant
has shown probably that "North half of Sec 3
"Sections 1, 2, 3, and 4, in Section 6, North
"half of 3 and 4, and all that part of the land
"half of 2 lying West of the Lachetman River
"in Section 5, Township H. 2, Range 1, west of the
"3rd principal Meridian."
Recommended: That claim be allowed.
Subject to above attention.

File, 21332. — Recommended: That applicant
be granted homestead entry
as requested.

File, 21333. — Recommended: That appli-
cant be permitted to have
about 100 acres of lot 38, and per-empt
the remainder at two dollars per acre.
If he wishes to secure lot 39, it may
be sold to him at two dollars per acre.
Cash.

File 21334 — Recommended: That applicant be
allowed to purchase 100 acres of
lot 39, and purchase the remainder at one dollar
per

551

per acre. If he wishes, he may purchase Lot 63 at one dollar per acre, cash.

File, 21335.— Recommended: That request be granted. Occupation at \$2⁰⁰ per acre.

File, 21336.— Extend the description so as to include all that portion of the North half of Legal subdivision 9, and the South half of Legal Subdivision 16, lying East of the Saskatchewan River, in Section 32, Township 42, Range 1, West of the 3rd principal Meridian.

Recommended: That request be granted. Price to be two dollars per acre, cash.

File, 21337.— If Applicant is eligible to be granted Homestead Entry, his Application to be amended as follows:

"South halves of Legal Subdivisions 13, 14, 15, and 16, in Section 31: South halves of Legal Subdivisions 13¹⁴ and 15, and that portion of the South half of 16 lying West of the Saskatchewan River in Section 32, Township 42, Range 1, west of the 3rd principal Meridian."

File, 21338.— Amend this application, and make it read as follows:

"North halves of Legal Subdivisions 9, 10, 11, and 12, in Sections 5 and 6, and the North half of Legal Subdivision 9 lying East of the Saskatchewan River."

+ in 30 42 A
Rg 1 W 30

for same. If he wishes, he may purchase lot 6
at one dollar per acre, cash.

File 21332. — Recommended: That request be
granted. Description of 22 1/2
per acre.

File 21336. — Return the description as to be
check all that portion of the map
half legal subdivision 9, and the south half
of legal subdivision 10, lying east of the Raccoon
River, in Section 32, Township 42, R.
1, north of the 3rd principal meridian.
Recommended: That request be granted.
Price to be two dollars per acre, cash.

File 21337. — If Applicant is desirous to be
granted homestead entry, the
Application to be amended as follows:
"South half of legal subdivision 13 1/2
15, and 16, in Section 31; South half of 12
"of legal subdivisions 12, and 13, and that portion
"of the south half of 10 lying West of the Raccoon
"River in Section 32, Township
"42, Range 1, west of the 3rd principal me-
"ridian."

File 21338. — Amend this application, and
make it read as follows:
"North half of legal subdivision 9, 10, 11,
"and 12, in Section 5 and 6, and the North
"half of legal subdivision 9 lying east of the
"Raccoon River."

in 36 42 1/2
68 1/2 W 3/4

"Saskatchewan River, in Section 1, Town-
 "Ship 42 **A**, Range 2, West of the 3rd prin-
 "cipal meridian."

Recommend: That Application thus
 amended be granted.

File, 21339.— Amend Application so as
 to make it read: "The North
 "halves of Legal Sub-divisions 1, 2, 3, and 4, in
 "Sections 4 and 5; and all that part of the
 "North half of Legal Sub-division 1 lying East
 "of the Saskatchewan River in Section 6.—
 "all being in Township 42, Range 1, West
 "of the 3rd principal Meridian."

Recommend: That 160 acres be grant-
 ed applicant as a Homestead, and the
 balance as a Pre-emption at two dollars
 per acre.

File, 21340. } — Recommend: That these
 " 21341 } applications be
 " 21342 } granted.

File, 21343.— Amend application so as
 to read as follows:
 "The South half of Legal Sub-divisions 11
 "and 12 in Section 34: the South half of
 "Legal Sub-divisions 9, 10, 11, and 12 in Sec.
 "tion 33; and all that part of the South half
 "of Legal Sub-division lying East of the Saskatch-
 "ewan River in Section 32:— all being in
 "Township 42, Range 1, West of the 3rd
 "principal Meridian."

Recommend:

16

"Backwater River, in Section 1, Town-
ship 42 A, Range 2, West of the 3rd Meri-
dian."
Recommend: That Application be
granted.

File 21337. — General Application to an
to make it read: "The North
"half of legal subdivisions 1, 2, 3, and 4, in
"Section 4 and 5; and all that part of the
"North half of legal subdivisions 1 and 2
"of the Backwater River in Section 6."
"All being in Township 42, Range 1, West
"of the 3rd Principal Meridian."
Recommend: That 100 acres be grant-
ed applicant as a homestead, and the
balance as a reservation at two dollars
per acre.

File 21340. } — Recommend: That three
" 21341 } applications be
" 21342 } granted.

File 21343. — General Application to an
to read as follows:
"The North half of legal subdivisions 11
"and 12 in Section 34; the North half of
"legal subdivisions 9, 10, 11, and 12 in Sec-
"tion 35; and all that part of the North half
"of legal subdivisions 1 and 2 of the Backwater
"River in Section 35." — All being in
"Township 42, Range 1, West of the 3rd
"Principal Meridian."

17

551

Recommend: That his application be granted: 160 acres as a homestead, and the balance as Preemption at two dollars per acre.

File, 21344.— Recommend: That application be granted,— 160 acres as a Homestead, and the balance as a Preemption at two dollars per acre.

File, 21345.— Recommend: Sale to Applicant at two dollars per acre.— Privilege of Second Entry was not intended to apply to cases such as this.

File, 21346.— This being an odd Section, Recommend: Sale to Applicant at one dollar per acre.— Applicant was on the land about the time when the Survey was made.

File, 21347. } Recommend: That, in each
" 21348 } Case, Homestead entry be granted for 160 acres; and the balance as a Preemption at two dollars per acre.

File, 21349.— Recommend: Sale at \$1⁰⁰ per. acre.

File, 21350.— Recommend: That this claim be allowed.

Minneapolis Oct 17th 1884 } W. Pearce

Sir,

I have the honor to submit through you for the information of the Hon. The Minister of the Interior a report on my duties during the past twelve months.

For convenience this report may be divided into four parts.

1. A brief summary of my labours during the past twelve months.

2nd A report of my work as Inspector of Agencies up to the month of May last, when my duties as such ceased.

3rd An account of my work investigating

investigating and reporting
upon the claims of Old Settlers
on the Saskatchewan River
and vicinity

4th a Report upon the
duties of my present position
as Superintendent of Mines.
First.

During the month of November
when you were absent at Ottawa
and subsequent to your return
early in December while you
were confined to your room
by a severe attack of Erysipelas
it was necessary for me
to remain in your office. It
was therefore the 7th of January
before I was able to proceed
to Prince Albert to investigate
and report upon the claims
of Old Settlers in that vicinity.
This investigation lasted until
late in February and I did
not reach Winnipeg until
the 7th March.

While

investigating and reporting
upon the claims of the latter
on the date at New Orleans
and vicinity.
A report upon the
status of my present position
as Superintendent of Mines.
I am, Sir,

During the month of November
when you were absent at Ottawa
and subsequent to your return
early in December while you
were confined to your room
by a severe attack of dyspepsia
it was necessary for me
to remain in your office. It
was therefore the 7th of January
before I was able to proceed
to Prince Albert to investigate
and report upon the claims
of the latter in that vicinity.
This investigation lasted until
late in February and I did
not reach Winnipeg until
the 7th March.

Yours

While at Prince Albert the Crown Timber and Dominion Lands Offices were inspected by me and the Office at Brandon was inspected on my way back to Winnipeg.

From the date of my return to Winnipeg until late in May I was in the office here preparing reports on the Prince Albert investigations and occupied with other duties connected with the business of the Land Board.

In June, in company with yourself and the Deputy Minister, I visited the Rocky Mountains in the vicinity of the Canadian Pacific Railway, and afterwards drove with you from Calgary to Ft Macleod and from thence via the Coal Banks to Medicine Hat.

Early in July I went to Edmonton to investigate claims preferred to land in that vicinity by persons who had settled prior to Survey. About the first of August I proceeded to Battleford to do work of a similar nature to that at Edmonton. On my return to Edmonton I investigated claims in St Albert, at Fort Saskatchewan and

While at Prince Albert the
Brown Timber and Dominion Lands
Officers were inspected by me and
the Office at Brandon was
inspected on my way back
to Winnipeg.
From the date of my return
to Winnipeg until late in May
I was in the office here preparing
reports on the Prince Albert
investigators and occupied
with other duties connected
with the business of the Land
Board.

In June, in company with
yourself and the Deputy Minister,
I visited the Rocky Mountains
in the vicinity of the Canadian
Pacific Railway, and afterwards
drove with you from Calgary to
the Blackfoot and from there
via the Coal Bank to Medicine
Hat.

Early in July I went to
Edmonton to investigate claims
preferred to land in that vicinity
by persons who had settled prior
to survey. About the first of
August I proceeded to Battleford
to do work of a similar nature
to that at Edmonton. On
my return to Edmonton I
investigated claims in
the district of Fort Saskatchewan

and on the Sturgeon River.

While at Edmonton I inspected the Offices of the Crown Timber Agent and the Edmonton and Saskatchewan Land Company.

About the middle of September I returned to Calgary where I remained until the middle of this month preparing reports upon the investigations of the preceding three months and inspecting on the ground and reporting upon certain matters in the vicinity of Calgary. About the middle of the current month I came to Winnipeg and until a few days ago was engaged in scheduling and forwarding to ~~Head~~ Office the results of the investigations of the past four months. Since the twentieth of this month I have been in the Mountains in connection with my duties as Superintendent of Mines.

Second.

As the Offices inspected by me and the dates at which such inspections were made have been specified in part one of this report and a full ^{report} on each office made to the Minister through you immediately after inspection nothing need now be said thereon.

Third

and on the 27th of June
while at Edmonton I inspected
the Office of the Crown Timber Agent
and the Edmonton and Saskatchewan
Land Company.

About the middle of Sept.
I returned to Calgary where
I remained until the middle
of this month preparing reports
upon the investigations of the
preceding three months and
inspecting over the grounds
and reporting upon certain
matters in the vicinity of
Calgary. About the middle of
the current month I came to
Edmonton and until a few days
ago was engaged in scheduling
and forwarding to the Office the
results of the investigations of the
past four months. Since the
commencement of this month I have
been in the Mountains in connection
with my duties as Superintendent
of Mines.

Records.

As the Office inspected by
me and the dates at which such
inspections were made have been
specified in part over of this
report and a full record of the
made to the Minister through
your immediately after inspection
nothing need now be said thereon
There

Third.

The question of the claims of Old Settlers on the Saskatchewan is one of long standing; but, with the exception of the claims in the immediate vicinity of Prince Albert, nothing could be done in the matter until the surveys were completed. These surveys were not finished until this summer; and could not have been completed at an earlier date. For had they been prosecuted in any other way than the one adopted they would have been attended with a great sacrifice of both accuracy and economy and, therefore, the contention that a want of energy has been shown by the Department of the Interior in pushing these surveys cannot be successfully maintained.

Had, however, the old C.P. telegraph line worked as well as was anticipated when the contracts for its construction were awarded the longitudes might ~~then~~ have been determined readily and cheaply by its aid, and the latitudes by astronomical observation. ~~Then~~ surveys could ~~then~~ be carried out cheaply

Third.

The question of the claims of Old settlers on the back-land is one of long standing; but, with the exception of the claims in the immediate vicinity of Prince Albert, nothing could be done in the matter until the surveys were completed. These surveys were not finished until this summer; and could not have been completed at an earlier date. For had they been prosecuted in any other way than the one adopted they would have been attended with a great sacrifice of both accuracy and economy and, therefore, the contention that a want of energy has been shown by the Department of the Interior in pushing these surveys cannot be so carefully maintained. Had, however, the old C.P. topograph line worked as well as was anticipated when the contracts for its construction were awarded the discrepancies might ~~then~~ have been determined readily and cheaply by its aid, and the latitudes by astronomical observation. These surveys could ~~then~~ be carried out cheaply.

cheaply and efficiently at any point in the vicinity of the Telegraph line. Owing to the working of the line being defective nothing remained but to determine the longitudes by measurement from Winnipeg, the position of this latter point having been determined by telegraph from Chicago Astronomical Observatory. This system was started in 1874 and conducted with due energy but it was not until 1880 that the 5th Initial Meridian was established. In 1881 the Block outlines were run in the vicinity of Edmonton and the Township subdivision and River lot Survey commenced immediately thereafter and completed in 1883 very full reports accompanied the evidence ^{forwarded} ~~forwarded~~ to the Minister so soon as the investigations were completed. The claims at Prince Albert have been finally disposed of. Those at the other points may reasonably be expected to be within a few weeks.

was put upon all the claims and judging by the result at Prince Albert it is confidently anticipated that the percentage who will be dissatisfied there-with will be very small - probably not 5% - and of these more than one half will be, only on the ground that their claims have not had as liberal treatment as the claims of others. It may be said of these claimants that ^{as a class} the "land shark" formed a very small number, when it is considered that in all upwards of seven hundred claims have been preferred.

The difficulty of obtaining explicit evidence has been referred to in the special reports, and in this it need only be mentioned that this difficulty did not arise from unwillingness but from inability.

It is somewhat remarkable that out of this large number of cases so few have been preferred through a residence on and peaceable possession of the land on the 15th July 1870. The only points at which such were

were preferred being Prince Albert and St Albert. Some half dozen at the former and about forty at the latter.

This would go to demonstrate that it has been only within the past few years that any idea of making a livelihood from out the soil has occurred to the inhabitants of the District and when this fact is considered it is really wonderful the progress these people have made in agriculture. Such reflections hold out the strongest encouragement as to the fairly successful fruition of the policy adopted in teaching the rising generations of Indians in habits of industry with a view to make them self sustaining.

Those claims at the South Branch, St Laurent, were not personally investigated by me, as the greater portion spoke only French and I should have required an interpreter. With the approval of the Minister Mr. S. L. Agent Duck, who speaks the French language, was instructed to obtain the evidence

were preferred being Prince
 Albert and St Albert. Some

 These claims at the
 Fort Branch, St Lawrence
 were not personally investigated
 by me, as the greater portion
 of the only French and
 should have required an
 interpreter. Both the
 approval of the Minister Mr.
 J. A. Gent. Esq. who speaks
 the French language, was
 instructed to obtain the
 evidence

evidence of those claimants. This was revised by me and recommendations made in each case by the Land Board.

I would particularly wish to refer to the aid extended me by the Rev^d Pere Le Sueur when investigating the claims at St Albert. Most of the claimants could only speak Cree and the Rev^d Father acted as interpreter and did all he could to make the investigation run smoothly and pleasantly.

The only claims now remaining are at Lac la Biche, Victoria and Battle River. Those at the two latter points can be disposed of so soon as the surveys are adjusted, probably early next spring. At the former point some delay, probably a year, must ensue owing to its isolated position, getting the surveys carried to that point, also the survey on the ground of an Indian Reserve.

There are a few other isolated cases remaining chiefly in the vicinity of Ft Macleod and they can be readily dealt with when the Townships in which they are situate are open.
for

evidence of those claimants.
 This was reviewed by me and
 recommendations made in each
 case by the Land Board.
 I would particularly wish
 to refer to the old entries
 made by the two parties there
 when investigating the claims
 at St Albans. Most of the
 claimants could only speak for
 and the two latter acted
 as interpreters and did all
 the work to make the investiga-
 tion run smoothly and pleasantly.
 The only claims now remaining
 are at Lake, Lake, Victoria
 and Battle River. Those at
 the two latter points can be
 disposed of as soon as the
 surveys are completed, probably
 early next spring. At the
 former point some delay
 probably again, must ensue
 owing to the isolated position
 getting the surveys carried to
 that point, also the survey
 on the ground of our station
 house.

There are a few other isolated
 cases remaining chiefly in
 the vicinity of St Michael's
 and they can be readily
 dealt with when the Township
 is finished they are situated over
 for

for entry.

Fourth.

As Superintendent of Mines my duties have been light and until developments take place and parties desire to acquire titles they will probably not be very onerous. It is well that so far they have been. Otherwise they or other work of mine would necessarily have been neglected.

It is perhaps fortunate in many respects that little has been done to develop the mineral resources, as if changes in the regulations are advisable they can be made before interests have arisen of so extensive a nature that difficulty would be experienced in making them.

I have embraced every opportunity of discussing the mining regulations with miners, prospectors and those who profess to be such.

They object to the present regulations on these heads Amount of work to be done each year. Shape of Claim Not being permitted to follow the veins, lodes and ledges when they depart so far from

for entry. Fourth. As Superintendent of Mines my duties have been light and until developments take place and parties desire to acquire titles they will probably not be very numerous. It is well that so far they have been. Otherwise they or other work of mine would necessarily have been neglected. It is perhaps fortunate in many respects that little has been done to develop the mineral resources, and if changes in the regulations are advisable they can be made before it is too late to have a view of so extensive a nature that difficulty would be experienced in making them.

I have embraced every opportunity of becoming acquainted with the mining regulations with miners, prospectors and those who propose to do work. They object to the present regulations on their heads amount of work to be done each year. The State of California being permitted to follow the miners, who are obliged when they depart, so far from

from a perpendicular as to get outside the vertical side lines of the claims and Royalty.

The contention that the expenditure \$500 is too much to require to be done within a year is based largely on the fact that the season is very short, and that \$200. the first year would be sufficient. It was pointed out to them that the claim would not of necessity be cancelled, if the Government had evidence to show the bona fides of the claimant, even though the full amount were not expended. The reply to that was that a claimant did not care to be placed at the mercy of any Government Official. It might be advisable to make the Regulations call for an expenditure of \$250 the first year and an equal sum the second year and admit of a person purchasing at any time after he had developed his claim to the extent of \$500.

There will of necessity be a great amount of waste lands in the mountains and
it

from a perpendicular as to
 get outside the vertical side
 lines of the claims and possibly
 the contention that the
 expenditure \$200 is too much

 There will of necessity
 be a great amount of waste
 lands in the mountains and
 it

it might be expedient to permit the claims to be taken up along the veins, no matter in which direction they may run; but if so, great care must be exercised in the survey thereof so that they can be flattened so that in the future there may be no clashing of claims. It might also be well to have the Regulations amended so that when in timber the outlines when first staked out should be well blazed. If above the timber line, posts should be planted so that a person standing at any one would see the one adjacent to it on each side. If that be not done there is a possibility in fact a probability, that these claims may be staked out overlapping each other.

If our regulations were changed to permit of a claim being taken up in the direction of the vein and forty acres in area allowed - the price of \$5⁰⁰ per acre being nominal - it would enable the miner to locate a claim 1320 feet Square

it might be expedient to
 permit the claims to be taken
 up about the river, no matter
 in which direction they may
 run; but if so, great care
 must be exercised in the
 survey thereof - that they can
 be patented - so that in
 the future there may be no
 clearing of claims. It might
 also be well to have the regulations
 amended so that when mistakes
 in boundaries when first taken
 out should be well blazed.
 If above the timber line,
 posts should be planted
 so that a person standing
 at any one would see the
 one adjacent, but on
 each side. If that be

 in fact a probability, that
 these claims may be taken
 out overlapping each
 other.

If our regulations were
 changed to permit of a
 claim being taken up
 in the direction of the
 river and forty acres in
 area allowed - the price
 of \$200 per acre being estimated -
 it would enable the owner
 to locate a claim 1320 feet
 square

Square and assuming the dip to be 45° from a perpendicular, probably in the vast majority of cases an extreme one, he could follow his vein upwards of 930 feet before he would be outside of his vertical side lines, - that is should the vein be in the centre of his claim. If the vein were well developed so that he could when striking ~~it~~ out his claim know which way it bore from a perpendicular he could so locate it that the vein would be at least 1200 feet from the side line to which it tended, in which case he could follow the vein within his location about 1700 feet. The mines which are developed to a greater depth than that are very few. Besides the probabilities are that long before others than the owner are aware of the value of any claim steps will be taken by him to procure title to the property on the valuable side.

One object of all regulation should be to prevent disputes, and it is admitted by most
of

 square and assuming the

of those who advocate the system of following the veins outside of the vertical side lines, that such is the cause of a vast amount of litigation. They claim however that Regulations could be so worded and administered that such would not ensue; but as such cases must necessarily be decided by the evidence of experts, and experience has shown that such is very unsatisfactory. In practice it would probably be found that changing the regulations as some wish would in place of protecting the poor man, the object contended, enable the rich one to ruin him through litigation.

Royalty.

That is as you are aware objected to; but being a point involving the policy of the Government it would not be expedient to express myself thereon.

Petroleum.

Several claims for petroleum have been filed on the Red Deer River in the vicinity of Tail Creek. The claimants contend strongly that forty acres.

of those who advocate the
 system of following the vein
 instead of the vertical line
 lines, that such is the
 cause of a vast amount of
 litigation. They claim however
 that regulations could be so
 worked and administered
 that such would not ensue,
 but as such cases must
 necessarily be decided by
 the evidence of experts,
 and experience has shown
 that such is very unwise
 policy. In practice it
 would probably be found
 that changing the regulations
 as some wish would in place
 of protecting the poor man,
 the object intended, enable
 the rich one to ruin him through
 litigation.

Respectfully,

That is as you are aware
 objected to, but being a point
 involving the policy of the govern-
 ment it would not be expedient
 to express myself thereon.

Respectfully,

General claims for patent
 have been filed on the Red
 Deer River in the vicinity
 of Tail Creek. The claimants
 contend strongly that forty
 acres

acres is too limited in area for a petroleum claim. These contentions were brought out in a report of mine in August last accompanying several applications forwarded the Minister.

Gold washing on the North Saskatchewan River from a short distance above Edmonton to twenty miles below that point has been carried on to a greater or less extent for a number of years and attempts have been made to obtain gold by dredges. So far it has not been a financial success; but many of the promoters are still sanguine and propose continuing the experiment and it is to be hoped that success will crown their efforts. These were reported on in detail in July last, since then nothing further of interest has occurred.

Placer Mining by Companies.

It is worthy of consideration whether it might not be advisable to make provision for Hydraulic Placer Mining on a large scale. There are no doubt ~~many~~ points where the yield is so low that individual mining will not pay; but would be very profitable.

area is too limited in area for
a petroleum claim. These contents
were brought out in a report
of mine in August last season.

advantageous to make provision
for hydraulic placer mining
on a large scale. There are
no doubt many points where
the yield is so low that
individual mining will not
pay; but would be very
profitable.

profitable for Companies. It is stated that there are several points on the benches of the Fraser River within the "twenty mile belt" where such could be profitably conducted. And no doubt with the construction of the Canadian Pacific Railway through the mountains many other points will be found.

The contention of the Provincial authorities of British Columbia that the minerals within the forty mile Railway Belt in that Province belong to them has to some extent prevented development and will to a much greater extent continue to do so. The sooner the matter is settled the better for the mining interest.
Coal.

Considerable attention has been shown to Coal development and within the very near future the supply of this mineral for Manitoba and the North West will be obtained wholly from our own territory, and that at very low rates.

C.P. R. Experimental Farms.
The anticipations respecting these

profitable for Companies. It is stated that there are several points on the benches of the Fraser River within the "twenty mile belt" where work could be profitably conducted. But no doubt with the construction of the Canadian Pacific Railway through the mountains many other points will be found.

The construction of the Provincial authorities of British Columbia that the minerals within the forty mile Railway Belt in that Province belong to them has to some extent prevented development and will to a much greater extent continue to do so. The sooner the matter is settled the better for the mining interest.

Considerable attention has been shown to coal development and within the very near future the supply of this mineral for Manitoba and the North West will be obtained wholly from our own territory, and that at very low rates. C. P. Experimental Farms. The authorities respecting these

these, spoken of in my report of last year have been fully realized, which coupled with the fact of public attention being directed thereto through the visit of the British Association and many other distinguished individuals must have a very beneficial effect on the value to be placed on a great portion of the North West intersected by that highway

With reference to the three and one half million acres of land to be obtained by the Dominion from the Provincial Government of British Columbia

This would after adding ten per cent for country occupied by lakes - probably a very low percentage - give a block of territory 84 miles by 72 miles. From enquiries made I would recommend it be located between the $56^{\circ} 30' N$ or 22^{nd} Correction line and $55^{\circ} 17' N$ or 19^{th} Base line fourteen townships or 84 miles North and South - and twelve ranges immediately West of 120° West of Greenwich.

It may be from Surveys

these, spoken of in my report
of last year have been carefully
revisited, which coupled
with the fact of public attention
being directed thereto through
the visit of the British
Association and many

must have a very beneficial
effect on the value to be
placed on a great portion
of the North West interested
by that highway

With reference to the
three and one-half million acres
of land to be obtained by
the Dominion from the Provincial
Government of British Columbia
this would after adding
ten per cent for country
occupied by lakes - probably
every two per centage - give
a block of territory 84 miles
by 70 miles. At least enquiries
have been made between the
26° 30' N or 27° 30' N latitude line
and 28° 17' N or 29° 17' N latitude line
fourteen townships or 84 miles
North and South - and twelve
ranges immediately West of
120° West of Greenwich.
It may be from surveys

Surveys made by Messrs Ogilvie and Thompson that the latitude of Peace River as shewn on the Map issued in March, 1883, may not be correct. If so whatever change is found in it, might be also made in the portion selected.

It is desirable that so soon as it can be done surveys similar to that performed by S. T. S. Fawcett on the Bow River and its tributaries, should be carried out on all the streams south of the North Saskatchewan and including it. Such being done any mining locations, timber limits or any other points requiring location can be cheaply and accurately determined. The geographical knowledge thus obtained would in itself be of very great value. The character of the country is of such a nature that it would be very expensive, in some cases well nigh impossible, to extend our system of Block Outlines throughout it. If these surveys were completed as far north as where the 120° Longitude leaves the Rocky Mountains a Boundary line

drawings made by Messrs Ogilby
and Thompson that the latitude
of these lines is shown on the
map issued in March, 1883. may
not be correct. If so, whatever
change is found in it, might
be also made in the position
selected.

It is desirable that so
soon as it can be done drawings
similar to that performed by
J. D. Townett on the River
River and its tributaries, should
be carried out on all the
streams north of the, for the
Dakota River and including
it. Such being done any
mining locations, timber limits
or any other points requiring
location can be cheaply and
accurately determined. The
geographical knowledge thus
obtained would in itself be
of very great value. The
character of the country is
of such a nature that it would
be very expensive, in some
cases well nigh impossible
to extend our system of work
outlined throughout it. If
these drawings were completed
as far as the country the
U.S. Geological Survey the
back Mountain a boundary
line

line between British Columbia and the North West Territories could be decided upon as being certain Township boundaries. The present line, viz: the Summit of the Rocky Mountains, being such an irregular one would, should any valuable discoveries be made, cause great trouble and annoyances owing to the indefiniteness of the Boundary. Whereas if these surveys were completed as suggested the Summit could be laid down and from it a boundary agreed upon which would have for its limit Township boundaries. Then it could be at once decided whether a claim was in the North West or British Columbia and much expense and annoyance could thereby be prevented.

The same principle should I think be adopted with reference to the "Forty Mile Belt" in British Columbia.

Before closing this report I would wish to refer to the more healthy tone throughout the country in reference to the carrying out the spirit of our homestead law.

This

this between British Columbia
 and the North West Territory
 could be decided upon as
 being certain Township boundaries.
 The present line, viz. the Summit
 of the Rocky Mountains, being
 back an irregular one would
 should any valuable discoveries
 be made, cause great trouble
 and annoyance owing to
 the indefiniteness of the
 boundary. Whereas if these
 surveys were completed as
 suggested the Summit would
 be laid down and from
 it a boundary agreed upon
 which would have for its
 limit Township boundaries.
 Then it could be at once
 decided whether a claim
 was in the North West or
 British Columbia and much
 expense and annoyance
 could thereby be prevented.
 The same principle should
 I think be adopted with the
 reference to the "Forty Mile
 Belt in British Columbia."
 Before closing this report
 I would wish to refer to
 the more healthy and thrifty
 the country in reference
 to the carrying out the
 spirit of our laws.
 This

This refers not only to those who now have entry but also to those who are squatting contemplating to obtain such and I attribute it wholly to the enforcement of the homestead conditions which as you are aware at its inception and for some time thereafter brought upon those who had to impose it a great amount of odium, and it does not require the gift of prophecy to foretell that within the very near future, complaints will be largely made that those conditions were not enforced soon enough and perhaps even now not with sufficient rigidity. We have only in this to observe what is being said upon this point through the press among our neighbors south of the 49th North Latitude.

Right of 2nd Entry.

During the past four months you have no doubt noticed through the press that the policy of second entry has been questioned. I do not propose expressing my views on the subject.

D. 150444.

Dec 2nd 44

Dear Sir,

On my return from British Columbia, via the Northern Pacific Railway, the other day, a Colonel Hudnell, of Helena, Mont. (I am not certain that the spelling is correct) came on the train at Sand Point, and from conversation with him I ascertained that he was locating a Wagon Road from a point about eight miles east of Sand Point Northerly to the Kootenay River. The distance he stated was 30 1/2 miles. The summit is ten miles from the Northern Pacific, and 1400 feet higher than that Railway, about 300 ft. higher than the Kootenay River. He stated that no difficulty would

W. C. Van Horn Esq.

General Manager - C. P. Ry.

Montreal.

would be experienced in building a
 Railway over this route very cheaply -
 This wagon road will be completed this
 winter - and by the opening of navigation
 the company he represents, which I think
 is composed of Helena interests, will have
 a good steamer - 60 ft in length built to
 navigate the said Koolenay. The Northern
 Pacific, though not assisting them
 financially, is no doubt giving them
 all the assistance possible. Col. Hudnut
 stated further that the object of this Wagon
 Road and steamer was to make the Koolenay
 Country tributary to the Northern Pacific -
 As you are aware the mining prospects
 on Lake Koolenay are very bright, assays
 as high as 170 oz. Silver per ton having
 been made, and the remainder carrying
 a very high percentage of lead -
 I imagine that the immediate object
 of Col. Hudnut's company, is to have
 the handling of these ores, they being
 probably ^{interests} in reduction works. I am fortunately
 from my questions excited his suspicions,
 the result was that he became very
 reticent

would be experienced in building a
 - perhaps even this much very cheaply -
 This magazine would well be considered the
 interest - and by the opening of some of the
 the to compare the experiments, which I think
 is composed of Helium and Hydrogen, will have
 a good specimen - both in length and in
 now gets the acid treatment. The hydrogen
 is not, though not containing them
 for ourselves, is no doubt giving them
 all the assistance possible. - Do. H. H. H.
 should further that the object of this magazine
 good and become more to make the hydrogen
 burning tributary to the hydrogen gas.
 The gas are under the various particles
 on 20th November are very bright, some
 which is as 170 or 180 miles per hour
 been made, and the remainder is carried
 a very high percentage of lead -
 I imagine that the interest of the object
 of it. Hydrogen is composed of two
 the handling of these over, they being
 probably in reduction ⁱⁿ water. Unfortunately
 from my question excited his suspicion,
 the magazine about the same very
 interest

reticent, and it was impossible to elicit much from him. He stated that the Koolenay River where this road touched it to Koolenay Lake had a depth at low water of 40 ft and without a "riffle", and that they would run up the river to its intersection with the International Boundary and perhaps much further.

-As you are aware Anisworth, Olesdel & Wright have a charter for what is known as the Koolenay, and Columbia ^{Bygone} Transportation Co., the object of which is to render the Koolenay Country tributary to the C.P. Railway at the Westerly crossing of the Columbia. Col. Hudnutt stated that it would come more readily to the Northern Pacific, and further gave as a reason that the only market for lead

necessary, and it was impossible to
 select much from him - He
 stated that the Kentucky River where
 this road touched it to Kentucky
 Lake had a depth of four miles
 of 14 ft and without a "riffle"
 and that they would run up
 the river to its intersection with
 the International Boundary and
 perhaps much further -
 - You are more concerned
 about this it has a character
 for what is known as the Kentucky
 and Columbia "Chambers" -
 the object of which is to render
 the Kentucky country tributary
 to the S. E. Railway at the
 Western terminus of the Columbia
 Co. Railroad about what it would
 come have reached to the Kentucky
 Pacific, and further down as a
 means that the only available for
 land

road would be in the United States.
I presume, however, if Reduction Works
were established, a market for a large
quantity would be found in Canada.

It has occurred to me whether Kootenay
Lake could not be reached more cheaply
from the Upper Columbia Lakes, to which
point I am informed there will be no
trouble navigating, a light draft Steamer
from the Mouth of the Kicking Horse River,
and further that a very large extent
of fine timber country along the Columbia
would be served thereby. The distance
between the North end of the Kootenay Lake
and the upper Columbia Lakes would
appear to be about 30 miles and it is
possible a good wagon road could
be economically constructed there.

There is no doubt, I think, that
excellent Steamboat navigation exists
between Fort Colville in Washington
Territory to the Bigddy on the
Columbia, at which point the C. & P. Ry
crosses it. In 1866-68 a steamer the
H. G. navigated ^{from} it, Fort Colville up to
it.

and would be in the United States -
 to purchase, however, if Production Works
 were not abolished, a market for a large
 quantity would be found in Canada.
 It has occurred to me whether
 it could not be reached even cheaply
 from the Upper Columbia Lakes, to which
 our informant there will be
 the whole even going, a light draft steamer
 from the mouth of the Kicking Horse River,
 and further that a very large extent
 of fine timber country along the Columbia
 would be served thereby. The distance
 between the Park and of the Kicking Horse
 and the Upper Columbia Lakes would
 appear to be about 20 miles and it is
 possible a good wagon road could
 be easily constructed there.
 There is no doubt, I think, that
 excellent steamboat navigation exists
 between Fort Colville in Washington State
 and the mouth of the Columbia, and the
 Columbia, at which point the C.P.R.
 crosses it. - July 28 - 88 - a steamer the
 "Columbia" is to be built up to
 it

it is said. Gold Creek 40 miles
North of the C. P. Railway - and
until the Big Eddy was reached
no trouble was experienced.

Col. Hudson informed me that
he had been a locating engineer
on the ^{Union} Northern Pacific, & also
located some years ago what is
known as the "Oregon Short line."

For your convenience I enclose
a sketch with this.

Thinking that you would
be pleased to ascertain all that
is going on that may affect
your company is my reason
for sending you this.

Yours faithfully.

— submit for the consideration and decision of the Land Board file and report in the case in dispute between Thomas A. Anderson & W. J. Bredin concerning the boundaries of Sub 15 A. Edmonton, and also the terms under which Bredin may acquire title to the same.

— As you will see my report on the case is dated 21st July last, but action was stayed owing to statements contained in a letter from Thomas Anderson, dated 29th July last.

Bredin's reply to Anderson's letter was received here on the 5th instant, and is not as satisfactory as could be wished, but as evidence
it

G. Walsh Esq.
Commissioner of Dominion Lands
Winnipeg.

Prof. J. H. P.
Oct. 30. 1883.

Dear Sir

— Subject for the evening
 and decision of the Board
 The one report in the case in dispute
 between Thomas C. Anderson & W. B. Anderson
 concerning the purchase of Oct 12 A.
 Anderson, and also the terms under
 which Anderson was to pay for the
 to the same.

The same will be my report
 on the case is stated in the report
 but action was stopped owing to
 statements and omitted in a letter
 from Thomas Anderson, dated 20 July
 last.

Anderson's reply to Anderson's
 letter was received here on the 2nd
 instant, and is not as satisfactory
 as could be wished, but as we have
 it

W. B. Anderson
 Anderson's of Anderson's
 Anderson

Deputy

General Description of the Country, from observation and surveying -

As I understand, you have already had the Nicking Horse River pretty fully reported on by J. S. Heggerson. I will begin to describe the country at the mouth of that River -

From this point, to where the Railway crosses the Columbia, about 20 miles below - on the West side of the River, there appears to be a magnificent growth of timber which has not for very many years been overrun by forest fires; From what I could learn there is here an immense quantity of timber suitable for lumber, extending back from the River, generally four or five miles - There is also said to be for 60 miles above the Nicking Horse, a great growth of good timber, for (Douglas Pine) White Spruce, some Cedar, also in places Yellow Pine -

A great difference of opinion would seem to exist regarding the value of the timber, which is created, thus:- A man accustomed to lumbering along the Pacific Coast, thinks nothing worthy of the name of timber, unless it be very large, - 3 ft. in diameter & upwards - One accustomed to lumbering in the East, values everything upwards of say 8 ft. - My estimate is from the Eastern Stand point -

On the East side of the Columbia -

Excepting a stretch of say 8 miles, in the vicinity of the Blackberry, the country is largely Barle - In many places there is a scattering of good timber, but no great quantities -

Between the 1st crossing of the Columbia and the mouth of the Beaver - on the East side of the River - the country is nearly all Barle: on the West, all good timber, except probably 4 miles, which has been fire killed - half of it, according to the remainder some years ago, now grown up with a second second growth 4" to 6" in diameter -

It may be that

General description of the country, from observation and survey -

As I understand, you are already in the vicinity of the river, which is the only one of the kind in the country. I will now describe the country at the mouth of the river -

From the point, where the railway crosses the river, there appears to be a magnificent growth of timber, which has not for many years been covered by forest. From what I could learn there is no an immense quantity of timber suitable for lumber, standing back from the river, generally four or five miles - there is also a great deal of timber, which is being used, a great quantity of good timber, for (sugar cane) and other purposes. Some of the timber is of the yellow pine.

A great difference of opinion would seem to exist regarding the value of the timber, which is created, this:- It was accustomed to lumbering along the Pacific coast, the cutting of the timber, which is so very large, - 3 ft. in diameter & upwards - the quantity of lumbering in the East, values everything upwards of 100 ft. The estimate is from the Eastern side of the river. At the East side of the river -

Regarding a stretch of 100 miles, in the vicinity of the river, the country is largely timber - a small place there is a quantity of good timber, but no great quantity. Between the crossing of the river and the mouth of the river - on the East side of the river - the country is nearly all timber; on the West, all good timber, except perhaps a mile, which has been fire killed. Half of it is now the timber is now gone, and some years ago, some years ago, it was a great deal of timber. It was a great deal of timber -

557

that in many places the timber does not extend very far back from the river, on the other hand it may do so, this is a point to be determined. - As you near the mouth of Querty Creek the Railway strikes a piece of flats, in which a very large number of Cedars of immense growth are met with; the greater percentage of them are, however, hollow - a mere shell - but as you ascend the benches, the Cedars gradually get smaller and when a fair sized tree is met with, the quality is good. - Among the large Cedars, there are a great many Spruces, very large, the majority being upwards of 20" measured. Some 20" in diameter they carry their size well, grow very tall, with no limbs or knots till a long distance from the ground is reached.

At the mouth of the Beaver, it is stated there are a good many White Pine, of good size, on the 2nd & 3rd benches - That there are some is certain, as in the Contractors camps lumber is to be seen which has been cut therefrom by whipsaws -

As you ascend the Beaver, one passes through a magnificent growth of Spruce & Cedar, the former very good; the latter when very large, hollow, in many cases a mere shell - good shingles however, could be made therefrom. The width of this belt of timber could not be ascertained, as it was snowing hard and I feared along.

About 14 miles from the mouth of the Beaver, the South fork comes in, which really is the main stream. It flows many miles to the South and interlaces with a stream, known as the Spillamachien, the latter emptying into the Columbia about 40 miles above the mouth of the Neeking Stone. Major Rogers, on his first Railway Exploration trip, took this route and after many days travel came out on the same side of the Selkirk as he had started from -

It is probable a large portion of the South fork of the Beaver & the Spillamachien will come within 20 miles of the C. P. Ry. - there will be no difficulty, it is stated, in driving Coys down these streams, from near their heads to the Columbia.

And

that in many places the timber has not been very far back
from the river, in the river bed it may be 10, this is a point
to be determined. As you near the mouth of the Great
the timber becomes a piece of flat, in which a very large
number of stumps of immense growth are now left; the great
percentage of them are however, killed - a new shell - but as
across the river, the timber gradually got smaller and when
a fair sized tree is met with, the country is forest - (Camp
the river above, there are a great many of these, very large, the
sapling being upwards of 20" in diameter - some 30" in diameter -
the very thin size well, some very tall, with no kind of
limit to a very distance from the forest is reached.
As the mouth of the river, it is stated there are a great
many white pine, of good size, on the 20 & 30 banks - that
there are some in certain, as in the Chatham county timber is
is not actual for here and therefore of timber -
As you ascend the river, one species through a large forest
Forest of Spruce & Cedar, the former very good; the latter very
very large, tall, in many cases a new shell - good change
timber, and is much therefore. The width of the belt of
timber and not to be determined, as it was running hard on
the river along.
About 10 miles from the mouth of the river,
the first fork comes in, which leads to the main stream.
It leads many miles to the north and westward with a
stream, known as the Chatham stream, the latter supplying
the Chatham about 40 miles above the mouth of the Chatham
river. Major Rogers, in his first military expedition to
that this route and after many days travel, came out on the
same side of the Chatham to the river from -
It is probable a large portion of the first fork of the
river & the Chatham stream will come within 10 miles of the
C. & F. - there will be no difficulty in stating, in driving
up from these streams, how near their head to the Chatham
river

and on both there is a good deal of 1st class timber -

Just above the Smith fork - when following the C.P.Ry: and about seven miles from the Summit, you meet Skunklock and it very soon predominates, the Spruce gets less - Cedar still holding its percentage of the whole, very many of them being of immense size - this continues till within about four miles of the Summit, when the timber becomes more scattering and generally smaller: but in places trees of very large size are met with - The Skunklock is large in diameter, grows thick on the ground and very tall, not so shaggy at the butt as the Skunklock in Eastern Canada, the bark is not so rough. And as it is said the tanning properties of Skunklock bark are the inside fortunes, it would be probable that a cord of this bark, would be much more valuable than one of the Eastern -

In this connection, it might be mentioned that the tanning industry will probably, in the near future, become very large at some point to the west, where the hides and bark can be brought together the most economically - If extract be used for tanning, the industry of making the same will be a very large one here.

It is about 22 miles from the mouth of the Beaver to the Summit of Rogers Pass, and 40 from there to the crossing of the Columbia. The route following the Illecillewaet. After leaving the Summit and within one mile of it, you come into a growth of large timber, which continues till within 2 miles of the Columbia, when Brule is reached which extends to that river - This Brule has been created within the last 5 or 6 years - About 9 miles above the mouth of the Illecillewaet, & on its north bank, there is also a small area of Brule which was caused at about the same time - With the exception of these and a few places on the north side of the Beaver - from the mouth of the Beaver to that of the Illecillewaet, on the C.P.Ry. line, there is no Brule - With a little care this timber can probably

probably be preserved from fire, as usually there is a great deal of rain fall - Westward from the Summit, it is likely the belt of timber, suitable for lumber, is narrow, but it gradually widens and as there are many streams coming in, no doubt up this belt there is a great deal of valuable timber -

About 21 miles from the Summit, the North fork of the Illecillewack is reached - this is a larger stream than the South fork and on it there is probably a great amount of timber. Here also, Mr. Walter has reported a fine show of rich bearing quartz, Silver & lead with some gold -

For about 20 miles from the Summit, Hemlock predominates and then spruce - all along there is an extensive growth of heavy Cedar. the larger ones being, however, hollow - At 14 miles from the Summit, white pine is met with, which gradually increases in number as the Columbia is neared but at no point are there very many - Possibly higher up on the benches there is more ^{of this class of} timber - The white pine mentioned was of excellent quality, held its size very well, being about 30" in the stump - tall and free from knots, limbs &c -

The width of this belt of timber remains to be determined, but wherever the trail went high up the hill - as it does in no or two places - the timber continued of dense growth and large size - Excepting through the Albert Cañon, there will be no difficulty in driving logs down the Illecillewack from a short distance of the Summit and down the North fork for probably a long way above its junction with the South -

Going West from the Columbia, via Eagle Pass, for one mile, there is a dense growth of large Cedars & Spruces, then about 4 miles of brush, then fair timber. the width of belt narrow and it will probably be found so through the greater portion of the Eagle Pass - 7 miles from the Columbia is Summit Lake - source of the Eagle River, which is about 1/2 mile long and averages 1/2 mile in width

and

Itself is observed from fire, as usually there is a great
deal of rain fall - However from the summit, it is difficult
the top of timber, but of course, is narrow, but it gradually
widens as the mountain comes down, so that up
the side there is a great deal of level ground.
About a mile from the summit, the last part of
the alluvial is reached - this is a deep stream down
the last part and in it there is probably a great amount
of timber. Now also, for a little further up a fine stream
of quick running water, which is very good.
For about a mile from the summit, the mountain is
all the same - all along there is an extensive growth of
very good. The lower part of the mountain, which
is rich from the summit, which has a great deal of water, which
probably increases in number as the mountain is reached
but as we go up the mountain, the water is very heavy -
the number of trees is very few - the water is very heavy
and of excellent quality, but it is very cold, and about
10° in the shade - tall and few from the summit.
The water of the hill of timber remains to be determined
but otherwise the rain went right up the hill - as it does
in no other place - the timber continues to grow further
and grows up - keeping through the whole of the mountain.
There will be no difficulty in finding good timber the
alluvial part from a short distance of the summit and
then the short part for probably a few miles above the
mountain with the water.
Going west from the summit, the
last part, for a mile, there is a large growth of very good
timber, then about a mile of level, then four timber.
The water of the river is very good and it is very difficult to find
through the greater part of the last part - a mile.
From the summit is a small lake - covered the top of the mountain
which is about 10 miles long and covers 10 miles in width
and

and is said to be very deep - Crossing a portage $\frac{1}{2}$ mile in length, Victor Lake - about $\frac{2}{3}$ mile long & $\frac{1}{3}$ mile wide, is reached: about 3 miles further, is Three Valley Lake probably $\frac{1}{2}$ mile long & about $\frac{1}{4}$ mile wide; then one mile to Griffith Lakes, which is about $\frac{1}{8}$ mile in length and $\frac{1}{6}$ mile wide - These lakes are mere enlargements of the Eagle River & with the exception of the last are very deep -

The wagon road from Shuswap Lake to the Columbia via Eagle Pass, constructed during the Summers of 1883 & 1884, by Messrs. Ainsworth, Birdell & Wright, for the Provincial Government, and for which 60000 acres of land were given, crosses the lakes mentioned, or rather goes along their length -

Teams & wagons are carried across on large rafts, capable of carrying 2 or 3 large wagons and 4 to 6 span of horses -

This road is in all 44 miles in length. It could have been built cheaply along the north bank of Griffith & Three Valley lakes and have been constructed along the south bank of Victor Lake, without proving very expensive; but to have carried it on either bank of Summit Lake would have cost a large amount, the banks being in some places nearly, if not quite, perpendicular walls of rock - The construction of the Railway will ruin the wagon road, as in many places it follows it for considerable distances - but with the construction of the Railway, the use of this road will in all probability cease.

Between the lakes, there is considerable timber - Spruce & Cedar. The latter generally not very large - about 2 ft. in diameter - and apparently of very good quality -

After leaving the 4th Lake - which is about 14 miles from the Columbia River, the road passes through fair timber - the bottoms along the Eagle River in some places are Beaver Meadows - very wet, by drainage, which as the River has a great deal of fall, could probably be comparatively cheaply done there might be rendered good hay meadows -

and is said to be very deep - Crossing a bridge is said
 in length, about 13 miles long & is said to be
 in breadth: about 3 miles further, in the valley lake
 probably 10 miles long & about 10 miles wide; then one
 mile to the right lake, which is about 10 miles in length
 and 10 miles wide - These lakes are more independent
 of the lake river & with the exception of the last one very deep -
 The water runs from the south lake to the lake
 in the lake, constructed during the summer of 1883 & 1884
 by the American Government, 1883-1884, for the purpose
 of irrigation, and for which there were given
 across the lake boundaries, or rather for along their length -
 These openings are carried across in large dams, capable
 of carrying 2 or 3 large canals and a to a span of miles -
 This lake is in all 40 miles in length. It ends here
 the first chiefly along the north bank of the lake & then
 valley lake and then the constructed along the north bank
 of the lake, which forming very expensive; but to have
 across it a water bank of the same lake would have cost a
 large amount, the bank being in some places nearly 1000
 feet high, perpendicular walls of rock - The construction of the
 railway will ruin the water power, as in many places it
 follows it for considerable distances - but with the construction
 of the railway, the use of the land will be all profitable use.
 Between the lakes, there is
 considerable timber - Some 100000. The latter generally not
 very large - about 2 ft in diameter - and apparently of very poor
 quality -
 After leaving the lake - which is about 10 miles
 from the Chinese river, the two rivers through four timber
 the bottom along the lake river in some places are higher
 than the river, of course, which as the river has a
 great deal of fall, and probably is comparatively shallow (and)
 there might be lowered for the purpose -

24 miles from the Columbia, what is known as the Minnehaha River is crossed, it is a stream about 30 ft. wide & 1 ft deep, running at a rate of probably 8 miles an hour. - Here the timber is not so large, & between this point and the north branch of the Eagle River - about 2 miles further west about half the country is Brule. - Up this North branch, which is about double the size of the Minnehaha, there may be considerable timber. - At the crossing of this branch, Messrs. Hineworth, Blood & Wright have a stopping place and store.

After leaving here, the road passes through about 4 miles largely Brule on the north side; on the south timber. - But whether on the slope of the mountains to the south, the timber is large enough for lumber, can only be ascertained by exploration. - For 2 miles the road passes along the flats, through a very heavy growth of timber chiefly Cedar & Spruce, Douglas Fir & some magnificent White Pine - two near the road, being 6 ft. in diameter and very tall. - The next 3 miles is largely Brule, to Jones' Ranch - 12 miles from Pluwap Lake - at Dickinson's Barrens. - Between Jones' Ranch & Pluwap Lake, the majority of the country has been burned over, some of it 15 or 20 years ago, & was covered with a dense second growth, chiefly Poplar, White Pine & Cedar. - In the valley & on the lower benches, there is no doubt much that will make good agricultural lands.

From the last named point, the steamer was taken for Sacinua Ferry and as the boat went to Seymour, a good opportunity was afforded of seeing the Lake. - On its banks in many places, there appears to be a good deal of timber. - Douglas Fir, Spruce & Cedar - Some lumbering is done, the logs taken out & towed to Kamloops, where they are sawn: there appears to be only one mill & that must be run at a profit, the lumber selling at from \$30 to \$40. per M. - a great many ties are being made for railway construction.

Thom

From Savona's Ferry to Spencer's Bridge, the journey was made by stage; between these points there does not appear to be very much timber - At Spencer's Bridge (Cook's Ferry) took the rail and until Yale is reached there is probably not much timber. Below that, particularly in the neighborhood of Tass Lake, there seems to be a good deal of fine timber, chiefly Douglas Fir, Cedar, Spruce & Hemlock, but being close to the Fraser River, much has been floated down that stream to New Westminster to be manufactured into lumber &c. And a great deal has been cut for Railway Construction. Indeed, the Contractor, has a large saw mill which is supplying material for bridges & trestles - of which there are a great many; most of them are, however, temporary structures.

I would strongly recommend that so far as the timber is concerned, the 40 mile belt from the Summit of the Rocky Mountains, as far west as Shuswap Lake, be thoroughly explored by reliable lumbermen.

From German Ferry to Spanish Bridge, the journey
 was made by stage; between these points the road was
 appears to be very much timbered - At Spanish Bridge
 (about 10 miles) took the rail and went till it reached the
 is probably not much timber. Saw that the timber in the
 neighborhood of the lake, there seems to be a good deal of
 fine timber, chiefly Douglas Fir, Cedar, Spruce & Hemlock.
 At Spanish Bridge to the lower river, much has been felled
 down that stream to clear the channel to its mouth.
 with lumber &c. Saw a great deal of the end of the railway
 construction. At the latter, as a large saw mill
 which is supplying material for bridges & docks. of which
 there are a great many; most of them are timber, but many
 structures.

Found strong evidence that so far as the timber
 is concerned, the road will fall from the summit of the timber
 mountains, as far west as Spanish Lake, to the
 shores of Lake Umbagog.

- Agricultural Capabilities -

Along the valley of the Columbia, immediately to the West of the Rocky Mountains, the area suitable for cultivation is limited in width, and vegetables can I think be grown. And I should judge that apple trees would thrive; at all events it is worthy of the experiment & if successful, the frontier cannot be called - being near to the great Prairie region to the East.

At the 2nd, or Western crossing of the Columbia on the East side and for several miles up the Pass - in fact all the way through to Shuswap - there are many places where the land well I think prove fair for agricultural purposes -

A Squatter named Jones planted some vegetables & although he took no care of them, had a very good crop.

Where the Snake rises, the land can be cleared very cheaply & will be in prime condition for cultivation - Up the Spillamashewa River, from Shickanumee narrows, there is said to be a fair district, suitable for agriculture. Steamboats can navigate that river for many miles, thus rendering the locality easy of access from the C.P.R. - There may be many places on Shuswap Lake suitable for agriculture, but the country is so densely wooded that no idea could be formed from the steamer as it was passed by - Between Big & Little Shuswap Lake, there is some land suitable for cultivation, but may require to be irrigated, if so water can be laid on it economically enough. Between Little Shuswap Lake & the head of Kamloops, the country will require irrigation; the valley is not generally very wide - probably an average of $\frac{1}{2}$ of a mile on each side of the river (with Thompsons) -

By continued effort, water can be laid on cheaply, but doubtless will have to be run some miles - the supply coming out of the river will have to be brought some distance, so as to get head enough to lay it on the bottoms. The Snake steamer will generally be able to supply only a very limited area.

He

- *Geographical Description* -

Along the valley of the Columbia, immediately to the west of the Rocky Mountains, the area is mostly of volcanic origin. In general, the volcanic cones are of the cinder cone type. These cones are not very high, but they are very numerous. They are scattered over the entire area, and they are very prominent. They are very fertile, and they are very productive. They are very beautiful, and they are very interesting. They are very valuable, and they are very important. They are very useful, and they are very necessary. They are very good, and they are very bad. They are very nice, and they are very ugly. They are very clean, and they are very dirty. They are very smart, and they are very stupid. They are very kind, and they are very cruel. They are very gentle, and they are very rough. They are very soft, and they are very hard. They are very sweet, and they are very sour. They are very salty, and they are very bitter. They are very hot, and they are very cold. They are very dry, and they are very wet. They are very light, and they are very heavy. They are very fast, and they are very slow. They are very young, and they are very old. They are very new, and they are very old. They are very fresh, and they are very stale. They are very clean, and they are very dirty. They are very smart, and they are very stupid. They are very kind, and they are very cruel. They are very gentle, and they are very rough. They are very soft, and they are very hard. They are very sweet, and they are very sour. They are very salty, and they are very bitter. They are very hot, and they are very cold. They are very dry, and they are very wet. They are very light, and they are very heavy. They are very fast, and they are very slow. They are very young, and they are very old. They are very new, and they are very old. They are very fresh, and they are very stale.

At the 22nd or 23rd century of the Christian era, the first of the great volcanic eruptions of the Pacific took place. It was a very great eruption, and it was very destructive. It was very beautiful, and it was very interesting. It was very valuable, and it was very important. It was very useful, and it was very necessary. It was very good, and it was very bad. It was very nice, and it was very ugly. It was very clean, and it was very dirty. It was very smart, and it was very stupid. It was very kind, and it was very cruel. It was very gentle, and it was very rough. It was very soft, and it was very hard. It was very sweet, and it was very sour. It was very salty, and it was very bitter. It was very hot, and it was very cold. It was very dry, and it was very wet. It was very light, and it was very heavy. It was very fast, and it was very slow. It was very young, and it was very old. It was very new, and it was very old. It was very fresh, and it was very stale.

After the great eruption, the land was very fertile, and it was very productive. It was very beautiful, and it was very interesting. It was very valuable, and it was very important. It was very useful, and it was very necessary. It was very good, and it was very bad. It was very nice, and it was very ugly. It was very clean, and it was very dirty. It was very smart, and it was very stupid. It was very kind, and it was very cruel. It was very gentle, and it was very rough. It was very soft, and it was very hard. It was very sweet, and it was very sour. It was very salty, and it was very bitter. It was very hot, and it was very cold. It was very dry, and it was very wet. It was very light, and it was very heavy. It was very fast, and it was very slow. It was very young, and it was very old. It was very new, and it was very old. It was very fresh, and it was very stale.

1850

The Valley of the North Thompson appears to be fairly good and the same observations regarding irrigation on the South Thompson, will apply to it.

With proper irrigation, this will no doubt prove a very fine fruit country and I see no reason why the larger kind of grapes should not be grown, good judgment being used in selecting the varieties for planting them. In that portion of Sierra Valley to the South of Hamilton, it is stated that apples & the small fruits are grown with great success.

Along Hamilton Lake, there does not appear to be any margin available for agriculture, nor yet for cattle grazing.

There may be a good deal suitable for sheep & horses. The former are not allowed to graze. It being a dry country. The pastures would be ruined by them. However if any portions were owned and enclosed, there would be nothing to prevent sheep being kept on.

From Sarnes Ferry, the stage road after a few miles, leaves the Thompson & crosses the Bonaparte at Cache Creek. This is chiefly a cattle grazing district; some cultivation is done, but only where it can be irrigated and this is not inconsiderable, particularly in the neighborhood of Ashcroft, where the large ranch owned & operated by Genl. Governor Cornwall is situated. Some attempts at fruit growing have been made with fair success.

Between Spencer Bridge and the North land, the major portion of which was burned before day light, so far as could be judged, there is very little suitable for farming.

On the South bank of the Fraser, below the fer, there would appear to be some attempts at settlement. But limited. At the North land there is some, but below that and down to Yale, passing through the big & little canyons of the Fraser, there is none.

After leaving Yale, the country improves, from an Agricultural point of view: - at Agassiz, Sherman

There are several things which I want to say to you -
First, I want to say that I am very glad to hear of your success in your studies. I hope you will continue to make progress and that you will be able to do all that you wish to do. I am sure that you will be able to do so, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent.

Second, I want to say that I am very glad to hear of your success in your studies. I hope you will continue to make progress and that you will be able to do all that you wish to do. I am sure that you will be able to do so, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent.

Third, I want to say that I am very glad to hear of your success in your studies. I hope you will continue to make progress and that you will be able to do all that you wish to do. I am sure that you will be able to do so, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent.

Fourth, I want to say that I am very glad to hear of your success in your studies. I hope you will continue to make progress and that you will be able to do all that you wish to do. I am sure that you will be able to do so, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent.

Fifth, I want to say that I am very glad to hear of your success in your studies. I hope you will continue to make progress and that you will be able to do all that you wish to do. I am sure that you will be able to do so, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent. I am sure that you will be able to do all that you wish to do, for you are a very capable person and you have a great deal of talent.

River, the Kucwin, R. Stammers, & R. Moody - as well as up any of the small valleys coming into the Fraser, so that there is a considerable area suitable for agriculture - particularly for fruit, vegetables &c. - No doubt there will be clearing the very heavy timber, but as demand arises this will be done & the land put under cultivation - Both Agassiz & the Kucwin would appear to be very highly favored from an agricultural stand point.

Across the Province, from the Summit of the Rocky Mountains, to the west end of Shuswap Lake, there is no doubt sufficient rain-fall - possibly in some places too much - And also from some distance above Yale to the Sea Coast; the remainder is only rendered productive by irrigation -

Now, the business, the business, & the business - as well as
 as up any of the small valleys coming into the river -
 as both there is a considerable area suitable for agriculture -
 particularly of fruit, vegetables &c. - as the business
 will be clearing the very heavy timber, but as business is
 the will be done & the land that under cultivation - the
 clearing & the business will appear to be very rapidly
 forward from an agricultural state of mind.
 Now the business, from the
 business of the heavy timber, to the west end of the river
 lake, there is no doubt significant business - possibly in
 the place to which - but also from some distance above
 the to the west; the business is only removed
 products of vegetation -

- Squatters -

Excepting certain lands, patented by the Local Government, between Port Moody & Yale; and between Spence Bridge & its lower end of Shuswap Lake - very little within the 40 mile belt has had the title alienated -

The number of Squatters within this belt is not large and many of the claims are purely speculative - Near the mouth of the Kicking Horse, I noticed a post planted intended to designate the N.E. angle of a $\frac{1}{4}$ Section -

The custom of marking in that country appears to be merely to plant a post to indicate the N.E. angle of a claim -

At the mouth of the Kicking Horse, it is stated there are several claims, there was no appearance however of any effort having been made to improve the land and it is no doubt safe to assume that they are wholly speculative - It is not probable that these claims will be pushed -

There are also, I believe, several claimants at the 1st crossing of the Columbia, but they will be found on a par with those at Kicking Horse -

None other are met with, till within about 7 miles of the 2nd crossing of the Columbia, just above where the C.P.Ry. line crosses from the South to the North side of the Illecillewaet, where one or two claims are taken up -

At this point there are some Beaver meadows which will probably be drained by the construction of the C.P.Ry. -

Hay lands are very scarce, the supply for lumbering and mining operations - which will probably be required in the near future - will have to be brought some distance, likely from the Prairies to the East, although it is said there are great areas in the Kootenay, which with a small expenditure in drainage, would be rendered very productive of hay - the expenditure would be small, when the area that would be made productive is considered -

About

Protest

Respecting certain laws, enacted by the local Government, between last party & place; and between places & the law, and of the same place - very little action has been taken by the Government - The number of questions within this bill is not large and many of the claims are purely speculative - The limits of the Working Hours, I believe a first principle - intended to originate the U.S. and of a 1/2 section - The question of working in that country appears to be nearly to find a spot to insert the U.S. and of a claim.

At the limits of the Working Hours, it is stated there are several claims, there was no appearance however of any effort having been made to improve the law but it is no doubt safe to assume that they are wholly speculative - It is not probable that these claims will be passed - There are also I believe, several claimants at the crossing of the Columbia, but they will be found on a spot with these at Working Hours - These others are not active, the action about of rules of the crossing of the Columbia, first some others the U.S. line crosses from the South to the North side of the Atlantic, there are on the claim are taken up at this point there are some claims however which will probably be removed by the construction of the C.R.R. - They land are very scarce, the supply for lumbering and mining operations - which will probably be secured in the near future - will have to be brought some distance, which from the distance to the back, although it is said there are great areas in the Westway, which with a small population in the range, would be rendered very productive of pay - the operations would be small, when the area the land is made productive is considered -

557

About 2 miles East of the 2nd Crossing of the Columbia there are one or two Squatters and also at the Crossing, on the East bank, there are probably half a dozen others, who have come there since the 1st September last. This latter point is also claimed by some Victoria parties, where claim will be treated of in a special report.

On the West bank, Mess. Amisworth, Skidgel & Wright, who have the Charter for the Hootenay & Columbia Rys. and Navigation Coys., prefer a claim to quite an area and I think also claim some land on the East bank.

Through the Eagle Pass there are probably half a dozen Squatters - all recent. And at Shucwap Landing, Shickanouse Narrows, there are a few claimants, purely speculative. It is thought that at no distant day, this will be a point of some importance.

From report it would seem that one or two of these claims are such as will necessitate their being recognized, the applications having been made, some time since, to the Provincial authorities.

There are a good many Settlers below the South Thompson, but many of them may already have acquired title through the Provincial authorities; or possess claims of such a nature that they should be recognized.

I should here remark that there would appear to be no system or regularity about these claims - they being taken up irrespective of the Cardinal points: One would take up for a long distance, all the arable land along a stream, to the inclusion of those who may subsequently desire to settle there; whereas if restrictions were imposed as to the shape and area of such claims, there might probably be room for several.

Below Kamloops, until near St. Heddy, I imagine the majority of the Settlers are of old standing and a large number probably have already acquired title.

about a mile east of the residence of the
claimant there are on two quarters and also at the
residence, on the east bank, there are probably half a
dozen others, who have come there since the 1st of January
last. This latter point is also claimed by some persons
as their, whose claim will be tested by a special report.
On the west bank, near University, about 1/2 mile
west from the center of the University, University of
Virginia, there is a claim to some one acre and 1/2 think
also claim some land on the east bank.

Through the 1st of Feb.

there are probably half a dozen quarters - all recent -
and at University, University of Virginia, there are
a few of quarters, probably speculative. It is thought that
at one point only, this will be a point of some importance
from report it would seem that one or two of these
claims are not so well supported as they have been, and
the application having been made, some time since, to the
Provincial authorities -

There are a few many letters below the

on the date of the 1st of Feb., but many of them may already
have been received by the Provincial authorities; or
persons claim of not a better that they claim to be recognized.
I think the remark that the same appears to
be no question or irregularity about these claims - they being
taken up respectively of the Provincial point: the work
late up for a long distance, all the work has been done
there, to the exclusion of those who may subsequently be
to take them; whereas if the Provincial were supposed to be
steps and area of each claim, the work might probably be
done for several.

Below University, under name of R. Smith,
I imagine the majority of the letters and of the
and a large number of letters have already received the

or are entitled thereto. I understand that in the vicinity of Port Laidy, there are a good many recent squatters, many of whom are probably purely speculative.

as are written there. I understand that in the
 vicinity of Fort Lundy, there are a good many recent
 quarries, many of which are probably fairly productive.

- Fruit Culture -

The probability of that portion of the Columbia River Valley, immediately to the West of the Rocky Mountains, being found suitable for apples and the smaller fruits, has been already dwelt upon.

The valley at the 2^d crossing. its elevation being about 1800 ft. lower than that of the 1st. will no doubt prove suitable for apples & perhaps the more delicate fruits.

As will also all the small valleys - even in the dry belt where they can be profitably irrigated.

It is stated, on what is probably reliable authority, that in many of the smaller valleys, where they widen out and have benches, peaches grow to perfection - the Lillooet is reported as an example.

Plums are said to grow in profusion in very many places and there seems no reason to doubt that grapes will also thrive, if proper intelligence be exercised in planting and caring for them.

- Fruit Culture -

The fruitfulness of that portion of the Columbia River Valley, immediately to the west of the Rocky Mountains, being found suitable for apples and the smaller fruits, has been already dwelt upon in the report of the 22d Congress. Its elevation being about 1600 ft. lower than that of the 1st - will no doubt prove suitable for apples & perhaps the more delicate fruits. As well as all the small valleys - even in the dry belt where they are so frequently irrigated.

It is stated, or what is probably reliable authority, that in many of the smaller valleys, where they seldom get any late frosts, peaches grow to perfection. The following is reported as an example -

Almonds are raised to great perfection in very many places and there seems no reason to doubt that peaches will also thrive, if proper intelligence be received in planting and raising them -

- Mines and Mining -

Within the 40 mile belt in British Columbia, a good many claims have been taken up, in the Rockies and Selkirk. With Mr. Beagrove, the Deputy Gold Commissioner B.C., who was stationed at the mouth of the Kicking Horse - about 200 claims were filed during the past season, of which I should judge that 80 per cent were within the belt.

The Selkirks are very difficult to prospect, being covered up to timber line, with a very heavy growth of timber - the rock being covered with moss. Above the timber line, the mountains are almost inaccessible.

A good many locations were taken up on the South fork of the Beaver and on the Spelamachew. the source of the latter interlaces with the former.

On the North fork of the Illecillewaet, Mr. W. Ingham in his report (I think in 1866) speaks of finding a very fine show of quartz. No one appears to have enquired further into the matter and from the report, there should be no difficulty in re-discovering it.

On the upper Columbia & the small tributaries emptying therein, many persons hoped to do something at Placer mining; but the season proved so wet & the streams remained so long at the flood, that nothing could be done. In some places where there is stated to be a very good show of gold, the streams are covered with such huge boulders that operations can be carried on only with an outlay of so much money as to shut out the individual miner.

In 1866-67, there was a very great gold excitement in connection with washing in what is known as the big bend of the Columbia. there being probably from three to four thousand people engaged therein. At that time a steamer named the "49", ran from Fort Colville

- Rivers and Mining -

Within the 40 mile belt in British Columbia
a good many claims have been taken up, in the Rockies
and Selkirk. With the. Langara, the Dept. Gold
Commissioners etc. who were stationed at the mouth of the
Fraser River - about 200 claims were filed during the
last season, of which I should judge that 80 per cent
were within the belt.

The Selkirk are very difficult to
approach, being covered up to timber line, with a very
heavy growth of timber. The rock being covered with snow.
Above the timber line, the mountains are almost inaccessible.
A good many locations were taken up on the South fork
of the Fraser and on the Stikine. The survey of the
latter watershed with the former.

In the North fork of the Stikine, Mr. W.
Lusk, in his report (I think in 1881) speaks of finding a
very fine vein of quartz. No one appears to have secured
quartz into the belt from the report, there doubt
is no difficulty in so recovering it.

In the upper Columbia & the
small tributaries emptying therein, many streams appear
to be emptying at places running; but the same stream
is not & the stream continues to run at the foot,
that nothing could be done. At some places where there
is stated to be a very good vein of gold, the stream are
covered with sand and large boulders that operations can be
carried on only with an outlay of 10 times money as to
that of the individual miner.

In 1880-81, there was a very
great gold excitement in connection with working in what
is known as the big bend of the Columbia. There being probably
from three to four thousand people engaged therein. At
that time a steamer named the "Id", ran from Fort Colville
in

in Washington Territory, as far north it is said as Gold Creek - which is 40 miles north of the point where the C.P.Ry crosses the Columbia, at "Big Eddy" -

Several parties have during the past season gone around by the "Big Bend", but with no result, the high water preventing anything being done in washing. In Quartz some good "float" is stated to have been found, but the source or sources of the lumps were not discovered. A good deal of attention will no doubt be devoted to this section next season.

On the Lower Fraser a good deal of washing has been done and it is stated there are many places where a great deal of gold still exists; but that it can only be profitably extracted through the formation of a Mining Company, the same as has been done in California.

Considerable attention has been directed to the vicinity of Lake Kootenay. The claims so far taken up being about 2 by 1 1/2 miles, chiefly silver, with rich veins of some gold. The veins are reported to be true fissure veins in limestone & Shale Sandstone.

In this connection, particular attention is directed to the following copy of a letter addressed to the General Manager of the C.P.Ry: and would add that I think an effort should be made to draw the trade of that region to the C.P.Ry, which might be done by the construction for the present, of a wagon road from the northern lake of Columbia, to the north end of Kootenay Lake - a distance probably of 30 miles. Such road would not I think prove costly in construction.

- Copy of letter, dated 2nd Dec: to W.C. Van Horn Esq -

"On my return from British Columbia - via the Pacific Railway - the other day, a Colonel Hedgcock of Helena, Montana, (I am not certain that his orthography is correct) came on the train at Sand Point and from conversation

in Washington Territory, as far north as it is said to
 Gold Creek - which is the middle north of the trail where
 the C.P. crosses the Columbia, at "Big Bend" -
 several parties have found the spot where the trail crosses
 in the big bend, but with no result, the last order
 preventing anything being done in washing. - The
 "Humboldt Trail" is stated to have been found, but the chance
 or success of the same were not discovered. - A great
 deal of attention will be paid to this looking
 out soon.

At the time there was a great deal of washing done
 here and it is stated there are many places where
 a great deal of gold will be found; but that it can only be slightly
 started through the formation of a strong company, the same
 as has been done in California.

Considerable attention has been
 directed to the vicinity of the territory. The claim is for
 about 2000 acres, 2 by 10 miles, chiefly silver,
 with much gold & some lead. The mine are reported
 to be the same as in the territory & gold & silver.
 In this connection, particular attention is directed

to the following copy of a letter addressed to the General
 Manager of the C.P. and which was that I think
 an effort should be made to have the State of the
 report to the C.P. which might be done by the
 construction of a branch of a line from the
 Hunter Lake of Columbia, to the north end of the
 Lake - a distance probably of 20 miles. Such work
 would not be a great cost in construction.

Copy of letter dated 22 Dec. to W.C. Van Hook Esq.
 "My letter from British Columbia - see the
 Pacific Railway. The other day, a General Agent
 of the same, Hunter, I saw and stated that the
 a correct line on the trail of the trail and from
 construction"

"conversation with him, I ascertained that he was locating
 "a wagon road from a point about 8 miles East of Sand
 "Point, northerly to the Kootenay River - the distance he stated
 "was $30\frac{1}{4}$ miles. The Summit is ten miles from the Northern
 "Pacific and 140 ft. higher than that Railway & about 200 ft.
 "higher than the Kootenay River. He stated that no
 "difficulty would be experienced in building a Railway over
 "the route very cheaply.

"The wagon road will be completed this winter
 "and by the opening of navigation, the Company he represents,
 "which I think is composed of Helena interests, will have
 "a good steamer - 60 ft. in length. built to navigate the said
 "Kootenay. The Northern Pacific, though not assisting them
 "financially is no doubt giving them all the assistance possible.

"Col. McDermitt stated further that the object of this
 "wagon road & steamer, was to make the Kootenay Country
 "tributary to the Northern Pacific.

"As you are aware the mining
 "prospects on Lake Kootenay are very bright, assays as high
 "as 170 oz. Silver per ton having been made & the remainder
 "carrying a very high percentage of lead. I imagine
 "the immediate object of Col. McDermitt's Company is to have
 "the handling of these ores, they being probably interested
 "in, smelting works. I unfortunately from my questions
 "excited his suspicions, the result was that he became
 "very reticent & it was impossible to elicit much from
 "him. He stated that the Kootenay River, where the
 "road touched it, to Kootenay Lake, had a depth at low
 "water of 40 feet and without a "ripple" and that they
 "would run up the River to its intersection with the
 "International Boundary & perhaps much further.

"As you are aware, Ainsworth, Bleasel & Waigh
 "have a charter for what is known as the Kootenay and
 "Columbia Ry. and Transportation Co's. the object of which
 is

"Consequently, it is not surprising that it was found
 "a large road from a point about 8 miles East of
 "Point, north of the Western River - the distance is about
 "two or three miles. The distance from the Western
 "River and 100 ft. higher, than the railway & about 500 ft
 "higher than the Western River. It is stated that no
 "difficult work is required in building a railway over
 "the route very cheaply."

"The work now will be completed this winter
 "and by the opening of navigation, the Company is expected
 "which I think is composed of various interests, will have
 "a good steamer - 50 ft in length. With it to navigate the
 "Western River. The Western River, though not navigable
 "further up is no doubt giving them all the assistance possible.
 "Col. Woodhouse states further that the object of the
 "Company Road & Steamer, was to make the Western Country
 "accessible to the Western River."

"As you are aware the mining
 "prospects in the Western are very bright, many as high
 "as 100 ft. above the level of the sea & the minerals
 "are of a very high percentage of gold -
 "the immediate object of Col. Woodhouse's Company is to have
 "the landing of these ores, the being of which is
 "in, Western works - I understand from my question
 "whether his experience, the result was that it became
 "very evident & it was impossible to think much from
 "him. It is stated that the Western River, was the
 "road traveled is, to the Western River, as a result of the
 "water of the gold and without a bridge. And that they
 "would run up the river to its intersection with the
 "International Boundary & perhaps much further."

"As you are aware, American, British, French
 "have a charter for what is known as the Western and
 "Columbia R.R. and Transportation Co. the object of which
 "is

"is to render the Kootenay Country tributary to the C.P. Ry:
 "at the Westerly Crossing of the Columbia - Col Hudnutt
 "stated that it would come more readily to the Northern
 "Pacific & further gave as a reason that the only market
 "for lead would be in the United States. I presume
 "however if reduction works were established, a market for
 "a large quantity would be found in Canada.

"It has occurred to me whether Kootenay Lake could
 "not be reached more cheaply from the Upper Columbia Lakes,
 "to which I think I am informed there will be no trouble navigating
 "a light draft steamer from the mouth of the Hicking Horse
 "River & further that a very large extent of fine timber country
 "along the Columbia would be served thereby - The distance
 "between the north end of the Kootenay Lake & the Upper
 "Columbia Lakes would appear to be about 30 miles And it is
 "possible a good wagon road could be economically constructed
 "here -

"There is no doubt I think that excellent Steamboat
 "navigation exists between Fort Colville, in Washington Territory
 "to the Big Eddy on the Columbia - at which point the
 "C.P. Ry: crosses it. In 1866-68 a steamer, the 49
 "navigated it from Fort Colville up to it is said Gold
 "Packs, 40 miles north of the C.P. Ry: & until the Big Eddy
 "was reached, no trouble was experienced - Col Hudnutt
 "informs me that he had been a Boating Engineer on the
 "Union Pacific & also located some years ago what is
 "known as the "Oregon Short Line"

"For your convenience I enclose a sketch with
 "this -

"Thinking that you would be pleased to ascertain all
 "that is going on that may affect your Company, is my
 "reason for sending you this -"

"It is to be noted that the Western Country Territory is the only
 at the Western Country of the Columbia - Col. Johnston
 states that it would come more nearly to the Western
 Pacific & further from a stream that the only market
 for land would be in the United States.
 However if the Pacific works were established, a market for
 a large quantity would be found in Canada.
 It has occurred to me whether the Western Lake could
 not be reached more cheaply from the Upper Columbia Lakes,
 & which I think I am informed there will be no trouble in reaching
 a light draft steamer from the mouth of the Western River
 Union & further that a very large extent of fine timber country
 along the Columbia would be saved thereby - The distance
 between the mouth of the Western Lake & the Upper
 Columbia Lakes would appear to be about 30 miles less it is
 possible a good wagon road could be economically constructed
 there -

"There is no doubt I think that excellent steamboat
 navigation exists between Fort Colville, in Washington Territory
 to the big lake on the Columbia - at which point the
 Col. Johnston is - In 1856 - 58 a steamer, the #9
 navigated in from Fort Colville up to it in good safety
 back, no small part of the Col. Johnston & with the big lake
 now loaded, no trouble or expense - Col. Johnston
 informs me that he has been a leading engineer on the
 Union Pacific & also located some years ago what is
 known as the Oregon Short Line
 For your convenience I enclose a sketch with
 this -

"Thinking that you would be pleased to ascertain all
 that is going on that may affect your Company, in my
 reason for sending you this -

- Conflict between the Provincial & Dominion
Authorities - regarding the precious metals - within
the 40 mile Belt -

When in Victoria, I met the Hon. Mr. Smythe, the Premier and had a conversation with him concerning the claim by the Provincial authorities to the precious metals within the 40 mile belt. Our interview was very pleasant: I did not argue the matter with him, merely stated that I understood the Dominion Government claimed that an absolute transfer of the land, carried with it the minerals; Further that in any case the minerals were supposed to be vested in the Crown and as it was a transfer merely as regards administration, the minerals remained still vested in the Crown. In support of his view, Mr. Smythe read clause 109 of the British North America Act: that British Columbia came into Confederation on the same basis regarding the public land, as Ontario, Quebec, New Brunswick & Nova Scotia and that a conveyance of the land did not carry with it the mines, minerals & royalties.

In a conversation with Mr. Tupper on this point, he stated he was one of those who conducted the negotiations for Confederation, on behalf of British Columbia and the question of mines, minerals & royalties was not mentioned.

I found there was no Standard at that date - nor is there yet so that nothing reliable regarding what may have been said in the debates, in the Local House, could be ascertained.

It would, however, be interesting to look up the files of the local papers to see if anything had been reported in this kind in those debates.

Mr. Smythe further informed me that the Attorney General for the Province had agreed with the Dominion Govt. when in Ottawa last Spring, to submit the question to the Supreme Court, but that his Government had repudiated or rescinded such an agreement, preferring to fight it out.

- Conflict between the Provincial & Dominion
authorities - regarding the Province's interest - within
the no true self -

When in Victoria, I met the Hon. Mr. Hughes, the
 Premier and he has a conversation with him regarding the same
 of the Provincial authorities to the Province's interest within the
 no true self. The Premier was very pleasant. I did not
 repeat the matter with him, merely stating that I understood
 the Dominion Government claims that an absolute transfer
 of the land, as well as the minerals; further that a copy
 of the minerals were supposed to be sent in the Province
 as it was a transfer merely as regards administration, the
 transferred minerals still remain in the Province. I repeated
 of this case, Mr. Hughes had done up of the subject. He
 answered that: that British Columbia was not dependent
 on the Province regarding the public land, as Ontario, Quebec
 and New Brunswick & Nova Scotia did that a consequence of the
 land was not given with it the mineral minerals & deposits.
 A conversation with Mr. Hughes in this point,
 is stated to me one of these and another the representation
 for representation, on behalf of British Columbia in the question
 of minerals, minerals & deposits was not mentioned.
 I found there was no discussion at that time - was in the
 fact to the matter, which regarding what may have been
 said in the debate, in the House, and is mentioned.
 It would, however, be interesting to look up the file of the
 local papers to see if anything has been reported in this form
 in these debates.

The further further inquiries are that the Attorney
 General of the Province has agreed with the Dominion Govt.
 when in Victoria last spring, to submit the question to the
 Supreme Court, but that the Government has refused to
 recommend such an agreement, preferring to fight it out.

by stop and if an adverse decision were given by the Supreme Court, to appeal to the Privy Council - the feeling being that the Supreme Court would naturally be biased towards the Protection of the Dominion Government. It is unfortunate in every way that the matter cannot be settled without delay.

I took every opportunity in talking with miners and prospectors, to impress on them the advisability of locating their claims with the Dominion Land Agent. The argument used was that if anything rich were discovered, some one would probably locate on top of them with the Dominion authorities & should it be ultimately decided that the minerals go to the Dominion, the one who has first complied with the Dominion Regulations would be entitled to the claim. I think in the future - within the 40 mile belt - many will conform to both Regulations.

I used this argument with Mr. Redgrave, who replied that no one would dare to locate over another, to which I answered that if there was enough at issue, experience had shown that parties would not be deterred, as he stated.

There is no doubt the Provincial authorities have chosen to impress on the public the idea, that even if the minerals should eventually go to the Dominion, claims recorded with the former will be recognized: Further, for some reason or another the idea is general that the C.P.R. Syndicate, are the ones to whom the 40 mile belt will belong. I think the Provincial Authorities have rather encouraged that idea, probably with the belief that if such be entertained, more confidence will be reposed in their pretensions than if the public thought the Dom. Govt. & not the C.P.R., was laying claim to this belt.

It may be mentioned that the Provincial Regulations - as administered - permit claims to be taken up by survey, that is, one man goes out & stakes out claims for a dozen. It probably was not intended such should be done, but in practice it is. Redgrave & his son - his Deputy - have

Each -

in every way that the matter should be settled without
 contestation of the Executive Government. It is unfortunate
 the Executive Govt would naturally be drawn towards the
 last, to appeal to the King Council - the feeling being that
 if this line of an adverse decision were given in the Supreme
 Court.

I think every opportunity in talking with him, and
 prospects, to impress on them the advantage of carrying their
 claims into the Dominion Land Grant. The argument was very
 that if anything had been discovered, some one would probably
 have on top of them with the Dominion authorities. I think it
 is entirely better that the minerals of the Dominion, the
 one who first complied with the Dominion legislation would
 be entitled to the claim. I think in the future - within the
 the next few years. Many will conform to both legislation -
 I think this argument with Mr. Rogers, who replied
 that we would have to go to the other side, to which
 I answered that if there was enough of mine, reference had
 been made to the other side, but he did not seem to be satisfied.
 There is no doubt the minerals contained in the
 to impress on the public the idea, that even if the minerals
 that eventually go to the Dominion, claims should be the
 former will be recognized: Further, for the reason a country
 the idea is general that the C.P.R. is entitled, as the one to
 claim the minerals will belong. I think the minerals
 will be rather encouraged that idea, but I think with the
 belief that if such a controversy, some compromise will be reached
 in their legislation than if the public thought the Government
 and the C.P.R., was laying claim to the belt.
 It may be mentioned that the minerals legislation - as
 administered. I think claims to be taken up by survey, that
 it, one man goes out & settles out claims for a paper. It
 probably was not intended that there be some, but as
 a matter of fact - Mr. Rogers & his son - his deputy - have

557

Each probably a series of claims. And many of the C.H. Engineers Contractors & officials, engaged in construction, are taking up claims wholesale, under the Provincial Regulations. This is what at present makes them popular & tend largely to strengthen the claims of the Province.

I called at Mr. Redgrave's office, but he was absent, later I met him on the trail and so far as it went, our interview was very pleasant. He held Commissioner. Mr. Vowell, is highly spoken of as a gentlemanly man. but every one - even the officials of the Province - repudiate Mr. Redgrave & style him a "Crack". I understand that he has been much more reasonable in his pretensions, since the visit of McKing Horse of Mr. Vowell, who is stated to have reprimanded him pretty severely & openly for his bad manner of treating persons - particularly those from the East. many of whom were Government officials, or connected therewith.

In the Act referring to the Land grant to the Northern & Columbia Ry. & Navigation Coy. the minerals are specially reserved to the Province.

and perhaps a case of claims. The name of the M. L. Rogers
 Christian & official, appears in connection, as being up
 claims which, under the various legislation. This is what
 it seems makes them & they are to be taken
 the claims of the Province.

I call at Mr. Rogers' office, but he is absent,
 but I find him at the time as far as it went, and
 others are very pleasant. The last Commissioner, Mr.
 Wells, is highly spoken of as a gentlemanly man. It says
 no - in the office of the Province - reports Mr. Rogers
 & the last one. I understand that he has been
 much more successful in his position, and the kind of
 looking those of Mr. Wells, and is that to be explained
 him better than before for his great manner of dealing
 for me. Certainly there has been the best. Many of whom
 are Government officials, or connected therewith.

At the last reference to the bank
 sent to the Treasury & Columbia R. & Navigation Co.
 the business are specially referred to the Province.

- Points of Importance -

The mouth of the Nuckling Horse River will probably, in the near future, be a point of considerable importance - Especially if the Columbia River prove to be navigable above that point, for the distances stated, and access can be obtained to the Hootenay Lakes, from the Hootenay Lakes of the Columbia -

Even as a centre for the manufacture of lumber, it will be a point of considerable importance -

At the crossing of the Columbia may be a place of some importance and at or near the mouth of Quartz Creek - 11 miles below, where the Railway leaves the Columbia River, as the work of mining being developed, will also likely prove a point of considerable importance - If lumbering should be carried on, as is likely, near the mouth of the Beaver, where the Railway passes close by & on both sides, can be cheaply laid down, this too will be a good lumber camp -

The next lumbering point will probably be on the Illecillewaet - between 6 and 10 miles above its mouth. Here there is considerable flat, over which the Railway passes, which would give good storage room for logs & the manufacture & piling of lumber - The logs being driven down the stream mentioned -

Then at the 22nd, or westerly crossing of the Columbia, will be a very good point for lumbering - there is good navigation from there to the International Boundary and if mining should develop in the Big Bend country - which is probable, all traffic will be from this point -

The next place is at Shichanouse narrows - which will be the chief town on Rusewape Lake - it & its tributaries being readily accessible by navigation - The Spellamashan particularly is stated as being capable of supporting a considerable trade -

The next point is Kamloops where if the North Thompson develops, as is anticipated, it is probable a

Points of Importance -

The point of the meeting of the river with the
in the near future, is a point of considerable importance -
especially of the Columbia river, as it is navigable above
the point, for the distance between the two is not
to the distance of 100 miles, from the mouth of the Columbia -
as a center of the transportation of goods, it will
be worth more than a considerable importance -

At the meeting of the Columbia river is a place
of some importance, and is near the mouth of the river.
It is a place where the railway crosses the Columbia river,
and the point of meeting being reached, will also reach the
a point of considerable importance - of timbering things as
around it, as is likely, near the mouth of the river, where
the railway crosses the river, it is likely that
there, this will be a good timber camp -

The next timbering
point will probably be in the neighborhood of
and is likely to be a point of considerable importance
near which the railway crosses the river, and will be a good
timber camp for the transportation of goods - the
point being near the river, it is a point of importance -

Then at the point, a meeting of the river, will
be a very good point for timbering - there is good navigation
from there to the international boundary, and if timbering
should develop in the top land country - which is likely -
the traffic will be from this point -

The next place is at
the international boundary - which will be the chief town in
the neighborhood - it is the timbering being nearly accessible
to navigation - the international boundary is stated
as being a point of importance - a considerable town -
The next point is timbering, where if the point
should develop, as is anticipated, it is likely a

557

town will be built up - The trade of the Nicola Valley -
which Valley is reported to be very fine - will partly
come in here and the rest at its mouth.

Below this the
Springs will be only of minor importance -

There will be built up - the base of the main valley -
which valley is separated to the west by a low ridge -
and in fact is the foot of the mountain.

Below this the

point will be only of minor importance -

System of Surveys - to be adopted for the 40 mile Belt -

Enclosed with this Report will be found a tracing of a portion of British Columbia, in which is projected the System of Surveys recommended. which is a continuation of that adopted in Manitoba & the Northwest Territories -

There is no system in British Columbia; the rectangular method has been adopted, but the surveys consist of portions taken up in various places, there being no connection between these localities. There is what is called a Coast meridian, which is about 6 miles East of New Westminster and on this a small portion of the surveys are based, those on the Lower Fraser.

Mr. Trustet informed me that the Royal Engineers have established the latitude & longitude of New Westminster, as well as Kamloops. the former from the facilities available is probably as correct as is to be desired: the latter probably has considerable error, so far as the longitude is concerned.

The course I would suggest to be pursued is as follows:-

By next summer next the telegraph line will be constructed through from Winnipeg to Port Moody and no difficulty will be experienced in obtaining the use of it in determining the longitude at say every 2nd degree (if it were determined at every degree so much the better) the latitude being determined by observation.

Having fixed the latitude & longitude of these various points, they can be connected by ordinary traverses along the Railway. And as this is carried out, the surveyor making the same should start the nearest section or 1/4 section post, if accessible, if not, witness post. This is the same procedure as was adopted by D. L. S. Sawcette, during last summer on the Bow River and its tributaries.

So soon as this work is completed, the exact position of the Railway can be laid down and the townships

System of Turnpikes - to be adopted for the New Road -

It is proposed with this report will be found a statement of a
 portion of British Columbia, in which is described the system
 of turnpikes recommended. which is a continuation of that
 proposed in the report of the Committee on the subject of
 the proposed road in British Columbia, the statement
 which has been submitted, but the turnpikes consist of portions of
 up in various places, there being no connection between these
 sections - There is what is called a Great Highway, which
 is about 8 miles east of New Westminster and on the road
 portion of the turnpikes are shown. there is the same system.
 The British Columbia and the Royal Engineers have established
 the turnpikes proposed by New Westminster, as well as the
 the former from the facilities available in British Columbia
 it is desired: the latter which has considerable work, as
 for a the system is proposed.

The system I would suggest to be
 proposed is as follows:-
 By this system the telegraph line will be constructed
 through from Winnipeg to Fort St. John and as suggested with the
 proposed in obtaining the use of it in determining the position
 of the line (if it were determined at once to be
 it would be better) the turnpikes being determined by the
 having found the turnpikes proposed of the various points,
 they are to be connected by ordinary traverses along the railway
 and as this is carried out, the turnpikes making the same plan
 that the nearest section or the section of it, if necessary.
 part, Western part. This is the same of course as the
 proposed in the report of the Committee, being that the
 and other and its position.

As soon as the work is completed,
 the great portion of the railway can be laid down and the
 turnpikes

townships, in which are situated the lands 20 miles on each side of the line, can be accurately projected - A line can then be laid down (the blue line on the accompanying tracing) and I would make it agree with the Township boundaries; this being done, a definite conveyance, describes the Townships, can be made by the Ministerial to the Dominion Govt. -

I would then carry a traverse up and down the various streams to the said limit - or for such distances as they may extend within that limit - Being a timbered or Rocky country, no great expense need be incurred in leaving marks which will remain for all time - Where there are any future suitable for settlement, they can be cheaply & correctly surveyed into sections, even if there should be only two or three of such in a locality - After this is accomplished, no difficulty will be experienced in locating precisely, any timber limits, mining locations, town or mill sites.

The streams up which these traverses might first be carried would be the North fork of the Truckee River, the Ottentail, the Columbia - up & down stream - the Blackberry and probably some stream coming from the East into the Columbia, below the mouth of the Beaver; the South fork of the Beaver, the Northern part of the Spillamachem, the North fork of the Illecillewack, the Columbia at the 2nd crossing - up and down - And any large tributaries within that limit -

the North fork of the Eagle, the Spillamachem - up from Shickware Narrows; the Salmon River & tributary of Kusawap Lake from the North, also the shores of this Lake - the North Thompson, all the tributaries of any size coming in to the South Thompson, the Bonaparte & Nicola, the Fraser above & below, Coquihalla, Lillock &c.

These surveys could be carried on during both the Summer & Winter - Between the Summit of the Rocky Mountains & Kusawap Lake, some delay might occur in locating by observation, owing to rainy & cloudy weather -

Shuswap.

Township, in which are situated the lands so much in need
 of the line, can be accurately ascertained -
 then to find out (the line or the accompanying boundary)
 and I would make it agree with the Township boundaries;
 this being done, a definite conveyance, according to Township
 can be made of the Township to the Township Clerk -
 & would then carry a transfer up and down the various streams
 to the land which is of such distance as they may extend within
 that limit. Being a transfer as a body of land, in great
 & some need be incurred in making transfers which would
 remain for the time - When there are any further alterations
 of settlement, they can be changed & corrected, however, and
 Section, even if the land is not in a line of land in
 a locality. If the line is established, in different parts
 is experienced in making of such, and further limits,
 running between, then or will be.
 The stream up which these transfers might first be
 carried would be the North fork of the Indian River, the
 North, the Columbia, up Indian River. The following
 can probably have stream coming from the back with the
 Columbia, below the mouth of the river; the North fork of
 the river, the North fork of the Indian River, the North
 fork of the Indian River, the Columbia at the 2nd crossing -
 up and down. As any large tributaries within that limit
 the North fork of the river, the Indian River, up from Indian
 River, the Indian River & tributary of Indian River from
 the North, also the river of the lake - the North Thompson,
 all the tributaries of any also coming in to the North Thompson
 the North Thompson, the river, also the river, the Indian
 River -
 These surveys could be carried on during both
 summer & winter. Between the limits of the North
 Thompson & Indian River, some delay might occur in locating
 of the section, coming to land & clearing section. Between
 Thompson

Shawap & Spence's bridge, the climate is particularly favorable for astronomical work; below that rather unfavorable. Upon the 20 mile limit being reached in traversing any stream, it would be well to continue the same along said limit each way, so far as the nature of the country would permit, planting the posts &c.

As you are aware one, Mr. Wilnot, has three parties under him making surveys, having commenced at Pt. Moody and is working East. Mr. Wilnot is probably capable; but is now engaged in a kind of work that he has never had any experience in: he seems to be guided largely by Mr. Hutch, who in his day as a surveyor, was no doubt highly proficient, but is wholly behind the times now.

As an example, he stated to me he would have a traverse made of the track, plot it, make his calculations in the office & then go on the ground and mark it out.

I suggested that with a properly organized system, a competent man in charge & with a good assistant, this work could all be completed when traverses were being made, explaining the method adopted by Mr. Fawcett on Bow River. Mr. Hutch evidently retained the idea that his plan was much better than the one I suggested.

I met Mr. Wilnot at Pt. Moody & gathered all the information I could from him. Whether from his manner, or a reluctance to explain to me, it was difficult to obtain much.

I ascertained, however, that the traverse along the Railway was being done by a Gurley, fig. transit, the chains used being the old fashioned link chain & that much of the work was compass work. A micrometer measurement traverse was being made of the North Arm of Burrard Inlet.

He has three parties under him, only one being in charge of a Dominion Land Surveyor. None of them, so far as I could learn had ever had any experience at land surveying, except Mr.

through a dense forest, the climate is perfectly
favorable for agricultural work; but the water
supply is so small that it is not possible to
in harvesting any wheat, it would be well to continue the
line along the bank and away, so far as the future of
the country and climate, planning to do so.
The two are covered over, the water, the three
under the existing survey, having commenced at the bridge
and is existing back. Mr. Wilbur is perfectly capable;
but it was proposed in a kind of work that he was never
has any experience in: to return to the bridge and by
Mr. Wilbur, who in his day as a surveyor, was no doubt
highly experienced, but is really behind the times now.
As an example, I stated to me to have a traverse
made of the track, but it, makes his calculation in the
office & then go on the ground and make it out -
I suggested that with a properly arranged system,
a competent man in charge & with a good assistant, the
work could all be completed when traverses were being made,
planning the best route possible for Mr. Wilbur or for
himself. Mr. Wilbur's assistant, however, the idea that his
plan was much better than the one I suggested.
I met Mr. Wilbur at Mr. Wilbur's & together all the
information I could give him - whether from his memory, or a
reference to explain to me, it was difficult to obtain much.
I mentioned, however, that the traverses along the railway
was being done by a party of Mr. Wilbur, the same work
being the old-fashioned link chain & the kind of the work
was impossible work - I mentioned measurement
traverses was being made of the whole line of the road
back.
It has been stated under him, and we being in charge
of a teaming company - line of them, so far as I could
learn has ever had any experience of land surveying, except
him.

557

Mr. Raffenstein, and his has been assigned, in Manitoba
& the Northwest, to Township Contract Surveys -

This 40 mile belt, being I presume Dominion Lands,
should not all surveys therein be conducted by Mr. Raffenstein?

By the employment of others, as at present, is it not
an admission to some extent that the Provincial Law, as
regards these lands, is admitted by the Dominion Authorities?

I consider the whole system, as adopted, a defective
one: I am advised that Mr. Tustot nominates nearly all
the men in the Survey, except the Assessor. Under the very
best of management, these surveys will prove most expensive
which I am confident a system could be adopted, which would
be more accurate, & completed at no third of the expense of the
present one.

In the system to be adopted, would recommend that
no road allowances be made; such area might however
be added to the Sections, as compensation for the roads, which
will be laid out. Road allowances along Sections are of no
use whatever; in scarcely any instance can a road be
built, following the same for any distance -

557

- Victoria Dom: Land Office -

When in Victoria, I called at the Dominion Land office. Situated in the Post office building, one, Mr. Ackman is acting as Agent - I do not know in what position the Provincial Records are, but he seems to be occupied in compiling the lands within the 40 mile belt, to which title has already been alienated. If the records have been kept with any system, a few days should have enabled him to obtain all the information he seems to be possessed of. His other labours seem to be confined to replying by circular to applicants who now propose to be squatted on Dominion Lands: this circular dwells strongly on the fact that a squatter on such lands can only claim recognition by bona fide personal residence thereon & improving the same.

As far as I could ascertain, no system seems to have been adopted of keeping record of these cases and unless something of the kind be adopted, it is to be feared, confusion, expense, vexation & delay, will ensue. On this point, however, I wish to state that I observed a reluctance on the part of Mr. Ackman, the Agent, in giving me the information I wished.

I went first to Mr. Trutch & asked him to instruct Mr. Ackman to furnish me with all the information I desired - He promises to do so, but I imagine his instructions were that I should not be informed more fully than could be helped. Mr. Trutch unfortunately was engaged to his bed a good portion of the four days I was in Victoria & perhaps it was owing to that fact, that I did not obtain all the information I desired. In private to Mr. Trutch it might be stated that he probably considered I was looking into affairs that did not concern me. I informed him that I was expected, from my position, to report to the Minister anything that came under my notice which was deemed worthy & that the object of my visit was to obtain for the

Sept:

Dept: all the information possible -

The office should be located at St. Luordy or Hammond, if not further East, so soon as the Dept. is in a position to handle the lands. A great many Squatters claims within the belt will require to be disposed of so soon as the surveys are sufficiently advanced to enable such to be done and before the land are thrown open for general entry -

Some provision should be made regarding stonesteading on timber lands. I understand the right to the timber has been sold by Mr. Truett to lumbermen - on the ground claimed by Squatters - and such action has caused quite a rowl -

Would it not be advisable to adopt some policy regarding this & have it fully advertized, so that all parties would know at once their right in this respect - No doubt many are squatting only to rob the timber from off the land -

Further a homesteaders privilege as explained to me by Mr. Aikman, means a right after living on and improving the land for 3 years, to purchase to the extent of 160 acres; whether the price was to be \$1.00 or \$2.00 per acre, he could not state -

27

Order: all the information possible -

The office should be located at H. Humphreys or Humphreys, if not further back, it is not a fact that it is a question to locate the land. A great many questions arise within the belt will require to be prepared of to come on the property are sufficiently advanced to enable them to be done and before the land are turned over to Federal custody.

Some provision should be made regarding the ownership in timber lands. A reservation of the right to the timber has been made by Mr. Hunter to the Government. A great many questions arise and a great many are raised with a land.

It is not to be expected that about some kind of regarding the value of fully developed, so that all parties would know of once their right in the property. The doubt many are demanding not to let the timber run off the land.

Further a provision should be made as to the use of the timber, means a right after having an end of 100 acres; whether the price was to be \$1.00 or \$2.00 depending the land for 3 years, to purchase to the extent of 100 acres; whether the price was to be \$1.00 or \$2.00 for more, to build and state.

- Destruction of Timber by C.P. Ry: Contractors and others, and liability to forest fires therefrom -

It is really shameful the amount of waste that has been carried on by the Contractors on the C.P. Ry: - even in the way of construction of cuts & fuel, the choicest portions of the best trees are taken, the remainder left lying on the ground - thereby endangering the whole forest by fire, when the same becomes dry - It is true this is a matter difficult to regulate; but it is one in which the C.P. Ry: is largely interested And it is to be hoped, if the matter is properly represented, that the C.P. Ry: will take all possible steps to prevent a continuation of this state of affairs and to clear up the remains, so as to reduce the danger, from forest fires, to a minimum -

There has been said on any return of timbers used by the C.P. Ry: Engineers, or by Anderson, for his bridge timber, construction of cuts, buildings &c. -

Great danger is to be anticipated - both from design & carelessness - on the part of prospectors & hunters - A burned country is much more easily prospected for minerals, than one covered with living timber -

Would it not be well to appoint persons throughout the Railway belt, as special guardians against fire - I imagine when limits are once acquired, the owners would be only too glad to pay the necessary salaries for the same; but to give such an official due authority he should be appointed by the Government -

It might also be advisable to have large bills printed & liberally scattered and posted between Calgary & Fort Moody - The following is a copy of a notice to be seen along the Northern Pacific Railway, which appears

appears to me, to be a very good one -

WARNING

Dept. of the Interior
General Land Office
Washington D.C. March 8 1884

The attention of the Public, is called to the fact that
large quantities of Public timber is annually destroyed by
FOREST FIRES

which in many cases originate, through the carelessness of hunting,
prospecting & other camping parties, while in some instances they
occur through design -

I TAKE THIS METHOD OF WARNING ALL PERSONS
that hereafter the cause & origin of all forest fires shall be closely
investigated; And when the fire is ascertained to have originated
through either carelessness or design, the parties implicated
will be prosecuted to the full extent of the Law.

Special timber Agents are hereby directed against all
offenders under the local laws of the State, or Territories, relating
to the unlawful setting out of fires in which the same may occur.

The public generally are requested to aid
the Government in its efforts to check the evil referred to and
in the punishment of the offenders.

Claims to Land.
- Preferred by Parties. Purely Speculative -

At Shickmooce Narrows and 2nd Crossing of the Columbia and possibly at the mouth of its Nicking Stone, certain claims to purchase land have been preferred. At present there is an injunction being asked for by the Trustees before the local Courts, to prevent the Bureau of Land & Works from issuing Patent to the same. The applicants base their claim on the ground that at date they filed their application, the belt was not reserved. It may not have been; but these claims would never have been filed, but for the probability of the Railway being constructed where it now is.

Generally, the Provincial Government should refuse the applications but the general spirit manifested throughout the Province is to take every advantage possible of the Dominion Govt., or the Canadians as we are termed. North American Chinese, is also a favorite term with many who have lived in that Province, since it was a Crown Colony.

The applications at the Western Crossing of the Columbia, cover a large area.

Great care will have to be exercised in examining these applications, as from observation I overheard and which were not meant for me, I infer some of these applicants will not stick at trifles; but old applications made years ago, in which the location was vaguely expressed & which were never acted upon, will now be resurrected and applied if possible to choice points in the 40 mile belt.

I met one Farwell, a surveyor from Victoria, who has been this season surveying claims at Shickmooce Narrows & the West Crossing of the Columbia. He is himself interested in some of them. I heard him state that if one, Murdoch at Shuswap Lake had not been so concerted, he could have fixed up an old application of N. (I have forgotten the name)

which

- Claims to Land -
- Preference by Statute - Purely Speculative -

At Dickinson, Kansas and 2000 acres of the
Cherokee and finally at the mouth of the Red River,
Carter claims to purchase land has been proposed. At
present there is an impression being created for the United
States the land is to be given to the country and to the
free mining of the land to the same. The applicant has
this claim in the form that at one time there was
the best was not secured. It may not have been, but
the claim was never have been filed, but for the
partially of the railway being constructed where it was in.
Finally, the applicant has been refused the application
for the power which is being attempted through the
is to take very advantage of the American people, or
the American as we are termed. That American citizens
is also a favorite term with many who have lived in that
country, since it was a common thing.
The application of the Western Company of the Cherokee,
Carter & Co. are.

That we will not be interested in
examining these applications, as from observation I have
and which were not meant for me, I suppose some of these
applicants will not think of this; but the applications
these years ago, in which the location was largely approved
which were never acted upon, will now be considered
and appear of course to have been in the hands of the
I trust we have a number of men from the West, who
has been the same surveying claim at Dickinson, Kansas
to the west country of the Cherokee. It is himself interested
in some of them. I have been told that of one, Hubbard
at present take has not been so connected, as could have
found up an old application of Mr. (I have forgotten the name)
which

which was made years ago & could now be made, owing to its vagueness to apply to the land Murdoch wished to obtain.

Under Sec. 4 of the Crown Land Act of British Columbia, the surveys are to be true North & South; & East & West lines and those made by Farwell during the past season, were run by compass. The applications might be checked on that head, if not otherwise.

to its appearance & apply to the same hundred articles & obtain.

be encountered on the road, if not otherwise.
 Some, however, of course - The application might
 have been made to some one of the friends of the
 cause, the savings are for the Anti-Slavery & Anti-
 Union. See. 4 of the American Act of 1840.

- Messrs Ainsworth, Bledel & Wright -

The above parties are citizens of the United States - Except the latter, and he is a native of that country and possibly still a citizen - These parties hold the Charter for the Kootenay & Columbia R.R. & Navigation Coys; they have also constructed the Eagle Pass Wagon Road - 47 miles in length, for which they have received 60000 acres of land, from the Provincial Government -

I understand litigation is likely to ensue between them & the Provincial authorities, over the mineral rights claimed by the latter -

I met Mr. Wright, who treated me exceedingly well, he seems to be a man of great push & enterprise and at the 2nd Crossing has already erected a large house intended for a store, dwelling & boarding house; has a blacksmith shop & horse stables; also a warehouse at Shackamore Narrows, Fluswap Lake.

The parties in question have now on hand a large Contract from Osoyosk for clearing right of way and constructing a tote road from the Columbia for some distance East, for the C.P. Ry. - Mr. Wright informed me that Ainsworth was very wealthy, had been for some time President of the O. R. & N. Coy. And had gone into this Scheme to open a channel for one of his sons to show what sort of metal he was made of -

Bledel is, if I remember correctly - a brother in law of Wrights and also of Ainsworth - neither Ainsworth or Bledel have ever lived in British Columbia; nor outside of this enterprise, have they probably any interests therein - Wright I think has other interests and he has resided upwards of 20 years in B.C.

Massachusetts, Boston, Wright -

The above parties are citizens of the United States -
Except the latter, and is a native of that country and
formerly with a citizen. These parties hold the charter
for the Western & Atlantic R.R. Transportation Co. & they
have also constructed the bridge from Wrentham - 47
miles in length, for which they have received 5000 acres of
land, from the Municipal Government.

Constitutional rights is left to some extent
them & the Municipal authorities, nor the Municipal rights
claimers of the latter.

Charles W. Wright, who treated me exceedingly
well, he seems to be a man of great heart & enterprise
and at the 23 crossing he already erected a large tunnel
intended for a stone, building & tunneling tunnel; he is a
blacksmith shop & horse stable; also a warehouse at
Barnstable Harbor, Massachusetts.

He parties in question have an old large building
from Barnstable for clearing light of any and constructing
a toll road for the columns for some distance back,
for the City. Mr. Wright informs me that the Municipal
are very wealthy, he has for some time President of the
O. R. & N. Ry. and has been with the scheme to open
a channel for one of his sons to show what sort of
treat he was made of.

Wright is a member of the committee - a brother in law
of Wright and also of the Municipal. Wright Municipal
a liberal has ever lived in Boston, Columbia; nor
outside of the enterprise, but they feared any interest
therein - Wright I think has other interests and he has
received upwards of 20 years in B.C.

- Fuel -

One Jones, a Squatter 12 miles East of Thickmence Narrows, states he thinks he has discovered Coal in a patch near his claim - He had no specimens to show me so he stated he had burned them up to test them -

It is also stated that Coal has been found at some points on the main land & this is probable.

In the Nicola Valley, I think, it is stated fair coal can be obtained -

Even if there should be none; with the magnificent supply on Vancouver Island to the West & the East foot hills of the Rocky Mountains to the East fuel along the Railway line will grow cheap -

In many places Wood is, & will be, the chief source of supply for many years -

- Fuel -

The fuel, a quantity of 12 miles east of Hutchinson
 Kansas, states he thinks he has discovered coal in a
 place near his claim - He has no specimens to show
 me so he states he has burned them up to test them.
 It is also stated that coal has been
 found at some point on the same land & this is probably
 in the Kansas Valley, I think, it is stated for coal
 can be obtained -
 Now if there stands to come; with the
 increasing supply of lumber & lumber to the West
 & the great foot hills of the Rocky Mountains to the West
 fuel along the railway line will prove cheap -
 In many places wood is, & will be, the chief source
 of supply for many years -

557

Scenery -

The writer has been over the Southern Pacific
the Union & Central Pacific, the Northern Pacific
and through over the route of the Canadian Pacific -

For grand Scenery, there is 300 percent more
between Calgary & Yale than in the other three roads
combined - On none of them are there any spots that
for grandeur can compare with very many in the C.
P. Ry:

The views going down the Vicking Horse, through
the Selkirk and along the Fraser from Burton Bar
to Yale are particularly grand

All of which is
respectfully submitted -

I have the honor to be
Sir

Winnipeg Dec. 6 1884

343

Sir,

I have the honor to enclose herewith, a Confidential report on various subjects, which came under my notice, in my recent trip along the line of the C.P.Ry: - through the Province of British Columbia.

It is addressed to the Deputy Minister, but owing to his illness, have decided to enclose it to you -

The Report is divided into the following

heads:-

- | Page | |
|-----------|--|
| 306 & 314 | 1. General description of the Country |
| 314 & 316 | 2. Agricultural Capabilities |
| 317 & 319 | 3. Exatters |
| 320 & 320 | 4. Fruit Culture |
| 321 & 324 | 5. Mines & Mining |
| 325 & 327 | 6. Conflict between Provincial & Dom. authorities re precious metals |
| 328 & 329 | 7. Points of importance - as probable town sites |
| 330 & 333 | 8. Systems of surveys to be adopted in the 40 mile Belt. |
| 334 & 335 | 9. Dominion Lands Office & Agent at Victoria |
| 336 & 337 | 10. Destruction of timber & liability to forest fires along Ry: |
| 338 & 339 | 11. Claims to land preferred by Speculators |
| 340 & 340 | 12. Messrs Amewath Bleddel & Wright |
| 341 & 341 | 13. Fuel |
| 342 & 342 | 14. Scenery |

As you may not have time to peruse the whole of this Report, would I direct your attention to Nos. 5. 6. 7. 8. 9 & 11

I have the honor to be
Sir

Your obt servant

By § 4622
§ 4624

20th July 8

— Dear Mr. Burgess

Print

—
Permit me to direct
your attention to each clause of Sec. 1 - 37. Vic.
Cap. 31. Fawcett Act. by which power are
conferred on the Governor in Council to remove
any portion of the District of Fawcett to the
North West Territories.

This would make the
Minister of the Interior to extend the North
West Territories East to Lake Winnipeg, and the
Hudson Bay, as has been shown on map of
the North West Territory maps, &c.

Very Truly Yours

Wm. Pearce

A. H. Burgess Esq.
Deputy Min. of the Interior

Dear Mr. Street

— By 39 Vic. Cap. 21, the easterly limit of the Northwest Territories is a line due north from Turkey Point, situated between Lake Winnipegosis & Cedar Lake.

I think your map shows this limit as Lake Winnipeg and Nelson River: possibly you might be guided wholly by your map - by putting Scrip Settlements in that portion which really is in the District of Keewatin, is my reason for sending you this.

Though the Government might wish, as I understand it, they have not as yet the power to grant Scrip to the Half Breeds living in that portion of the country which was originally Keewatin, as defined by that act. I suppose this will be the next agitation there will be in the country.

Very truly Yours

Dominion Lands Commission

Winnipeg July 23rd 1885

My dear Sir,

I met James McLaughlin, the
 Inspector at Edmonton, last night and after
 discussing the Edmonton Land matters
 he asked me why the Department did not
 say to the Edmonton people just what I
 said to him on the subject: if this were
 done McLaughlin thought the Bulletin's
 strength would be greatly weakened. Oh
 he says is washing on the people to strengthen
 himself and the longer their petitions and
 protests remain unanswered the stronger
 he becomes and if the people were afford-
 ed the explanation I had given him as
 to the basis of settlement upon which the
 land claims were treated agitation would
 cease excepting for the case of a few
 sore heads.

You may remember that McLaughlin
 concurs in the views I expressed to you
 long since and as the suggested in-
 replies are all ready I think that
 as the troubles are over and the troops
 withdrawn they might be made public.

As to the letter which appeared in
 the Bulletin signed by Samuel Cunningham
 and other Half Breeds I ascertained
 that it was written by McKenney a

A. M. Cunningham Esq.

Deputy of the Minister

Half

Change

Ammonia

I have been thinking of you very much lately, and wondering how you are getting on. I hope you are well and happy. I have been very busy lately, but I have managed to find some time to write to you. I have been thinking of you very much lately, and wondering how you are getting on. I hope you are well and happy. I have been very busy lately, but I have managed to find some time to write to you.

that it was written by Mr. Henry
the illustration given by James Manning-
as to the best method of appearing in
written form ~~it~~ ought to make public.
as the trouble was over our troops
if perhaps are all ready about the
- - - as the suggestion is -
canon in the view & expressed to you
from many quarters that we thought

577

half brother of Dr. Schultz - a trader
at Edmonton who has been a land
seller.

McDougall says one of the worst
agitators in the place is Alex. Stewart.
When there his chief occu-
pation seemed to be the importing in
manufacturing of "baked-wine-
lickey".

He also says that Thomas Anderson,
a former Timber Agent, was
one of the biggest "lawless" against the
Land Surveyors. If you
refer to a protest of Thomas A. Anderson
in regard to Lot 15 you will observe
that it is in the Brown Timber
agent's handwriting, dated at Edmon-
ton and purporting to be signed by
Thos A. Anderson. Thomas A. Anderson
is the Agent for, lives in Winnipeg
and has not been near Edmonton
thaw Winnipeg is since September last.

To be brief in explanation to these
people it might be stated that the land
claims were adjusted on the following
basis:

Any person who bona fide resided
on his claim prior to 1st September 1880
received a free homestead for a River
lot not exceeding 160 acres - any excess
over 160 acres being sold to him at \$1.00
per acre. If resident upon a quarter
he received a free Homestead
and if an adjacent quarter was
available was allowed to pre-empt
it

it at $\$1 \frac{00}{100}$ per acre

Those who settled subsequent to 1st September 1880 were treated similarly excepting as to the price of the area pre-empted which was fixed at $\$2$ instead of $\$1$. per acre.

In the case of lots at St. Albert, decided upon prior to 15th July 1870 when the area of the lot did not exceed 160 acres it was made a free grant, any excess over that area being sold at $\$1$. per acre. This is all that the Dom. Lands Act allows. (See sub. sec. f, sec 81, 46 Vic. Cap 17.) That some of the lots were small arose from the fact of the people settling so closely together.

In some instances questions of heirship affected claims and the difficulty of proving individual rights - purely a legal one - was so great that in order to avoid expense to the claimants I made my recommendations under the provisions of the Dom. Lands Act which enabled the Dept. to deal with such cases without the necessity on the part of the applicant of proving a possibly very difficult chain of title.

In regard to purchased lands the holder was accorded the same privilege as if he were an original claimant when by improvements or residence the bona fides was established of the settler from whom he purchased.

I learned from Mr. McQuay that the people did not protest so much
regarding

against the injustice of individual decisions but felt aggrieved - at least those of them who did not establish a claim to purchase at the lowest price - because they were not accorded as liberal terms as others who did not settle in the District as early as they did, ignoring the fact that the more liberal treatment resulted from the present holders having acquired the lands from persons who had settled upon or cultivated them.

With reference to Mr. McSungall's opinion of the grievance at Edmonton resulting from the disparity in treatment this was certain to arise where so many cases were disposed of - being upwards of 200.

It is quite possible that in some instances the disparity arose from the ability of one man to bring out the points of evidence in his favor to better advantage than his neighbor and he might in consequence present a case apparently stronger and receive probably more favorable treatment than one who might fail to bring out evidence that would establish as good a claim. I made every effort to secure complete evidence and my recommendations were made on the facts adduced. It is possible, however, that in some instances the claimant can supplement the evidence given and show a better case but I think that taking the evidence disclosed at the time my recommendations were made it will be seen that the most liberal treatment possible was always accorded. Yours very truly

Wm. Pearce

against the injustice of the
decision but felt aggrieved - at least
that of them who did not subscribe
to the purchase of the land for
because they were not associated as
liberal towns or others who did not
part in the district as early as they
did, regarding the fact that the
more liberal treatment resulted from
the former bodies having acquired the
land from persons who had settled
upon or cultivated them.

With reference to Mr. Thompson's
opinion of the fairness of the
resulting from the disposition in western
this was certain to arise where so many
cases were disposed of - being upon the
same.

It is quite possible that in some
instances the disposition arose from the ability
of one man to bring out the points of evidence
in his favor to better advantage than his rival -
that one is right in consequence of present
and apparently stronger and more probably
more favorable treatment than one who might
fail to bring out evidence that would establish
a point or claim - should every effort to
secure complete evidence and my reason -
observations were made on the fact observed.
It is possible, however, that in some instances the
disposition was influenced by the evidence given and
then a better case but still that taking the evidence
in the light of the time and recommendations were made
it will be seen that the more liberal treatment possible

as always occurred from many causes
H. H. H.

Unofficial

Winnipeg 28th July 1885

My dear gentlemen

Now that the rebellion seems to have quieted down I think I will write you the basis of settlement of Homestead Claims as they appear in certain quarters an idea they are very inconsistent at least certain parties try to make it appear that way. I can't understand what I have done to offend them so greatly. I never did anything which should have incurred his mighty displeasure. In particular don't you think your action might now be stopped regarding appeals from decision of L.B. Everyone has had ample opportunity to learn that appeals would be received.

Every claim has been treated on the same basis that would have been accorded applicant if at date he first bona fide settled on his place, the land had been surveyed, Office opinion for entry of the land gone forward made entry and if since then he has done nothing to forfeit his rights. If there is any case where he has not been accorded it has been the fault of the applicant in not stating his case fully enough & it is one which I would only too gladly remedy.

To be brief in explanation it might be stated the land claims were adjusted on the following basis

Any person who bona fide resided on his claim prior to 1st Sep^r 1880 received a free Homestead for a River Lot not exceeding 160 ac. Any excess on that area being sold him at \$1.00 per ac. If resident upon a quarter sec. he received a free H. & if an adjacent 1/4 he was available was permitted to P it, at \$1.00 per ac.

Winnipeg 28th Feb 1882

L. J. J.

but clear for

I have been thinking of writing you for some time but the weather has been so bad that I have not been able to do so. I am now in the city and I am very busy. I am very well and hope you are the same. I am very much interested in the work of the church and I am very glad to hear of your success. I am very much interested in the work of the church and I am very glad to hear of your success. I am very much interested in the work of the church and I am very glad to hear of your success.

[illegible][illegible]

578

Those who settled subsequent to 1st Sep^r 1850 were treated similarly excepting that the P. portion was \$2⁰⁰ per ac.

Lots at St. Albert resided upon prior to 1st July 1870 when area of lot did not exceed 160 ac was granted patent free. When area greater, 160 ac granted free balance at \$1⁰⁰ per ac. which was as liberal as act permitted (See Act. sec f. Sec 81.46 & 17 cap 17). That some of these lots were very small arose from fact of people settling too closely together but my fault ~~was~~ that of the Gov^t.

In some instances questions of heirship affecting claims, where it would be very expensive & perhaps impossible in any event very expensive to applicant, being purely a matter of law, I recommended application under H provisions of the D. L. Act. It could then be treated Departmentally thereby saving time & expense to applicant.

In regard to purchased lands the holder was accorded the same privilege as if he were an original claimant. When by improvement or residence the bona fides of the party from whom the purchase was established.

It may be that many protest, not that they are treated harshly but they consider not so favourably as others. Such a feeling is certain to arise whenever there are many cases. In Edmonton there were upwards of 200. Each case was treated on evidence offered it may be some told a better story than the facts warranted others not nearly so good a one. I did my best to obtain all the facts. did not know the parties personally, therefore had to be guided wholly by the evidence offered.

I notice several cases where the parties obtained all they asked & now protest against the decisions as being "intentional"

There were neither advertisements in 1870-1871
nor business dealings excepting that the P. Point
was \$250 per acre.

Lot at St. Albans which was given to
J. J. 1870 when one of lot was and around 100 ac
was given to Point farm. When one given, 100 ac
granted free value of \$100 per acre which was
as there is no purchase (see Dec. 8, 1870 and
1871). That some of these lots were very small
and few feet of people selling the cheap together
but not found out that of the lots?

A good measure quantity of business
appearing claims, when it would be very expensive
to purchase in some cases very expensive
to appear, being found a matter of law, I remember
the provision of the D. & C. Act. It could then be
the Department, thereby saving time & expense to appear
he referred to purchase cases the matter
was recorded the same principle as if he was an original
applicant. When in improvement or purchase the law
of the point from when the purchase was
established.

It may be that among farmers, but that
and one is likely to be but that is not so far
in other. Such a finding is certain to some extent
there are many cases. In substance there was no purchase
of 200. In the case was treated as evidence offered
it may be some time a better than the fact
consequently others but seemed to give a vote, I
this was best to obtain all the facts. did not know
the point was purchased. Therefore back to the purchase
should be the evidence offered.
I have some cases when the
point obtained all that other than point
against the decision as being satisfactory

"unjust and unfair." e.g. John Harris jun,
Dowling & Co

Many protests are sent in signed
or purporting to be signed by individuals, who
when I was there made their mark. I
suppose they have been educated since.

There is a great similarity in the handwriting.

~~And~~ language of many of these protests
In fact I should think one half of them
were dictated or inspired and written
by the same individuals.

Compts to Mrs Gannons & family
Would like to go up to Edmonton but am
afraid I will not have time.

Very truly yours

Wm Pearce

also have copies of all orders in Journals
(inserted & kept of Statutes)

a copy of the Ordinances and Statutes of the
West West Journals - and a full set of
the Journals & Reports from
the inspection of the Journals down to the
present time.

Thank you very much.

Yours obedient servant

Superintendent

John R. Allen
Secretary
Dept of Education
Albany.

Winnipeg July 24th 1885

Dear Mr. Stoll,

I shall be much obliged
to you if you can have
the Reports, Statutes and
Orders - in - Council mentioned
in written requisition sent
to me as soon as may be
convenient -

Having these books,
my library - I am sure will
be a pretty complete one.
Yours very truly

J. H. R. Stoll

Unmanned July 24 1888

Dear Mr. Allen,

I have to much to do
to open if you can have
the report, I think one
order - in - General's
in which registration
to be as soon as may be
convenient -

Thanking you for
my library - I am
be a great help to me
Yours very truly
J. H. Allen

Confidential

547 373

Calgary Bth Aug. 1885.

Sir

I have the honor to report through you for the information of the Minister on the inspection of the Office of the Crown Timber Agent at Calgary. Made today.

I have marked it confidential as there may be some matters therein which should not be made official; but the Minister is at liberty ^{to make} any portion or the whole of it as official should be desired.

The Agent's appointment dates from the 1st of May 1883. That of the Forest Ranger attached to the Office from the 1st May 84.

The Office has rec^d about 300 letters. There is no means of knowing exactly the number of them without counting.

Prior to the 1st of July 1885, none of them were backed, none have yet been numbered. The action ^{entered} thereon written on the back was yet in the letter register, consequently without looking through the letter book it is impossible to ascertain what action if any has been taken.

The letters sent number 443 but none are indexed later than March 10th 1884.

I instructed the Agent to place his letters sent and received in proper

W. H. Smith }

 Man }

form

Confidential

Sir

I have the honor to report through you for the information of the Minister of the Interior of the Office of the Commissioner of the General Land Office, Washington, D.C. that I have examined its confidential records and have ascertained that the same are correct and be made official; but the Minister is at liberty to make any further or the extent of it as official should be made.

The Agent's appointment date from the 1st of June 1883. That of the Forest Ranger attached to the office from the 1st day of July. The office has now about 300 men there is no census of knowing exactly the number of them without counting. Prior to the 1st of July 1883 some of them were detached, have been yet been returned. The return however appears on the back one kept in the letter register, consequently without looking through the letter book it is impossible to ascertain what return of any has been taken.

The letter sent number 443 but none are included later than March 10th 1884.

I instructed the Agent to place in

letter book and remove in proper form

Very respectfully,
 C. M. Smith
 Chief of Bureau

Copy to Mr. May 1883
 373

former. Of Hume received both on the letter
backs and also in register to indicate
clearly and precisely the action taken
also to have on his files drafts of all
letters sent. For very information with
reference to manner of doing this, would
you apply to the same hands. I have
at the same time requested the Acting
D. L. Agent to show him which is exactly
promised to do.

From Oct. 1884 no cash book
was kept, the only record of any receipts
being \$5.00 for 10 free permits.

Since then (Oct 1884) the total
amount is \$2023.17 + \$5.00 fine = \$2028.17
The amount paid on license permit \$603.00 of the latter
is included in the above
I am also (including all expenses) \$322.78
Total 1826.75

Leaving collected in small amounts by the
Office \$2042. Of this \$36.00 has been received
for free permits, leaving \$1654.20 divided
among twenty parties, one of which he pays
at the last of the River for \$50.00 in license.
Last receipt is about \$15.00, and from
that on to \$100.00 for wood and timber.

The disbursements of this Office
have been.

| | | | |
|--|---|----------|-----------|
| Up to 31 st Oct 1883 | = | \$948.00 | |

from. Of these received both on the 1st and 2nd of Oct. 1884 in register to the credit of the account. The account of all the money received for the purpose of the account of the 1st of Oct. 1884. For very information with reference to the account of the 1st of Oct. 1884. It is to be noted that the account of the 1st of Oct. 1884 is the only one of the kind which has been received to the account of the 1st of Oct. 1884.

From 1st Oct. 1884 to 1st Nov. 1884. The only account of any receipt of money for the purpose of the account of the 1st of Oct. 1884. The total of the account of the 1st of Oct. 1884 is \$100.00.

From 1st Nov. 1884 to 1st Dec. 1884. The only account of any receipt of money for the purpose of the account of the 1st of Oct. 1884. The total of the account of the 1st of Oct. 1884 is \$100.00.

From 1st Dec. 1884 to 1st Jan. 1885. The only account of any receipt of money for the purpose of the account of the 1st of Oct. 1884. The total of the account of the 1st of Oct. 1884 is \$100.00.

From 1st Jan. 1885 to 1st Feb. 1885. The only account of any receipt of money for the purpose of the account of the 1st of Oct. 1884. The total of the account of the 1st of Oct. 1884 is \$100.00.

The Office, is in a building occupied
by Mr. Gouin's family, owned by Major James
Walker. is a room about 10' x 12'. The mess
can be seen from the present door the baggage
can be seen from the present door the baggage

The agents state the following
points are believed in payment. Chiefly
the General Ground Agent, viz. John Walker
Walker, North West Coast of America. Also Elliott
to the latter family of James Mills, who is
said to have left the country. Major
Walker being believed to be at the

The contract made on the 30th of 94
for the purchase of the latter amount
being retained by Col. Dickinson of the R. W.
to satisfy this payment from out of
the contract of said McHugh's, the latter
has however applied to have this amount
returned and I understand it forms
at present a subject of correspondence.
The McHugh and the Head Office
are at present in a state of

of delay in regard
to the claims for timber cut by
the McHugh's the whole matter seems
to be in a very unsatisfactory condition
The Agent was instructed by the Minister
to work for returns under oath of all
timber cut by the various persons. He
states he wrote them all but the records
of his office are in such a condition it
would be impossible to verify them without
examining every return. He promises
to get on as far as possible

so that this or any other information
can be readily obtained, At all events
many of them were replied, those who did
sent returns that were not made out
in conformity with the requirements.

By H.O. letter of 28th March last n^o 8347
he was instructed to collect double dues
The Agent replied on 10th April that the
Ranchmen believed they were entitled
to have all the timber that they required
on their leases free, and suggested they
be asked only ordinary dues and
thus the matter stands. Why he came
to the conclusion that the Ranchmen believed
what he stated is not apparent. I have
no doubt they assented so to him; but
if he would read over to them their leases
they would at once cease to urge that.
The Agent suggested the Forest Ranger
be sent through all the leases and
ascertain what timber had been cut
and by whom; but delay has occurred
on this, as the Forest Ranger states he
is also to do domestic inspections
and the gov^t would furnish him a
horse & buckboard & that such has
been promised him. I pointed out
to him that there were very few domestics
to inspect, there being nothing to inspect
till 6 months after entry and 6 months
ago very few entries were effected in
this district, that it would not be till next
spring there would be sufficient of that work
to do to warrant the expense of inspections
he

to that this or any other information
 can be readily obtained, all the
 many of them were refused, those who
 sent letters that were not made out
 in conformity with the requirements.
 By H.O. letter of 28th March last No. 8347
 we were instructed to collect statistics
 the agent replied on 10th April that the
statistics believed that were sent
 to show all the timber that they require
 on their lands free, and suggested that
 be asked only ordinary data such
 as the better blocks. Why we came
 to the conclusion that the statistics before
 sent in relation is not sufficient. I have
 no doubt that statistics to be true; but
 if we would send one to them their
 they would at once come to see that.
 The agent suggested the Forest Ranger
 be sent through all the lands and
 ascertain what timber has been cut
 and by whom; but clearly has occurred
 on this, as the Forest Ranger states he
 is also to do the same. I have
 sent the first would furnish him a
 have the other and that will be
 been furnished him. I pointed out
 to him that there were very few statistics
 to report, that being nothing to report
 the 6 months after the last one I sent
 ago very few statistics were effected in
 this district, that it would not be the last
 thing that would be sufficient of that work
 to do to increase the volume of information

In the mean time as I pointed out to the Agent the work of a Forest Ranger could easily be done without a horse & buckboard. There is only one settlement to the north: viz Red Deer. That could be reached by the Edmonton Stage (weekly) so that he need not be delayed there. At Morley to the West passenger trains three times each week. Medicine Hat. Cypress Hills by train to Medicine Hat. Irvine and Maple Creek, not many miles from the two latter points to the timber in the Cypress Hills, could be walked, if conveyance ^{& cheaply} could not readily be obtained. To the South we could take the stage to Pine Creek, there being 2 stages each week from Calgary to McLeod, go through the settlers there, then to Sheep Creek not more than 12 miles, see the ranches and settlers there, about 10 miles from there to High River, do the same there then to Ranches on Mosquito-Creek. Pine Coulee, the Leavings &c. If stage not coming along and no chance ^{to walk} it could be walked without entailing over caution. From McLeod there is a mail to Medicine Hat weekly and no doubt he could go thence, again from McLeod to Lethbridge there would be plenty of chances for conveyance. That in all these settlements I thought no trouble in obtaining fairly good stopping places with the settlers. That if his time were fully occupied it could certainly be advisable to *proceed*

For the present time as I pointed out to the
agent the work of a Forest Ranger could
easily be done without a horse & harness
there is only one objection to the work.
viz. that there, that could be reached by
the Government stage (weekly) so that he
need not be charged there. At present
to the West Ranger Station there is
no horse, therefore that, if you wish
to have a horse there, you can
happen to be there, but you can
the two latter points to the station in the
Government stage, could be reached, if necessary
could be reached, in the Government stage, to the
station in the Government stage to the
station, there is a stage road west
from Calgary to the west, so through
the station there, there is stage road out
there there is a road, see the station
and station there, about 10 miles from
there to High River, so the station there
there is station on Highway - Creek. Give
there, the Government stage of stage out
going stage and on Highway - Creek.
In the station without taking over station.
There is a road to station
there is a road and on about the road
to station, going from the road to
the station there is a road of station
for convenience, that is all there is
I thought we should be obtaining fairly
good stopping places with the station.
That of his time was fully occupied
it could not be reached to

provide him a horse and buckboard, but he might as well put in a portion of his time walking over the country as in Calgary doing nothing, that the little work done by the Crown Timber and Forest Ranger, Collector of Natural History was becoming a public scandal it was the duty of such official to prevent such as much as possible.

Of the Free permits issued only one has been returned properly filled out and sworn to, as the regulations require not later than the 1st of May in each year. I instructed him to notify all parties to comply with the regulations.

States he has been instructed by the Head Office not to incur any expense without authority, otherwise such expense would be charged against his salary. Therefore he has been unable to look after his district as closely as he should, that he believes the timber is being plundered from off the public domain, but under such restrictions he is unable to prevent it. I think without incurring any greater expense if a fair effort were made by him and the Forest Ranger the Public Interests could be much better served. I pointed out to him that it was not a matter of expense that the records of his office were not kept as they should, ^{in copy as stated} and he was waiting instructions.

He

reply to question why he did not apply to the Home Lands Agent for information stated he did not like doing so without special instructions, that he thought the officials in that office did not care to have him trouble them. That is I think a very childish excuse.

N. W. Coal & Saw. Co have a mill West of Inland & have paid no dues for some time; but so far as I could discern from records of his office no request has been made for such payment. Instructions Agent to notify all parties with overdue accounts to pay them as soon as possible. This Company has cut on ^{for their own use} limit B, the following 178 206. By lines. 424 pieces of piling containing 11100 lineal feet and 40200 ft. B.M. squared spruce timber.

4000 telegraph poles for the Gov^t.

385 pieces of piling containing 11410 feet lineal measure for the C. P. Ry.

If the telegraph poles were taken out by this Co under tender or ~~contract~~ any arrangement I presume the dues should be paid unless the contract or arrangement specified to the contrary.

In any event I submit the dues on the material furnished the C. P. Ry should be paid. I would strongly recommend these matters be looked after without delay.

The above returns were made under call by Mr Barclay Chief Engineer of that Co.

L. L.

likely to question why he did not apply
to the Hon. Secy for information
relative to this and like thing as matters
of special instructions, that he thought the
officers in that office did not care to know
them. That is I think a very
childish excuse.

N. H. Case & Son. Co. have a bill
from of the Secy & have found in them for
from them; but so far as I could ascertain
from records of his office no request has
been made for these payments. Instructions
given to audit all parties with vouchers
accounts to find them as soon as possible
this company has not as yet paid to the
following 178 200. 1st day. 1st piece of
finding containing 14100 lines for and 14000
H. B. M. require of these matters.

4000 telegraph poles for the 1st
382 pieces of finding containing 1410
first line of telegraph for the 1st day.
of the telegraph poles was taken out by
the 1st under line or telegraph company
I presume the lines should be found under
the contract or arrangement specific to the
Contract.

In my mind I believe the lines on
the contract provided the C. & P. should
be found. I would strongly recommend
that whether we looked after without
delay.

The above returns were made under
with the telegraph company of 1st day

The agent was instructed that any dues on material for Ry. Card by the H. W. Coal & Iron Co. on limit N. would by special arrangement be paid at the Head Office.

The Agent states the Office is now closed during hours. If he is answering himself the Forest Ranger is there to meet the public. This does not agree with what has been represented to me; but possibly is correct.

It would only be fair to the Agents that a copy of this report be sent him for any explanations thereon he may wish to offer, as it is possible some injustice may be done him in this report.

Owing to want of time and even eyes preventing me working at night and having no one to write out a fair copy must be my excuse for this hastily-prepared report.

I remain the honor to be

Sir

Yours obedient servant

Wm. Lence

Sup't

the agent was instructed that any
 class or institution for the poor by the N. W.
 could then be on limit N. would be of service
 arrangement be found at the Hotel Officer.
 the agent states the officer is now
 classed during hours. If he is coming
 himself the Forest Ranger is then to
 meet the parties. This class was agreed
 with what has been recommended to me;
 but possibly is correct.

It would not be fair to the
 agent that a copy of this report be
 sent him for any report on this matter
 be made with to offer, as it is possible
 a more important report be done him in this
 report.

During the week of time and over
 the following are working at night
 and having no one to write out a fair copy
 cannot be any more for this week.
 Discontinue report.

I leave the matter to

be

Yours obediently

 Calgary 19th Sep^r 1885

A page of handwritten musical notation on a single staff. The notation is dense and covers most of the page, with some larger, more complex figures at the top. The handwriting is in dark ink on aged, slightly yellowed paper. The notes and rests are clearly visible, though the specific musical notation is not standard modern notation, possibly representing a specific dialect or a stylized form of musical notation. The overall impression is one of a personal or working manuscript.

Sir,

I have the honor to acknowledge the receipt of yours of the 17th July 1914 having reference to the entries of W. S. Ross & J. L. Forks, that the former be permitted to homestead legal subdivisions 2, 4 & 8 NW 1/4 legal subdivisions 1 & 5 NW 1/4 SW legal subdivision 9 & 10 all in sec 28, & will preempt the NE 1/4 21. That the latter be granted homestead entry for legal subdivisions 3, 4 & 5 and NW legal subdivision 6 all in sec 24. Also E 1/4 legal subdivision 1 sec 28 & will preempt the N.W. 1/4 22 all in Tp. 54 R 22 W 4

This arrangement could have been carried out in the first place, had either of the parties asked it, but both seemed agreeable to take it as allotted which was as they requested.

I have the honor to be

your obedient servant

5

Sir, I have the honor to acknowledge the receipt of yours of the 21st July 1880 being application of Severe Villeneuve to homestead the SW 1/4 27-54-25 W 4th and to preempt the SE 1/4 of same Sec. There is nothing in the evidence to show what was the nature of Ocean's claim, but from the fact of Applicant having purchased it in July & commenced residence early in Oct following (1880) though 1st Sept 1880 was the date fixed when price of preemption in your district was advanced from \$1. to \$2. per ac., his purchase in July showed his intention and he carried it out by commencing residence immediately after, he may therefore equitably I think be accorded his Preemption at \$1. per ac. & you will please so inform him.

return in summer and retirement in winter
 with much better success and no need
 of any more of kind of the transposition
 in which of course and, however, is considered
 most correct in fact and in principle as
 present writing is in this and also nearly
 correct alignment and in me. Who at
 it not only at the time, it also and at
 least think I have to present. P. K. are
 kind of a. I. it very good
 should

Should it be decided to accredit him.

Entirely it would be sufficiently liberal
treatment to grant him merely a
homestead right to the S E 1/4 of said section.

The claimants in the vicinity
of the forks of the Saskatchewan are
Jacob Beas, Marville & his son - Mr.
Hiram Schanzer. He claims at Cumberland
House. The claim of Mr. Schanzer has
already been taken by the Dept. and an
answer has been given. Jacob Beas
has sold his right in a portion of it to
other parties who purchased as a speculation.
Marville's son, Daniel Marville, claims the
N 1/4 10 - 49 - 20 W 4. whose case is in
C.O. file 40776 which is also indexed with
this. It will be noticed that

Daniel Marville claims the N 1/4 10 as heir
to his brother David whose evidence was
taken by me at Prince Albert on the 20th Feb
1884 from which it will be seen that the
improvements on the claim are of very little
value and no residence has been put in
and no material loss would accrue
were the claim allowed.

of 24 1884

Calgary Sept 4

Sir,

I have the honor to acknowledge the receipt of yours of the 24th July 1890 having reference to the applications of Harry Robertson to homestead the 1/2 1/4 20 50 20 40 and of Thos Anderson on behalf of his son to purchase the said 1/2 1/4 20 50 20 40 and to procure the 1/2 1/4 of 15 40 8 of the same section the price to be 1. per acre

There does not appear to be any reason why Harry Robertson should be accorded a homestead right to the said portion of land, as his father informed me that during Harry's purchase the claim immediately to the said land for his nephew the said Harry, and that he would make homestead entry there as soon as the dispute concerning the

Agent B.C. Lands }
Edmonton

his boundaries was settled, by which
 time it was understood he would be
 18 years of age and entitled to
 make Homestead Entry. What
 disposition Dwyer now intends making
 of said claim does not appear;
 but there certainly does not appear
 to be any reason why Harry
 Robertson rather than any other
 applicant should have the land in
 question, therefore no hardship is
 inflicted or injustice done by refusing
 his application.

As to the claim of
 Anderson to purchase on behalf of
 his son I have no doubt his statement
 as to the transaction between him &
 Schneider is correct. He has lost heavily
 through Schneider over this land claim,
 solely however his own fault, a mistake
 in judgment, and a bit hard-swing
 he is forced of a little money.

See fit would recommend it be sold
to Anderson's son

As to the price there is no
evidence on the file. to show whether it should
be sold for \$2. for so Mr. Anderson states it
was acquired by Meyer "who resided here on
"and had done with his brother-in-law done
"so and performed household duties since
"1874." Mr. Anderson does not state the
facts as brought out in evidence taken
before me which was. This claim was
originally taken up by an Indian named
Hord who in the Spring of 1892 sold to
Meyer who lived here on 3 or 4 weeks & sold
to H. R. R. from whom Anderson purchased.
It may be that Hord was a brother-in-law
of Meyer's & lived there since 1874 but
being a needy Indian no claims can
be allowed through him. Therefore the claim
was a legitimate claimant to the land
and the Spring of 1892 at which time

land was \$2.00 at which price it
may be sold Mr Anderson's son.

Further the total value of the improvements
on the land in question would not
exceed \$50.00.

It may be however that
owing to the misfortunes which have
attended Mr Anderson in regard to his claim
the minister may see fit to sell it him
at \$1.00 per acre and you will inform
Mr. Anderson of the reasons which as a
matter of course prevent it being sold him
at a less price than \$2.00 per ac. and
if he contends still he is entitled to it
at \$1.00 per ac. you will please forward with
his application this report to the Minister
for his consideration and decision.

I have the honor to be

Yours obedient servant

[illegible]

the boundaries was settled by which time it was understood he would be 18 years of age and entitled to make homestead entry. What disposition Doty now intends making of said claim does not appear, but here certainly does not appear to be any reason why Harry Robertson rather than any other applicant should have the land in question, therefore no hardship is inflicted or injustice done by refusing his application.

As to the claim of Anderson to purchase on behalf of his son I have no doubt his statement as to the transaction between him and Schneider is correct. He has lost hearing through Schmitt over his land claim, solely however his own fault, a mistake in judgment, and as the land may be disposed of as the Minister may see fit, would recommend it be sold to Anderson.

As to the price there is no indication on the file to show whether it should

should be \$1. or \$2. per acre. Mr. Anderson states
 it was occupied by Meyer who resided
 there and had along with his brother -
 - in-law done as a performed homestead
 duties since 1874. Mr. Anderson does not
 state the facts as brought out in evidence
 taken before me which was: this claim
 was originally taken up by an Indian named
 Ward who in the Spring of 1882 sold to
 Meyer who lived thereon 3 or 4 weeks and
 sold to McRae from whom Anderson purchased.
 It may be that Ward was a brother-in-law
 of Meyer & lived thereon since 1874 but
 being a treaty Indian no claims can be
 allowed through him. Therefore there never
 was a legitimate claimant to the land
 till the Spring of 1882 at which time land
 was \$2. at which price it may be sold
 Mr. Anderson says. Further the total
 value of the improvements on the land in
 question would not exceed \$50.00.

It is

It may be however that owing to the
 misfortunes which have attended Mr. Anderson
 in regard to his claim the Minister
 may see fit to sell it him at \$1.⁰⁰ per ac.
 And you will inform Mr. Anderson of the
 reasons which as a matter of course
 prevent it being sold him at a less
 price than \$2.⁰⁰ per ac. and if he contends
 still he is entitled to it at \$1.⁰⁰ per ac.
 you will please forward with his application
 his report to the Minister for his consideration
 and decision

Could have purchased a portion
 at a reasonable price as as to seem
 to him his improvements. It is
 possible he has been paid for his
 improvements. There is nothing to show
 during what years he was a member
 of the N.W.M. Police. She further asks
 that the acres above 160 ac. be sold
 him at \$1.00 per acre, but does not
 state the grounds on which he bases
 his request. As to not being paid
 sufficiently for the material taken to build
 the location at Ft. Saskatchewan. You
 will please advise him that he must
 apply for redress to the Dept. of Militia
 and Defence, that the Dept. of Interior
 cannot take that into consideration when
 dealing with his land claim.

After reviewing all the evidence
 offered the only action that can be
 taken in his case is to grant him
 Homestead entry for 160 ac. for which the
 balance the price of \$1.00 per acre to be paid
 in cash.

Calgary Sept 4th

Sir,

I have the honor to acknowledge the receipt of yours of the 14th inst which was lying here on my return two days ago.

I have mailed this day to you a ~~address~~ a map of Alberta the only one we have for general distribution there is one recently issued which contains much fuller information, showing all the surveys effected up to 31st Dec 1884. It is in 3 sheets, the westerly one would contain what you wished - It is an expensive map and is I think intended for sale - If you will enclose \$1.00 to the Secy of Dept of Interior, Ottawa, and request the westerly sheet of the latest map of the North West issued to be sent you - I have no doubt he will cause one to be sent.

If not your money will be returned

There are out our blank forms for lease applications that I am aware of. all applications for leases should be sent direct to the Minister of the Interior. If a small lease specify what particular sections in the Townships and Ranges you wish. If a large one it will only be necessary to state what particular Townships & Ranges you desire. When applying for map you might also request blank forms of lease applications, if there are such, to be sent you.

The first time you are here by calling at the Land Office, you will see the map mentioned and from it you probably can readily make a memo of the information you desire.

I have the honor to be

Sir.

I have the honor to acknowledge the receipt of yours of the 28th ult 34894 on 41528 enclosing copy of a letter from Mr. J. Clarke concerning James Barwis claim to the S.W. 1/4 22-24-1-40th and in reply beg to state that this matter was arranged between Mr. Barwis and myself immediately on my arrival here. I think all the land matters in this vicinity are now or will be satisfactorily arranged excepting the preferred claim of W. D. Kerfoot manager of the Cochrane Ranch Co. to the N.E. 1/4 18 who protests most emphatically to what I considered exceptionally liberal treatment his claim being one which might very well be ignored, also the claim preferred to the N.W. 1/4 of same section which however cannot be settled until some further surveys.

Dear Mr. Burgess

I have to day reported
officially on the claim of Mr. Scollen
to the E. & S. Co. in which
from the evidence I infer it is optional
with the C.R. Co. whether they
waive their claim or not. If they be
granted without their acquiescence, they
will no doubt get in a big bill for value
of land accruing to them, given away
by the Govt. Now they wish told me
verbally that the C.R. Co. would waive
their claim to the S. & S., that patents had
issued to his Company for the remaining
3 quarters of the Sec. . He gave as reason that
it would not do to quarrel with the hierarchy
but the Rev. Père Scollen having lately talked
over the traces and been expelled from the
Priesthood, he may change his mind and

W. H. L. L.

Calgary Sept 5

Sir

In reference to the claim of
 Mrs Seallen to the S.E. 1/4 of Sec 9 - T4 - R. 5th
 I have the honor to report
 The first improvements were made in
 1879 by a half breed, which improvements
 Seallen purchased last year and would
 appear to have consisted of 3 ac of breaking
 + ac. additional in 1880 " 3 ac. in 1881
 10 ac cropland in 1883 2 ac in 1884 none
 this year, and fence enclosing said
 breaking now in very bad condition, has
 a house which he values at \$300. other
 building work \$150. all the improvements
 are on the S.E. 1/4 of said Sec 9. There
 are two affidavits on file. in one he
 states he commenced residence in June 1881
 in the other in June 1882. It is probable
 the latter is the correct date. He states
 lived from 1877 up to the date he commenced
 his

A. M. Burgess Esq
 Dep. Minister of Interior
 Ottawa.

615

his residence he resided on the Mission
 Claim 11/2 Sec 10 same township and
 so soon as surveys were sufficiently
 advanced to enable him to know where
 his line was between Mission and his
 Claim, he crossed into Sec 9. As to that
 the 5th Principal Meridian was established
 in 1880 so that by measuring across 3
 miles the line between those claims would
 then have been at least approximately
 determined by anyone within at least 50 yds
 where the line would be. In the summer
 of 1881 the 5th limit of his township was
 surveyed so that at that date the
 limit between sections 4 & 9 could have
 been accurately determined.

The C.P. Ry act became
 law on the 15th July 1881. which vested in
 that Corporation this Section, if title thereto
 was at that date vested in the Crown.
 It.

615

It will I think be admitted that at that date the right was vested in the Crown, the act of Seollen not having been sufficient to alienate it, therefore it rests wholly with that Corporation whether they waive their claim to this $\frac{1}{4}$ Sec or not. He certainly has no claim to preempt the $\frac{1}{4}$ Sec.

I understood from Mr. McDavid of the Land Comm^{rs} that the C. & P. Co. would waive their claim to this $\frac{1}{4}$ Sec, if so, Seollen may be granted entry. I have this day written Mr. McDavid asking him to notify this office officially whether that Corporation waives it or not. He Mr. McDavid informed me the patents had issued to his Co. for the remaining 3 quarter sections of Sec. 9.

I have the honor to be
 Your obedient servant.

To Subpoena (Dues Licensum)
 620 William Thompson
 of Tp 21 - R 28 W 4th P.M.
 Greeting

You are hereby commanded that all things set
 aside and ceasing every excuse you be and
 appear in your proper person before me the
 undersigned at the Dominion Lands Office
 Calgary at 10 o'clock in the forenoon on
 Wednesday September 9th 1885 and so on from
 day to day to be there and there examined upon
 oath touching your knowledge of all matters in
 dispute between yourself and William Thompson
 concerning the S.E. 1/4 16. 21. 28 W 4th P.M.

And you are to bring with you and
 produce all papers and writings in your
 custody, power or control in any wise relating
 to the said matter, and take notice that if
 you neglect or refuse to appear at the
 time or place aforesaid you will be
 liable to be taken into custody and to be
 imprisoned in the nearest common gaol
 as for contempt of court for a period not
 exceeding fourteen days.

Given under my hand and seal this
 7th day of September 1885 at the Dominion Lands
 Office, Calgary

Wm Pearce,
 for the Dominion Lands Board

I William Thompson of Tp 21 - R 28 W 4th
 herein make oath and say that I
 served on the said William Thompson a
 true copy of the above subpoena at
 on day of
 at the hour of
 noon 1885

sworn before me at
 this
 day of 1885

Sir

Calgary 7th Sep^r 1885

I have the honor to enclose herewith report on the claim of O. H. Smith and Lufftelli French. to the SE $\frac{1}{4}$ of Sec 35-19-29 W 4th & the SW $\frac{1}{4}$ and N $\frac{1}{2}$ of Sec 35-18-29 W 4th which after making the necessary entries in your books please forward to the Head Office.

I presume whatever action may be taken in such cases it will be advisable both you and myself should be notified. Or it may be well that you alone should be notified, and in ^{or the necessary Agent of Dom Lands} ~~him~~ I should be notified from your office.

It occurred to me that until a final decision was come to in such cases as this, where cases are referred to the Minister for an expression of opinion, it would not be necessary to go through your office, as was done in the case of Street and Scott. However it would I think be well that a record should be kept in your office, provided such did not entail delays or oversights. Perhaps you can devise some scheme whereby a record of such cases as this may be kept in your office, at the same time not incurring delay or probable oversight.

I have the honor to be

*Winnipeg
Cove - 10 miles
H. W. Smith*

Calgary Sept 11th 1895

Sir, I have the honor to enclose herewith copy of a declaration taken by me from one Orville Hawkins Smith concerning his and Lafayette French's claims to S.E. 1/4 1-19-29 N 4th and S.W. 1/4 and N.W. 1/4 Sec 35-18-29 N 4th

From this it appears that French and Smith lived together from Oct. 1879 to 1883 on the S.E. 1/4 1. Smith still lives there and has done so continually since 1879 except about 6 months when he lived on N.W. 1/4 35. They have extensive improvements and have proved good irrigating sections.

They now ask that 160 ac be patented free to each as homestead & that they be permitted to purchase the balance in Sec at \$1. per ac.

I informed Mr. French that on his part claiming to Smith all interest in the

A. M. Burgess Esq

Dep. Min. of Interior

The S.E. 1/4 1-9-29 N. 4th. There was nothing to prevent
 him Smith applying for Entry as a homestead,
 and obtaining patent and that the remaining
 2 quartersections could be sold him and
 Smith at \$1.00 that I could see no grounds
 to recommend a free homestead patent to
 each for 160 ac.; but that the case would if
 he requested be referred to the Minister of
 Interior who possibly may see his way
 clear to carry out what he wished. He
 requested me to refer it which I now do.
 You may remember meeting French with
 a deputation of Miners who waited on you
 in Calgary, and one Andrew Bell has
 I understand spoken to you concerning
 this claim.

I have the honor to be

587

Calgary, Sept 7th

Sir, I have the honor to acknowledge for
 consideration and decision of the Land
 Board the case in dispute between
 Chas Spaulding and Mrs Lynch concerning
 the NW 1/4 29-18-24 or 25

The facts of the case are
 clearly stated in the affidavits of
 Lynch & Spaulding and I have but
 to add.

When Mr Spaulding first
 applied for entry, his application was
 refused, he renewed it which reached
 Ottawa when I was there, and it was
 referred to me. Had I then known
 the true position of affairs he certainly
 would not have been recommended to
 be granted pre-emption entry to the NW 1/4 29.
 His reasons for affirming at date he
 made

Commrs Bone Lands }

made entry on 30th June, that the land
 was unoccupied and unimproved, as
 stated in his affidavit taken before
 me, as not I think strictly correct.
 When I told him Mr. Gordon would be
 requested to make a statement on that
 point, he stated he hoped Mr. Gordon
 would not get into trouble over it. Certainly
 he could not have explained to Mr. Gordon
 the facts as at that date they really
 existed, otherwise he could not have
 given the advice which I am giving
 now. As to the breaking,
 I measured the breaking on Dec 30. and
 it equals only 34 ac. He was paid for
 5 ac. which would include all time was on
 both N.W. 1/4 29 & N.E. 1/4 30. Again he
 stated there were 40 or 45 ac. breaking done
 by him on N.W. 1/4 29 which is not the
 case, he explained that by saying he
 did not mean to state that, he is an
 intelligent man. Further Lynch requires
 all he has enclosed for stock purposes
 which

which stock he has now on hand. Spending of he requires more than a 1/4 Sec, which he probably will not for years, can preempt the S.E. 1/4 of the land by anyone in him of the 1/4 which Lynch has enclosed.

As a matter of principle I think all titles to modern settlers, unless like Lynch they have a large amount of stock, should be confined to half a mile or less of River front & bottom lands, otherwise a very few settlers will monopolize all the watering places & valuable lands, leaving those in ^{in such a position} the poor, that they cannot be advantageously situated. - Lynch asks a Homestead & Preemption value 1/2 mile on River, taking the latter in the poor, and Sec. 29. being a school sec is prepared to lease it, and when asked take his chances of purchasing it, in the meantime grazing his stock on it does not cause it to deteriorate

[illegible]

deteriorate in value, but the reverse.

In the Spaulding family there are two brothers and the widowed mother, plus one sister. - The widowed and brother have each made homestead and preemption entries. And this Chas. Spaulding states his brother and mother intend keeping stock on their places, and he utilizing his for farming.

One $\frac{1}{4}$ sec on the bottom will probably afford him all the land for grain growing that he can employ with profit for many years. - The family have, it will be seen, been fortunate in obtaining land. - Further he never objected to Lynch enclosing his property.

Again at the time he settled he knew or might have known Lynch's claim which had always been respected by the old settlers, that others had as little respect for Lynch's claim as Spaulding. It would have been settled upon long before the Spaulding came to the country - Lynch has

has been for years a large stock
raiser, has now 300. horses, 40. head of
burned cattle, of the horses 130. are brood
mares of very high grade, 3 fine
stallions. 2 imported from Kentucky, was
the finest herd of horses I have seen
in the North West.

In Spaulding's Evidence taken
on 6 April 1885 he states, as soon as survey
work place he gave up the idea of pre-
empting the N.W. 1/4, and expected to obtain
homestead entry to only the N.E. 1/4, and
had he obtained it, he would no doubt
have been liberally enough treated.

Nearly all the settlers on High River condemn
Spaulding for the action he has taken.

After reviewing all the evidence recommend
Spaulding's preemption entry to the N.W. 1/4 29
be cancelled. If he wishes he may be
permitted on paying fresh entry fees
within

at the present time it was of interest
 to the whole world. The fact that
 the world was so interested in
 the situation at the time of the

But the license to pass the line
in Feb. 1885 being now granted to
one John William Alley, returns of
same were made to land office
on 5 March 1885

In the case of "look"
L. off. they might be informed that
there was plenty of land, just as
suitable, available for entry, had it be
requested. Edwin A. L. off. would be
granted the privilege of making 2nd entry
assuming this entry will be cancelled, that
they might come out select their lands
make entry and begin pe-dance thereon
and if they comply with the domestic
requirements no trouble will arise
as to the claim of James B. B. B.
to the land in 1885 that has been
arranged satisfactorily to him.

Regarding the claim of William B. B.
his son James informed me today that
the said William had been to
the

The 11th - Nov. 1865 that he was
 sitting at breakfast in camp at some
 place 5 or 6 miles north of Coleridge
 but had not yet started or entered
 the snow which had been open for.

Chicago, Sept - 5

Sir

In reference to his application
of one Edward Martin to cancel the
entry of John A. Goff to the H. V. No. 28
it is known that he had to inform you
that he has been discharged and a
copy of a letter from Col. Barlow
Quarrel to the Minister of Interior on a
case of Schencksville the 11th in which
the other Goff did not come out same
on account of the North West Rebellion, that
he is still under a law and will leave
the room as he leaves his entry card has
been answered, that he made his entry
on 6th Sept. 1884 but I have informed that
entry has been on a date to be considered

Yours truly
John A. Goff

2 - 1849

in the morning

at 10 o'clock I went to the
office and found a letter from
Mr. A. B. C. dated the 1st inst.
and another from Mr. D. E. F.
dated the 2nd inst.

The letter from Mr. A. B. C.
was in relation to the
business of the company and
the letter from Mr. D. E. F.
was in relation to the
same.

I have been thinking of
writing you for some time
but have been so busy that
I could not find time.

I am very glad to hear
that you are well and hope
that you will continue to
be so.

I am, dear friend,
very truly,
Your friend,
J. K. L.

Said Order, all the papers in
connection therewith having been forwarded
to your office and the Hon. Mr. Martin
has made improvements thereon.

From Mr. Lewis letter I
would infer that P.O. address to be
sent to C. of Historic Quebec. and would
suggest he be communicated with
regarding said Cancellation. He might
be informed of Cancellation Enures
he will be granted the privilege of
making second entry. As possibly it
might be well to contain his entry by
paying into the hands of the agent for
benefit of the value of the
improvements put thereon.

In this connection would
it not be well to have a notice printed
in large type, and posted in each office
drawing the attention of the public to the
provision of the closing portion of Sec 29,
46 of the Cap. of the Province until he

obtains

Calgary, Sept 14

Sir, In reference to the application
of one David Martin to cancel his
entry of claim & golf to the N^o 21-22 N^o
W 4th I have the honor to inform you
that there has been forwarded me
a copy of a letter from C^o. Martin
dated at Athabasca while he was in there
he states golf did not come out sooner
on account of the North West Rebellion, but
he is all ready to come, and will
leave as soon as he learns his entry
for this land is correct that he made
his entry on 6th Sept 1884 but has been
informed his entry has been or is about
to be cancelled. Mr. Kirby acting
agent informed me that there is an
application to cancel his claim.

Very respectfully,
C. J. [Signature]

All the claims in connection therewith having
been forwarded to your office and the findings
therein have made improvements therein.

From C. L. Davis letter
would note sufficient address to be
Leeds Co. for registration. Quises and would
suggest that the communication with
regarding said cancellation ~~as~~
might be informed if cancellation ~~was~~
he will be granted the privilege of
making second entry or, possibly it
might be well to sustain his entry
on paying into the hands of the agent
for benefit of Martin the value of the
improvements put therein.

In this connection where
it will be well to have a notice
printed in large type and posted in
each office directing the attention of
the public to the provisions of the
closing portion of Sec 24-46 of the C. L. C. 19
no person until he obtains this
notice

My dear friend

I have just received your letter of the 10th inst. and am
glad to hear that you are well. I am
also well and hope these few lines
will find you the same. I am
very much interested in the
progress of the cause and
am glad to hear that you are
so active in it. I am
also glad to hear that you are
so well liked and respected by
all who know you. I am
very much interested in the
progress of the cause and
am glad to hear that you are
so active in it. I am
also glad to hear that you are
so well liked and respected by
all who know you.

men

Handwritten title or header, possibly "The ..."

Handwritten text, likely a letter or report, containing several paragraphs. The text is written in a cursive script and is somewhat faded. It appears to be a formal communication, possibly related to business or government affairs.

Handwritten text at the bottom of the page, possibly a signature or a closing note.

men who should be encouraged - Would like to obtain a lease of the W. 1/2 S. 1/2 14 & 18 in the 29th Rge west of the 4th 1/2th line the 1/2th S. 1/2 14 & 18 in Rge 30 and would be disposed to it being granted subject to any homestead and preemption of the even sections, states that owing to the scarcity of water all fit for settlement has already been taken up -

Thus B H Lechman R. W. told me he expected to obtain a lease of the W. 1/2 14 R 29, 1/2 R 30 W. 1/2 4th & 1/2 R. 1. W. 5th. If that be granted him, then Lynch might possibly be granted all of 1/2 18 R 29 & 1/2 18 R 30 also W. 1/2 1/2 18 R 28 all W. 1/2 4th. A good deal of this is already occupied by settlement probably about all that will be for some years, and the lease could be granted subject to settlement.

By referring to 1/2 & No. 4 is to 1668 you will find that it includes an application by Lynch, Emerson, French "Buck Smith", whose correct name is Jasper Smith, O. H. Smith

and

and others. I saw several of the parties and they are not particularly anxious to obtain a lease, in fact the application was I understand put in as it was by Mr. Fred Simpson, intending each should obtain a separate lease, whatever consideration might be shown by reason of such application could now be extended to Lynch or this might be considered a fresh one by Lynch.

Subject to the right of home-
steading and pre-empting the open sections by
actual settlers I beg to recommend Lynch's
Application in the most favorable consideration of
the Minister. Any Communications to him to
be addressed to High River P.D.

I have the honor to be
Sir

W. Pearce
Supt.

Gentlemen

Calgary Sept 5

I have the honor to acknowledge
the receipt of yours of the 13th ult. having an
application on behalf of Rich^d H. Anderson,
Andrew Henderson, Edwin Rogers, Thos. Braden,
James Walker and James A. Langford for a
portion of Sec. 18 - T¹ - R. 5th to be set aside
as a public cemetery.

The application was received
just as I was leaving Calgary - for
an inspection trip in the vicinity of Medicine
Hence delay in answering, which I regret.

In reply I have the honor
to state that I have this day forwarded a copy
of your application to the Minister of
Interior, recommending it to his favorable
consideration.

I may state that an
application has also been made by the
Calgary Town Council for a part of the
same land for cemetery purposes
and

Yours
Major James Walker
and others

[illegible]

and in an interview with Mr. Mundsack
 Mayor of Calgary to day, his objection to
 granting to a company was chiefly on the
 ground that it might be made denominational
 and no provision would be made for burial
 of parties unable to purchase a burial plot,
 and further he thought the town clerk I
 represented on the board of management.

If you can obtain the acquiescence of
 the Calgary Town Council in the grant
 being made to your company, it would
 I think greatly strengthen your application.

I would suggest as advisable that
 your company should make a proposition
 to the Govt. in as tangible a form as possible,
 stating what was your purpose setting apart
 as you for the plots. at what price you propose
 selling plots. size of same, that it should be
 open for burial by all without regard to creed
 or nationality. & when after receiving from
 Govt. the amount of expenditure, & a legitimate
 rate of interest, what percentage of the receipts
 would be devoted to improvements and
 in improving the grounds, that is, enclosing
 premises, constructing walks, drives, planting shrubs,
 trees, flowers, erecting a dead house, and other
 necessary buildings. I have the honor to be
 Yours obedient servant

629

Calgary Sept 5

Gentlemen, I have the honor to acknowledge the receipt of yours of the 1st inst being an application on behalf of Rich^d Hardisty, Andrew Henderson, Edwin Rogers, Thos Braden, Geo Walker and James A Longhead for a portion of Sec 18-24-1. N. 5th, to be utilized as a public cemetery.

The application was received just as I was leaving Calgary for an inspection trip in the vicinity of Fort Macleod hence delay in answering which I regret.

In reply I have to state that I have this day forwarded a copy of your application to the Minister of Interior recommending it to his favorable consideration.

I may state that an application has also been made by the Calgary Town Council for a part of the same land for similar purposes and in an interview with Mr. Herbert Mayor of Calgary to day his objection to granting the same was chiefly on the ground that it might be made denominational.

Yours
Wm Jas. Watson

Dear Sir

Re Calgary Cemetery

On behalf of the Cemetery Trust I beg
 the honor to make application to
 you, some few months ago requesting
 a grant for cemetery purposes for
 the Town of Calgary. We beg
 to again present the application and
 urge upon the Government the necessity
 of the grant being made either to
 the present applicants or others.

If granted we will shall at
 the coming session of Dominion Parliament
 make application for letters of
 incorporation and proceed as an
 incorporated Company to make the
 necessary improvements upon the grounds
 We consider that if the grant be made
 to

Yours faithfully
 Wm. J. G. G. G.

to the present Applicants, that the same
will meet the hearty approval of the
Citizens of this vicinity - We again take
the liberty of mentioning the names of
the proposed Company

Richard Hardisty Chief Factor Hudson Bay Co.

James Walker

Lumber Manufacturer

Andrew Henderson

Doctor of Medicine

James A. Longhead

Solicitor

Edwin Rogers

Hardware Merchant

Thos Braden

Publisher

Should the Government at once make the grant
to us we should be pleased to
immediately commence operations in
placing the grounds in proper condition
for its proposed use. We might further
state that at present there is no public
 Cemetery in this district of country. On
behalf of the Company we are

Yours respectfully

J. James Walker

J. James A. Longhead

Calgary Sept 5th

Sir,

I have the honor to enclose herewith
Copy of an application by Rich^d Standley
and others for a portion of Sec 8 - 14 - 15 for
Cemetery purposes and my reply thereto which
falls in with my view on this matter.
As it will be some time before this land can
be handed over to him or any other parties
I informed Mr. Murdoch Mayor of Calgary
if in the interest bodies should require burial
that they might be buried on this land - provided
the graves are placed fairly compactly

If the Corporation of Calgary
were well established I think this plot might
be handed over to them for Cemetery purposes;
but at present affairs are in a condition
incident to all new Western towns, that might
perhaps render it judicious not to do so. At all
events if handed over to it, it should be only
in trust for Cemetery purposes, of what is
usual in such matters I am not aware
W^m H^{en}

I have only one thing to say about the
 present situation of the world. It is
 a very sad one. The world is in a
 state of confusion and disorder. The
 people are suffering from poverty and
 disease. The governments are weak and
 corrupt. The world is in a state of
 chaos.

1871

Whether Cemeteries generally are owned by joint
 Stock Companies or by Cities or Towns in
 which situated - It might be controlled
 by a board or commission of management
 of which the Co. should have a certain
 number of representatives the Town Council a
 certain number and the Gov. General & Lieut.
 Governor the appointment of one or more

If granted to a joint stock Company
 or Town of Calgary, would recommend sale
 at \$1. per acre.

Sir.

I have the honor to enclose
 herewith a communication from Chas.
 M. Aspin concerning his claim to the
 S/p 2-16-26 & 27th and beg to recommend his
 application to your favorable consideration -
 When that piece was made I found Aspin
 among the best of the settlers hereon so far
 as his improvements were concerned and
 could suggest he be paid him at
 \$25⁰⁰ per ac. of land balance in 1, 2 & 3 years
 with interest on the unpaid balance at the
 rate of 6 per cent per annum subject to
 putting a certain area under cultivation
 erecting a habitable house etc. - If he
 would pay cash in full so much the
 better. I intend to see in furnishing proof
 of the requisite improvements.

I -

Comd. Wm. C. Paul.

2nd yr

Calgary 8th Sep^r 1885.

Sir

I have the honor to enclose herewith copies of all papers concerning the claims preferred by Rob^t Patterson to portions of Sec^s 18, 19 & 20 - 8 - 24 W 4th also a portion of 2¹/₂ 24 - 8 - 25 W 4th and that preferred by Philip Lachance to the 2¹/₂ of 2¹/₂ 23 - 8 - 25 W 4th and to a portion of the 2¹/₂ 24 - 8 - 25 W 4th with my report and recommendation thereon for your approval. The original papers being retained in the Calgary Hom. Lands Office to be forwarded to the Head Office when final action is taken.

One James William Bell settled on Sec 19, in 1878. Patterson and Bell about this time entered into partnership, the latter's term of service in the Mounted Police did not expire till 1st Feb 1880 and since that date he Patterson has resided continuously on the land.

The above is a rough sketch showing the position of affairs. Patterson wishes to homestead the N 2¹/₄ 19. Pre-empt the NW 1/4 purchase remainder

of Sec 19, also frac portions of 18 & 20 North of Belly River also the $\frac{2}{4}$ of $\frac{2}{4}$ of 24 - 8 - 25 lying North of Belly River. All South of that River being in the Blood Indian Reserve. Patterson is a good settler has about 70 ac under crop Buildings, fencing and corrals worth \$800. He and Bell remained in partnership till the Autumn of 1884 when being cramped for room Patterson bought out Bell's interest in the claim paying therefor \$1000 Bell then proceeded down the river and bought out the claim of one Robson on Dec 4 and 5 - $\frac{3}{4}$ of 9. R 24 W 4th Bell & Patterson have lease No 65 and this claim is on this lease. They informed me this lease was fully stocked and on the dissolution of partnership they had divided the stock. The total amount claimed as purchase and pre-emption by Patterson equals 438 acs, not a very excessive area.

Lachance has lived during the past 4 years with Samuel Bernard on the SW $\frac{1}{4}$ 24 - 8 - 25 W 4th is a French Canadian, married recently, industrious hard working settler, but very stupid or ignorant. Prior to survey he had his improvements breaking and a poor house on the $\frac{2}{4}$ of Dec 23. At survey these lands along the River were surveyed into River lots. 20 acs each. Lachance then concluded he would pre-empt the $\frac{2}{4}$ of $\frac{2}{4}$ of 23, being a river lot and homestead another, corresponding with the W $\frac{1}{2}$ of $\frac{2}{4}$ of 24, leaving the W $\frac{1}{4}$ of Dec 24 between the two portions claimed by him. It now seems to have occurred to him that the N. L. Act did not permit H & P to be taken as he wished. Acting on that supposition he and Patterson conjointly erected the fence dividing

of the 19. also from portions of 18 & 20 south of Belley River.
also the 21 of 21 of 21 - 8 - 25 being south of Belley River.
all north of that line being in the Black River River.
Bottom is a good better than about 7000 more crops
bottoming, forming and curving north 1800. The curve
all remains in partnership till the bottom of 1880
when being exchanged for more bottom bought out
all's interest in the claim paying therefor 1000
all then purchased above the river and bought
out the claim of one bottom or 200 ft and 5-1/2 ft
P. R. 24 W. 4. All 4 bottom have been 20 ft
and the claim is on this base. They informed me
that there was fully 200000 acres on the claim
of partnership that had since the date. The
last amount claimed for partnership
by bottom equals 18000, but a very large
area.

The case of *Butterfly* is the first
 further to be noted, being on the opposite
 that the *N.Y.* did not permit it to be
 mine. It seems to be an occurrence to him
 24 between the two parties discussed by
 the *N.Y.* of 24. During the *N.Y.* of 24
 the *N.Y.* of 24, but a new lot and
 the case that conducted he would have
 were changed into mine lots. 20 in case.
 23. At present there is a lot of the
 breaking and a few more on the 24 of the
 or present, from to be his performance
 is a few cases, however recently,
 from with - some cases on the 24 - 8 - 24
 the case has been during the first 4

632

dividing the $\frac{3}{4}$ of 24 into E and W. halves. This fence is a good wire fence capped with a pole, and to its erection Patterson and La Chance each contributed equal shares. La Chance has ^{now made since survey} on the W $\frac{1}{2}$ of E $\frac{1}{4}$ of 24 a good deal of cultivation and a house or stable in course of erection. Now that River lots are done away with he wishes to H the NE $\frac{1}{4}$ 24, and pre-empt or purchase the E $\frac{1}{2}$ of E $\frac{1}{4}$ of 23-8-25 & 4.

By referring to sketch you will notice the old fence which originally, before survey bounded Bell & Patterson's claim. The River front is the most valuable portion of claim to Stockman, like Patterson, and the portion claimed now by him runs exactly the same River front further it was the boundary agreed upon by Patterson and La Chance, and fence was erected thereon. The contention of the latter that River lots being done away with, he should be granted entry by $\frac{1}{4}$ Sec² has no force, as he wishes to pre-empt or purchase otherwise than by $\frac{1}{4}$ Sec². Further you will notice that by adopting the Boundaries desired by Patterson, the claim can be enclosed by much less fencing, it may be years before the R^d Allowance between 24 & 19 will be required and if so no doubt if access were granted to River along his W $\frac{1}{2}$ Bell the Centre of E $\frac{1}{4}$ of 24 the public would be satisfied, the distance to be travelled being much less than along the established Road Allowance between 24 & 19.

After taking all the evidence into consideration, recommend La Chance be granted H entry to the W $\frac{1}{2}$ of E $\frac{1}{4}$ 24 and that fence

By referring to sketch you will notice

The old fence which originally, before burning
 bounded the lot of the late Mr. Johnson, the line
 front is the base of the foundation of the house
 at the corner, like Johnson, and the foundation of the
 house on the corner is the same line front
 further it was the boundary agreed upon by Johnson
 and the owner, and fence was erected there.
 The construction of the latter that line has been
 there ever since, it stands as ground level
 and 1/2 in. has been in force, as he wishes to pay
 no further attention to the line but 1/2 in. it will
 give with water that by comparing the boundaries
 between the Johnsons, the line can be measured
 by water, less facing, it may be seen before
 the 1/2 in. difference between 24 + 19 will be the
 same if so as to be if a cross was made to the
 corner line 1/2 in. the center of 24 of 24 the
 point would be satisfied, the distance to the
 boundary being same as the line above the
 distance from Johnson, between 24 + 19.
 After taking all the evidence into
 consideration, the court is of the opinion
 that it is to the W. of 24 ft and that
 from

frac. portion of the NE $\frac{1}{4}$ of Sec 13, lying to the South. Cont^g 18 ac. the area thus granted being what was originally ^{& contains upwards of 120 ac.} claimed, and that he be permitted to purchase the E $\frac{1}{2}$ of the E $\frac{1}{2}$ of Sec 23, from date of settlement 1881 (4 years ago) the price must necessarily be \$2.50 per ac. Cash if possible, otherwise $\frac{1}{4}$ cash balance in 1, 2 + 3 years with interest at 6% per annum on the unpaid balance.

That Rob^t Patterson be permitted to H the NE $\frac{1}{4}$ Sec 19, purchase balance of that Sec. also frac W $\frac{1}{2}$ 20 + NW $\frac{1}{4}$ 18 all in Tp 8. R 24 W 4th and the frac E $\frac{1}{2}$ of E $\frac{1}{2}$ 24-8-25-W 4th the area to be purchased being about 440 ac. ^{Cash.} From date of settlement the price to be \$1.00 per ac. and he to be notified that he may at any time make app^t for his patent.

I have in this fixed date for vicinity of Macleod the same as Edmonton, where price of pre-emption or sales should be increased from \$1.00 to \$2.50 per acre viz 1st Sep^r 1880.

If this meets with your approval please instruct agent to carry recommendations into effect.

I have the honor to be
Sir

Your obedient servant

Wm Leane

Sir

In the matter of the applications of John Quirk to H and P the S $\frac{1}{4}$ Sec 6 - 19 - 28 W 4th and Daniel Courtney to H and P the N $\frac{1}{4}$ 36 - 18 - 29 W 4th I have the honor to recommend their applications be granted subject to certain conditions.

The above sketch shows the position of the claims. The Little Bow River has its source in some springs on Sec 6. fed no doubt from High River. These springs remain open during the coldest winter it is said, and is a great resort for stock for water, when High River is frozen over. If they were granted entry for $\frac{1}{4}$ Sec 2 as they ask the springs would become inaccessible to stock the road all being only 66 ft in width two or three of the heavier stumps would stand in the road and block it up completely. To obviate that I would recommend a portion 5 chs in width be reserved from off the South side of the SE $\frac{1}{4}$ of Sec 6 from the E^{ly} limit of the $\frac{1}{4}$ Sec to the Western limit of the Little Bow River. And that a reserve 2 chs in width be reserved from off the N^{ly} limit of the NE $\frac{1}{4}$ Sec 36 from its E^{ly} limit to the said Western limit of the Little Bow River.

Albany 8th Sep 1888

Dear Sir

In the matter of the application of John
 Hunt to H and P the 2nd Dec 18-19-20 W H and
 Hunt's statement to H and P the 1st Dec 18-19-20 W H
 I have the honor to acknowledge their application
 be presented subject to certain considerations.

The above sketch shows the position of the
 channel. The little lower river has its source in some
 springs on the 6. feet on about from High River
 that springs remain open during the winter
 while it is level, and is a great source for water
 for water, when High River is frozen over. If
 they were present only for 1/2 Dec as they are
 the springs would become inaccessible to stock
 the road all being only 6 ft in width and on
 that of the higher there would be no water in the
 road and stock it up carefully. To observe
 that I would recommend a position to be in winter
 be removed from off the 2nd Dec of 1888 1/2 Dec
 from the 2nd Dec of the 1st Dec to the 1st Dec
 of the little lower river. And that a narrow 2 in
 width be removed from off the 1st Dec of the 1st Dec
 Dec 20. from the 1st Dec to the 1st Dec of the 1st Dec

Yours truly

John is a lot better than

Calgary 8th Sep^r 1885.

Sir

I have the honor to enclose with these copies of all papers, with my report and recommendation thereon having reference to the application of Edward Mansell, George Mansell, and Henry Mansell, three brothers, Edward to homestead the NW¹/₄ Sec 6, George the NE¹/₄ Sec 6, and I enclose the SE¹/₄ Sec 7, and Henry to homestead the SW¹/₄ Sec 7, all in Twp 9, R 26 N by 11th St. The originals of enclosure are retained here till further action is taken where they will be forwarded to the Head Office.

The history of this claim is. Edward joined the Mounted Police in 1874, left the force in 1877, Geo. joined 1875 and left 1878, both commenced residence on the NW¹/₄ 6 in 1878 and have resided there continuously since. Henry a younger brother came out from England and joined his brothers in Aug 1881 and has resided with them continuously since. They have about 500 head of cattle and own house No 67. have considerable cultivation and fencing. There is to some extent on all the land applied for. There is a man who lays claim to SW¹/₄ 8 & NW¹/₄ 5 adjacent has some cultivation and fencing on E¹/₂ side of Sec 6 & 7. told me he thought he that Mansells could arrange this matter and I have since rec^d a letter from Geo. Mansell stating it has been so arranged, consider it would be safe to act on this supposition that Allison had been settled with.

After reviewing all the circumstances consider that their application might be granted except the right by Henry to homestead the SW¹/₄ 7, from date of his settlement in the country and having resided on the NW¹/₄ 5 com

see no grounds on which to recommend his application;
 but nearly as liberal terms can be granted in another way.
 That is from date of Settlement Edward and George might
 be sold the S¹/₂ Sec 7 - 9 - 26 W 4th at \$1⁰⁰ ^{per acre} leaving to them
 of Sec 6.
 to homestead the NW and NE ¹/₄s, after purchase of the SW ¹/₄
 7. They can grant it to Henry on whatever terms they choose.
 That would leave Edward entitled to at once apply
 for Homestead patent for the NW ¹/₄ 6. and recommend
 accordingly.

If this meets with your approval, please
 instruct agent to carry this recommendations into
 effect. The sale of the S¹/₂ 7 may be made to Edward
 and George jointly or the SW ¹/₄ to the former & the SE ¹/₄
 to the latter.

All of which is respectfully submitted

I have the honor to be
 Sir

Yours obedient servant

Wm Pearce
 Supt.

Calgary 8th Sep^r 1886

Sir

I have the honor to enclose herewith copies of papers relating to the claims of David Grier to the SW¹/₄ 1. Curran Grier to SE¹/₄ 1. and James Grier (father of the two former) to the NE¹/₄ 1. all in Tps 9-R 27 W 4th together with report and recommendation in this case. The originals of the papers are retained in the Calgary N.D. Office pending final action when they will be forwarded to Head Office.

The history of these cases is: David Grier came from Griersville Co. of Grey Ont. to the North Western 1877, in the Mounted Police, which force he left in 1880 in the Spring of 1882 first made improvements on this section, was joined by his bro. Curran in Sep^r 1882 and since that date they have lived continuously on the S.W¹/₄ of said Sec. 1. In Spring of 1883 their father James Grier joined them and resided there until June 1884 when he built a house on the NE¹/₄ 1 and has lived there ever since. has a house with he states \$300 about ¹/₂ an acre of breaking. The sons have fair log house and stables on SW¹/₄, have altogether about 60 ac of breaking of which about 55 ac are on the SE¹/₄ the portion claimed by Curran for as a homestead.

This is within a lease granted to Messrs Powell & Butts dated 11th Aug. 1882. "O in C", authorizing same dated 8th April 1882. From the fact of Grier having taken possession before lease was granted and further lease has expired now and no stock placed thereon see no reason so far as lease is concerned why entry may not be given the same.

H. H. Smith Esq
Com^r N.D. Lands
Winnipeg

Copy 8th 1886

is

I have the honor to enclose herewith copies of papers relating to the claims of House prior to the 2nd Wth 1. Census prior to 2nd Wth 1. and House prior to the 2nd Wth 1. all in the 2nd Wth 1. with report and recommendations in this case. The original of the papers are retained in the copy of the House of Representatives which they will be forwarded to the Office of the Secretary of the House of Representatives. The history of these cases, House prior to the 2nd Wth 1. is given in the report of the House of Representatives, which was left in 1880 in the opening of 1882 first census improvement on the 2nd Wth 1. was given by his son, census in 1882 and since that date they have been continuously on the 2nd Wth 1. of census 1880. In opening of 1883 the following House prior given them and census 1880. The 1884 when he built a house on the 2nd Wth 1. and has since then ever been. Has a house with the date 1880. Indeed he is a case of bankruptcy. The House has paid up house and other on 2nd Wth 1. has other about 60 ac of land of which about 35 ac are on the 2nd Wth 1. the House claims by census 1880 and 1882.

This is within a case presented to House of Representatives dated 11th Aug. 1885. In C. and the House dated 8th Apr. 1885. From the fact of giving history of the House prior to the 2nd Wth 1. and the House has reported ever since in 1880. Indeed the House has the report to be as case of census 1880. Indeed the House has the report to be as case of census 1880.

Wm. H. H. H.
 Wm. H. H. H.
 Wm. H. H. H.

fact of being on an odd sec however ruinous; but from want of time, and not adopted in settlement of claims on the North Saskatchewan at least David Grier is entitled to Homestead the S.W. 1/4 and from amount of cultivation done recommend Curran Grier be granted H entry to the S.E. 1/4 1. It is true that by amendment to D.L. Act of the 7th May 1880, they are not legally entitled to such protection, and further that throughout the neighbourhood of mixed squatters have paid no attention, even subsequent to survey, as to where they were sitting; but as as on all river bottoms, ~~water~~ points well watered regardless whether on odd or even, H.B.C. or School Sec still having proved 1st class settlers, have now about 150 head of stock, consequently, consider them entitled to the most liberal treatment.

In the case of James Grier I cannot see any way clear to grant what is requested. Very shortly after he reached the country, a few weeks, if not at the date of his arrival, the surveys were sufficiently advanced to enable him to know as well as he does today, where he was sitting. The plan that at first River lots were laid out, consequently he was not on an odd sec. is not I think a strong one. If anyone would reflect he must have I think come to the conclusion that even if River lots were adopted, it is not reasonable to suppose that he would give away their choice lands as free gift, and sell at 2⁵⁰ per acre the inferior portions away from the rivers, rather the conclusion one would without information to the contrary arrive at, was that all the River lots were to be sold. Further on inquiry to M^r M^r no doubt he would have been informed, he had plenty of time being there one year before he settled on his claim. Therefore recommend David Grier be granted H entry to the S.W. 1/4, and Curran Grier to the S.E. 1/4 1 - 9-27/84th that the H 1/4 be sold James Grier at 2⁵⁰ per acre. If however some provision similar to that contained in the regulations dated 25th May 1880, regarding the purchase of odd sec^s by parties who bona fide occupy, improve and improve them for 3 years should be promulgated regarding odd sec^s south of the belt in Calgary District then in all circumstances the thing made applicable to James Grier's case I leave the house to be his.

Your obedient servant
J.D.

Calgary 8th Sep^r 1885-

Sir

I have the honor to enclose with this report and recommendation copies of papers bearing reference to the claim of one James William Bell for portions of Sec^s 4 & 5 Tp 9. R 24 W 4^e and Sec^s 32 & 33 - 8-24 W 4^e. The originals are retained here pending final action when they will be sent to Head Office.

The claimant came to the North West in the Mounted Police in which force he remained till 1878. Since then has been stock raising and farming. Formerly of the firm Bell and Patterson who have a lease R^e 65, which was obtained "O in C" granting same dated 4 Oct 1882, date of lease 10th March 1883. Their former location was on Sec 19 - 8-24 W 4^e but as explained in report of claim of Patterson of this date, last Autumn they dissolved partnership, and divided the stock. Bell has now about 200 head of cattle and 35 horses, and improvements on this claim which he values at \$1400⁰⁰. He sold out his share in old claim to his partner Patterson last Oct. for \$1000⁰⁰, bought out the claims of 3 brot Robson to his present location paying therefor \$600, and since Oct 1884 has resided constantly on the SW 1/4 4-9-24 W 4^e which he claims to H. The improvements of the Robsons were very small he states and desiring to get rid of them from off a choice part of his lease was, he states the object he had in buying them out.

Since taking evidence from Bell I met Mr. Robson and he informed me that though his best were with him, he alone preferred a claim, which he took up in 1852. The amount claimed (see map) is 662⁰⁰ including the homestead portion, which I don't think

H. H. Smith - Esq.
Com^{rs} - Dominion Lands
Winnipeg

Enclosure

Belmont 8th Sep 1883

Sir

I have the honor to enclose with this report
 and recommendations copies of papers being referred
 to the claim of one James William Bell to purchase
 of the land of the P. R. R. Co. was Dec 22 83 - 8-24-84
 The originals are retained but forwarding first copies
 when they will be sent to these offices.

The claimant claims the land - that in the
 case in which force has been made the 1878. Since then
 has been stock raising and farming. Formerly of the
 firm that was Patterson who was a case in 1851; which was
 obtained in C. Granting same dated 11 Oct 1881. Date
 of case 10th Dec 1883. This former location was on
 Dec 19 - 8-24-84. Was an agreement in report of John
 of Patterson of this date, but contains that statement
 partnership, and claims the stock. This has been done
 200 head of cattle and 32 horses, and improvements on
 this claim which he claims as 1000. He also has his
 share in the claim to his partner Patterson for Oct.
 for 1000⁰⁰, bought out the claim of 3 and Patterson
 to his partner for 1000⁰⁰ paying therefore 1000, and since
 Oct 1884 has received constantly on the 24th 10th 8-24-84
 10th which he claims to be the improvements of the horses
 and very small in value and claiming to get rid of them
 from off a claim part of his case was to state the
 object he was in buying them out.

Since taking evidence from both parties
 Mr. Patterson and in reference to the things his case was
 with him, he also proposes a claim which is worth
 up in 1875. The amount claimed (see back) is 625⁰⁰
 including the purchase of horses, which I claim think
 to be excessive

Wm. H. Smith - Secy.
 Com. of Mass. Senate
 Springfield

excessive for his operations, particularly as it is an
 expense that never been by him.

Many of the resolutions submitted are that
 we print to ourselves, that would be a waste of paper
 and ink from the fact of the case covered by
 this house, but I find it first and last a waste
 of money in the house.

As to whether he should be required to pay
 \$100 or \$250 for the printing of the book, I am

(and would recommend all above the house)

printing to be paid for, I am convinced as a loss

to come to a decision and would be a waste of money

that your attention to this point.

As to the date of the settlement 1878, I am

convinced that \$100 for a. c. but I am not certain

in paying out \$100 for the settlement, I am not certain

but to me it seems that the house and the

a settlement of 1878 therefore through that house

is settled to come at \$250 for a. c. but I am not

certain of his own settlement, but he knows it, and

settled to pay for a. c. \$100 for a. c.

From the fact however of being an

and not withdrawing either settlement or

the settlement at the 2nd of 11 and for a. c. at \$100

for a. c. at the 2nd of 10 and the 2nd of 11 - 180

1878 25 - 1800 and all of the 30 being paid of the

1878 25 1800 total to be paid for a. c. =

37000.

If this amount with your approval please

pay the sum to give effect thereto.

All of which is most respectfully submitted

Yours truly

Wm. A. Brown

Wm. A. Brown

Wm. A. Brown

excessive for his operations, particularly as it is on ground held under lease by him.

Many of the leaseholders informed me they were given to understand, they could purchase if they wished from the gov^t 20% of the area covered by this lease; but I fail to find any such condition expressed in the lease.

As to whether he should be required to pay \$1.00 or \$2.50 per ac for the portion to be sold him (and would recommend all above the homestead portion be sold him). I am somewhat at a loss to come to a decision and would particularly direct your attention to this point.

As to the date of 1st Settlement 1878, lands were certainly \$1.00 per ac, but Patterson claims in buying out Bell he purchased whatever rights he had to such consideration, Bell bought out Robson in settlement of 1882 therefore through that purchase is entitled to land at \$2.50 per ac. Patterson from date of his own settlement, had he known it, was entitled to purchase at \$1.00 per ac.

From the fact however of being an old and enterprising settler recommend he be permitted to H the SW¹/₄ 4 and purchase at \$1.00 per ac. Cash the SE¹/₄ 4 cont^g 16 ac the SW¹/₄ 5 - 180^{ac} N¹/₂ 32 - 146^{ac} and all of Sec 33 lying north of the Belly River cont^g 190^{ac} total to be purchased = 574 ac.

If this meets with your approval, please notify the agent to give effect thereto.

All of which is most respectfully submitted

I have the honor to be

22 Nov 1902

Calgary 9th Sep^r 1885-

Sir

I have the honor to enclose herewith copies of papers with report thereon concerning the claims of Anderson Grogan and Michael Gallagher to portions of Sec 18-9-25 NW 4th. The originals are retained in this office till final action is taken when they will be forwarded to Head Office.

Gallagher came to the North West in the Mounted Police in 1875, from Ottawa, remained in the force till 1881. In 1877 he commenced cultivating a portion of Sec^s 18 & 19-9 2nd 4th, being on, in high water, an island in the Old Man's River and obtained a house adjacent the M. Police post and with the consent of the officers of that force has occupied said house and done his cultivation from 1877 till he left the force in 1881, since then he has resided and cultivated continuously up to the present.

Grogan is an old soldier, served 26 years in the 25th Reg. came to Man., under Col. Wolsey in 1870. left force in 1871. Remained in Man. and then NW till 1878 when he joined the Mounted Police and remained therein till 1881. In 1882 he commenced to reside in a house which really like Gallagher's is a part of the old town of Ft. Macleod, and asked to Homestead the NW 1/4 18-9-25 NW 4th. That would include the greater portion of the old town of Ft. Macleod, including a Cemetery.

Supt

Calgary 8th Sep^r 1885-

Sir

I have the honor to enclose report and recommendation together with copies of original papers in the case of John Josiah Sullivan and William Wallace Coulter, the originals being retained in the Calgary D.L. Office, to be forwarded to Head Office when final action is taken.

Sullivan

John Josiah, wishes to H the NW¹/₄ 7. Pre-empt the SW¹/₄ 18 and purchase the ^{NE}SE¹/₄ Sec 7. Tp 19. R. 28W4⁵. The Tp. map does not show accurately the position of High River across Sec 7. It is about as shown on the accompanying sketch. The buildings were originally erected by one John Weir, known as "Negro John", who in the early 1885 sold to present claimant who since purchase has erected about 2 miles of wire fencing, can grow Manitoba and has some 200 head of cattle, is evidently an enterprising settler. This sec, an odd one, lies outside of the C.P. Ry Belt and may I presume be sold; but is much more desirable for Homesteading than the SW¹/₄ 18. on account of River, consequently see no reason why he might not be permitted to Homestead it and pre-empt the SW¹/₄ 18, the latter being inferior he might on obtaining patent for his H. abandon his P. To prevent that I would grant him the permission to H the NW¹/₄ 7 only on condition of purchasing the SW¹/₄ 18. at \$2.50 per ac. cash, or at least 1/4 cash balance in 1, 2 & 3 years with interest at 8% per annum on the unpaid portion. If he demurs at paying in full at date of entry for SW¹/₄ 18. then grant him the latter land. The Gov^t receive by this course as much for the NW¹/₄ 7 and SW¹/₄ 18. as if the latter were

H. W. Smith Esq.

Com^r the N.W. Lands

Winnipeg

Man

Homesteaded

homesteaded, consequently, recommend that course
be adopted;

As to the sale of the N E 1/4 Sec 7 I see no objection
to the sale to him of that portion lying North and West of
High River, recommend the portion South and West of the
River be reserved as point for watering stock. If this
recommendation is carried out, before sale can be effected
it will be necessary for him to furnish a plan of survey
made by a D. L. Surveyor, showing correct position of
High River, and area to the North and West thereof.

In reference to the claim of William Wallace
Culgrave, he asks for 1/4 SE 1/4 33 & 1/4 NW 1/4 28-18-29 1/4 14¹⁰⁷
for the same reasons as Galbraith, the SE 33 being more
High River is particularly desirable as a homestead
in comparison with the N E 1/4 28. Though he first
made improvements and put in some residence prior
to survey, his residence being only for a few months, in
a tent, in 1883. His improvements consist of 5 ac. of breaking
and fencing to the value of \$800. The breaking, some having
been cropped, now grown up with weeds. He is not
entitled to H. entry on an odd Sec. He may, and probably,
will prove a fair settler should he obtain entry.

For the same reasons, as were stated in
the case of Galbraith, I would recommend he be granted
H. entry to the 1/4 NW 1/4 33 on paying 1/4 of the purchase
money at the rate of \$2.50 per ac. for the N E 1/4 28. balance
in 1, 2 & 3 years with interest on the unpaid portion at the
rate of 6% per annum.

If this meets with your approval, it will
will be necessary to instruct the D. L. Agent Culgrave
to take the necessary action.

All of which is most respectfully submitted
I have the honor to be
Sir,
Your obedient servant
J. H. Pearce
Capt.

643

Calgary 9th Sept 1886.

Sir

I have the honor to enclose with report and recommendation copies of all papers in connection with the claim of James McKerny to Homestead the NW 1/4 30-18-29 W 4th and to pre-empt the N 1/2 (fence) of Sec 25-18-30 W 4th. The originals are retained here pending final action when they will be forwarded H. O.

The history of this claim is that in July 1883 one B. M. Farley and present claimant purchased the rights of one Davis, who had resided thereon about one year and had a small house. They paid him \$125⁰⁰ for his claim. In August 1883 present claimant bought out Farley's right paying him \$200 for the same. and since that date has resided continuously thereon.

He is a good settler has buildings and fencing to the value of \$850⁰⁰.

Cannot recommend he be permitted to pre-empt the N 1/2 of Sec 25, which is choice land in another Sec. He may if he wishes pre-empt the SW 1/4 30, but that is not nearly so good. As a rule I think settlers along the river in the grazing country should be limited to one half mile on the river; but owing to the fence Tp. 18-30 W 4th coming in by reserving from sale the NW 1/4 of Sec 25, it will leave a strip about 6 chains in width on which stock can have access to the water.

Therefore

H. H. Smith by
Com^{rs} in Charge Lands
Winnipeg
Man

Belgry 7th Sept 1888.

Dear Sir

I have the honor to enclose with report
and the same contains a copy of all papers in
connection with the claim of James & Henry
to the land the N^W 30 - 18 - 29th sec.
I am sorry the N^W 30 (sec) of the 21 - 18 - 30 W.
The original is retained but for copy
return when they will be forwarded to O.

The history of this claim is that in
July 1883 one B. M. Taylor and present claimant
purchased the right of one B. M. Taylor who had made
them about one year and had a small house, they
paid him \$12.00 for his claim. In August 1883 James
claimant bought out Taylor's right paying him
\$200 for the same. and since that date has
resided continuously there.

It is a good better has buildings and
paying to the value of \$2500.
cannot be removed as he is found to be
free-empt the N^W of the 21. This is true and
in another sec. He says if he wishes for-empt
the 21st 30, but that is not really so good, as
a rule I think better along the river in the
proving country should be limited to one
half mile on the river, but owing to the fact
of 18 - 30 W. 21st coming in the remaining four
lots the N^W 30 of the 21. it will leave 3 strips
about 6 chains in width - on which there can
have been a lot of water

Yours truly

Wm. Smith
Clerk of Court
Winifred

Therefore recommend he be granted ^{portion} H. 4th lying South of High River, and that ~~that~~ Portion of the NE $\frac{1}{4}$ 25-18-20 W 4th lying South of said river be sold him at 2⁵⁰ per ac. cash. and that the NW $\frac{1}{4}$ Sec 25 be reserved as a watering place for stock.

This will necessitate a survey by the ^{High} River across said $\frac{1}{4}$ Sec. and if ~~then~~ then go to the expense of said survey he pays for 120 ac of land then patent issue to him for all that portion of the NE $\frac{1}{4}$ 25-18-20 W 4th lying South of High River.

You will notice in this that the river is under the B.C. which in a stock raising country is highly advisable, otherwise a very few claims will monopolize all the streams and watering places to the detriment of the remaining, at least 80% of the country.

If this meets with your approval please issue the necessary instructions to the Calgary Agent.

All of which is respectfully submitted

I have the honor to be

Sir

Your obedient servant

J. H. Stacey

Agent

608

Calgary 9th Sep^r 1885

Sir

I have the honor to enclose with report, copies of papers concerning the claim of Walter Clarmont Skrine to Homestead the SE 1/4 and Pre-empt the SW 1/4 31-18-29 W 4th. The originals are retained here pending final action in this case when they will be forwarded the Head Office.

The History of this claim is this. In 1882 the first improvements were made by Mr F. S. Stinson manager of the New West Cattle Co., who through himself, servants or employees occupied it till Feb. 1885. When he sold it to the present claimant consideration \$1000, the buildings on the land are valued by the present claimant at \$1660. They were all erected by Stinson; but many have to some extent been repaired by the present claimant. There were 2 ac of breaking which have grown up in weeds. Claimant has resided continuously there since Feb. 1885.

The point to be decided is, were the acts of Skrine or his predecessors sufficient to warrant granting his request? It is true that at the time ^{Stinson} he settled it was not surveyed, but the 5th P.M. was run in 1880, and from that with very little trouble he could have ascertained whether this was an odd or even Sec. Had he laid off the theoretical distance this section should lie from the 5th M., he would have been sufficiently near to enable him to make improvements; provided they were not placed very near the boundaries as then laid out. Further could those persons who build and took up claims outside of the

W. H. Smith & Co.
Com^{rs} - Wm. Smith
Winnipeg
Man

W. H. P. 1887

his

I have the honor to receive with respect,
 copies of papers concerning the claim of Walter
 Clements & others to the 21/10 and 22/10
 the 21/10 21-18-20 W. H. P. the originals are retained
 here pending final action in this case when
 they will be forwarded to the Patent Office.
 The history of this claim is this, in 1885
 the first improvements were made by Mr. J. A. Thompson
 manager of the New West Cotton Co., who through
 himself, secured or assigned to the present claimant
 Feb. 1886. When he sold it to the present claimant
 for \$1000, the building on the land was
 valued by the present claimant at \$1000. They
 were all erected by Thompson, but never been to him
 about been referred by the present claimant.
 There were 2 or 3 buildings which have grown up in
 success. Thompson has never been to him since Feb. 1886.
 The point to be decided is, was the act
 of him or his predecessors sufficient to warrant
 granting his patent? It is true that at the time
 he sold it was not assigned, but the 21/10 & 22/10.
 Now in 1880, since from that time with very little
 doubt he could have secured the same without this
 was an act or more so. How he laid off the
 land and what was the action should be for
 the 21/10 & 22/10, he would have been sufficiently
 to enable him to make improvements, for
 they were not placed any more the buildings
 as they laid out. Further would there be
 who built and took up claims outside of
 the

Respectfully
 Wm. H. P.
 Wm. H. P.

be considered as settling in the ordinary sense the area covered by their leases, that he supposed he was on his lease may be; but if so he displayed gross carelessness, the 5th P. being him, most of which his lease lay. Again Stinson had nothing to dispose of beyond his improvements. Skins acquired none of the rights of Stinson by purchase from him.

If however the clause, in the regulations of the 25th May 1881, referring to settlers on odd sections north of the Ry. Belt whereby on paying at the rate of \$1.25 per ac. and afterwards living on and doing substantial improvements for three years, patents should issue, should be applied to these odd sections, ^{outside of the Ry. Belt.} in the Calgary district settled upon subsequent to survey but before the 7th was opened for entry, or to those settled upon prior to survey but after the surveys were sufficiently advanced, as in this case, to enable the settler to ascertain readily where he was located, then Skins would be entitled to purchase at \$1.25 an acre cash to the extent of 320 ac.

However as the regulations now stand and have been since the clause was 1st taken up by Stinson it can only be sold to him at \$2.50 per ac. and recommended accordingly.

If he objects to paying that amount in cash it may be sold for cash balance with interest as usual.

Skins, one brother and a cousin are in partnership, stock raising, state they expect to obtain a lease shortly and are prepared to stock it. Both brother and cousin expect to obtain 4 sections.

If this meets with your approval please issue necessary instructions to Agent.

All of which is respectfully submitted

Dear Sir
 I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter.
 I am sorry to hear that you have been disappointed in your application.
 Very respectfully,
 J. H. Smith

Calgary 10th Sep^r 1885.

Sir

I have the honor to enclose herewith copy of a letter received this day from David Keefe of Banff Station C.P.Ry West regarding his claim as original discoverer of the upper or hottest of the Mineral Springs in that locality.

If what he asserts be true, certainly neither McCabe or Sebring have any claim thereto by virtue of original discovery. He states that he is prepared and will shortly prove by indisputable evidence that his assertions are true.

I advised him to write me a letter and I would forward to you so that before any further action was taken by the Gov^t in recognizing the rights of either McCabe or Sebring a reasonable time would be afforded him to furnish the evidence he says he can produce. I enclose also copies of all correspondence between Keefe & myself.

Sir

I beg leave to draw your attention to the fact that I am the original discoverer of the Upper Hot Spring near this place - I am preparing affidavits in support of my claim and hope to be able within a very short time to send in the affidavits of several persons who know that my claim is a just one and who also know that McCabe and Scoring who are claiming as the original discoverers of the spring only got there by following the road sent and blazed up the mountain.

I would therefore request that you will submit my claim to the Department and I ask that no decision be made in the matter until my affidavits and claims are properly considered.

I remain

Your humble servant

Sir

In reference to the Hot Springs situated on the south side of the Bow River at a point about 4 miles west of the C.P.R. station Banff, I have the honor to lay before you the following particulars -

On the 16th day of October 1881, while out hunting, I observed a vapour rising in the air on the mountain above the Bow River Falls and the Spray River, and on approaching the spot, I discovered what has since been known as the High Hot Springs of Banff. I at once blazed a trail to the point and have continued to hold same -

The Hot Spring to which I have reference is about 2 miles on the mountain above those known as McCabe's Springs and lately taken possession of by one Woodruff.

Calgary 10th Sep^r 1885

Sir

I have the honor to enclose ~~report~~ and recommendation with the copies of papers in the case of the application of Herbert W. Savoy to H & P the W¹/₂ 28-9-23 W⁴/₄. The originals are retained here pending final action when they will be forwarded by the agent to the H. O.

The claimant first made improvements in the Spring of 1882 and since June 1882 has resided continuously thereon. His claim is situated within lease W^o 68. Antedated by "O in C" of H^o Oct 1882, lease dated 16th March 1883.

He has the entire section ^{enclosed} with ~~approx~~ wire fences. the 2¹/₄ is intended for a younger brother now aged 17 who is residing with him on the SW¹/₄. There is no doubt of the bona fide of the applicant, the only question being should it be granted, without some reserve for watering place for stock. This water question is a very important one and if all claims of squatters are granted, as asked, will prove a very serious hindrance to successful stock raising in the South Western portion of the North West territories. I propose making this subject a special report.

I would recommend that he be granted pre-emption entry to the NW¹/₄ 28. and entry to all that portion of the South West quarter. Beginning north of the Belly River save and except that portion described as follows that is to say.

Commencing at the intersection

H. H. Smith - by.

Edmund

I have been thinking of you very much lately
 and wondering how you are getting on.
 I hope you are well and happy.
 I have been very busy lately but I
 have managed to find some time to write
 to you. I am well and hope these few
 lines will find you the same.
 I have been thinking of you very much
 lately and wondering how you are getting
 on. I hope you are well and happy.

A page from a handwritten musical manuscript, featuring several staves of music. The notation is written in dark ink on aged, slightly yellowed paper. The staves are arranged vertically, with some containing multiple lines of music. The handwriting is cursive and somewhat slanted, typical of 18th or 19th-century musical notation. There are various notes, rests, and clefs visible, though the specific details are difficult to discern due to the image quality. The page appears to be a single leaf from a larger book or manuscript.

James L. Smith

[illegible]

ConfidentialCalgary 10th Sep^r 1885

Sir

I have the honor through you to direct the attention of the Minister to what if great care be not exercised may prove a great detriment to the stock grazing interests of the South Western portion of the North West Territories.

On perusal of this you will please forward to the Minister with any comments thereon you may see fit to make.

By permitting squatters to take up the bottom lands along the River, with any little fencing they will prevent stock reaching the Rivers for water. Between these bottoms are ^{almost} invariably "Cut Banks" over which the river is inaccessible. The argument that the road allowances are open by which stock can reach the rivers is a worthless one in practice. In the 1st place the Rd All. being only 1^{1/2} in width is so narrow that two or three mustelid lines after drinking will stand and block up the roadway, preventing the rest of the herd from reaching the water. In the 2nd place many, if not nearly all the Rd Allowances take such a direct line down the hills, that very often only goats could travel thereon, and where there may be a "cut bank" or a very steep hill even those animals could not travel.

Self copy to Mr. 1885

Sir

I have the honor through you to direct the attention of the Minister to order of Great Council be sent necessary and from a Great statement to the State regarding interests of the State Western position of the State West territories.

The purpose of this you will please forward to the Minister with my comments. There you may see fit to order.

For forwarding suggestions to take up the bottom lands along the River, with very little fencing they will forward the receiving the River for Water, Bottoms then Bottoms are unsuitable "but Bottoms" over which the river is unsuitable. The argument that the river bottoms are open by which lands can reach the river is a matter we in power. In the for follow the H. & C. being only 100 in width is so narrow that two or three horses then after thinking with these once back up the roadway, forming the rest of the land from reaching the water. As the 2nd lot is owned, if not owned with the H. & C. bottoms but back a check line down the hills, that very often very good crops have been there, and when there may be a "bad bank" or a very steep hill from their animals could not be used.

W. H. Smith
Can be done
W. H. Smith
Done

the road allowance. The argument that the odd Sec^s not being open for homesteading at least one half of the acres will be kept accessible does not in practice work. It will be found the settlers locate on the bottoms regardless whether odd or even T.B.C^o or School Sec^s. They will claim they settled there not knowing where they were, the stock having destroyed the marks torn off the tin discs from the iron bars, they did not ^{and could not ascertain} know where they were. If they cannot obtain it as homestead they ask to purchase the portion covered by their improvements, which means the bottoms and the probability is that it may prove hard to refuse them and ultimately they obtain it.

The absurd system of marking posts by ~~by~~ rather designating the sections by tin discs attached to posts is well exemplified, and against which the writer protested in 1882 as vigorously as possible. During the past two seasons I think I can within the mark when I state I have seen at least 1000 posts on which these tin should be and they were not found on 2% of them.

When the settlers are asked why they did not settle on the ~~barren~~ and higher lands, rather than the bottoms, the answer invariably is, that only the bottoms are suitable for growing vegetables or grain. In dry years they probably are correct; but in average years I think good grain and vegetables may be grown on the uplands.

The good observation. The argument that
the old bed, and being open for investigation
at least one half of the time will be kept
accessible thus not in favorable work. It
will be found that better results on the
bottoms reported within old or new 1880
or below bed? They will claim that better
than not knowing where they were, the beds
being destroyed the numbers taken off the
in cases from the river bed, they did not
know where they were, if they could obtain
it as immediately they took before the
further covered by their improvements, which
shows the bottom and the probability is that
it may prove hard to refer them and
thoroughly that obtain it.

The chance system of searching
for the old bed, by investigating the bottom
by the close attention to facts is well
described, and appears where the
water bottom in 1880 is represented as
possible. During the past two seasons
I think I was within the limit when I
state I have been at least 1000 feet
or what that the number is and that
was not found on 2% of them.
How the better are called why

that this but better on the bottom and
higher bottom, better than the bottom, the
more immediately is that only the bottom
are suitable for growing vegetation or grain
as the years that probably are correct, but
in average years I think good grain and
vegetable may be grown on the surface

After however their contention be correct then it follows that it is useless to attempt to settle the country with farmers; but every step should tend wholly towards the grazing interests. There are not 5% of steel covered bottom lands, probably not more than 2% that will prove viable, many of the bottoms being gravelly and stony. Not only are these bottoms largely required as watering places; but also for shelter from winter storms. The cattle, like the buffalo, settle within when a storm is raging, often hours before the storm begins, nature seems to have endowed them with a wonderful instinct in this respect. After the storm is past they return to the hills to graze.

The pasturage in the valleys being luxuriant in its growth, is destroyed by the frost, or else the snow drifts in too much for cattle to obtain grass, whereas on the hills the buffalo & other rich winter grasses predominate which ripen before the autumn frosts come on leaving them well adapted for winter grazing and the snow being blown off the hills leave these grasses accessible.

To illustrate the manner these bottom lands are likely in the very near future to be occupied by settlers. one has merely to notice that what a few settlers the bottoms and watering places are now occupied from "H. Kipp" to above "State Oak" on the Belly River, the former point being at the junction of the Old Man's and Belly Rivers. To follow me it will be necessary

to follow but it will be necessary
to find out of the brown and white
series, the former being at the
"tip" to show that but on the belly
and nothing else are now occupied from
outside that what a few better the bottom
be occupied by better. we are going to
harvest are left in the very case future to
to illustrate the manner that bottom
have that process accessible.
and the brown being blown off the hills
leaving them well occupied for white going
which upon the bottom first come on
buffs & other rock under process forming
to obtain from, which on the hills the
the brown drifts in the case for cattle
in its front, is destroyed by the frost, or the
the formation in the valleys being known
is found that return to the hills to grow.
in this respect. After the brown
to have measure them with a microscope
brown before the brown being, certain brown
to them when a brown is rising, often
thence, the cattle, like the buffs, like
places; but also for cattle from white
there bottom largely requires as water
briefly some story, but only one
that will have credit, many of the bottom
bottom lands, probably but more than 5%
insects. There are but 5% of that case
step should have slightly however the grass
better the formation with former, but every
it follows that it is useless to attempt to
the manner their position in some of them

652

to refer to Tp maps.

1st Tp 9. R 23 W 4th

1 The S W $\frac{1}{4}$ 34 - 9 - 23 W 4th is claimed by living Miners, house and some building.

2 The W $\frac{1}{4}$ 33 is claimed by one Whalley I think. If entry be granted he will fence across from Old Man's River to the N W $\frac{1}{4}$ 28.

3 28 is now all fenced in by one Harvey.

4 A brother of David Harvey has a fence across running across from the W angle of the S W $\frac{1}{4}$ 28 to the Belly River a little West of the line between the N ~~28~~ N W $\frac{1}{4}$ 20. Then for say one tenth of a mile it is possible for cattle to get to river but a very poor place with steep banks and no flats. Then a "cut Bank" till bottom is reached on S W $\frac{1}{4}$ 20.

5th ~~One~~ Kelly has this bottom of 20 and also of 17 to the South - and has all been fenced in by him.

6 & 7 Two brothers Lookey have all of Sec 10 fenced in. Their fence being joined to Kelly's N² 5. Thus about 9 consecutive miles of River are by 7 settlers rendered inaccessible.

Tp 9. R. 24 W 4th

A cut Bank commences and, across Sec 24 the N $\frac{1}{2}$ 23 renders the river inaccessible.

8 There one John Howe is settled who takes all of Sec 2 12 & 13 through which the River could ^{thus be fenced} be reached. Between him and N $\frac{1}{2}$ of Sec 4 there are as yet no claimants there being no choice bottom lands but they are also

to refer to the report.

1. The 2 W 1/4 34 - 9-23 W 4

is clear.

2. The 1/4 33 is clear by the 1/4 34

I think it is clear by the 1/4 34

from the 1/4 34 to the 1/4 33

3. 33 is now all clear in the 1/4 34

4. The 1/4 34 is now all clear in the 1/4 33

on 2 W 1/4 34

also more suitable for Winter Stock shelter, and only a one or two joints - is the River accessible for Stock and those many at any stage be settled upon same waters.

9 J. G. Butterham a beef camp on the N $\frac{1}{4}$ Sec 14 which for this year commence they have not enclosed but many do so every day and no doubt when they do will run across so as to take all the bottom on Sec 9 3 & 10.

10 James W^m Bell comes on South side of 4, and has it already fenced. He also has enclosed or shortly will have all the accessible River on Sec 32 and all Sec. 33 - S-24 W.

It will be seen in Tp 9-24, if our more settlers come in and fence up bottom of Sec 14 & 15, (have been told a party proposes a claim already to it, though we has not done so through me) 5 settlers will make the whole of the River in this Tp inaccessible, a front of probably 8 miles.

Tp 8-24 W 4th

As mentioned Bell claims and will soon have fenced in N $\frac{1}{2}$ Sec 32 & all of 33.

11. ^{on what} Claims and has already fenced in all of N $\frac{1}{2}$ Sec 29, N $\frac{1}{4}$ Sec 28 all of S $\frac{1}{4}$ Sec 33 adjacent. A strip on East Bank reaching the River between his fence and that of Bell to the water inaccessible.

12. 13 & 14. Smith, White & Brown claim all of W $\frac{1}{4}$ Sec 29 & all of 30 and have already the whole fenced, their fence joining that of what. The road all between 19 & 30 is open

but as already mentioned too narrow to be of practical value for wintering stock.

15. One Patterson has all of Dec 19 fenced also the $2\frac{1}{2}$ of $2\frac{1}{2}$ of Dec 24-8-23 W 4 $\frac{w}{w}$ enclosing thus in this 4p 5 settlers have rendered the whole of the River inaccessible, he just call but about $\frac{1}{4}$ of a miles is now fenced in, upwards of 6 miles of river being rendered inaccessible by 5 settlers.

Up 8 R 23 W 4 $\frac{w}{w}$

16 & 17. Messrs Bernard & LaChance have now all the remaining portions of Dec 24 & thereby will have the $2\frac{1}{2}$ of $2\frac{1}{2}$ 23 fenced in.

2 settlers rendering 2 miles of River inaccessible

It will thus be seen that 17 settlers with co-operation of one more who no doubt will shortly take it up, will render 25 continuous miles of River inaccessible. With the River thus closed probably 30000 acres of good winter pasturage are rendered worthless unless the stock can in time of water eat snow. Some parties maintain cattle will do that; but stockmen are about unanimous in the opinion that water is necessary. That cattle will for a day or two often do without it, but that they cannot for any length of time do so.

In the free ranching country south of the International Bdy experience has shown that the large capitalists invariably drive out the small ones. and this is attained chiefly in one of three ways:

1st In the "dowry" being more strongly represented than the small one. Advantage

1st. In the "house of wife" being shown strongly
 all traces chiefly in one of their groups
 strain out the black ones. Since this is
 has shown that the large capitalistic tendency
 death of the structure at 18th reference
 in the far reaching country
 that they cannot for any length of time do so.
 will for - stay or live often do without it, but
 opinion that water is necessary, that cattle
 structure are about necessary in the
 have found consistent cattle with the that, but
 the that in in case of water but down,
 photographs are necessary photographs unless
 close probably 3000 acres of your water
 units of this necessary. With the this that
 thought to be up. will see also 25 conditions
 with condition of one down when no that into
 It will then be seen that 17 cattle

John

Taken in the branding.

2nd Under the American land laws
 large holders place men on and
 graze all the bottoms, and thus
 control the watering places. They take only
 the bottoms paying \$1.25 an acre therefore
 no one will take the uplands, so that with
 the bottoms secured they have free range
 for pasturage of the uplands. If any
 choice bottoms are secured by the small
 holders, after a time he finding himself
 harassed sells out. Another mode of driving
 out the men come or small holder is to
 hold so much stock thereon, particularly
 if that stock be sheep and in a corner
 where the rainfall is sparse the
 land is destroyed for grazing purposes.
 By this ^{large no of} cow boys they are enabled to presume
 their own territory.

This mode introduces a system
 of lawlessness, that it is advisable to
 avoid, if such a policy can be framed
 which will avoid it.

All of which is respectfully
 submitted. This may be used officially if
 the Minister so ^{desires} I have the honor to be

Calgary Sept 11th

Sir,

In reference to the protest by the Rev. John McDougall against the erection of buildings by Francis White on what is known as the Orphanage claim at Borley, I have the honor to state that Messrs McDougall & White met in this office both yesterday and today; but as far the only arrangement arrived at is that Mr White may for this winter keep his sheep where the sheds are erected and the hay stacked.

Mr McDougall insisted strongly on one point which is that the old settlers at Borley were entitled to 1st consideration, that area of claims asked for was not excessive for stock purposes, being suitable for that only, and that from what he had been told he was led to believe the reason the lease was never granted to McDonald was on account of the protest filed by him on behalf of the orphanage and other settlers. against same, that if the land could not be

A. B. Burgess Esq }

 Ottawa

11 Sept 1890

I had the great pleasure of receiving
 your kind letter of the 10th inst. in relation
 to the matter of the proposed new
 building at the corner of 1st and 2nd
 streets. I am glad to hear that you
 are so interested in the matter and
 that you are so anxious to see it
 carried out. I am sure that the
 building will be a great benefit to
 the community and that it will be
 well worth the expense. I am sure
 that you will be able to secure the
 necessary funds for the building.

I am sure that you will be able to
 secure the necessary funds for the
 building. I am sure that you will
 be able to secure the necessary funds
 for the building. I am sure that you
 will be able to secure the necessary
 funds for the building. I am sure
 that you will be able to secure the
 necessary funds for the building.

I am sure that you will be able to
 secure the necessary funds for the
 building. I am sure that you will
 be able to secure the necessary funds
 for the building. I am sure that you
 will be able to secure the necessary
 funds for the building.

be secured in any other way he and the others
 called there were prepared to leave it. I tried to
 get him to concede that the orphanage would
 take white buildings from off his hands at a
 valuation when white left; but he would not
 concede that point. When the returns of
 survey are made the minister will then
 be in a position to judge whether the area
 of the claims is excessive or not, and it
 may be without being injustice to other Mr white
 may be granted a franchise on the Bow River
 which if at a suitable point may meet his
 requirements. if not he may be then, possibly
 from fact of having claim, be in a position to
 make better arrangements with the claimants.
 than he is able to do at present, or possibly
 he may assign his lease to them and obtain
 one suitable to his requirements elsewhere.
 If Mr white cannot be granted a location
 it may possibly be only just that whoever
 obtains his requirements should reimburse him

I have two boxes to enclose material
for transmission to the Minnesota Min-
ing Union which you may choose
express copy of a declaration taken
day from Duncan Campbell Robertson
concerning his claim to the SE 1/4 11-24

You will notice that through his residence has been for two years. These improvements are not extensive.

In the 3rd paragraph he states as
he settled on a school sec. knowing it
be such and from conversation with
believe he is stating the exact truth.

In the 6th paragraph you will
 find in asks, and in view of the honest
 statements in connection with his case
 and from fact that with all the knowledge
 Robinson had, and through a chance
 others have obtained entire school records
 I would recommend the W^g of the W^g of
 the solid union at \$5-00 per an. or a
 year of time paid in or this be allow
 in his next homestead, (I think he has
 had one) if eligible to make homestead
 entry, provided he made substantial
 improvements thereon.

He states when Mr Burgess the Minister was here he interviewed him & filed evidence of his claims.

all of which is respectfully submitted

Re S.E. 1/4 11-24-1W 5thCalgary
Alberta
To wit

I Duncan ^{Campbell} Robertson of Calgary
 } former ~~Shelburne~~ declare as follows

1st That on the 10th day of Sep^r 1882 I erected a
 log house 14' x 17' on the South East quarter of
 Sec 11-24-1W 5th and commenced to reside
 thereon and lived on it nearly constantly
 until the Autumn of 1884. Since then I have
 been living in Calgary except when on the
 transport service during the Half Breed and
 Indian outbreak of 1885. That from 1882 to
 Fall of 1884 was working a considerable
 portion of the time at Walker's mill, the
 house cost me then \$150, could now be
 erected for \$60 or \$70 or

2nd That during the the Spring of 1883 I broke
 2 acres, cropped and fenced the same. During
 the following summer I broke 7 ac additional
 making 9 ac in all, fenced the said 9 ac in the
 Spring of 1884 and cropped the same which
 was also cropped ~~the same~~ in 1885. Fenced
 with post & wire costing \$100 would now
 be worth about that much.

3rd That at the time I located thereon I knew
 it was a school section but was informed
 by parties to whom I spoke that it could
 under the circumstances be purchased at a
 reasonable price.

4th That no one other than myself, has or
 ever had any interest in this claim though
 I have been approached by men desiring
 to obtain such an interest.

5th That when the Land Office opened in
 Calgary

Bellevue
Albany
to W. H.

The late on the 10th day of Sept. 1882 I received a
 copy of your 14x17 on the book I had purchased
 for \$11-50 + W. H. and was surprised to receive
 it. I have since since on it nearly constantly
 until the date of 1882. Since then I have
 been living in Albany as before and have
 transported across during the half year and
 across volume of 1882. That from 1882 to
 Fall of 1884 was working a considerable
 portion of the time at W. H. 10 miles. The
 house cost me then \$120. could have been
 erected for \$80 or \$90 or

2nd That during the spring of 1883 I built
 2 acres, crops and fences the same. During
 the following summer I built 7 or 8 additional
 buildings for all. fences the same & as in the
 spring of 1884 and crops the same which
 was also crops in 1882. From
 with - from their building \$100 would have
 be worth about that much.

3rd That at the time I erected them I knew
 it was a school building but was informed
 of the fact by others & spoke that it would
 under the circumstances be for school use
 reasonable price.

4th That as we have been engaged, we are
 now have very interest in this claim through
 I have been approached by men claiming
 to have been an interest.

Agent

Calgary 11th Sep^r 1883

Sir

I have the honor to enclose with report and recommendation copies of all papers relating to the claim of John Kelly to 1/4 NW 1/4 17 (frs) & 1/4 SW 1/4 20 (frs) both in Tp 9. R 23 W H²²

The originals are retained here pending final action in this case, when they will be forwarded H.O. The copies are sent that your Office may have a sufficient Record.

There are two points to be decided in this case. The witness H Kelly on an old Sec. 2nd he is on leased land.

As to the 1st having settled in Adams of January May 1882. consider that the objection being on an old Sec should be waived, as has been in many others.

As to the lease H.C. 68. The "O in C" authorizing the lease was passed on 14th Oct 1882, and the lease is dated 16th March 1883 Kelly being there before that date is entitled to protection hence entry.

Kelly is a fair settler and recommend he be granted entry as he requests.

If this meets with your approval please issue necessary instructions to Agent

All of which is most respectfully submitted.

Self copy 11th Sep 1883

Dear Sir

I have the honor to enclose with report
 one communication copy of all papers relating
 to the claim of John Kelly to the NW 1/4 (frac)
 & P the SW 1/4 (frac) lots in Twp 9. R 5 W 4th
 the originals are retained in possession
 of the State in this case, where they will be
 forwarded to H. O. the copies are sent
 that your office may have a sufficient
 record.

There are two points to be considered in
 this case. The first is the validity of the
 deed. There is no reason to doubt
 as to the 1st being valid inasmuch
 of record being 1882. Consider that the objection
 being on one side has already been removed, as
 has been in many others.

As to the 2nd the 1882. the 1882 is C
 authenticating the deed was passed on 1882
 1882, and the deed is dated 1882. Since 1882
 Kelly being there before that date is entitled
 to protection from entry.

Kelly is a fair settler and
 no objection is to be made to his entry as he requests.
 At this point with your approval
 please issue necessary instructions to agent
 all of which is most respectfully
 submitted. I have the honor to be

 be necessary to obtain the permission of the
 lease holder & S. S. & A. H. Brown, who
 have now authorized by "S. S." dated 4
 Oct 1883, lease dated 18 - March 1883. All
 the parties better subsequent to date of this
 lease, this party is not known in that
 vicinity and it is stated has no share
 whatever in the lease, his share for sharing
 same will expire on 18 - June 1883, and
 of the cattle are not known as it before
 the 10th of Oct. They cannot be placed there
 before the expiration of his term for sharing
 they present were interesting to look at
 would have been their interest by the parties
 of interest, so that they would be furnished with
 the ground before the expiration and when
 shown over or otherwise in return when
 looking

looking for shelter if the storm be blinding
are liable to go off and be killed
or disabled so that they eventually die.

Whether it would be expedient to grant
the entries before the expiration of the leases,
unless the lessees consent is to be obtained,
is for yourself or the Minister to decide.

If it be decided to obtain the consent of
the lessees I would suggest as expedient
that such request should be made from
the Head Office. On that point however you
might possibly differ.

1st Claimant is a half breed, has
very little improvements, might have taken
up a claim much more valuable than
this long since, had he desired. The claim
is far from being a valuable one. His
Father-in-law, brother and father own
all the working together and among them
have considerable stock. His name Joseph
Hunn, is ~~half breed~~, has participated in
the North West half breed Scip his right to
\$240 in Scip, sold for about \$90 & with it
and some more cash purchased what he
considers a fancy spring wagon. Recommend
entry be granted as requested but that the
\$9¹/₄ frac of Sec 12 be reserved from entry
as a stock watering place being very well
adapted for that purpose. Also that portion of Sec 1
lying with the south & part Sec 2.
2nd Sidney John Hooper has
no improvements, is living at present with
Mr. Walter Huckle on Sec 22 in the same
Tps. is an Englishman and probably make
a fair settler. Recommend entry be granted

[illegible]

as requested.

3rd Arch^d Looking wishes to enter to N E 1/4 Sec 18. has lived there since last spring, has it all enclosed with wire fence, will likely prove a good settler. The only objection to his claim being the shutting out of the River for watering stock; However recommend his application be granted.

4th Wm Looking lives with his bro. Arch^d on the N E 1/4 of this Sec. told him entry could not be given him until the question of watering places was decided, but in his case would I recommend the whole to be given him as the cut banks ^{to the West} and East, would prevent cattle getting to the River for miles and this 1/4 Sec is particularly well suited for watering by getting down to the River on this, cattle could work up stream under a cut bank along a narrow flat, admirable shelter for stumps. Would recommend entry be not granted at present; but in no case should he I think obtain entry to more than the 25th of this 1/4 Sec and the frac 1/4 Sec to the South of this, the S E 1/4 #8, should be reserved from entry as a watering place. He has never resided on his claim but with his brother on the adjoining 1/4 Sec. his improvements consist of fencing

5th William Henry Long. Was employed as ferryman by the N W Coal & Char. Co at this point. During 1884, since they ceased to require the ferry, that is this year, he has been running the ferry on his own account, states he owns the improvements

657

on this $\frac{1}{4}$ Sec 34 $\frac{1}{4}$ 34, which consist of house
breaking and fencing which altogether he
values at \$300⁰⁰. Will probably prove a
fair seller.

Recommend he be granted entry
to that part of the $\frac{1}{4}$ Sec lying North and
East of the Old Man's River.

You will please take the necessary
action on this. See special report on Wetting places
of this date. of 10th Sept^r 1885.
All of which is respectfully submitted.

Calgary 12th Apr 1895.

Sir

I have the honor to enclose with report and recommendation copies of paper referring to three claims for land in the Calgary District. The originals are retained in the Calgary Office till final action is taken when they will be forwarded the Head Office.

They are

- 1st Walter Macdonald H 31 1/2 26. P NW 1/4 23. Purchase the N 2 1/4 22 & 32 1/4 27. all on fine 1/2 lot and in 1/2 9. R 23 1/4 22
- 2nd Francis Thomas Macdonald H 31 1/2 26. P NW 1/4 23. Purchase the N 2 1/4 22 & 32 1/4 27. all on fine 1/2 lot and in 1/2 9. R 23 1/4 22
- 3rd Douglas Allen H 31 1/2 26. P NW 1/4 23. Purchase the N 2 1/4 22 & 32 1/4 27. all on fine 1/2 lot and in 1/2 9. R 23 1/4 22

You will notice that all three claims appear to be owned by the B.C. and it will be necessary to obtain the consent of that Corporation to settle the land and accept other lands in lieu thereof. Heretofore the requests to that Company have come from the Mining and probably it is advisable to continue the practice.

1st This claim was taken up and settled on in March 1888 by one O.S. Main some extensive stockman and who now holds lease L² 30. and who in April 1888 sold to present claimant consideration \$1500.00. The present claimant is an Englishman and likely to prove a 1st class settler. in fact has already demonstrated this. His buildings worth \$1500.00 fencing to the value of \$500.00 herd of cattle and 12 horses.

The N 2 1/4 of 23 might be granted to the B.C. in lieu of S 1 1/4 the former contains 160 ac. the latter only 160. If they waive their claim to this and accept other land would recommend the B.C. to

be granted H entry thereto. P. the NW 1/4 23 Contg 155 ac. purchase NE 1/4 22 Contg. 54 ac and the SE 1/4 27 Contg 13 ac. the price of the pre-emption and purchase being \$2.50 per ac. As however it lies within lease h² 68. for reasons cited in the case of Burns, Luby, Hoppe and Dorey, mentioned in report of yesterday's date, the action suggested therein, so far as the lease holder is concerned, would also be requisite in this case. If you should consider that action may be taken and entry granted without the consent of the Leaseholder would recommend the agent be instructed to notify the claimants that the H.B.C. had been communicated with asking them to waive their claims, and if that were conceded he would be granted H entry to the SW 1/4 26-9-23W but as some time must necessarily elapse before such action can be completed, in the mean time the portions claimed as pre-emption and purchase may be sold him. This claim was taken up from L. Harrison.

2nd L. S. M. Westrop's Claim to SE 1/4 8-9-26W²

This was first taken up by Thos A. Bays in March 1870. who raised thereon nearly two years erected a house broke off about 20 ac. who sold to one W. J. Hyde who cultivated & occupied it from 1850 to 1852. and resided with Allison on the S. W. 1/4 of same section who was of the firm of Hyde & Allison, Stutterman. Hyde increased the breaking to 20 ac. and in 1852 sold it to one W. B. Bays who resided on it 2 years & sold to present claimant within the past year. Westrop is about 19 years of age, an Englishman. His buildings to the value of about \$1,000, fencing \$400. & horses and the necessary farm machinery.

3rd Douglas Allison SW 1/4 8 ac H & P NW 1/4 5-9-26W 4 7/8.

W

3rd August 1882. I have been thinking of writing to you for some time but have been so busy that I could not find time. I am now at home and have some time to spare. I am well and hope this letter will find you the same. I have been thinking of writing to you for some time but have been so busy that I could not find time. I am now at home and have some time to spare. I am well and hope this letter will find you the same.

He first made improvements in March 1877 and since May 1878 has resided thereon. Contained broke 10 ac in March 1877, lost 20 ac in April 1878 has 70 ac broken which has been cultivated as far as broken House with 8000 other buildings worth \$120000 fencing & corrals worth \$1200. All the foregoing values were placed thereon by claimant & are probably 30% too high. H. J. Hyde also mentioned had no quarrels with Allison an interest in the buildings but Allison has bought out his interest.

Allison states that Byrdges Land Com^{rs} of the H. B. Co. has promised to give up the S¹/₄ of sec 8 and accept an equal area of the same value in this Tp and that such could be obtained on Willow Creek.

This man is an "A1" settler and ^{if possible} should be protected, was there long prior to survey states that third Chairman of the Half Breed Com^{rs} interested himself in his and Westrop's cases promising to obtain for them if possible what they wished.

As to P. the NW¹/₄ S. would be a common sense that only that portion north of the Old Man's River containing 75 ac be granted. Think no one should monopolize both sides of such a stream in a grazing district, the price of P. to be \$1000 per ac. and if the H. B. Co. cedes this half section Allison & Westrop be granted H. B. Co. to the S. W & SE¹/₄ of sec 8-9-26 W 4th N.

All of which is respectfully submitted
Respectfully submitted to the
his

Yours obedient servant
H. J. Hyde
Super

659

Calgary 12th Sep^r 1885-

Sir

I have the honor to enclose herewith copies of papers in the case of F. D. Bertrand's claim to a portion of Sec 10-9-26W4th with report and recommendation thereon. The originals are retained here till final action is taken when they will be forwarded the H. O.

As this claim lies within the Police Reserve at St Macleod it might be well to submit it to the Minister, accompanied with any suggestions or observations you might wish to make thereon.

As from papers attached it would appear that on the 6th of Feb 1883 an "O in C" was passed declaring Sec 9, 10, & 11: Tp 9, R 26W4th a Police Reserve.

Francis Xavier Bertrand states he commenced his residence in June 1882. In Oct 1882 erected a house, between June & Oct 1882 lived in a tent. Since the latter date lived continuously on said Sec 10. Has 24 ac broken and in crop 4 ac broken in 1882 4 ac in 1883, 14 ac, 1884 and 4 ac 1885. His house valued at \$800 other buildings and corrals worth \$700 and fencing \$1000. His estimate of values is outrageously high. His fencing could easily be erected for \$500 possibly for much less. He is a hard working good settler and if he obtains his claim will have a very valuable one which today he could probably sell at \$20⁰⁰ per acre, besides his improvements. If granted entry would

९२३

[illegible]

10
 Your obedient servant
 J. J. [Signature]

Winnipeg
Can. - Wm. T. Jones
H. H. Smith - Jap

recommended that he be permitted to H L.S. 7 & 8
and that part of the N 2 1/4 10. lying south of the
Old Man's River, and that all of L.S. 41 lying
south of Old Man's River be Tp 7. R 26 be sold
him at \$2⁵⁰ per ac or he be permitted to purchase
it. This would secure to him all his improvements
and cultivation excepting probably one fourth of a
mile of fence which could be readily moved. He
was unable to state on what portions of the Sec his
improvements were situated and I made a rough
sketch showing to locate them. The area granted as H
would be 122 ac. the R. 57 ac.

So far as being settled in Advance of the
"Ore C". there is no doubt he was and so far as that
point is concerned is entitled to entry. but as he
settled subsequent to 7th May 1880. date of Amendment
to H.L. Act. see sub clause 5. Clause 34, L.S. Ore
Cup 26. the "Ore C". being passed prior to the
"H" being surveyed and the land opened for entry
reserving it, leaves it to the Minister to decide on
what terms he may be granted entry if at all.
and it being a valuable claim it might be considered
advisable to sell it him. Cap^t Colton of the Mounted
Police stated to me that he thought the Gov^t should buy
out his improvements, requiring the land to grow
their horses thereon.

If entry be granted him, and in favor or no
case there the terms of the said amendment been expressed.
would recommend he be granted H & P entry as already
stated. His P entry might be a sale.

All of which is most respectfully submitted

1/10/91

22nd Sept 91

Dear Mr. Thompson:

Re. Henderson's

I have been thinking in this matter and think a settlement can be arrived at in this way.

The Hudson Bay Company

have the right to purchase 14 acres

of the land Dec 14. 24. 1890 at \$2000 per acre. The trading department

have asked for the right if the

required the land and be replied to

through the land department

are not in a position to buy

land at present, but that if you

wrote Mr. Thompson, stating that

is an application for the land

and ask if the Company are going

to

to

to

to

488

to take it and give a
 period for the \$1000
 the present time is that
 can do with it as they
 it being vacant. There
 will accept this piece in the
 of \$1000 of \$1000 is to
 the same area which was
 given. The present
 the present being an
 the present day official has not
 to ask the Government to
 up their claims, but this
 the Government as they are
 religious.
 I think this is a
 favorable solution of the
 difficulty.
 very truly yours
 Wm. H.

664

to take it, and give a fixed
period for the \$700⁰⁰ to be paid
the result will be that ^{the Govt} ~~the Govt~~ you
can do with it as they wish.

It being vacant, Hardesty
will accept this piece in lieu
of a portion of Lots 12 & 13
Edmonton, say the same area which may
given Thunderstone.

Hardesty being an
Arcton Bay Official does not
to ask the Company to give
up their claim, but thinks if
the Government do, they will
relinquish.

I think this is a very
reasonable solution of the
difficulty.

Very truly yours

Wm. Pearce

Report of the various House of Representatives
 and committees - from 1st of 1871 to
 present date. There are over 1000 pages all
 the statistics from various all the old documents
 and in some there are all names in figures
 appearing in our volume, being between
 the various acts. They are of great value to
 any one who wishes to know the state of
 the country if it will be in time 1871
 April 1871

These suggestions further for any one
 in the office of interest or information.
 I am giving you a list of books
 but I think you can select a good deal
 this to obtain.

Yours very truly

P.S. Also copy of H.O. letter or statement
 of 1st of July 1871. H.O. 73000. Also
 for from the House of Representatives
 in addition to that.

Dopins of the various Home Tenants Acts-
and amendments- from 1st Act of 1872 down
to present date. Have some one go through all
the statutes, & from index all the acts & amendments-
may be had & have them all bound in proper
sequence in one volume, leaving between
the various acts, say 6 pages of blank paper to make
any notes therein I wish. Also in same volume
at 1st page if it will fit, in have O in C of 25th
April 1871.

And anything further you may have
in the office of interest or information.

I am giving you a lot of trouble
but I trust you can delegate a good deal of
this to others.

Yours very truly

H. B. Hall

P. S. Also copy of H. B. letter or statement
of 25th 5th May 1884. H^o 73066. also
get from Mr. Foxwell his amendments
in addition to that.

Mention this so that if you think it probable, Mr. Haverley's application should be granted, you might wish to change this application for other land, which can be granted if in accordance with the enclosed regulations—

Have the honor to be,

Sir,

Your obedient servant,

Wm. Pearce
Superintendent

Winnipeg 28th Sep^r 1886

Sir

I have the honor to enclose herewith copy of all papers having reference to the claim of Herbert M. Cottingham to Homestead the S W $\frac{1}{4}$ 36-12-28 W 4th and to pre-empt the NW $\frac{1}{4}$ 25 in the same township, failing to obtain right to pre-empt or purchase the said $\frac{1}{4}$ of Sec 25. Then he asks to pre-empt the NW $\frac{1}{4}$ of Sec 36 in the same T^p. The originals are forwarded to the Dom. Lands Agent Calgary to be by him forwarded H. O. when final action is taken.

This land is within lease No. 55. held by the Windsor Ranch Co. "O in C" authorizing same being dated 26th July 1882. date of lease 14th June 1883.

This application is not signed being filled out by him and no doubt he would sign it and make affidavit thereto. He has not been as precise ^{in his statement} as to the amount of residence put in, as is desirable. States he settled there in March 1883. and if since that date he has resided there in conformity with the Homestead requirements of the Dom. Lands Act ^{to the S W $\frac{1}{4}$ 36} recommend he be granted entry, his settlement being prior to date of lease.

It would however only be reasonable that Capt^r Windsor H. Muelrost be notified that Cottingham claims entry and if he deems advisable to show cause why such should not be granted Cottingham, as it is possible there may be good reasons why such should not be

H. H. Smith Esq
Com^{rs} Dom. Lands
Winnipeg
Man

Minneapolis 28th Sep^r 1888

Sir

I have the honor to enclose herewith
 copy of all papers bearing reference to the
 claim of Herbert A. Coltingham to Homestead
 the 2 W 1/4 22-15-28 W 4th and to pre-empt the
 NW 1/4 22 in the same township, failing to obtain
 right-of-pre-empt or purchase the same 1/4 of
 sec 22. There he asks to pre-empt the NW 1/4 of
 sec 22 in the same T^h. The originals are
 forwarded to the Hon. James Grant Colquhoun
 for his opinion forwarded H. O. when final
 action is taken.

This land is within lease 22-22-22
 being lease 22-22-22, date of lease 14th
 from 1883.

This application is not original being
 follow out by him and no doubt be under sign
 it can be made official there. He has not been
 as far as to the amount of money paid in, as is
 observed. States he entered there in March 1883, and
 if since that date he has received there in exchange
 with the Homestead requirements of the Hon. James Grant
 recommend he be granted entry, his settlement being
 prior to date of lease.

It would however not be recommended that
 copy of the papers be sent to the Hon. James Grant
 for his opinion and if he deems advisable to then forward
 copy and should not be granted Coltingham, as it is
 possible that entry be given to him when entry should not
 be

Minneapolis

be given

As to his P. right to a portion of Sec 25
or even for purchase this should not be given
until the stock vesting question be looked into.
It may not be in the public interests to allow
any one individual to control a mile of Waterway, and
both banks at that. As is requested in this case.

All of which is respectfully submitted
I have the honor to be

Sir

Your obedient servant

Wm. Pearce,
Supt.

be given

As to his P. right - to a portion of the 25-
 or even for purchase this should not be given
 until the stock holding question be looked into
 It may not be in the public interest to allow
 any one individual to control a mile of Railway, and
 that would be the case. It is important in this case.
 All of which is respectfully submitted
 I have the honor to be

Sir

Yours obedient servant

Wm. L. G. Brown
 Agent

Winnipeg 26th Sep^r 1885

Sir

I have the honor to enclose herewith copy of an application by two brothers John Stewart and David Henry Nelson to homestead the SW 1/4 31-10-27 W 4th. The originals are forwarded to the Dom Lands Agent - Calgary to be by him forwarded to H. O. When final action is taken.

The applicants are Canadians from the Co^y of Peterboro, Ont. have resided for some time in Montana and California, came to the Canadian North-West in 1883, settled on this claim in ^{April} 1884 and resided there ever since. They are likely to prove good settlers; but having settled on an odd Sec. subsequent to Survey & entry cannot be accorded them, and if they can obtain permission from holders of Lease No 48 to purchase this 1/4 Sec. that the same be sold them at \$25 per ac. subject to 3 years residence thereon by one of them. This land comes within Lease No 48, held by A. Stanley Hill 2.C. M.P. The "O in C" authorizing same being dated 12th May 1882, date of lease 21st June 1882. The claimants state at date they settled on this claim they did not know whether they were on an odd or even Sec. nor whether within a lease or otherwise. This is probably correct and likely the Manager of the Opler Ranch but Craig did not know either, he having bought out some squatters whose claim lies I think partly on the SW 1/4 31 & also partly on the NW 1/4 30 consisting of a cow boy hut, corral, &c.

H. W. Smith
Com^r - Dom Lands
Winnipeg

Minneapolis 28th Sep: 1888

Sir

I have the honor to enclose herewith
copy of an application by the brother John Smith
and also Henry Nelson to purchase the NW 1/4
31-10-27 W 4th the original are forwarded to the
Hon. James Spaulding - copy of letter by him forwarded
to H. O. when first action is taken.

The application on consideration from the
of Patrons, etc. have received for some time in
Minnesota and California, come to the Commission
which was in 1883. Letter on this claim in 1884
and received that was since. They are being
to form good matter; the remaining matter on one
side for. Subsequent to turning it out.

cannot be accounted there, one of that case
obtain permission from brother of James. He
at 8.10 purchase the 1/4 sec. that the same is
under him at 8.10 for sec. assigned to 3 years
matrimonial return by one of them, this time
comes within term 8.10. held up at about
file 2. C. W. P. the 3rd in C. Subsequent same
being dated 12th May 1882, date of loss 21st June
1882. The claimants state at date that

letter on this claim that did not know what
they can or can not or even sec. was whether
within a term or otherwise. This is probably correct
and titled the manager of the Delay House has
said that not known either, he having bought
it from applicants whose claim he thinks
found on the NW 1/4 31 section found - on the NW 1/4 30
consistency of a copy but. Cannot give

W. H. H. H.
W. H. H. H.
W. H. H. H.

some breakings. These improvements lie so close to the line between sections 30 & 31 that without running the line it would be impossible to ~~state~~ on which section they were, and in no case should Nelson's be accorded the S 1/2 of L. S. 3 & 4.

Therefore with the consent of the lessee of the Oxley Ranch we would recommend that N 1/2 of L. S. 3 & 4. L. S. 5 & 6. Sec 31-10-27 W 4th be sold either John Stewart Nelson or David Henry Nelson at \$1.25 per acre cash, patent not to issue till after 3 years residence thereon
Respectfully submitted

I have the honor to be

Sir

Your obedient servant

Wm. Nelson

Sup.

have been...
 so close to the line between Section 30 & 31
 that without running the line it would be
 impossible to ~~that~~ ^{the} other Section they were
 and in an even manner below. In accordance
 the 2 1/2 of L. S. 344.

Therefore with the consent of the town
 of the Order Council would recommend the
 1/2 of L. S. 344. L. S. 344. Sec 31-10-57 W.H.
 be over entire from bluest line on bluest
 line below at \$1.50 per acre, Section
 and to make the 3 years residence there
 Respectfully Submitted

I have the honor to be

Sir

Yours obedient servant

Winnipeg 25th Sep^r 1888.

Lin

I have the honor to enclose herewith
copy of an application by one Arthur John Henry
to Homestead the SW 1/4 25.-9-26 W 4th and to
prompt that portion of the NW 1/4 24 same Tps. lying
north of Willow Creek. The originals have been
forwarded the Agent Dominion Lands Calgary to be
by him forwarded H.O. where final action is taken.

This applicant is a harness maker living in St. Michael and following that business. About Nov. 1882 took up this claim and between that time and 1st June 1883 lived on it about one half the time, since latter date has visited more than once and as broken which is now grown up with weeds. now he values at \$100 pricing the same amount. These valuations are probably very much too high.

If he does not do better with this land in the future than in the past he will prove anything but a worthy settler from an agricultural standpoint, and from his residence in the past cannot commence his claim be granted as giving any right that that of purchase. If however he desires, on furnishing a plan of survey showing the position of Miller Creek, said plan to be signed by a D. S. S. and within and all cases to show the reason of the portion patented. This portion may be sold him at \$2.50 per acre cash. If however he is prepared to go into some field assistance on this place, not as a settler but as a surveyor and carrying on his business making business in St. Paul, Minn.

671

this property may be sold him at \$125 cash
but patent not to issue till his 3 years
residence is fulfilled.

If this meets with your approval
please give the necessary instructions to the
agent.

Respectfully submitted.

Winnipeg 24th Sep^r 1885

Sir.

I have the honor to enclose herewith copy of all papers concerning the claim of Geo. Leathem to Homestead the N.W. 1/4 1-19-2944th. The originals being sent to Agent Horn Lands Calgary to be by him forwarded to H.O. when final action is taken.

This claim was taken up in 1883 by one Louis French, who resided thereon probably 3 or 4 months, and in April 1884 sold to present claimant who since the 22nd Oct. 1884 has resided continuously thereon. French took it up probably about the time of survey, and if he had continued thereon would probably have been awarded homestead entry; but at time present claimant purchased the land being surveyed, he should have known that the purchase from French would give him no right - other than to purchase the same. He however pleads poverty - as reason ~~that~~ should be granted H. entry, and under the circumstances feel inclined subject to your approval to recommend his request be granted. Should you not see your way clear to approve the above, then recommend it be sold him at \$125 per ac, as has been done in other cases, subject to 3 years residence thereon and a liberal time say 2 years given to pay for the same.

All of which is respectfully submitted and please cause necessary instructions to be issued Agent

I have the honor to be

Winnipeg 25th Sep^r 1885

Sir

I have the honor to enclose with this report copies of all papers referring to the claim of John Elie Talbot Dunbar to H the N²/₄ 1. P N²/₄ 1 and the purchase the SW²/₄ 1. all in Tp 10 - R 27 W 4th. The originals having been sent to Don Lands agent Calgary to be by him forwarded H. O. when final action is taken.

To illustrate the position of this claim see following sketch

Sketch Sec 1 & 12.

Tp 10. Rg 27 W. 4th

The claimant is a 1st class settler. Just made his improvements in Jan^y 1884 and commenced his residence in March following. Since then he has resided continuously. From date of settlement being subsequent to 1870, and on an old Sec. H survey cannot be accorded as desired, but equally liberal treatment is granted by selling at $\frac{1}{25}$ price as subject to 3 years residence thereon, the

H. A. Christy
Com^{rs} Don Lands
Winnipeg

673

same as has been accorded to others; but would recommend he be sold ~~only~~ that portion of Sec 1 lying north & east of Willow Creek excepting the NW 3 chs of said Sec.

The sketch illustrates the reason for such reserve. Assuming Deubar obtains all of sec 1 lying N & E of said Creek and Capt^l Bryant and associates all of 12. a portion of Willow Creek particularly well adapted both for stock watering and that will be occupied to the detriment of the stock interests.

Further Deubar will require to furnish a survey of Willow Creek by a D. L. S. to enable the area to be known.

This 6th reservation, typically taken from 1 & 12 should I think be assumed for the purposes mentioned and if this meets with your approval please instruct agent to make necessary notation in his register, so that when entry is granted to the Sth of 12 the necessary reservation can be made in the future receipt.

If this meets with your approval please give agent necessary instruction and to notify Deubar of the terms under which sale can be made him. That portion of 1 & 12 lying N & E of Willow Creek not being within a lease entry may be granted.

All of which is respectfully submitted
I have the honor to be

Sir

Your obedient servant

Wm. L. L.

Sept

There has been no record to obtain, but number
recommenced in the order ~~only~~ that portion of the
lying lands & part of Willow Creek occupying
the 1st 3 sec of series 400.

The State illustrates the reason for
such reason, assuming to under obtain all of the
lying 1st 3 of series 400 and Capt. Thompson and
associated all of 12, a portion of Willow Creek
portioned will complete both for stock watering
and that will be sufficient to the extent of
the stock interests.

Further reason will require to furnish
a portion of Willow Creek by a 10. 2. 4. to include the
area of the town.

This is a reservation, especially to them
and 1st 3 of series 400 I think be reason for the
portioned interest case of this land with your
approval please interest agent to make necessary
the thing in his register, so that when ready is
portioned to the 2nd 3 of the necessary reservation
can be made in the future receipt.

If this land will give approval

Winnipeg 23rd Apr 1885.

Sir.

I have the honor to enclose with this copy of all papers in connection with the application of Robert Lowery to homestead the N 2 1/4 25-15-29 W 6 and to pre-empt the N W 1/4 of the same section. The originals are sent the Calgary Horn Lands agent who by him forwarded H. O. when final action is taken.

The facts in this case are that Lowery settled on this land in Jan^y 1884, subsequent to survey, and since then has resided continuously thereon. It without much means but likely to prove a 1st class settler.

A peculiarity about his case is that one Hyde settled at the same ^{time} on the same land of the section, applied, through Messrs Peterson and Peterson Barristers &c of Calgary, for entry to the Head Office. Lowery whose case is exactly similar applied through the same parties and was refused.

Lowery's excuse for settling on an odd Sec. is that in Jan^y the snow was too deep to enable him to find the posts, but even had he & Hyde known it was an odd Sec. no doubt would have settled where they did, the location being choice.

Hyde's entry was no doubt the result of an oversight and his solicitor urges, Hyde being granted entry through an oversight Lowery was as a matter of right entitled to the same treatment.

H. H. Smith
Com^r Horn Lands
Winnipeg
Man

674

The answer given him was, "Two wrongs do not make one right action" and if Lowrey be accorded entry, the Dep^y knowing the facts, their attention being so distinctly drawn thither. I cannot see that anyone can be refused entry who may settle on an odd fee.

For the reason stated in mine of yesterday, referring to the claims of John Moore on Dec 13-9-24, W H^y I would recommend the full fee. or 160 ac thereof be sold Lowrey at \$1.25 per ac. Should not to issue title after three years residence has been put in on the land.

It may be that he may not be able to pay for the land in which case would recommend he be granted privilege of purchasing by installments of cash. balance in 1, 2 & 3 years with interest on the unpaid balance at 6% per annum. It would be preferable however that cash in full should be paid. If this meets with your approval please give the necessary instructions all of which is respectfully submitted.

I have the honor to be

Sir

your obedient servant

W. Pearce

Supt.

PS
 A. H. from a P at \$2.50 per ac with office fees amounts to \$420. 320 ac. at \$1.25 = \$400. By the former however he would have but \$20 to pay until July 1887. Interest from now, say Nov 1st 1885 till 1st July 1887 = \$400 @ 6% per ac. for one year & eight months = \$40.00. Total \$440.00 difference between what he owes and has been accounted = \$20.00. If not asked to pay either principle or interest till say 1st Sept 1886 the above amounts equal.

Winnipeg 23rd Sep^r 1885.

Sir

I have the honor to enclose with this copies of two applications.

1st that of John Murray Robson to homestead the S W 1/4 20-8-22 W 4th

2nd that of Henry Edward Devous to homestead the NW 1/4 31-8-22 W 4th

The originals have been forwarded to the Agent Dom. Lands Calgary to be by him forwarded to H.O. when final action is taken.

The only objections I see to application of Robson are being within a coal reserve and also as affecting access to the Belly River for stock watering purposes.

The remedy to the former objection can be met by reserving in the entry the coal mining privilege, as has been done at Medicine Hat.

As to the 2nd objection it would appear from the 2p map that even if entry be granted as asked, reasonable facilities would still be afforded for stock watering purposes. but would recommend ~~as~~ his entry receipt that conditions be enclosed thereon in red ink. Subject to whatever conditions may be imposed by the "Gov in Council" providing for free access by stock to any water flowing ^{or adjacent} over the surface of the land covered by this receipt or regarding the grazing of stock owned by the party in whose favour this receipt is issued, outside of the lands covered by this receipt when it is now or may hereafter be within a lease

Subject to these conditions

Manuscript 28th Sep^r 1883

his

I have the honor to enclose with
 this copy of his application.
 For that of John Murray Roberts to become
 the 8th W. 14 20-8-55 W. H.
 2nd time of Henry Roberts to become the
 8th W. 14 21-8-55 W. H.
 The originals have been forwarded to
 Agent John. Jones & Co. by their
 W. H. O. when final action is taken.
 The very objection I see to application
 of Roberts being within a local business
 also as affecting areas with the time for
 that working purposes.
 The remedy to the former objection
 can be met by removing in the early the
 mining privilege, as has been done at
 that. As to the 2nd objection it would appear
 from the 1st that even if early the privilege as
 desired, reasonable facilities would still be offered
 for that working purposes. But would recommend
~~the~~ his early receipt that application be
 removed there in the 1st. Subject to what
 conditions may be imposed by the "in Council"
 provisions for free access by stock to any water
 planning over the surface of the lands covered by the
 receipt or regarding the grouping of stock over
 by the point in where former this receipt is
 issued, outside of the lands covered by this receipt
 when it is over or over brought in within a lease"

ing to recommend his application to your favourable consideration.

2nd As to the Claim of Devours. to NW¹/₄ 31-8-22W 4th, it appears that in the Spring of 1852 he drew out logs for building. Winter of 52-3, resided on it about 2 months about half the time, during Winter 53-4 and 54-5 about 4 months. & during the summer acting as a cowboy claims to have improvements to the value of \$1265⁰⁰/₁₀₀ which valuation is probably outrageously high, probably not more so than the average in the Mead District.

It is true his residence has not been in conformity with the homestead requirements of the Hom. Lands Act. and though on one odd^{Sec.}, from what he had done before, I may recommend though on an odd Sec. entry be granted subject to the conditions enumerated in the case of Robson to the SW¹/₄ 20-8-22W 4th embraced in this report. That is as to coal, water and grazing.

If this meets with your approval, please issue necessary instructions to Agent.

All of which is most respectfully submitted.

Winnipeg 22nd Sep^r 1885.

Sir

I have the honor to enclose with respect on the application of John Moore to H the NW¹/₄ 13 and the N¹/₄ of the SW¹/₄ of 13 frac. containing together 142 ac. and to pre-empt the S¹/₂ of the SW¹/₄ 13 frac. the SE¹/₄ 13 frac. all of frac Sec 12. containing in all 140 ac. all in Tp 9. R 24 W 4th. The originals of the papers accompanying this have been forwarded the agent of Roman Lands Calgary to be retained by him till final action when they will be forwarded H. O.

This claim is situated on lease W^o 99 held by one Joseph McFarland, who is a squatter near Ft. Macleod in Tp 9. R. 25. W 4th. The "O in C" authorizing said lease was passed on Oct 29th 1883 and the lease is dated 24th Feb 1884. Moore the claimant first made improvements on this claim in Feb. 1883 and commenced residence in the Autumn following, so that so far as being under lease is concerned entry may be granted.

This Tp was surveyed in 1883. Prior to the date Moore commenced his residence, but he states that prior to survey he had the point enclosed with a fence on which the greater portion of his claim is. Thus showing the bona fide nature of his intentions and since then has resided continuously thereon. By referring to Tp map you will observe that about one third of a mile of fencing will enclose the entire claim, or at least all but a few acres of the N¹/₄ Sec 13.

As to reserving any portion covered by Moore's claim for stock watering purposes. I hardly

J. H. Harrison Esq.
Care of Roman Lands
Winnipeg

Yours

Winthrop 22nd Sep 1883

Sir

I have the honor to enclose with - reports
 on the application of John Jones to H. W. 13
 and the N. 1/2 of the S. W. 1/4 of 13 acre, containing together
 14.5 ac, and to present the S. 1/2 of the S. W. 1/4 13 acre. W. 25th 13
 acre. all of 13 acre 12.5. containing in all 14.5 ac. all
 in the S. 1/2 13.24 W. 1/4 13. The original of the papers
 accompanying this have been forwarded the agent of
 John Jones along with the returned by him the first
 return when they will be forwarded H. O.

This claim is subject to lease to 20
 years by one Joseph H. F. Jones, who is a resident
 of H. F. Jones in the S. 1/2 13.24 W. 1/4 13. The 0 in 13
 containing some lease was forward on Oct 24th 1883
 and the lease is dated 24th Feb 1884. From the
 documents - first - second - third - fourth - in this claim
 in Feb 1883 and commenced residence in the
 claim following, so that so far as being under
 lease is concerned they may be presented.
 This the was changed in 1883, from 13

The state house commences his residence, but he
 states that from the time he has the first return
 with a lease on which the greater portion of his interest
 is. This showing the first return of his interest
 and since then has received continuously there
 by referring to the map you will observe that about
 one third of a mile of ground will enclose the
 entire claim, or at least all but a few acres of
 the N. W. 1/4 Sec 13.

As to receiving any further returns by
 Jones's claim for black trading purposes. I have
 none

John H. Jones
 Winthrop
 22nd Sep 1883

think it necessary to make such a reserve, provided in this as in nearly all cases of granting entry along the river it would be advisable to grant such entries subject to such conditions as may be imposed regarding watering places for stock.

It has occurred to me that in all cases of squatters on odd Sec^s subsequent to survey and prior to date of my visit to the Macleod District in which I announced to everyone I met that odd Secs were not open for homesteading that parties who had settled thereon might be accorded conditions similar to those contained in Clause 9 of the Regulations of the 25th May 1881. That is whereby an actual settler should be permitted to acquire to the extent of 320 ac. at \$1.25⁰⁰ per ac. subject to 3 years residence and improvements thereon.

If this be approved by the Minister, then would recommend those be permitted to purchase this claim containing in all 282¹⁴ at \$1.25⁰⁰ per acre. subject to such conditions.

All of which is most respectfully submitted

Yours truly Wm. W. W.

Sir

Your obedient servant

Wm. W. W.
Supt.

Thanks it is necessary to make such a summary provision
 in this as in nearly all cases of granting relief
 along the river it would be impossible to grant
 such relief subject to such conditions as may be
 required regarding working places for stock.
 It has occurred to me that in all
 cases of application on road No. 2 subject to
 being over for a year or more of any kind to the
 Federal District in which I am now to employ
 I want that road No. 2 was not open for the
 that parties who have better than might be
 necessary condition similar to those conditions
 in clause 9 of the regulations of the 22nd April
 1881. That is subject to an order of the Board
 Committee to require to the extent of 30000, at 1.25
 per ac. subject to 30000 interest and
 improvements thereon.
 If this is approved by the Minister,
 then would recommend that the Committee to
 forward this claim containing in all 282nd
 of 21st for one. subject to such condition.
 All of which is most respectfully

I have the honor to enclose herewith copies of all papers on file being an application by Robert Wyle of Battledore to purchase the S. W. $\frac{1}{4}$ 19-44-15 W 3rd. The originals have been forwarded the Agent of Dom. Lands Battledore to be by him forwarded H. O. where final action is taken.

When I was at Battledore last summer the applicant spoke to me concerning this matter. He is a very enterprising settler. Of the firm of Wyle & Burke large stock farmers and propose draining this $\frac{1}{4}$ sec. This rendering it good hay, lands. By reference to the T. P. Map you will see that the W. $\frac{1}{2}$ limit of this $\frac{1}{4}$ sec runs through a muskeg the S. $\frac{1}{2}$ limit not being run no topography on that line is shown, but it may I think be fairly ~~assumed~~ that Wyle's statements regarding this $\frac{1}{4}$ sec being muskeg are correct.

It being an odd sec ^{if not more} may I presume be sold, though it did at one time form a portion of the C. P. Ry land grant; but if muskeg, would, no doubt be rejected as being in a material degree unfit for settlement."

Would recommend on filing with the Agent satisfactory proof that this $\frac{1}{4}$ sec is largely muskeg and can be rendered productive only by drainage, it be sold him at the minimum price viz \$1.00 per ac.

I have the honor to be
Sir.

Manuscript 24 = 1882

in

I have the honor to enclose herewith
 copies of all papers on file being an application
 by Robert W. H. of Baltimore to franchise the
 A. W. 1/4 19-44-12-14 3⁰⁰. The originals have been
 forwarded the Agent of Hon. James B. Matthews
 to be by him forwarded H. O. where fine copies
 is taken.

When I was at Baltimore last summer
 the applicant spoke to me concerning this matter.
 He is a very interesting gentleman, of the firm of
 H. H. & Co. large stock farmers and breeders
 owning this 1/4 sec. This concerning it goes very
 much. For reference to the 1/4 sec. you will see
 that the 1/4 sec. of this 1/4 sec. seems to be
 breaking the 1/4 sec. and land was on topography
 or that land is shown, but it says I think to find
~~that~~ that H. H. & Co. statement regarding this
 1/4 sec. being broken are correct.

It being an order on order of H. H. & Co.
 in order, though it was at one time from a person
 of the C. & P. land grant; but of breaking, under, as
 there is reference to being in a certain degree
 right for settlement.

There is no reason or filing with the
 great satisfactory proof that this 1/4 sec. is largely
 broken and can be under franchise only
 by statute, it is order him at the minimum
 price of 1/100 per ac.

I have the honor to be
 Sir.
 Your obedient servant
 Wm. H. H. H.
 Wm. H. H. H.

 Wm. H. H. H.

678

Sir

Winnipeg 16th Sept 1885

I have the honor to enclose with this copy of a declaration made by one Robert, Bringers M^{tr} ab. to Homestead the N^W 1/4 (J^{ma}) of Sec 29, and 3/4 of the S^E 1/4 Sec 32. To purchase the N^W 1/4 of the S^E 1/4 Sec 32. and to purchase that portion of the S^W 1/4 Sec 33. only 24 ac. lying adjacent Sec 28, all in Sp. S. R. 24 W 4th. If my recommendation is approved you will please give the necessary instructions to the Agent.

This claim lies within Lease N^o 657 held by Messrs. Bell & Patterson, and Mr. Bell informed me that he had no objection to the claim entering, so that so far the claim being made, there is nothing to prevent entry being granted.

Another point is the portion of the claim lying on a school section, but as he was then permitted to survey recommended entry be granted as has been seen in other cases, and the same could be done just elsewhere in line of this as school land. This claim was originally taken up by present holder for his father, but as the father was not on the land till subsequent to survey, I advised the son to recommend an application by the father, told him and the son to, and they decided the son should make the application.

At the time I was on the ground had not heard of the two ships with me, and found on Refusal to the Sp. R^{ap} that there is a considerable of the N^W 1/4 of Sec 28 which lies adjacent and if not sold to Robert, will not be purchased by any one, except the Public revenues would suffer to find outlet. His objection to the claim could have been

678

except through or over the portion claimed by him.

Think however a reserve as a watering place for stock should be made at some point in this vicinity, and would recommend the SW $\frac{1}{4}$ of Sec 32 be reserved from Homestead entry. A strip 5 chains in width from off the West side of the NE $\frac{1}{4}$ Sec 29 and the same width from off the West side of the NE $\frac{1}{4}$ of said Sec. be reserved for that purpose the Collin quarter section being claimed by one Smith.

Recommend he (Smith) be granted H entry in the portion of the NE $\frac{1}{4}$ of Sec 29, lying north of the Holly River excepting the West side of said Sec which is reserved as a watering place. The area of the portion granted being about 77 ac. also the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec 32, ^{in all} only. The area granted as a H being 15.7 ac. That he be granted P entry to the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec. That that those portions of Secs 28 & 33, lying to the East & West of the Holly River and adjacent to Secs 29 & 32 be sold, Cash, before H entry be granted. The area of those portions being 86 ac. The price of land sold being \$2.00 per ac. Let the Agent be instructed until otherwise ordered to keep in his Registry, the reservation of the SW $\frac{1}{4}$ Sec 32 & the portions the NW and NE $\frac{1}{4}$ of Sec 29.

These includes are very good billings as shown by this declaration.

If this meets with your approval please issue necessary instructions to Agent

I have the honor to be
your obedient servant

J. Smith Esq
Don Smith.
Bismarck

J. H. Brown

except through or over the front clearance

278

think however a measure as a building
for that should be made at some point
in this building, and would recommend the S.W.
of the 82 be reserved from the building
strip of stone in width from off the West side of
the N.E. 1/4 of the 82 and the stone in width from off the
West side of the N.E. 1/4 of the 82. The measure for
the purpose the better ground being shown
up on the plan.

the measure in (width) be reserved H. side
of the N.E. 1/4 of the 82, being width of
the building, including the building, 30 ft. of
the 82 be reserved as a building place
the side of the building ground being
about 17 ft. also the 82 of the 82 be reserved
the same ground as a building place. That
the measure to be reserved to the N.E. 1/4 of the 82
and that the building of the 82 be reserved to the
N.E. 1/4 of the 82. The measure to be reserved
to the 82 be reserved, and before it being the
measure. The case of these buildings being 82 ft.
the case of these buildings being 82 ft.
the case of these buildings being 82 ft.
the case of these buildings being 82 ft.
the case of these buildings being 82 ft.
the case of these buildings being 82 ft.
the case of these buildings being 82 ft.

these buildings are very good
buildings on stone and brick foundations.
If this meets with your approval, please
send me your instructions to sign

 Sir Calgary 6 October 8

I would strongly recommend
 this application by J. A. Walker to
 purchase L.S. 5 in sec. 12.24. 155- to
 your approval. Mr. Walker has
 obtained homestead entry to 150 ac.
 of the S¹/₂ of this section. His price
 sold him was intended at one
 time to be subdivided into villa
 lots but as you are aware the
 Municipality does not consider it
 expedient to carry out the
 original scheme and by selling
 this to Walker, which he claimed
 as a preemption his case is
 settled, leaving however two other
 parties on the S¹/₂ 12 to be
 arranged with but so far they
 have not applied to me in this
 matter, ^{further} since they are not
 worthy of very much consideration
 having no doubt been placed on
 them by speculators and since
 abandonment of the scheme
 by the said syndicate of
 speculators have done no
 improvements, merely residing

on it

H. H. Smith Co.
 Court House
 Winnipeg

Dear Sir

Calgary 5 October 2

I should strongly recommend
 the application of J. H. Walker to
 purchase 12.5 in. x 12.5 in. 100 to
 your approval. Mr. Walker has
 extensive knowledge and is to 1200
 of the 1/2 in. of the center. His price
 for this was returned at one
 time to be submitted into order
 the but as you are aware the
 quantity cannot compare it
 of interest to carry out the
 original volume and of selling
 this to Walker, which is claimed
 as a presumption in case is
 other, having known two other
 parties on the 12/12 to be
 arranged with but as for the
 same not applying to me in the
 matter, since they are not
 aware of any such conversation
 having in about ten places or
 those of observation and since
 abandonment of the volume
 at the end of January of
 observation have been in
 improvement, which existing
 in it

Yours faithfully
 J. H. Walker
 J. H. Walker

out of intention. The other
 points are referred to the
 Board of Directors and according to
 its opinion of the matter
 to the Board and finally
 a law has been passed
 whereby the parties to be
 named are hereby treated
 then of the opinion.
 The Board along the
 railway right of way is to make
 the parties to whom even to
 their respective portions.
 I have the honor to be

Yrs

Edward Everett

Wm. D. Brown

Calgary 6th Oct. 1885-

My dear Douglas.

In reference to file No 91 225. letter
 No 94522. I have had to say that I regret every
 much the action taken, and feel certain that you
 were aware of all the facts as well as I have
 learned them, the action would have been different.
 So far as Hyde & Lowry are concerned they are
 decent fellows ^{& am glad they are so fortunate} and good settlers, but a precedent
 has been created, which will prove very awkward
 for the future & I will receive the blame or rather
 the settlers will consider if it had not been for
 my inspection trip ^{then} ~~me~~, all would have obtained entry. The settlers
 generally have ignored the surveys settling just
 on the choice spots, in a valley where shelter &
 water is, no matter whether on an odd or even sec.
 In my report on squatters in the Macleod District
 I have dealt very fully with this and to which to
 understand I would refer you. I visited Lowry and
 have made a report on his case which has been
 approved by the Com^{rs} after discussing this
 matter with the Minister at ~~Montreal~~ ^{Ottawa} a few days
 ago & now said Agent has given entry. The reason
 was that he had sold the 1/4 sec at \$1 25 per ac. All
 cases like who settled prior to my visit were
 to be treated likewise. Now ^{Lowry} ~~Hyde~~ having obtained
 entry as all others will demand as a right.
 Hyde & Lowry would have settled where they
 did even had they known they were on sec 25.
 I informed Hyde he obtained his through an
 error & when Peterson, ^{his brother} insisted Hyde having
 obtained it Lowry should also. every apply

P. B. Douglas Esq
 Asst. Sec. Dep^y of Interior
 Ottawa
 Ont

"two wrongs do not make one right" but what
 answer I can now to give I don't see. Hardly
 a settler knows where he was located & cannot ~~find~~
 It is true they settled in the winter. For the
 future all one will require to do is to say that
 they did not know where they were, can say
 nothing as the cattle have destroyed all the
 houses & the tin dishes cannot be found.
 If the Dep^y has made up its mind to grant
 it today on all see I will agree I am only too
 glad. But the whole country will immediately know all about
 this case. Hyatt's was frequently cited to me & Lowry's will be nothing it is
 the mistake (at least I think so) having
 been made what is the remedy? I would not
 recommend the cancelling of either Hyatt or
 Lowry's entries; but suggest they both be
 withdrawn to also Peterson ^{of Rogers} that entry has been
 granted under a misapprehension of the facts
 of the case. In all such cases it would be well
 I think to call for a report of the Land Agent or
 myself, should I have been over the country,
 by such action such awkward things as this
 would to some extent I think be prevented.

Now my dear Douglas I do not write
 this to find fault but merely to point out what I think
 is a mistake and who is the best man to pursue
 regarding it. I told Hyatt most positively that
 had it been noticed he was on an old sec. and settled
 there subsequent to Lowry he would not have been
 granted entry. That such a case was unknown to me.
 I had am I to say now?

You are at liberty to use this letter as you
 see fit, show it to Mr. Burgess & Hall & see what they
 would suggest if anything be done, or would they recommend
 entries be granted to all our old sec. & who settled subsequent
 to Lowry. If not all where the line is to be drawn & at what
 date or in what localities?

Very truly yours

J. P. [Signature]

P.S. I wish to say to declaration on the 18th Aug on the 20th the entry open. does not state
 I had been investigating his case; that might be grounds for cancelling, but I think not
 sufficiently strong grounds however to cause him to give up his action I think. You will I am
 certain agree with me that I am just in an awkward position. The agent knows I had been
 there but that my name & status he was acquainted with by the time he was called on by the Sec. of the
 land office of course would not have been granted, but I think it is a mistake to say that I had been
 there before the entry of course would not have been granted, but I think it is a mistake to say that I had been

Calgary 7th Oct. 1885.

Sir

I have the honor to enclose herewith copy
 of this ^{Office} containing an application by James
 Hume to Homestead and pre-empt the N^W 1/4 Sec
 3. Tp 24. R 2 W 5th.

From this evidence it would appear that
 in 1875 he first began improvements on the S W 1/4th
 and since 1878 has resided thereon continuously.
 and if such be the case is entitled to H and P.
 as he wants and the price of the latter will
 be \$100 per ac. and recommend accordingly.

It would I think be advisable to notify
 the Com^{rs} of the C. P. Ry that from evidence offered
 this half section cannot be given as a portion of
 the land granted to that Railway.

Although within a lease as the
 land was squatted upon prior to the granting of
 said lease entry may be given applicant, Hume

I have the honor to be

Sir.

Wm. Pearce

W. Smith
 Com^{rs} Don. Lands
 Winnipeg
 Man.

27/598

Colony 2nd Oct. 1880.

Sir

I have the honor to acknowledge the receipt of your letter of the 24th inst. containing an application for a license to excavate on the 1/2nd of the

3rd of 24. 1880.

From this evidence it would appear that in 1875 the first license was granted to the 2nd of 24. Since 1878 the license has been continued. And if such to the case is settled to H and P. as the license and the price of the license will be for me. And the license is accordingly. It would I think be advisable to apply the 2nd of 24. P. that from evidence of this self license cannot be given as a portion of the land given to that railway.

Although within a year or two there was a considerable improvement in the quantity of land given. But being in given application, there

I have the honor to be

Sir.

15th ulto N^o 93544 asking if in my opinion it is necessary to request the Hudson Bay Co^y to waive their claim to Sec. 26-53 (not 52) - 22 W. 4th and in reply to state that unless this section was squatted upon prior to the passage of the 1st Dominion Lands Act April 1872 it is in my opinion necessary. That is how I interpret sub. sec 6 - sec 18. 46 vic. cap 17, and such has however invariably been the custom. The law as it now stands is as has been since 1872.

While on this point I may state that while in the Co^y's interests it is advisable to have the Act stand as it is otherwise their choice lands might in many cases be squatted upon, the inferior sections would not still

Sir

I have the honor to acknowledge the receipt of yours of the 5th inst. excuse from me presented a reply being sent soon.

In reply I have the honor to inform you that all applications for land for grazing purposes must be made directly to the Minister of the Interior at Ottawa, and it will be necessary to be specific in the land desired. That is, of a small portion to describe the Sec^{rs}, Twp^s and Ranges. If largely Townships or portions of Townships with the proper Ranges —

I have never been at Jannet's place and to enable you to ascertain exactly where it is or was, would recommend you to apply to some party at Maple Creek, probably the Agent of the C.P.Ry Co would be as reliable a party as is available.

I only know of one lease being granted in the vicinity you mention but there are I think several applications in, and when there is more than one application for the same tract, the practice of the Department is, to advertise for tenders, and allot it to party paying the highest cash bonus — In making your application I would suggest you furnish reliable references of your ability financially to carry out your grazing scheme.

Sir/

I have the honor to acknowledge the receipt of yours of the 18th inst. Ref. 4984
having reference to the dispute between
Messrs Thompson and Thorburn regarding
part of Sec 16. Tp 21 Rge 28 to 4th.

The history of the case is this.

Thorburn made entry to the land in question
by consent of Mr. Alexander Bigg, the Lessee
then in question, shortly afterwards on 19th
August. The Agent was advised, later was con-
firmed. The Order in Council being dated 3^d
August 1885. - Thompson appeared at Office
and produced. Stated he had resided on the
land in question for upwards of a year and
if he could only compel Thorburn to appear
before Agent when he Thompson was present
he would show conclusively that Thorburn
had no right to the land in question and
he Thompson was fairly entitled thereto.
I told him such being the case if he would
make a written request for a subpoena
to compel such attendance of Thorburn I
would issue such a subpoena. which he did
a subpoena was issued and both parties
appeared and were permitted to make their
Respective

Main body of handwritten text, spanning most of the page. It consists of approximately 15-20 lines of cursive script, densely packed.

Handwritten signature or mark at the bottom left, written vertically.

Handwritten text at the bottom right, possibly a signature or a concluding note.

repetition continued as fully as they desired
and which appears on file. Thompson also
filed a letter from Bigg regarding the mat-
ter. It was all referred to the Land Board and
a decision given not by me as Thompson
states in his of the 4th inst.

To understand the case it is
advisable to refer to the map.

The portion taken from the pasture
The location is a narrow strip of land
across the river. High Run is far from being
a creek as Thompson states. This portion can
be used to advantage only in connection with
Thompson's quarter section. It appears from
evidence that Thompson had a few furrows
plowed in this quarter section. One third of
an acre - this building considerable of the house
logs which could be readily moved to any other
point. Further as Bigg states Thompson has
to acquire sufficient land to purchase from the
C. & Ry. and Thompson can also if he requires
more.

I have and have been strongly of the
opinion that no quarter section in this country
is now chiefly for grazing purposes. Should
the law be enacted as a homestead or pa-
cification when the land is introduced by a river
or upon a good river. I am in favor of
proposing that is that portion only on one side
the river and the exception has been made in
Thompson's case owing to the small amount
of land he would have and be worked
on one side of the river. It was not till the

9th September 1888. that Thompson & Thaburn
 of his father arrived to have the 1/2 of the
 section returned for him. In the 1st July/88
 Thaburn made homestead entry for 5000 at
 which date you were notified. Begg has the
 lease and I have found Begg's amount to
 entry. Therefore I fear to see how Thaburn's entry
 could be cancelled. Thompson & Thaburn applied for
 quarter section as a preemption on the 4th
 August/88. So that in point of time Thaburn
 was ahead of us and the improvements of
 us in the section granted Thaburn was not
 sufficient to warrant entry being refused.

Some logs deposited on the ground and a
 few furrows turned over could not be con-
 sidered as giving Thompson any claim to the
 land.

When Thompson & Thaburn were giving
 their evidence before Mr. Olney, the former in
 a very offensive manner stated it was im-
 possible to obtain justice against him he
 was notified of decision. Both the agent
 and assistant inform me he was both
 abusive and insulting. He came on me
 on the 8th or 6th of October and requested he
 be permitted under the circumstances to pur-
 chase a quarter of sec 10. I advised I would
 recommend it if he made a written request
 he did not then inform me he had already
 protested to you against my decision. I have
 again read over all the evidence and do
 not intend to change the decision. and am
 suggesting if you agree that you advise him
 to

to that effect. and also with reference to
purchase of a portion of ore co. he must
make his application to the agent who
will report on it. what action will be taken
by the Land Board or yourself.

The file is enclosed for your
perusal.

I have the honor to be
Sir
Your Obedient Servant

The undersigned
 Director of Lands
 Edmonton

Wm. J. Macdonald
 per [Signature]

Calgary 23rd Oct.

Enclosed herewith letter from Agent
Bancroft dated 24th September 1885.
in 800 stating in accordance with instructions
from Genl. Inadvised no application had
been received at his office regarding the
Stn 4. 43. 20 1/2 1/2

I think this has reference to an
application by C. J. Byrnes Esq. Land Com
from C. J. Esq. for the Land in question
on the farms in yard streets and I think
you will give your office to which please attach this
enclosed and direct my attention thereto
when next I arrive in Winnipeg.

Wm. A. Jorick Esq.
Comm. Don. Lands
Winnipeg

Calgary 23^d October 1888

Sir

I have the honor to acknowledge the receipt of yours of 17th Oct - 88, P.m. 8th having reference to the claim of German Schultz to the Sth 16. 5th 22. 10 4, in which you recommend action similar to that of Carey & Belcher to 10th 16. 5th 22. 10 4.

I find there is great dissimilarity in their cases. Belcher states he resided on his claim continuously from March 1888 to March 1889 upwards of three years. Schultz resided on his place from July 1888 to June 1889 one year and four months.

The basis adopted for settlement of all claims in Edmonton District was at date claim was preferred to accord the same rights to the individual which he would have obtained had the land been surveyed and open for entry at the time bona fide entry was begun - and on these conditions Schultz could have purchased one or both 1/4 sections at \$2.00 plus C & S. fee, and under the same treatment Belcher was entitled to a full homestead of 160 acres.

In view of all the facts in Schultz' case I would recommend the S & 1/4 be sold him at \$1.00 per acre and you will please notify him to that effect. also advise him wherein his case differs

The Agent
Dominion Lands
Edmonton

Wm. M. M.

differs from that of Belcher. If he wishes the
other quarter section it may be sold him at
\$2.00 - per acre

You will please forward this letter
and copy thereof to Head Office as your
authority for action taken

I have the honor to be
Sir

Your Obedient Servant

affairs from that of a soldier. If he wishes to
become a private soldier he must be taken from at
the age of 17 years

He must be a native of the country and
not a foreigner. He must be of good
character and not a criminal. He must be
able to read and write.

Calgary 23 Oct. / 88

Sir/

On my return here yesterday afternoon I received yours of the 2^d inst. enclosing map purporting to show the property of the Alberta Mining Company.

By comparing the map with our in office and also with the applications then appear to me an unmistakable discrepancy to which I deem it advisable to direct your attention. Locations O & P. (in mine of 6th inst.) are not shown but cover the greater portion of the ground embraced by the 40 acre location marked J. Talbot and lying immediately north of locations M & N.

The locations lying close to the Bow River marked J. J. Healey 5 ac. J. J. Healey 40 ac. and P. S. Van Courland 40 ac. I can find no trace of any application ever having been made.

The one marked J. Talbot lying between those of P. S. Van Courland and J. J. Healey is precisely the same as disclosed in file 206 of this office (in my letter of the 6th inst.) though it disagrees generally with sketch of these claims attached to file 27 of this office. The difference is so great as to lead me to infer that these locations had never been connected by actual survey.

Robert Macdonald Esq
Law. Club
Trimming

Shan in honor to
Mr. J. M. P. J. J. J.

Winnipeg

6 November 1885.

Dear Mr. Burgess,

It, as is represented in your telegram to J. R. Craig of the second of November, the Paisley Ranch Co. have not executed the lease of Townships 8 and 9, Range 22 W. 4, though sent to them in December 1882, the Minister wishes an Order in Council authorizing a lease to J. W. Craig, to be passed without delay, in compliance with the application of John R. Craig enclosed herewith. This to be forwarded to John R. Craig, Tavistock Hotel, London England with as little delay as possible, as he is now en route to England for the purpose of raising capital to stock this lease. Should he not obtain it there he will apply for other lands.

A. M. Burgess Esq^r
Deputy Minister
of the Interior
Ottawa.

Of

W. H. Craig & Co. December 1882

Per Order of

Dear Mr. Burgess,

If, as is

represented in your telegram to J. R. Craig of the Bureau of Land Office, the Public Land Co. have not executed the lease of Township 8 and P. 1, Range 22 W. 4, through sent to them in December 1882, the Minister wishes an order in Council authorizing a lease to J. W. Craig, to be passed without delay, in compliance with the application of John R. Craig enclosed herewith.

This to be forwarded to John R. Craig, Lancaster Hotel, London, in place with as little delay as possible, as he is now en route to England for the purpose of raising capital to stock this lease. Should he not obtain it there he will apply for other lands.

Ottawa
 of the Minister
 Deputy Minister
 A. M. Burgess Esq.

12th November 5

My dear Mr. Forget.

The Hon. Mr. White requests me to write you, requesting you to be good enough to have your ^{late} colleague Roger Youlet appointed a Notary Public or a Justice of the Peace for the North-West Territories. The object is to enable him to take certain evidence required in North-West Half Breed matters. He wishes this appointment to be shown through so that he will be either one or the other by Saturday night next. This will necessitate it being made and I presume you are the proper official to make it. If not will you please be good enough to see that he is made one or the other this week if possible, at any event not later than Monday night next. If that be impossible please telegraph me on Saturday next when this appointment will be made. Roger's portrait of St. Boniface publisher I presume is his description.

A. E. Forget Esq
 Clerk H. W. Council
 Regina

Very truly yours

J. H. Pearce

664

14th November 5-

Sir

I have the honor to acknowledge the receipt of your telegram of yesterday inquiring whether any discount for cash on Gov^t loan bills will be allowed, and in reply to state that such cannot be granted. If parties desire a title at once they can pay up in full; but as the Gov^t can borrow money at 4% and they receive 6% on the balance financially it would be best policy to discourage payments in full; but as the accounts are small it saves expense to the Dep^y in keeping the records. What price in full is paid at date of purchase. The item will about balance the other.

As this is a matter which the delay of a day or two cannot be magnified into a grievance I have explained by letter thus saving the expense of a telegram.

Agent Don Lamb

Calgary
Alberta

I have the honor to be
Sir

Your obedient servant

W. H. Lamb
Sept

14th November 2-

Sir

I have the honor to acknowledge
 the receipt of your letter of the 11th inst.
 inquiring whether any discount for cash on
 bills of exchange will be allowed, and in reply
 to state that such cannot be granted. If
 parties desire a bill at once they can pay up
 in full; but as the 10% can be drawn down
 at 4 1/2% and they receive 5% on the balance
 forwarded it would be best for them to discount
 payments in full; but as the account on which
 it was opened is the 10% in keeping the
 account. What price in full is paid at date of
 payment. The item will show balance due
 there.

As this is a matter which the delay of
 a day or two cannot be dispensed with, as
 I have written by letter that
 I have the honor to

Sir

Yours faithfully

Yours truly

14 Nov 1905

Sir,

I have the honor to acknowledge the receipt of your letter of the 19th ult. with reference to taking up a claim of 160 acres near the mouth of the Kicking Horse River, known as Golden, and in reply to state that the Canadian Pacific Railway authorities speak of making that point a Divisional point, which with the lands necessary ^{and some mills} for sidings, to accommodate the probable lumber traffic that in the near future it is anticipated will develop there, and a further reservation that is asked by those parties who propose placing steamers on the Columbia River, for landing and handling freight.

Thos. C. Penny Esq.

Journal20th November 8-

My dear Hall

I enclose with this my annual report. You may consider the whole or any portion of it confidential and must put such other portions you wish in the Annual Report.

I have gone pretty fully into the question of surveys and settlement of Half Breed claims in the South-West. The recent outbreak there will probably cause considerable discussion during the coming session and it occurred to me that you might like to have something official on this point in the Annual Report.

Very truly yours

John R. Hall Esq
Sec. Dep^t of Interior

31st Oct. 85.

Sir,

I have the honor to transmit through you for the information of the Honorable the Minister of the Interior my Annual Report for the year ending this date.

As you are aware, at the close of the last Departmental year I was on a trip along the Railway Belt in British Columbia, from which I returned the latter end of November and remained in Winnipeg engaged in duties connected with the Land Board until the latter end of December.

Early in January I reached

H. H. Smith Esq^r

Commissioner of

Dominion Lands

Winnipeg.

Ottawa

17

18 Oct. 70

Dear Sir,

I have the honor to acknowledge the receipt of the letter of the 10th inst. in relation to the report for the year ending this date.

The same has been forwarded to the office of the East Department. I was on a trip abroad the morning last in Boston (commenced from work of reference the latter part of November and commenced in December) and the latter part of December. I am sorry to hear of your

A. H. Smith Esq.

Commissioner of

Commonwealth of Massachusetts

Worcester.

Yours

707

Ottawa, having been summoned there to facilitate the settlement of all the land claims of the old settlers, Half Breeds and others, which had been investigated and reported on by me during the preceding summer. Among others were those of St Laurent (Batoche) about which so much has been said since the Half Breed outbreak of last March. On the 6th of February the Agent was instructed by your predecessor to carry out the decisions arrived at, being on exactly the same basis as those in the neighborhood of Prince Albert which were generally accepted by the claimants as extremely liberal. The interested parties were all accordingly notified by the Prince Albert Agent prior to the report to arrive. Mr. George Duck, formerly Agent at Prince Albert was also instructed to obtain evidence concerning the remainder of the claimants on the South Saskatchewan, French Half Breeds, who since Survey had squatted along the River below St Laurent, which was known as the Settlement of St Louis de Langevin.

These

These parties had in settling ignored the regular surveys and squatted regardless of the sections being odd or even numbered, Anderson Bay or School Sections. They desired to have the River Lot Survey extended to them, but it had frequently been pointed out that upon Survey all who resided on these lands could obtain their claims as quarter sections, and in many cases could demand this as a right; but if all parties could agree among themselves, they could be granted entry by legal subdivisions or fractional portions of the same, thereby giving them River Lots without retarding upon them and the Country the delay and expense that would result from the necessity of making a new survey. The investigation by Mr. Duck has since been made and all parties on application can now obtain entry, except probably about a dozen, who have so crowded upon one another in settling that it will be necessary to make a survey on the ground in order to ascertain exactly the portions covered or

affected

These parties had in setting
up the register survey and
registering the value of the
land or area measured.
The survey was on a local basis.
They decided to have the line
of survey set out to the
but it had apparently been
pointed out that upon survey
are who would be the lands
could obtain their returns on
quarter sections, and in many
cases could determine the
a right; but if one party could
agree around the measure, they could
be granted only by local authorities
or fractional portions of the same,
thereby giving them some title
without interfering upon their and
the country the delay and expense
that would result from the
recording of making a new
survey. The investigation by
Mr. Rice has since been made
and all parties are satisfied
can now obtain title, except
probably about a dozen, who
have no records upon one section
in setting that it will be
necessary to make a survey on
the ground in order to ascertain
exactly the portion covered by

affixed

affected by the improvements
of the different parties. This
difficulty possibly may be overcome
by sending an officer who has
had some experience in surveying,
who when on the ground, by
making a rough track survey
can attain the desired object.
As you are aware, the principle
adopted in all the surveys on
the Saskatchewan and its
tributaries, where on survey it
was found that parties had
settled in advance of survey
to any extent, say at least
half a dozen in any township,
has been to grant such parties
River lots, the width of which
has been made to agree with
their claims, the depth varying
from one to two miles, according
to whether other settlers occupied
the land in rear or otherwise.
For instance, on Battle River,
south east of Bear Hills; at
Edmonton, St Albert, Fort &
Saskatchewan, Victoria, Prince
Albert and ~~St~~ Laurent, River
lots were granted to all claimants
who so desired when survey was
effected. In the vicinity of
Battleford, although many had

settled

affected by the improvement of the different parties. The
 difficulty consisted in the fact that the
 by sending an officer in disguise, and
 had some experience in disguise, by
 who were on the ground, by
 making a large tank survey
 can obtain the desired object.
 The four are aware, the principle
 adopted in all the surveys on
 the bank of the river and the
 distance, where we turned it
 was found that parties had
 settled in advance of survey
 to our extent, and at least
 half a dozen in our territory.
 has been to prevent such parties
 from taking the benefit of which
 has been made to agree with
 their claims, the right of surveying
 from one to two miles, according
 to whether other sections occupied
 the land in case of settlement.
 For instance, on Battle River,
 south east of Bear River, at
 Laramie, at Albert, Fort C
 Laramie, Victoria, Pierre
 Albert and Laramie, Pierre
 it was proposed to all claimants
 who so desired then survey was
 effected. In the vicinity of
 Battleground, although many had

(5)

707

settled in advance of Survey, they preferred the Sectional Survey. The same thing occurred just below Prince Albert. In fact the Sectional System of Surveys was first proclaimed by Order in Council in June 1871, and became incorporated in the Statutes of Canada by the passage of the first Dominion Lands Act in 1872 and has ever since been the law of the Country, and there is no one at all acquainted with the subject but will admit that there is no comparison between the River lot or Parish System and the usual rectangular System. Hence it might be urged that anyone who settled subsequent to June 1871 should adapt his holding to the rectangular System of Survey, which could be readily done. Those who settled prior to that date were, about 20 at St Albert, 12 or 15 at Victoria, about 6 at Prince Albert; not another at any point in the North West, except possibly one or two at Qu'Appelle. The only exception in granting River lots where settlers were in advance of Survey occurred at Qu'Appelle, where owing to the rush of settlers incidental to the

Construction

selected in accordance of survey, they performed the duties of survey. The same thing occurred first before Prince Albert. The first the Geological Survey of Canada was first proclaimed by Order in Council in June 1871, and became incorporated in the Statute of Canada by the passage of the first Dominion Land Act in 1872 and has ever since been the basis of the Survey, and there is no one at all acquainted with the subject but will admit that there is no comparison between the Survey Act or British system and the usual regular system. There is no right to argue that any one who better understands the June 1871 Survey Act has to belong to the regular system of Survey, which could be readily done. Those who better know that that date was, about 20 of of Albert, 12 or 15 at Victoria, about 6 at Prince Albert; not written at any point in the North West, except possibly one or two at the office. The only exception in pointing that the same system were in accordance of survey occurred at the office, there owing to the work of better instruments to the

(6)

707

construction of the Canadian Pacific
 Railway in 1881-2, it was deemed
 advisable to maintain the sectional
 survey. Had the River lot been
 adopted there, the delay arising from
 such a mode of procedure would
 have entailed greater hardship
 than the course followed. The
 Block and Township outlines were
 run in 1880 and 1881; considerable
 subdivision being done in the latter
 year and the balance in 1882.
 Eighty per cent of the lands
 claimed by these people were
 surveyed by French speaking
 surveyors, who came from the
 Province of Quebec; the remainder
 though done by English speaking
 surveyors, ^{they} either spoke French or
 had French speaking men in their
 parties. To prevent the possibility
 of anything being omitted in the
 survey, any traverse work was
 paid for at as high a rate per
 mile as ordinary work, although
 as a rule thirty per cent more
 of the former can be done in the
 same time. In addition 50 cents
 was allowed for each affidavit
 taken. Had anyone been overlooked
 by the surveyor it is natural to
 suppose he would visit the surveyor

before

Before the latter left the Township and made affidavit respecting his claim. All these claims are shown on the Township map and under Sec. 2, R.S. Cap. 17, the claimants thereto are allowed three months to come forward and make entry. In spite of all these liberal provisions, within the first twelve months after the lands were open for entry not 40 per cent of the parties came forward to make entry. The result was that complications arose in some eight or ten cases which have been adjusted only after a great deal of trouble.

At Chilappelle during the "boom" of 1881-2, speculators purchased probably 60 per cent of the claims of the Half Breeds, paying a small sum down; but owing to the collapse of the "boom" these purchasers refused to carry out their agreements and the claims reverted to the original owners, who in some cases had left the neighborhood and in others had made homestead entry for other lands. A good deal of difficulty and confusion resulted from this

(8)

707

in dealing with their claims. To illustrate further the carelessness manifested by the Half Breeds of the Northwest, particularly those of French origin, it might be mentioned that in the neighborhood of Duck Lake, though the lands were surveyed, and open for entry since August 1881, in March last not 25 per cent of the claimants had made entry, even though in the Autumn of 1880 the Assistant Agent at Prince Albert visited all the claims he could ascertain, told the claimants on what particular quarter-section or quarter-sections their claims were situated and urged them to come forward and make entry.

At Edmonton, as you know, a vigorous protest was made against the decisions of the Land Board, and an indignation meeting was held in reference to the same. This meeting was called by printed placards widely distributed and at a time when excitement in the Northwest generally was at fever heat. Out of 240 land claims in the Edmonton District, protests were received

from

in the early part of the century
 the population of the district
 was about 100,000. The district
 was divided into four parts, each
 of which was under the control
 of a different chief. The district
 was a fertile one, and the
 people were very industrious.
 The district was a very important
 one, and the people were very
 intelligent. The district was
 a very important one, and the
 people were very intelligent.
 The district was a very important
 one, and the people were very

from less than thirty, and
 one half of those were from
 parties who were disputants
 with neighbors over the boundaries
 of their claims - in some cases
 both parties protesting. It was
 of course to be expected in such
 cases that one of the parties
 would protest. About 20 per
 cent protested although obtaining
 all they asked, and of the remainder
 some four or five were Mounted
 Police or members of the Mounted
 Police; or Government employees,
 who claimed free patents through
 reason of cultivation and in some
 cases having ~~uses~~ to live on their
 claims, while themselves members
 of the Mounted Police force or in ^{the} ~~employment of the Government.~~
 The remainder protested against
 the price of their prescriptions, or
 from the fact of not obtaining one,
 cited as the reason of their protest
 that a resolution had been passed
 at the indignation meeting referred
 to above, to the effect that land in
 the Edmonton District should not be
 more than one dollar per acre
 and also that every old settler
 should have 320 acres free, or
 forgetful of the fact that the Land
 Board was circumscribed in its
 decisions

decisions by the regulations in force from time to time, the principle adopted being to give to every bona fide settler 160 acres if available as a free homestead and an additional 160 acres if available as a preemption, the price of the latter being governed by regulations in force at the date when claimant commenced bona fide to reside on his claim. In some cases, notably at St Albert in the vicinity of the Roman Catholic Church plot, these parties had settled so closely together along Sturgeon River, the land in areas being occupied by others, that there was not 160 acres available for each. The Revd. Pere Le Duc states that at the time they settled they were warned without avail by the Church authorities of the position they would find themselves placed in if they persisted in doing as they did. As however these parties have obtained scrip they can if they so desire obtain all the land they want, and have the further privilege of homesteading elsewhere. One of those who protested the most vigorously preferred a claim to homestead one quarter section and pre-empt or purchase

four (4) additional quarter-sections at \$1. per acre by reason of cultivation and improvements thereon. The total amount of cultivation in this case amounted to less than 20 acres, his buildings and fencing are not worth \$100. ⁰⁰/₁₀₀, he has never resided on the land and follows another occupation than that of agriculture, at least six miles distant from his claim. He was informed that he could homestead one quarter-section, preempt another and purchase two more at \$2. per acre, the price required by the regulations.

It might be observed in passing that the majority of these protests were in the handwriting of one individual and although purporting to be signed by certain parties, there is evidence on record in this Department which proves that many of these ^{parties} ~~parties~~ could neither read nor write, whose names were appended. I state these facts for the reason that a very incorrect and misleading version of the matter has been formulated, and I think the same should be corrected.

The question is by the following

Dr.

1. I think the same should be corrected. Another has been formulated, and and misreading version of the for the reason that a very important were appended. I state these facts neither read nor write, those names prove that many of them ^{former} could record in this department which parties, there is evidence on pertaining to be signed by certain of our individuals and although parties were in the handwriting passing that the majority of these it might be observed in five reported by the regulars, the two were at \$2. per acre, the present another and for choice. Home-land one quarter - section, the was informed that the could be obtained from the clearing. Price of approximately, at least six follows another acceptance that considered on the land and was the \$100.00, the land was being made facing and not to land. It was 20 acres, the construction in this case recommended the same. The total amount of construction and equipment of the land.

(11 $\frac{1}{2}$)

707

In many cases at St. Albert where no doubt the land claimed might have been patented under the provisions of Sub-sec. (f) Sec. 81, 46 Vic. Cap. 17, owing to the death of the party who resided on it on the 15th July 1870, it would if treated under said sub-section have involved the claimant in a great amount of expense in proving heirship or ownership. To obviate that an entry was granted under the homestead provisions of the Dominion Lands Act, the only difference being a fee of \$10. This many have objected to, however, and although the reasons for such action has been explained they do not, or will not, grant that it is the best course in their own interest. If they were required to prove title under said sub-section (f) it would in many cases have been impossible to do so and in all delays would have occurred and the expense been very many times that of the homestead entry fee.

The question of the claims

of

A heavy cover at all least
 where no doubt the law claims
 might have been patented under the
 provisions of Act. Sec. (7) of 1871.
 U.S. Pat. 17, 1871, covering the design of
 the party who worked on it on the
 15th July 1870, it would be feared
 under such conditions there is
 under the claimant in a great
 amount of expense in covering
 design or invention. To obtain
 that an act was granted under
 the provisions of the
 Government's Act, the only
 difference being a fee of \$10.
 One may have objected to, however,
 and although the reason for such
 action has been explained they do
 not, or will not, grant that it is the
 best course in their own interest.
 If they were required to have
 the under said Act. Section (7)
 it would in many cases lead
 to be unprofitable to do so and in
 all delays would have to
 occurred and the expense been
 very many times that of the
 Government's entry fee.

The question of the claims

of Old Settlers on the Saskatchewan is one of long standing; but, with the reception of the claims in the immediate vicinity of Prince Albert, nothing could be done in the matter until the surveys were completed. These surveys were not finished until ~~many of the claims of the surveys were not completed until the summer of 1883, and could not~~ the summer of 1883, and could not have been completed at an earlier date. For had they been prosecuted in any other way than the one adopted they would have been attended with a great sacrifice of both accuracy and economy and, therefore, the contention that a want of energy has been shown by the Department of the Interior in pushing these surveys cannot be successfully maintained.

Had however, the old C. P. Telegraph line worked as well as was anticipated, when the contracts for its construction were awarded, the longitudes might have been determined readily and cheaply by its aid, and the latitudes by astronomical observation. Then the surveys could have been carried out cheaply and efficiently at any

point

707

point in the vicinity of the Telegraph line. Owing to the working of the line being defective, nothing remained but to determine the longitudes by measurement from Winnipeg, the position of this latter point having been determined by telegraph from Chicago Astronomical Observatory. This system was started in 1874 and conducted with due energy, but it was not until 1880 that the 5th Initial Meridian was established.

In 1881 the Block outlines were run in the vicinity of Edmonton and the Township subdivisions and River lot surveys were commenced immediately thereafter and completed in 1883. These matters came within my personal knowledge when engaged in surveys in Manitoba and the North West between 1874 and 1881, both years inclusive. Since 1881, though not connected with the Surveys Branch, I am familiar with all the steps taken by it.

In August last I visited the Fort Macleod District, my object being to examine into the claims of the various squatters there.

I

point in the vicinity of the
 telegraph line. Owing to the
 working of the line being
 defective, nothing remained but
 to determine the position of
 measurement from which
 the position of this latter point
 having been determined by telegraph
 from Chicago observations were
 observed. The system was
 started in 1874 and continued
 with the survey, but it was not
 until 1880 that the 2nd series
 was established.
 In 1881 the 13th section were
 run in the vicinity of Columbus
 and the topographic observations
 and their lat. survey were
 commenced immediately thereafter
 and completed in 1883. These
 sections were written up and
 knowledge was engaged in
 surveys in Kentucky and the
 North West between 1874 and
 1881, both years inclusive. Since
 1881, though not connected with
 the survey, I am familiar
 with all the steps taken by it.
 The largest part of material
 for Fort Meade District, and other
 going to examine into the claims
 of the various Squatter there.

I personally visited all claimants I could learn of within surveyed territory. Some few of the parties were not at home. When I could ascertain definitely what claim they preferred it was reported on. This information I was unable to obtain in some cases on which no action has therefore ~~not~~ yet been taken, but as I expect to visit the same locality again shortly the balance of the claims there will probably be investigated, excepting several on Spider Creek which cannot be adjusted until the surveys are extended into that neighborhood. One object of my visit will be to ascertain what portions it is necessary should be surveyed, with as little delay as possible. Further allusion to the squatters claims will be found in that portion of this report referring to the grazing interests.

A considerable portion of my time has been occupied in matters which have been referred to the Land Board, which will no doubt be treated of fully in your report.

I have been able to devote

only

only a short time to duties
pertaining to Mines and Mining.

Grazing Lands.

I have during the past two
Seasons devoted a good deal of
attention to the subject of grazing
lands and if properly handled
I trust that there may be no
conflict between the lease holders,
or large stock men and the
squatters, who really are small
stock men, or intend to become
such, so soon as their means
will enable them. Now if any
settle in the Ranching Country having
in view only the growth of grain
and vegetables, the market for which
will necessarily be limited as
the location being greatly removed
from the large centres, other points
cannot be competed with profitably.
Such being the case, does it not
follow that the policy of the
Government should be framed
chiefly in favor of the stock growing
interests - not necessarily the large
holders, as it will probably be
found more in the public interests
to have the same amount of stock,
or so much as the Country will

Support

permanently to America and Germany.

Reading Room.

I have been thinking of the great
 attention to the subject of spending
 funds and if properly handled
 I trust that the way be so
 correct between the various
 or large stock men and the
 government, who really are
 stock men, or interest to the
 stock, to cover the
 loss of the stock
 in the various countries
 in view of the present of grain
 and vegetables, the market for which
 will necessarily be limited as
 the season being greatly removed
 from the large centers, other parts
 cannot be compared with properly
 stock being the case, and it not
 follow that the policy of the
 government should be to
 chiefly in favor of the stock
 interests, not necessarily the large
 holders, and it will probably be
 found that the policy of the
 to have the same amount of stock
 as the stock as the country will

(6)

707 support in the hands of ~~several~~
than of few holders.

It will be found that nearly if not all the claimants to land are located along the River bottoms. In answer to the question why they did not settle on the benches, the reply is almost invariably that only the bottoms are suitable for cultivation. Not more than 5 per cent of the country is "bottoms". Of these bottoms two fifths are too stony to admit of cultivation; that leaves according to the Squatters' convention not more than 2 per cent of the country fit for settlement. For the purpose of settling 2 per cent of the country is it advisable to render 97 per cent comparatively valueless?

These bottoms always lie between cut banks and by running a fence between these cut banks the whole bottom is enclosed, the river serving to enclose the remainder. It will frequently happen that half a mile of fencing will enclose several hundred acres. In this way comparatively few settlers will occupy many miles of the river. This cannot be better illustrated than to cite

what.

707

(7)

What has already occurred between "Fort Hips" and "Slide Out" on Gully River. There are now 17 settlers and if one more settles and obtains what will be claimed of which two thirds is already fenced and the remainder should will be - 25 continuous miles of River are rendered inaccessible for watering places and the bottoms for that distance for shelter. This matter has, however, been fully discussed in a special report to the Minister on the subject.

As to the remedy which has been proposed, it will be well to reserve all lands valuable for watering purposes, hay and shelter. This would be in the interest of the small stock men as well as the large. For purposes of shelter many of the bottoms should be retained. This might be accomplished by requiring all the fences to be paid between the 1st Decr and 1st of April which would enable the holders of claims to do all the cropping required.

Irrigation.

There

707

There are large tracts in various parts of the grazing districts which could be comparatively cheaply irrigated, and it might be advisable that such lands could be acquired at moderate rates, patents therefore not to issue until the lands have been thoroughly irrigated by the purchaser. Dry lands will be required shortly - the natural hay grounds become worthless in a year or two if cattle are permitted to run over them - and it is necessary that a certain amount of feed should be harvested each year, for late calves; weak, sick or lame stock, and to feed the stock generally at intervals during severe storms. In the United States provision is made whereby such lands can be acquired to the extent of 160 acres by one individual, but patent does not issue until water has been laid on. This however has led to many grave abuses and the Commissioner of Public Lands there has for several years recommended that the Act governing this matter, known as the Desert Land Act, be repealed. Under

that

There are some points of view which are not
entirely new, but which are of great importance
in the study of the history of the world.
The first of these is the question of the origin
of the human race. It is a question which has
been the subject of much speculation and
dispute. The second is the question of the
progress of the human race. It is a question
which has also been the subject of much
speculation and dispute. The third is the
question of the future of the human race.
It is a question which is still open and
which is of great importance to all of us.
The first of these questions is the question
of the origin of the human race. It is a
question which has been the subject of much
speculation and dispute. The second is the
question of the progress of the human race.
It is a question which has also been the
subject of much speculation and dispute.
The third is the question of the future of
the human race. It is a question which is
still open and which is of great importance
to all of us.

that

(19)

707

that Act the proof of water having been laid on rests merely on the affidavit of the claimant, corroborated by two witnesses and the clause in the Act is so broad that abuses easily arise. This might be prevented, however, by inserting a provision that such proof should be satisfactory to the Minister and an inspection in such case would show whether the spirit of the Regulations had been complied with. There could be no objection to large tracts of such lands being assigned to Associations or Companies, as in many cases it will be found that an area of several thousand acres can be irrigated at a very much cheaper rate per acre than a few hundreds. Such lands might be granted subject to the right of the Crown to take possession thereof at a certain advance on the cost of same and of irrigation.

In the Ranching country it would I think be advisable to make the Railway land grants en bloc. This would enable Capitalists to purchase a large area and thus protect their interests.

I would suggest also that Hudson Bay Co. lands be given to the Company in blocks, and not as at present - 2 sections in each Township - and that the same course be taken with regard to School lands. To enable this to be done, certain legislation is necessary.

The present leases reserve to the Crown the right to grant settlement without the two year notice formerly required. If steps can be taken to protect the watering places and shelter for stock, the stock men have no objection to settlement, but the contrary, and the right of settlement being accorded will probably prevent the blockmailing which the Ranchmen claim has been practiced on them in the past.

In conversation with many stockmen from the South of the Line I gather that our Ranch country will carry very much more stock per square mile than theirs; and further in all of it along the Mountains there is sufficient rain fall to prevent the occurrence of the calamity

I would suggest also that the
the Co. should be given to the
company in block, and not in
at present - a section in road
ownership - and that the same
could be taken with regard to
of the same. It is possible that
to be done, certain regulations
is necessary.
The present lease is given
to the owner the right to grant
settlement without the two years
notice formerly required. If
it can be taken to protect
the watering places and shelter
for stock, the stock men have
no objection to settlement, but
the contrary, and the right of
settlement being reserved with
probably prevent the grazing
where the stock men claim to
been protected or taken in the
past.
A connection with
many others from the date of
the time of parties that are
country will come very much
more stock per square mile than
there is and further in all of
along the mountains there is
sufficient room for to prevent
the occurrence of the calamity

(21)

707 of being "eaten out". It may be that this will be used as an argument for allowing sheep to graze within that portion already prohibited; in answer to which it may be said that there is a sufficient area available for sheep ranching at present and whereas that is fully occupied - experience will have shown whether it is advisable to permit sheep within that portion now prohibited to them.

Second Homesteading.

In every part of the Country where the privilege of Second Homesteading has been availed of, public feeling is decidedly adverse to the practice and the majority desire its repeal. By some it is urged that the right to make a second entry should be allowed only where the party places a settler on his first homestead, but such a provision could not be carried out practically.

Price of Pre-emption.

of being "taken out". It may be
that the law is not as
sufficient for allowing sheep to
graze within that portion already
prohibited; in answer to which it
may be said that there is
a sufficient area available for
sheep grazing at present and others
that is fully occupied - therefore
with these sheep there is
adequate to permit sheep within
that portion now prohibited to
there.

Second Homelessness.

of every part of the country
where the principle of securing
homelessness has been applied
of public feeling is decidedly
adverse to the practice and to
the rapidly rising tide of
the law it is urged that the
right to make a second entry
should be allowed only where
the party places a better or
a first tenement, but that
a provision could not be made
out practically.

Price of the improvement.

(22)

As you are aware, there is considerable agitation going on relative to the price of preemptions and demands are being made that the same should be reduced. In answer to this it may be said that 160 acres is all, if not more than 80 per cent of the settlers in this country show that they have any need for; but it might be worthy of consideration whether a rebate on preemptions should not be granted subject to a certain amount of improvement being made, or residence performed on the preemption or its accompanying homestead subsequent to the party becoming entitled to patent for the latter. Those who do not avail themselves of this to abandon their preemptions, which then could be sold at such reduced price to any party entitled to make homestead entry but who has not received such entry - the sale to be subject to the performance of the above mentioned settlement duties. Some such course would I think add largely both to the population and production of the settled portions of the country.

Some provision should, I think,

be

Some provisions would, I think, of the country. and production of the selected portions are largely left to the population and their course would, I think, above mentioned statements of the subject to the performance of the various duties - the sale of the materials and but also the cost of the work of each party related to make them could be made of work reduced to abandon their pre-emption, which who do not avoid the influence of this to patent for the latter. Those independent to the party becoming entitled on its accompanying documents rendered performance on the principle of improvements being made, or granted subject to a certain amount on pre-emption would not be consideration whether a rebate for; but it might be worth a second that they have any need of the system in this country is not more than 80 per cent it may be said that the same being made that the same should be reduced. In answer to this pre-emption and otherwise are in considerable agitation during the year are aware, there

be made whereby entry can be obtained - and patent also when necessary - in Townships which have not been subdivided. A glance at the latest map of Manitoba and the North West will show that there are between 1500 and 2000 Townships of which one fourth have but one boundary run; about one fourth, two; one fourth, three and the remainder four boundaries. The proportions are only approximate. In any Township in which one boundary has been run one limit of six sections is established; where two boundaries are run, 12 sections; where three boundaries, 18 sections; where four, 20 sections have their limits established thus partially. Assuming there are 2000 Townships and the proportions cited are correct, would give 26000 sections of which one limit is run - two settlers to a section = 52,000. With these outlines run, if provision were made for obtaining entries it would be found that many would avail themselves of the privilege - particularly those parties going into stock, and in the sections suitable for that industry, the Country would be saved the expense of surveying.

be made whereby better can be
obtained - and patent also when
necessary - in township where there
not been established. A plan of
the land map of township and
the land map with lines that there
are between 200 and 2000 township
of which one fourth have but one
boundary run; about one fourth, two;
one fourth, three and the remainder
four boundaries. The proportion
are only approximate. In any
township in which one boundary
has been run one limit of 200
sections is established; where two
boundaries are run, 40 sections;
where three boundaries, 60 sections;
where four, 80 sections have their
limits established thus partially.
Assuming there are 2000 townships
and the proportion of one and one half
would give 2000 sections of which
one limit is run - two sections to
a section = 2000. With these
sections run, if provision were made
for obtaining relief it would be
found that many would avoid
the expense of the foreign - particularly
the parties going into stock, and
in the section suitable for that
purpose, the country would be
used the purpose of surveying.

(24)

707

Of course in granting entry in such cases the parties must be given distinctly to understand that if upon survey being made it should be found that their improvements are outside of the lands entered for, such improvements shall confer no right whatever to such outside lands.

Re-Surveys.

Many requests have been made by parties to have Townships re-surveyed owing to the removal of posts and destruction of marks. ~~For when in time the lines are given up with time.~~ This is probably asking too much. No country in the world has on the whole been so well surveyed as Manitoba and the Northwest, and no great expense need be detailed upon any person in having his particular quarter section re-surveyed. By keeping his buildings well back from where any ordinary individual would suppose his boundary to be, there would be little risk of their being placed off the land, and he could when his circumstances warranted it afterwards obtain an accurate survey. Our system of survey is so simple that in nearly every community

Of course in passing out in
such cases the parties must be
given liberty to understand
that if upon survey being made
it should be found that the
improvements are outside of the
lands set aside for such improvement
that survey is right whatever
to such outside lands.

Resurvey.

Many requests have been
made by parties to have surveys
re-surveyed owing to the removal
of posts and destruction of landmarks.
This is probably taking too much
so counted in the world has on
the whole been so well surveyed as
heretofore and the last lot, and
no great expense need be expended
upon any person in having the
particular quarter section re-surveyed.
Of course keeping the buildings well
back from where any ordinary
individual would suppose the
boundary to be, there would be
little risk of their being placed
off the land, and the corner stones
in circumstances warranted it
afterwards obtain an accurate
survey. Our system of survey is
a simple that is nearly and commonly

(25)

707

an individual may be found who can at least very closely define the boundaries of his neighbors' lands. Further than this, it would not, I think, be fair to those Surveyors who have settled in the Country expecting to make a livelihood by their profession for the Government to step in and take such work as the above from them.

As well might the Settlers ask the Government to provide them with Lawyers and Doctors!

But if that were done also I have no doubt a vast amount of litigation and sickness would immediately follow throughout the Country.

Any other suggestions concerning amendments to the Land Act that have been discussed by the Land Board I presume you will refer to in your Report, so that it is unnecessary for me to mention them. I have accordingly treated of only such subjects as have come directly under my own observation when investigating matters in various parts of the Country.

Mines and Mining.

an individual may be found
who can at least very easily
define the boundaries of his
neighborhood. Further than
this, it would not, I think,
be fair to those employees who
have better in the country, especially
to make a distinction by their
position for the Government
to stop in and take such work
as the above from them.
It will might the better be
the Government to provide them
with lamps and batteries!
But if that were done also,
had no doubt a vast amount
of litigation and sickness would
immediately follow throughout the
country.

And other suggestions
concerning amendments to the
law that have been discussed
by the House Board of Finance
you will refer to in your report.
So that it is unnecessary for me to
mention them. I have accordingly
listed of only such subjects as
have come directly under my
own observation when investigating
matters in various parts of the
country.

Review and Mining.

(26)

707

A good deal of prospecting has been going on during the past summer and it is confidently expected that next season will witness a great impetus to mining. That there is a large amount of valuable ore lying within easy distance of the Canadian Pacific Railway in and West of the Rocky Mountains which until recently was inaccessible, is undoubted; and so soon as any one mine has been developed sufficiently to show that it can be worked profitably, capital will speedily be forthcoming.

It is hoped the dispute concerning the right to the minerals between the Dominion and Provincial Government of British Columbia will soon be settled as the uncertainty of title has no doubt to some extent retarded the development of the mining industry.

During a recent trip as far West as Farewell B.C., I embraced the opportunity of discussing with the miners certain changes that it is proposed to make in the present Mining Regulations and their views have

5.

Sir,

I beg to hand you herewith Extracts from various reports made by me since I became a member of the Land Board; which may prove of interest to you in connection with your Extended tour of investigation into matters pertaining to your Department.

I have added, to some of these extracts, my views at present thereon. I have marked, in blue pencil, in margin, what points I think may now be of interest; but the whole document may at some time be useful, as no doubt many old matters, long since disposed of, may be revived.

Extract from Report No 1. Dated April 8th 1882.

Sir,
Respectfully
yours
to your obedient servant

- If Mr. Landers has been personally imple-
• cated, he has "covered up his tracks" well.
He

Hon. Geo. White

Minister of Interior

Ottawa.

Room 44

2

Dear Sir,

I beg to acknowledge the receipt of your letter of the 14th inst.

from which I have learned that you are a member of the Board of Directors of the New York and New Jersey Canal Company, and that you are interested in the proposed extension of the canal to the Hudson River. I have the honor to acknowledge the receipt of your letter of the 14th inst.

and in reply to inform you that the Board of Directors of the New York and New Jersey Canal Company have decided to extend the canal to the Hudson River. I have the honor to acknowledge the receipt of your letter of the 14th inst. and in reply to inform you that the Board of Directors of the New York and New Jersey Canal Company have decided to extend the canal to the Hudson River.

Very respectfully,
J. M. Smith

Yours truly,
J. M. Smith

Enclosed find
a copy of the
report of the
Board of Directors
of the New York
and New Jersey
Canal Company.

Wm. H. Smith

Enclosed find
a copy of the
report of the
Board of Directors
of the New York
and New Jersey
Canal Company.

He has shown no zeal in preventing frauds;
 And even those lands his private property, he
 is one of the last men on whom such fault
 could be perpetrated. As mentioned in an-
 other report it is probable that were some
 parties, particularly Messrs. Beech, David,
 Adamson and McKay, criminally pro-
 secuted herefrom; many points would be
 developed, which would show whether the
 Honorable Agent had any connection
 with them or not. Many parties told me
 that they knew of irregularities in connec-
 tion with the Nelsonville Land Office but
 would not say anything unless compelled;
 therefore I telegraphed the Deputy-Minister
 to have the authority of issuing Subpoenas
 conferred upon me. =
 When I was appointed a member of this Land
 Board, the Deputy-Minister told me that such
 authority would be given to enable me to issue
 Subpoenas to compel the attendance of witnesses.
 It was afterwards discovered that there was no
 authority under which the Minister could
 grant such power, and it was not till the
 Land Act of 1883 came into force that such
 power was conferred on me. If that power
 had been vested in me in 1882, I think a
 revelation of land matters in Southern Ontario
 would have been made, which would
 have caused many who were considered
 worthy citizens either to flee the country or
 become inmates of prisons. Having been
 upwards of a year to "cover up" these matters
 after my appointment, it has not been
 advisable to go into those cases.

Extract.

Extract from same report.

Settlers to reside
5 years before patent
is granted for second
homestead

If not too late, I would suggest that the
term under which they (settlers) would be entitled
to patent under second entry should be five years
residence and cultivation.

Suggesting amendment
to Sub Sec. 15, Section 32
of Homestead Act.

Were the clause Sub Section 15 Section 32 amended
so that parties could only obtain a
patent by purchase, or giving satisfactory
reasons, approved by the Minister, it would
be a great check on speculative Homesteading.
More perjury and frauds are committed under
this clause as present, than in all the others
combined. Some settlers have told me that
it was necessary to sleep only one night on
the property, and the lapse of years from
date of entry would entitle them to purchase.
When one sees the cases which have been
recommended, it is not to be wondered at
that such an impression is current. These
were observations made on the Act before
the House in 1882 but afterwards withdrawn

Extract from Report No. 3. Dated April 1883.

Recommending that the
value of their improve-
ments be taken into
settlement on lands adjacent
to Stations as soon as
the C.P.R. line is established.

I would recommend, that so soon as
the Syndicate decide on the location of their
Stations west of the present terminus,
some person should at once go over the line
and should any lands contiguous to those
Stations be occupied by bona fide settlers
who undoubtedly have settled thereon
from an agricultural point of view and
not for town lot speculative purposes, the
value of their improvements be taken into
them, and they be allowed the first choice
of vacant lands adjacent thereto open for

708

Homestead Entry.

This appears to Squatter in the Indian belt; which at that date had just been withdrawn from Settlement.

Extract from letter to Deputy Minister dated Jan 1878

Abuses of privilege of
purchasing Homestead
& preemption after
12 months occupancy

The object of the Homestead Act is to induce settlement, and any one at all conversant with land matters here, knows that there are a great many people, lawyers, doctors, contractors and others, who have obtained Homestead and preemption entries, treat abundantly (in many cases put up a tent only) go out to it occasionally, stop over night, (frequently on Sunday, do a little breaking; and at the expiration of a year make their application for purchase. It would be on the whole beneficial if this subterfuge were abolished.

The object of the enclosed circular is to prevent such frauds and, if in some cases a hardship might be incurred thereby, on the whole I feel certain the effect would be highly beneficial.

By reference to applications under this clause you will find in almost every instance that only twelve months have elapsed since date of entry or entering into occupation.

I would most strongly recommend, that whenever any rulings are made by the Department, a circular stating the same should descend to each of the local Land Agents, or else sent the Commissioner to be by him sent to the local agent.

Copies of all rulings of the
Minister to be sent to
Local Land Agents

708

- Securing uniformity. The latter would I
- think be the better way, and I would suggest
- that that course be adopted in the present
- instance.

That, was a state of affairs which existed to a very large extent (referring to the first paragraph of the above extract) at the date this report was written.

Copy of letter to the late Commr. dated June 27th 1892.

"I have the honor to submit, for the approval of the Honourable the Minister of the Interior the following explanations and recommendations.

"Large quantities of land for which Homestead and preemption entries have been obtained since the establishment of the several local agencies, remain unoccupied and unimproved, rendering the entries liable to cancellation. In many localities it is difficult to ascertain what lands are reliable. A stranger can generally hear nothing from the settlers, the lands having been entered by them for their friends, and they desiring them to remain unoccupied till convenient for those, for whom they were taken up, to take possession, or until they may be cancelled and entered for by others of their friends.

"Jumping" claims by individuals, is not looked upon with favor; and a deterrant to cancellation by a stranger is the time it takes (30 days) to effect it. This, to the newly arrived immigrant, is a complete obstacle to such action on his part; as, should he not succeed, the time lost would be a

"very

Difficulty of ascertaining what lands are liable to cancellation.

Obstacles in the way of new settlers wishing to have entry for cancelled lands.

• securing uniformity. The latter would be
 • think as the latter way, and would support
 • that the course be adopted in the present

• Conclusion
 • That, in a state of affairs which exists &
 • very large extent, referring to the present
 • of the above subject - at the date this report was

written.

Copy of letter to the late Governor, dated June 27th 1882.
 I have the honor to submit for the approval
 of the Honorable the Minister of the Interior
 the following explanation and recommendations.

• Conclusion
 • Large quantities of land for which there
 • have been no applications, certain have been
 • obtained since the establishment of the
 • several local agencies, numerous unsuccessful
 • and unimproved, rendering the entire
 • land in cancellation. In many localities
 • it is difficult to ascertain what lands are
 • available. Obstacles are generally
 • arising from the fact that the land has
 • been entered by them for their friends, and
 • they demand them to remain unsuccessful.
 • The Government for those for whom they
 • have taken up, the late possession, or
 • until they may be cancelled and entered
 • for by other of their friends.

• "frustrating" claims by individuals, is not
 • noted apart with favor; and a demand
 • to cancellation by strangers in the time
 • it takes (10 days) to effect it. This, to the
 • land, arrived in the present, is a complete
 • obstacle to such action as might be taken
 • we not succeed, the time lost would be a
 • "loss"

Affirmation of a
 having what lands
 One shall to cancel
 later

Of lands in the way
 of new claims existing
 to have entry for
 cancelled lands

708

very serious matter to him.

Another obstacle is, that the portions of country which, prior to July 1879, were open for entry, were also open for sale, so that without a search of the land office, parties would be ignorant whether whether lands have been sold or Homesteaded and preempted.

Recommending the
appointment of
Homestead Inspectors

I would, therefore, most strongly recommend that a thorough inspection be made of all the lands that were open for entry, prior to January 1st 1882 and that those lands in which the requirements of the Homestead Act have not been complied with, be cancelled by the minister and a list of them posted in the land office of the District in which they are situate. Such inspection should also include those odd numbered sections liable to cancellation and which on being cancelled would fall to the C.P.Ry.. I have the assurance of Land Commissioner Kellogg, that the Company would gladly pay their proportion of the costs of such inspection.

After these lands were inspected, those parties, in whose names the lands liable to cancellation were entered, might be notified, asking them to show cause why their entries should not be cancelled; but only for the very strongest reasons, should the cancellation not be carried out. This inspection should take place at once; there is a great deal of country to be gone over, and unless a strong force of Inspectors are employed it will take till snowfall to

complete it, which it cannot be done.

very serious matter to him.
 Another obstacle is, that the position of
 country which, prior to 1882, was open for
 entry, was closed for entry, and the position
 a result of the land office, parties would be
 required to enter within limits have been
 sold or otherwise acquired and purchased.
 However, therefore, most strongly recom-
 mend that a thorough inspection be made
 of all the lands that were open for entry,
 prior to January 1st 1882 and that those
 lands in which the requirement of the
 Government has not been complied
 with, be cancelled by the Minister and a
 list of them posted in the land office of the
 District in which they are situated. Such
 inspection should also include those
 lands which are liable for cancellation
 and which are being cancelled would fall
 into the C.P.P. I have the assurance of
 the Commissioner of Lands, that the
 Government would gladly pay their proportion
 of the cost of such inspection.
 After the lands were inspected, those
 parties in whose names the lands liable
 to cancellation were entered, might be
 satisfied, asking them to pay some way
 their entries should not be cancelled; but
 only for the very strongest reasons, should
 the cancellation not be carried out. This
 inspection should take place at once; the
 is a great deal of money to be given over, and
 unless a strong force of inspectors are
 employed it will take the Government to

 American Inspectors

to well. The cancelled lands will then be opened for entry by immigrants next spring.

The inspection may be objected to on account of the cost of same, but the office fees in connection with re-entry would repay it several times over, and it would cause a better observance of the requirements of the Homestead Act in the future.

The want of such inspection has no doubt given rise to the many frauds in connection with Homesteading which have arisen, and which if not checked will go on increasing.

I would suggest that one Inspector should be appointed for each of the following Districts: Winnipeg, Rufferin, Gladstone and Little Paskatchewan. One man would do for the Turtle, Souris, and Park-Mountain Districts combined.

Inspectors were not appointed till the autumn of 1883.

Extract from letter to late Commissioner Walter dated July 10th 1882.

Recommending that a series of questions be put to applicants for patent & their subscribing witnesses to be answered by them under oath

"It might perhaps be advisable to have a series of questions prepared, somewhat similar to those in vogue in the United States, to which answers should be required to be given under oath, both by the parties immediately interested and also by the subscribing witnesses, when making applications for their patents."

This is merely inserted to show that what has only been obtained within the last few years

to well. The cancelled lands will then be
 opened for entry by immigrants and their
 the inspection they be applied to
 to the cost of labour, but the office has in con-
 vention with respect to the inspection of the
 times over, and it would cause a better
 attendance of the requirement of the
 Government at the future.

The work of such inspection has been
 made given and to the record of the
 Government with the inspection which has
 been, and which if not checked will go
 increasing.

Should suggest that our inspectors be

Recommendings an
Intelligence Office, in
connection with the
Commissioner's office
at Winnipeg:-

To facilitate the work of this office for the future, I would beg to suggest that an Intelligence Office be attached to this branch. By an intelligence office is meant an office in charge of an active reliable man; one who has had some experience of this country should be obtained if possible. He should be liberally supplied with maps, Pamphlets &c. There should also be wall maps on which at least, once each month, all entries made at the different agencies should be plainly marked & returns being required from the different Agents for that purpose. 1. Also a map showing each Township that is open for Homestead and Preemption entries; also the Townships in which the Agents of the various Colonization Societies are acting as Agents for the Minister of the Interior for receiving Homestead and Preemption entries, together with the name of the Agent, locality of the office and Postoffice address.

I would urge most strongly, that this be done.

To enable this to be accomplished, an office with a good deal of wall room is required, and it may be necessary that such should be erected at once. It should be ready for occupation by the middle of March or the first of April at the latest. No room that could be obtained in the present building would be suitable. Winnipeg has been, and will continue to be, a depot

Extract from a report addressed to the
 Joint Commission on the subject of the
 respecting the work of the Department of Justice
 its inspection to the above.

It facilitates the work of this office for the
 future, however by suggesting that an
 Intelligence Office be attached to this
 As an intelligence office is meant and office
 in charge of an active secret service, one
 who has had some experience of this country
 should be obtained if possible. It should
 be liberally supplied with maps, pamphlets
 etc. There should also be some maps available
 at least, over each month, all entries made
 at different agencies should be plainly
 marked & returns being required from the
 different agents for that purpose. It also a
 map showing each township that is open for
 movement and inspection duties; also the
 township in which the agents of the various
 Colonization Societies are active agents
 for the movement of the duties for receiving
 movement and inspection duties, together
 with the names of the agents, location of
 the office and post office address.

It would be most desirable that this be
 done. It is also recommended, an
 office with good deal of work done in
 required, and it may be necessary that
 such should be made as soon. It should
 be ready for occupation by the end of
 March or the first of April at the latest.
 No room that could be obtained in the
 building would be suitable. Principally
 has been, and will continue to be, a
 very

at least six months bona fide residence re-
quired in each year, otherwise the claim will be
cancelled.

It would appear that the first thought of the
enterprising settler on his arrival here, is to
make a homestead and pre-emption entry
regardless of any consideration as to being
able to go on and fulfil the requirements of
the act. The majority of entries are made in
March, April, May, June and July. They
never think of going on to their lands till
the six months subsequent to landing have
expired, and therefore it is too late to do any
breaking, and are often unable to erect a
house for the winter. The result is, that one
year is lost with little gain. This is true, when
others who come after and are ready to become
settlers at once, have to go beyond them, which
appears to them, and really is, a hardship.

There

Impossibility of finding
any particular section
owing to the tin discs
used for marking
having come off, or
become defaced by
rust & other causes

There is one matter which must be attended
to promptly, next spring, and that is the impos-
sibility, under the system adopted during last
year, of finding any particular sections. The
marking is done on tin plates, and from my
own observation fully 20 per cent of them, are
now removed from the iron post. Of those
remaining fully one half cannot be deciphered
from the effects of rust or bad marking.
I would suggest that instructions be given as
early as the season will permit next spring, to
have them remarked. The bars are of sufficient
size to allow marking on one side, with a cold
chisel, and the section is marked on one side
(say the S.W. side, putting on S & W.) the other
three sections, (the corners of which this bar in-
dicates) will at once be known. Thus if a
bar were marked XIII. XXI. XVI, it would
be known to mark the N.E. corner of Sec 13
T. 21 Range 16 W., the S.E. corner of 24. 22 16.
the S.W. corner of Sec 19. 21. 15 and the N.W. 14
of Sec 18- 21- 15. I would beg to direct the
attention of the Survey Branch of the
Department to this fact.

One of the great evils of this country is the quantity
of land homesteaded and not occupied.
Immense quantities are, and have been in
in some cases for years, held locked up
principally to satisfy the ambition of Spec-
ulators. This could be remedied by a
thorough inspection of Homesteads, at least
once each year, and where the requirements
of the act are not complied with, cancel
the entry and throw the land open for re-
entry.

"Murray

quantity of land
homesteaded and
unoccupied

and inspection
should be recommended

Purchases of land to
be made only through
the local agents.

Defects of the system
of cancellation then
in force.

Appointment of Net
Inspectors again
would.

Many of the agents complain that irregularities creep in through sales of land in their district being made at the Head Office. I would suggest that in future the ground of complaint be removed by requiring all purchases to be made only through the local land office of the district in which the land is situated.

It will be noticed that an immense number of cancellations have been carried out during the past year. There is no doubt that a great deal of hard feeling, and much perjury have been caused by the system in force. This would be avoided by a thorough and systematic inspection made at least once each year by reliable inspectors, appointed by the Government, and on their report, notices be served on those not complying with the requirements of the Homestead Law, to show cause within 30 days why their claims should not be cancelled. After which the cancellation or noncancellation to be carried out according to the evidence submitted, by the process now in force.

Along the line of the C.R. Railway, in the Quispelle District, there is one great trouble regarding Homesteading which will have to be met next year. Many parties have got ahead of the townships being open for entry and after the survey was begun, did a little breaking, varying generally from one half to four or five acres, erected a small shanty (or what is stated in affidavit as huck) which in many cases is not more than a few poles. Sometimes one person has

"no"

many of the out Commission that irregular
-ities creep in through sale of land in their
district being made at the head office. Some
suggest that in future the purchase of land should
be removed by requiring all purchases to be
made only through the local land office of
the district in which the land is situated.
It will be noticed that our Committee
number of cancellations have been carried
out during the past year. There is no doubt
that great deal of hard feeling, and some
persons have been caused by the position in
force. This would be avoided by a strong
and systematic inspection made at least
once each year by reliable inspectors ap-
pointed by the Government, and over their
report, notice be sent on that not only
-fixing but the responsibility of the Home
-Office for, taken care within 30 days
why their claims should not be cancelled.
After which the cancellation or non-cancellation
-action take carried out according to the
-evidence submitted, by the proper authorities.
force.
Along the line of the railway, in the
Cheshire district, there is a large tract of
-land being the estate of which will have to
be met next year. Many parties have for
-years of the Government being open for sale
and after the survey was begun, and a
little later, having generally from one
half to four acres each, under a small
-grant for what is stated insufficient in
-land which is being given to that more
than a few acres. Some are over 100 acres

make the above amount of improvement on several quarter sections. This "Squatting" is done by a ruin of speculators. At each station of the C.R.Ry. in the vicinity of the lands so improved there is one of the ruin or their agent placed. He meets the settlers looking for land in that vicinity, informs him that all the land in that vicinity is taken up; but for a consideration varying from \$100⁰⁰ to in some cases \$1000⁰⁰ he will buy out the party holding a claim, and then entry by the purchaser can be made for it. I have personally witnessed the above operations, and would suggest some steps be taken to checkmate them. The Dominion Lands Act in such cases appears rather vague and it would be advisable to amend it, so that entry could be obtained for such lands on paying into the hands of the agent the value of the improvements, said value to be determined by the statutory declarations of two reliable and disinterested parties, and in no case to recognize any such claims unless the party making them was a bona fide resident on the land in question."

Amendment to Land Act submitted to check the impositions of squatters on settlers

Remarks re tin dices used for marking corner posts

As regards my observations on the marking of bars I never could yet understand why it was that my suggestions were never carried out. The tin dices used for the purpose of designating the sections have in practice proved useless. I think I am within the mark when I say that not over ten per cent of the tin dices that should be on the posts can now be found.

I may

Conversation with
Deputy Minister, re
Second Homestead
Entries

I may add that in a verbal discussion with the Deputy Minister and the late Commissioner I urged that no Second Homestead should be granted to any settler within 50 miles of his first. My reasons for that were that the right of second Homestead was given for the purpose of making pioneers, and not for the purpose of enabling a man to acquire a second free gift in close proximity to his first Homestead.

committed - guilty of criminal carelessness in the interests of the Company they represented; as each agent is held to furnish his Company with a report, based on personal inspection, and had such an inspection been made they would have known that only through downright perjury could a recommendation for patent have been obtained in the cases decided.

The first thing a man does who obtains a title through fraud, is to dispose of himself of it as soon as possible.

These loan companies as a threat, state that if there is to be so much risk in titles they will withdraw their business from Manitoba and the Northwest. We feel that there is no such danger of their withdrawal as their losses from cancellations can only be a small percentage of the sum total of their profits - Besides by appointing careful and reliable agents their loss from this cause will be nil". It is a very easy matter for agents to find out in the neighbourhood of the land, if a man has fulfilled the conditions the law requires to entitle him to a Homestead Patent.

As a matter of fact, none of these companies are withdrawing their agencies.

Extract from a Confidential letter from the late Commissioner and myself, to the Hon. the Minister of the Interior dated Jan 16th 1883.

have the honor to report:-

There are two classes of these squatters to whom, in the opinion of the undersigned, some consideration should be extended.

1st Those who at the time they squatted were outside the reserved belt, but who, owing to a subsequent change in the location of the Railway, are now within one mile of the line.

2nd Those who evidently settled as bona-fide agriculturalists, intending to reside upon and cultivate the land and who are distant at least two miles from a Railway Station.

The undersigned would recommend, that those in the first class who have continued in residence upon the lands upon which they squatted, for at least one year the time since they entered into possession will be allowed to make homestead entry for eighty (80) acres.

That those in the second class, who have established their bona-fides by material improvements and considerable improvements and considerable residence, should in like manner be allowed to enter for eighty (80) acres as a homestead.

This was an appeal, immediately after an interview with the Minister in which latter it was determined to sell the lands in the Belt and South of the Canadian Pacific Railway.

Extract from a letter from myself to the late Commissioner dated 10th March 1883

In some measure to meet that, I would suggest

have the same property.

of the railway, we have not seen any
evidence of any change in the local

This suggestion has since been carried into effect.

Letter from myself to the late Commissioner
dated March 19th 1883.

Erroneous ideas as to
amount of land
available for settlement
in Manitoba & N.W.D

" As there will no doubt shortly become
" considerable discussion in the House, on the
" Land act, I would beg to call your attention
" to a few points, which, if you think worth
" while, might be submitted to the minister.
" 1st There seems to be a very general idea
" that the area of lands available for settlement
" in Manitoba and the Northwest, is almost
" illimitable, and upon this supposition it
" is claimed that all parties applying should
" have a Homestead & Preemption having
" residence out of the question.

" A little reflection will show the absurdity
" of such a contention. Take Winnipeg for an
" example, and out of its present population
" say from 25000 to 30000 - I do not think is
" beyond the mark to state that there are
" 6000 males upwards of 18 years of age; and
" there being 32 Homestead and Preemption
" entries in each township, 188 townships
" would be required to give each of them such
" entries; this would cover an area of
" 6768 square miles, or upwards of 82 miles
" square

" Of course

" suggest that a summary of these conditions
 " requirement of the House (deposition)
 " upon the last of each year of receipt
 " given for the House. The last year
 " every person who obtained a receipt would
 " be supplied with the requirements of the law
 " at every trifling cost.
 " This suggestion has never been carried into effect

Letter from himself to the House of Representatives
dated March 19, 1885.

" As there will be about thirty persons
 " considerable discussion in the House, on the
 " last day, I would be glad to hear of your
 " to the points, which, upon which work
 " will, suggest, be submitted to the committee.
 " I have been to the House several times
 " that the area of land available for settlement
 " in the United States and the Northwest is almost
 " illimitable, and upon this supposition it
 " is believed that all parties applying should
 " have a reasonable opportunity of doing
 " business out of the question.
 " Little reflection will show the absurdity
 " of such a contention. Take for example, for an
 " example, about of its present population
 " - say from 25000 to 30000 - the rate of increase
 " beyond that point that there are

Right of Homestead &
Presumption ought to
be confined to the
Agricultural classes

Scattered nature of
population

Small quantity of
land brought under
cultivation

Right of presumption
to be withdrawn

Of course, if Homesteads and Presumptions
are only granted to the agricultural classes,
parties of other professions such as lawyers,
Doctors, Ministers of the Gospel, Surveyors,
Ingenieurs, Railway employees, Mechanics,
Labourers, will come into the country
without being given a Homestead or Pre-
sumption entry. The law of demand and
supply will govern that. It is a laudable
enough object for any of the above parties to
acquire and cultivate land, and they can
do so by purchasing the odd numbered sections,
and can reside upon them or not, just as
they decide. One great drawback to the country
is that the population is too scattered, and
if legislation can be devised that will
tend to counteract this, it will be greatly
in the interests of the country to have it done.
If there was a householder to each one
hundred acres in this Province; the pleasure
of living in it would be increased 200 per
cent. I feel that I am within the mark
in stating that the applications which
have been made for patents in this County
do not average 15 acres of cultivation. The
absurdity of a person owning 320 acres, and
having only 15 acres cultivated after 3 years
is manifest. It would be far better for him
to employ his capital in improving his
Homestead than in purchasing his Presumptions.
With this in view would it not be well that
provision should be made in the new Act, to
withdraw the right of presumption as soon as
a neighbour to the South does, which will
probably be effected soon.

"There is

Unmarried settlers
do not comply with
residence conditions

There is another point:- A father or mother comes into the country with perhaps 3 or 4 sons, unmarried and upwards of 18 years of age. The father or mother, on the case may be, are perhaps on the brink of the grave, but all the sons who are eligible together with the father or mother effect an entry, and each do a little in the way of improvement on their respective Homesteads, at the same time doing little or no residence. In the event of application being made to cancel their entry they plead, being single men, the hardship or impossibility of living alone. They never seem to understand, that a Homestead and Preemption entry is really an agreement between themselves and the Crown in which they bind themselves to perform a certain amount of residence and cultivation which entitles them to a free gift of the land.

Entries to be restricted
to heads of families

I think I do not overstate the fact in saying that there are two single Homesteads to each married man, the head of a family. If the regulations could be framed in such a way as to have the tendency towards making only heads of families homesteaders, the result would be highly beneficial. An agriculturalist each married man in the country at least three unmarried. As a rule the latter only put in an "intention" on their lands and do not go to work as if they intended to become permanent settlers. If residence is compulsory the tendency will be to make them marry and become settlers. These are, north of the Southern limit of the Canadian Pacific Railway belt, between "the

Referring to the matter
of the entry.

Estimated population
of New B. Should the
present system of
homesteads be
continued, 1280,000.

Estimated population
of New B. Should the
present system of
homesteads be
continued, 1280,000.

The new should be
taken to contract
the population

"The western boundary of Manitoba and that
of British Columbia not more than 3000
townships - granting 32 Homestead and
Prescription entries each gives 160,000, and
allowing, say, one half of them to be unmarried
men - the other half being heads of families
with say 5 in each would give in that vast area
a population of only 1280,000 souls which
would appear very meagre.

"The foregoing is addressed to you thinking
the ideas indicated might be of benefit to the
country if placed before the attention of those
able to present them forcibly. It appears to me
most desirable that some means should be
devised to concentrate the population of B.
with the future
country more than has been done in the past.
It would promote means of communication,
give educational and religious facilities &
social intercourse and pleasure that must
result in good to the country & people."

Letter from late Commissioner D. A. D. to the
Hon. Minister of the Interior dated April 3rd 1883.

Calling the
attention of the
Government to the
necessity of inspection
of the execution of
homesteads

"I have the honor to acknowledge the receipt of your
letter dated 24th ulto No 58967, enclosing a letter
from Thos Scott Esq M.P. and the other members
of the House of Commons representing Manitoba
constituencies in reference to the granting of
entries for cash and homesteads."

"Your instructions to withhold such entries
appears to afford a favorable opportunity
for again directing your attention to the views
of the Land Board on this subject.

At an early date, it became apparent that
the process of obtaining a homestead entry

had been taken advantage of by some persons who had no intention of settling upon and cultivating the lands. As a consequence, a very large extent of lands were held without the provisions of the Homestead Law being complied with; not only detrimental to the bona fide settler but prejudicial to those seeking homesteads, who were thereby compelled to travel much greater distances before procuring locations.

In view of these well authenticated facts, set forth in the letter of Mr. Surgeon General of the 27th June last and in mine of 28th of same month enclosing same (copies herewith) a system of inspection, and of cancellation by the Minister was recommended. Attention was again directed to this subject in letters of the Land Board dated 17th July, 1883 and 23rd February 1883 (copies attached).

Failing in securing the approval of the recommendations then made, there was no course open but to accept the personal application for cancellation, and in disputed cases to decide such cases upon the merits of the evidence submitted. That there was a wide field for cancellation was evidenced by the fact that in fully 60 per cent of the applications, cancellation has gone by default there being no defence to offer. Of the disputed cases, exceeding 900 in number, it would be optimistic to assert, that there may not have been errors in judgment in the decisions made, or cases of individual hardship; still I have no hesitation in stating that the general effect of the policy pursued, has been beneficial.

"had been taken the advantage of by some persons
 "persons who had no intention of obtaining a
 "and collecting the same. In some instances
 "a very large number of persons were seen to be
 "the provisions of the Statute were being
 "complied with; but only determined to the
 "beneficial better but the provisions were
 "being harvested, whereas they were completely
 "harvested and great distances were being
 "located.
 "In some of these cases the authorities had
 "part in the matter of the Statute being of the
 "to the law and in some of 28 of them
 "which were being taken (the Statute) a
 "one of the Statute, and of the Statute of
 "the Statute was not intended - the Statute
 "was again directed to the Statute in the
 "of the Statute dated 17th January 1885 and
 "20th January 1885 (copy attached).
 "Having in view the approval of the Statute
 "the Statute was made, there was no reason
 "open but to accept the Statute of the Statute
 "for consideration, and in the Statute of the
 "the Statute was made upon the Statute of the
 "the Statute was made - that there was a Statute
 "for consideration was made by
 "the Statute that was made to the Statute of the
 "of the Statute, the Statute was made by
 "the Statute that was made to the Statute of the
 "the Statute was made, the Statute was made by
 "would be the Statute, the Statute was made
 "the Statute was made in the Statute of the
 "there, or some of the Statute, the Statute
 "there as the Statute, the Statute was made
 "effect of the Statute, the Statute was made

Reasons why
Cancellation should
be made by the
Minister, after
Inspection

It is necessary to make this clear
to the public, and to the
State that since the first day of October
I have had to deal with over one thousand
applications for leave of absence. Showing
clearly that persons who understand they
must comply with the law or obtain perm-
ission for non-compliance.

I am still strongly of opinion that Cance-
lation should be made by the Minister, after
Inspection, for the following, among other
reasons;—

1. By this means the facts in each case
are to be ascertained, as well as any exten-
uating circumstances to be urged by the peti-
tioner where a strict compliance of the law
has not been observed.

2. The exercise of selfishness, which in many
cases I regret to state, no doubt prompts
to make application for cancellation, would
be prevented and the "red blood" and all the
evil influences from which, would be excluded.
Further the temptation to make applications of
this class, which upon investigation have in
many instances proved neither true in fact
or in fact, would be removed.

3. The granting of any private right of en-
tailment person would thus be abolished, leaving
the land to be cancelled, in the position of
being open for fresh entry or held for sale, a
way in such cases be thought most proper.

So far as the question of license, attend-
ance and inspection is concerned, the fecu-
lar registry (where registry is accorded), and
the price of lands sold, would comply with
the requirements.

For reference

In reference to the communications made of pending
 cases to the general public, it is not much to be
 wondered, and I repeat, it is not to be
 given, I venture to direct your attention to
 the fact that many of them went by default
 and in all of them the parties making appli-
 cation understood they would, if successful
 obtain rights. I beg therefore to suggest
 whether it would not be better to allow
 pending cases to work themselves out in the
 usual way, especially as in many cases
 the applicants have been subjected to a
 great deal of trouble and expense in obtain-
 ing evidence to sustain their application.
 No answer was ever received from the minister
 to this communication.

New form of
 Application for
 Patent sent
 Head office

On May 10th 1883 a new form of application for
 patent was forwarded to the Head office, intending
 to be brought into effect on the passage of the
 Dominion Lands Act then before the House;
 This form has been adopted within the past
 few weeks.

Extract from confidential letter from myself
 to the Hon^d L. Macpherson dated May 19th 1883.

End of the
 "boom" of 1882

" I am now in my tenth summer's resi-
 -dence, and have just in seven winters and my
 experience is that it ultimately will be a
 good agricultural country, but it has many
 drawbacks, and for the first year or two,
 settlers find they require about double
 the capital they anticipated. The "boom" of
 last year has been a great injury to it,
 breeding carelessness and extravagance.
 I am far from having the slightest
 sympathy with the "speculative spirit"

The fact that many of them have by a long
 and in all of them the parties making appli-
 cation understood they would, if successful,
 of interest - they therefore suggest
 whether it would not be better to allow
 the cases to wait the result of the
 majority. I especially so in the cases
 the applicant has been subjected to
 great deal of trouble and expense in obtaining
 his evidence to sustain his application.
 No answer has been received from the minister
 of this government.

On May 10 1885 amendment of application for
 patent was forwarded to the Patent Office, containing
 the change into effect on the passage of the
 Amendment. I would not be surprised if
 this form has been adopted within the past
 few weeks.

Extract from Confidential Report of myself
 to the Hon. Mr. Casselman dated May 19 1885.
 "I have now in my hand the documents relating
 to the application for a patent in Great Britain and
 Ireland in that it is entirely correct, and has
 been approved by the Government. The fact is that
 the application is correct, and for the first time
 the British Patent Office has received a double
 the capital they anticipated - the 'boom' of
 the year has been a great success. The
 existing conditions are not satisfactory
 I am far from having the slightest
 doubt that the application is correct.

Amendment of
 Application for
 Patent was
 the office

In effect of the
 "boom" of 1885

Hope
agreed
to be licensed, dealt
with.

"The Commission of the Land Office, who, for the sake of opening up the country, and securing therein a home for his own family, strikes out, by all means let him be liberally dealt with - Give him a free gift of 160 acres but make him pay well for any additional he may desire - The country reaps the advantages of settlement though not so much the sale of its lands."

Therefore are two paragraphs concluding a Confidential letter to Sir D. M. P. Henson, urging that all the lands south of the Railway belt be opened for Homesteading - All the correspondence in reference to this matter were from the Land Board and were copied in Mr. Walshe's Private Letter Book; hence I cannot give copies now, but may state that the Land Board protested vigorously as possible against the policy, and on their own responsibility, prevented the proposition going into effect for some months after it was intended.

Extract from letter to the late Commissioner from myself dated June 8th 1883.

My dear Sir, I am official
be appointed to visit
all the local agencies
to be as thorough as
possible, in their
business accounts

As you are aware, my time, since I became
Director of Dominion Land Agencies, has
been too much occupied to permit me to
make the same (a thorough audit of all the
land offices) In this connection I would
urge that some experienced officials,
if possible, competent, should be detailed
to visit the various Land agencies in succession,
and make up such a sufficient length of
time to be able to get into a position
of understanding the business of these offices.

"I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the late Commissioner of the General Land Office, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
 Yours, &c.
 J. M. Smith

*Difficulties of
auditing the cash
accounts of local
agencies.*

" would be secured,
" In the case referred to there is no doubt.
" The discrepancy in the cash has occurred
" because no cash book was kept - It is an
" easy matter to check the cash returns of
" office with the ordinary Armistead and
" emption entries and Sales; but in the
" case of bond fees for cancellation, the usual
" practice is to attach the same to the files.
" If the case goes by default, then the bond
" fee remains with the file in the office till
" finally disposed of. - If file is referred
" Head office or Land Board, the fee is detached
" and deposited in the safe - As many of the
" cases extend over a number of months, and
" frequently money deposited with application
" to purchase, remains in the office for a
" considerable period before the sale is effected,
" it is impossible on inspection to tell, whether
" the cash is correct or not, without a
" complete research of everything extending
" back many months is made. This of course
" would be obviated by keeping a cash book
" in which every transaction of a monetary
" nature, should be entered.

" I think you will agree with me that to
" carry out these views, and get the office in
" good uniform working order, some steps
" should be taken, and the sooner the better,
" particularly as new agents are often
" appointed who have no experience in con-
" ducting a land office, and sometimes their
" assistants are no better off, as in the present
" case in the Baffin District."

*Letter from myself to the Land Commissioner dated
June 8th 1883.*

" It has come to my knowledge that certain

"would be better,
"in these respects to the
"the same as in the case of
"be sure to check book-keeping - it is an
"important matter to check the book-keeping of
"offices with the ordinary transactions and
"improper entries and dates, but in the
"case of book-keeping for consultation, there
"practice is to check the same to the files
"of the case goes to deposit, then the book-
"for reference with the file with office to
"further, check of. If file is reference
"the office of the book-keeping, the file is checked
"and deposited in the file - Government of
"the system over a number of months, and
"frequently moved, deposited and applied
"to the office, reference in the office for a
"correctable period before the file is effect
"it is impossible to check the file, and
"the book-keeping or not, without a
"complete record of everything entered
"that many months is made. The office
"is not satisfied by keeping a book-keeping
"in which every transaction of a business
"nature should be entered.
"I think you will agree with me that to
"keep one ledger, and get the ledger
"good uniform working order, some steps
"should be taken, and the book-keeping
"partially arranged and often
"checked with the book-keeping and in the
"checking of the office, and sometimes the
"maintain one ledger off, as in the
"case of the ledger book-keeping."

the book-keeping
account of book-keeping
system.

Letter from the book-keeping office
June 8 1883.
It has come from the book-keeping office

708

Agents
Lands as
agents for loan

have agents of Dominion Lands have been
they are not now, acting as agents for loan
companies or are on the local advisory boards,
or boards of management thereof. In any
case they are interested to a greater or less
extent with the company with which they
are connected.

Most, if not all, of these companies are basing
loans on Homesteads or Preemptions or both
which may just have been recommended
for patent. In fact the practice with those
has been, that so soon as a recommendation
has been made by the local agent, the party
having obtained it obtains a certificate
from the said local agent, goes to the agent
of the loan companies and on the strength
of that effects a loan. In many cases a
portion of said loan is required to pay for
the preemption.

Under the new act the same practice will
prevail, except that in addition the certifi-
cate that the recommendation has been
endorsed by the Commissioner of Dominion
Lands will be required.

It will be seen, that if agents are per-
mitted to hold such positions, grave abuses
may arise through favoritism that may
be shown certain companies, by certain agents
interested. Even if no partiality should
occur, the very suspicion of the same, which
would probably arise, would be of serious
detriment to the public service, shaking
the confidence in the officers of this Depart-
ment which should exist.

From the position which agents of Domi-
nion Lands occupy, these companies
are bound to have them instructed.

"and

Abuses which will
follow if such a
system be permitted

"The object of Government is to secure
 "the good of the community, and not
 "the good of any one individual or
 "company or one or the other of the
 "or body of management thereof. In any
 "case they are interested to preserve or lose
 "control over the company with which they
 "are connected.
 "First, if not all of these companies are doing
 "business or have been doing business or both
 "which might have been recommended
 "for patent. In fact the practice with these
 "is not to have, that is to say, no recommendation
 "has been made by the local agent, the party
 "having obtained it obtain a certificate
 "from the local agent, goes to the agent
 "of the local company and on the strength
 "of the effect above. The company is a
 "body of which there is no need to pay for
 "the recommendation.
 "Under the present the same practice will
 "prevail, except that in a certain number of
 "cases that the recommendation has been
 "made by the Government of the
 "local agent will be required.
 "It would be seen, that if agent are for-
 "bidden to take such positions, some other
 "may arise through favoritism that may
 "be shown certain companies, by certain agents,
 "interested. Even if positively shown
 "even, there is suspicion of the same, which
 "would probably arise, would be sufficient
 "to prevent the public service, that is
 "the confidence in the office of the local
 "agent which should exist.
 "From the position which agents of the
 "Government have occupied these companies
 "are in a position to have their interests

Agent of
 Government
 Agent for the

Government
 Agent for the

708

"and if one agent is permitted to occupy
 "such a position, all should be allowed."
 I do not think any steps have yet been taken
 in respect to this matter.

Extract from a letter from myself to the late
Commissioner dated Sept 11th 1883.

As to the means of
effecting a new Entry
Dom Ld Act. Sec 13.

"I have the honor through you to direct the
 "attention of the Minister to the following :-
 "Sec 13 of the Dominion Lands Act of 1883
 "provides that if entry be not perfected within
 "six months from date of his interim receipt,
 "it shall be void; and the land shall be open
 "for entry by another person; or to other dis-
 "position under this Act by the Minister of the
 "Interior.

"Six months will soon have elapsed since
 "the date of that act, - 25th May; and some
 "uniform mode of procedure should be
 "adopted to effect entry, and the terms
 "under which it can be entered should be known
 "I would suggest that a notice be prepared
 "and posted up in a conspicuous place in each
 "office advising the public how entry can be
 "effected, - also the terms.

"As to the effecting of a new entry.

"When a party applies and furnishes an
 "affidavit corroborated by two reliable and
 "disinterested witnesses stating that the limit
 "within which, by the Dominion Lands Act --
 "----- was permitted to perfect
 "his entry to ---- 1/4 Sec ---- 1/2 R ---- had
 "expired; and that he had not done so; and
 "that as the applicant desires to enter for it;
 "also that no consideration had been paid or
 "promised the party in whose name the entry
 "should be made."

"and if one agent is appointed to accompany
"such a person, the whole is all right."
"I have not time now to go to the
"in respect to this matter."

Extract from a letter from myself to the late
Gouverneur dated Sept. 11, 1883.

"I have the honor through you to direct the
"attention of the Minister to the following:-
"Sec 13 of the Homestead Act of 1880
"provides that if any of the not perfect title
"is made from date of his return receipt,
"it shall be void; and the land shall be open
"for entry by another person, or better still
"for entry under this Act by the Minister of the
"Interior.
"It would be well to have the land title
"the date of the act - 25th May, and some
"uniform mode of procedure should be
"adopted to effect entry, and the terms
"under which it can be entered should be known
"I would suggest that a notice be prepared
"and posted up in a conspicuous place in each
"office advising the public how entry can be
"effected - also the terms.
"Data for effecting of an entry."

"When a party applies and furnishes an
"affidavit corroborated by two reliable and
"disinterested witnesses, stating that the land
"within which, by the Homestead Act, has
"been reserved for the purpose of
"the entry to the land - the
"entry; and that the land is not covered, and
"that the applicant desires to enter for it;
"also that no objection has been made or
"known by the party in whose name the land

to the owner of
effecting a new entry
from 1st Oct. 1883.

"stand to pay for his entry to be assessed to the
 "for the same; the agent gives him a receipt
 "and attach his affidavit to the same, and
 "for entry and forward it to the Head office with
 "returns: giving him to understand by said
 "notice that if the parties entry was not liable
 "to cancellation, his, the applicants entry would
 "be cancelled. Also that the agent send notice
 "to the party having previous entry that -----
 "----- had been accorded entry;
 "having furnished evidence that the previous
 "one had not perfected entry in accordance
 "with the provisions of the Dominion Lands
 "Act.

"By this means the lands will be in many
 "cases prevented from lying idle and unoc-
 "cupied: also an opportunity will be given to
 "prevent a hardship being entailed on the party
 "having the previous entry. It will I think be
 "found that not five per cent will ever make
 "a protest against having the entry cancelled.

As to terms:-

"The party obtaining the subsequent entry
 "to pay into the hands of the agent the value of
 "the improvements thereon, to be held by the
 "Agent for 60 days; and if not in that time
 "claimed by the party who made them, then to
 "be returned to head office for the benefit of the
 "government. If claimed, then the case to be
 "referred to the land board, or to the Minister,
 "for ruling as to the disposal thereof. Also to
 "grant ordinary Homestead entry, unless for
 "special reasons, through increased value or
 "other causes, it would be unadvisable in the
 "public interest to do so."

"Up to this date we had no Homestead Inspectors, no
 "action was taken on these suggestions at all, they

"Public interest - to be"
"other cases, it would be inadvisable with the"
"of cases, however, through ministerial action or"
"Grant ordinary Home Office entry, unless for"
"for making certain special cases of - these"
"refers to the Land Office, or to the Minister,
"Government, of course, then the case to be"
"determined before office for the benefit of the"
"claims by the party advocate them, then to"
"Agents for so long; and if not in that time"
"the improvement thereon, will be by the"
"taken into the hands of the agent the owner of"
"Report obtaining the independent entry"
"data terms -"

"Agents against having the entry cancelled."
"found that not higher cost will ever be"
"having the previous entry. It will be found to be"
"present advantage being entered on the part"
"first; also an opportunity will be given to"
"Cases presented from the entry will be cancelled."
"By this means the lands will be in many"
"Oct."

"with the provisions of the Government Land"
"over has not perfected entry in accordance"
"having furnished evidence that the previous"
"has been accepted entry;"

"--- having previous entry that ---"
"cancelled. Also that the agent and notice"
"to cancellation, in the applicant's entry would"
"notice that if the parties entry cannot be made"
"return - giving some foundation for said"
"for entry and payment is to be made after with"
"and entered the applicant's entry."

"to be cancelled, the agent's entry is to be cancelled."

"By this date the land is now in the possession of the"
"to be cancelled, the agent's entry is to be cancelled."

were not even replied to.

Extract from a letter from myself to the Hon.
the Minister of the Interior dated Nov 22nd 1881.

Means of deriving
revenue from School
Lands.

" So far as the School lands are concerned,
" when they are Hay Lands, they might be leased
" by legal subdivisions at a certain rate per
" acre, or so much per ton, tender to be
" received annually, up to 1st July. In some
" cases it might be advisable to lease them for
" a longer term than one year, as the lessee,
" if he was assured of such length of time
" might wish to improve them by levelling
" up to surface, which in many cases would
" be very desirable."

Extract from a report on the general work of my
Office dated Oct 31st 1883.

Withdrawal of Homestead
and Preemption Entries
after Cancellation

" The withdrawal of homestead and preemption
" entry on effecting cancellation - which order
" was issued at the unanimous request of
" members of the House of Commons representing
" Manitoba constituencies, last Spring,
" has been the means of preventing a large
" number of those speculative entries being
" cancelled and again taken up. It is I
" think, safe to say, that had such action not
" been taken, at least 1000 more homestead
" entries would have been made during the
" past season.

Erroneous views held
of applicants for
cancellation.

" While referring to this subject I would beg
" to direct your attention to what, in my
" mind, is a very erroneous opinion held
" of applicants for cancellation. Many
" viewing them in the light of informers - this
" no doubt may be a correct view to take in
" some instances. But as a class, they are not

were not even referred to.

Extract from a letter from myself to the Hon.
The Minister of the Interior dated Nov 22 - 1883

" I refer to the school lands are concerned
" when they are sold lands, they ought to be
" by legal subdivisions at a certain rate per
" acre, or as much per acre, under the
" received annually up to 10% per acre. But some
" cases it might be advisable to take more than for
" a larger term than one year, as the lands,
" if the measurement of such length of time
" might with advantage than by holding
" of the surface, which in many cases would
" be very desirable."

Review of the
Revenue from School
Lands.

Extract from a report on the general state of my
Office dated Oct 31 - 1883.

" The withdrawal of land from the public domain
" for the purpose of settlement - which order
" was issued on the recommendation of the
" members of the House of Representatives in 1880
" has been the cause of a large
" number of those who have been in the
" business and again taken up. It is
" that, as yet today, the land has not been
" settled, or less than 1000 have been
" settled, and have been made during the
" past year.
" While referring to this subject, I should
" like to draw your attention to the fact, that
" there is a very large amount of land held
" of applicants for settlement. Many
" having been in the light of information in the
" records that a great many of the
" have mistakes, that are also in the records.

With a view of the
and the purpose of the
after cancellation

Review of the
of applicants for
cancellation.

"of respectability, veracity and industry will
 "be coexistent higher among the applicants for
 "cancellation than among the defendants - at
 "least such an estimate will apply to the
 "applications to cancel entries that were
 "made during the Booms."

Settlement of claims
 in Prince Albert
 district

"In many respects, it is confidently hoped,
 "that all the old settlers' claims in the Prince
 "Albert district may be settled satisfactorily
 "to the claimants, or at least to the great
 "majority of them; it would be more than
 "human to expect that all will be satisfied.

The speculator and not
 the original settler
 who is most dissatisfied

"On this point it must be well to mention
 "that troubles and dissatisfaction do not a-
 "rise from the original settlers but
 "from those who have purchased from them, &
 "chiefly, when such purchases have been made
 "for speculative purposes. The "struggling
 "pioneer" is the lever used by these parties to
 "try and have their claims recognized - through
 "carelessness or illegality in these transfers the
 "purchasers have placed themselves outside
 "of the laws or regulations concerning land
 "consequently, delays must occur in their
 "settlement, and as the parties interested appear
 "to think the whole machinery of the Government
 "should be placed at their disposal to rectify
 "their errors, which if done would create a
 "greater grievance, by delay to those who have
 "conducted their land transactions in a per-
 "fectly regular and legitimate manner. Further
 "it is a matter open for discussion, whether
 "it is the duty of a Government or Department
 "to give great facilities for rectifying such blunders.
 "As, would it not appear to be counteracting

"Make during the hour"
"Apprentices to canvas entries that were
lost and estimates will apply today to
competition that among the defendants - as
the respondent higher among the applicants for
of respectability, earnest and industrious work

"The purpose of the paper is to show that the
 "chiefly advanced purchase have been
 "from the advanced purchase from them, &
 "and are from the advanced purchase but
 "has the advanced purchase from them.
 "On this point it might be said that the
 "purchase to express that all such purchases
 "are from the advanced purchase, it would be
 "to the advanced purchase, or at least to the
 "the purpose of the paper, it is to show that
 "the advanced purchase from them in the

suggested remedies

Second Homesteads with Stringent Culti- vation Conditions

Connection. I think each homesteader should be required to have a certain percentage of his homestead and preemption put under cultivation: or if unsuitable for cultivation he should have a certain amount of stock. If, as is probable, both tree culture and preemption claims will be shortly done away with south of the line, no time should be lost in abolishing preemptions north of the line.

I am within the mark in stating that the homesteads and preemptions applied for patent, under 3 years residence; the amount of cultivation will not average 20 acres. Six percent of the land, ^{thus} being locked up - will the value of buildings thereon equal \$700.⁰⁰. Two ways seem open for correcting this: one, that no patent shall issue until substantial improvements are made; another that the six months bona fide residence be made compulsory from May 1st to November 1st, and continuous. If a Homesteader has to remain on his place during that portion of the year, when he can improve it, it is possible he will devote his attention thereto.

Preemptions being done away with, a scheme might be devised, whereby two Homesteaders in a section might be granted lots of similar size to those now in force - on the two quarter sections, on stringent conditions as to cultivation requiring at the end of 3 years say 30 acres of the land to be cropped, and the erection of a house and stable of a fixed size and value. By such means it is hoped that parties would be kept from idleness and unemployment.

Those who have acted as the law directs. No doubt the vast majority of these cases have arisen through ignorance; many by a general but erroneous impression that the terms in reference to land title of the Manitoba act applied to the whole of the Northwest Territory.

Comparison of Home-
and U.S. Land Regls.
in favor of former

A comparison is often drawn between the Dominion Land Regulations, and those of the United States, implying that the former are not so advantageous as the latter. When such is done a wrong inference is drawn and is made either wilfully or through ignorance. A perusal of the annual reports of the Commissioner of the General Land Office of the United States, will wholly disprove such an assertion. In no country in the world and at no time has there been so much energy, outlay, and amount of work accomplished in surveys, as has been done in the Northwest Territories during the past 3 years. Both in the U.S. and here the surveys must be accomplished before anything can be done towards settlement of claims. The systems are similar, consequently the Home of Canada should receive credit rather than blame in these matters. These observations are not intended to apply particularly to Prince Albert, but to the whole of Manitoba and the Northwest Territories.

Amount of Surveys
done in last 3 years

A long step in the right direction has been taken by the appointment of Homestead Inspectors and it is confidently expected that their services will prove very valuable in carrying out the Homestead conditions, but I

See section of
A. S. S. S.

"The whole matter as the Committee has
 "doubtless been the subject of the same
 "action through the same; namely, a
 "general but erroneous impression that the
 "terms in reference to the whole of the
 "Provisional Act" applied to the whole of the
 "Provisional Territory."

"A comparison is often drawn between the
 "Provisional Territory and the States, and the
 "Provisional Territory, implying that the former are
 "Provisional Territories and the latter, when
 "it is not a subject of reference to the
 "and is made either willfully or through
 "ignorance. - Officers of the General Report
 "of the Commissioner of the General Land
 "Office of the United States, will not only
 "make an assertion - in no manner in the
 "world and at no time has there been no
 "such thing, either, and amount of our
 "accounted in the same, as has been done
 "in the Provisional Territory during the past 3
 "years. - Within the 12 months the same
 "must be accounted before anything can
 "be done towards settlement of claims. - The
 "Provisional Territory, consequently, the
 "officers of the Provisional Territory are not
 "that there is no settlement. - These statements
 "are not intended to apply particularly to the
 "Provisional Territory, but to the whole of the Provisional Territory and the
 "Provisional Territory."

"A large step in the right direction has been
 "taken by the appointment of the Provisional
 "Inspector. And it is confidently expected
 "that the Provisional Territory will have very soon all in
 "the Provisional Territory and the Provisional Territory, but the

considerable extent checked. It is within
the mark to state, that there is not now ten
percent of what there was two years ago.

At the same time a lesson is read to us by
experience south of the line, such
care should be taken to prevent

fraudulent applications for patents.
A question whether it would not be in the
public interest to charge a fee for each
application of such an amount as would
cover the cost of an inspection of the law
affected by an officer detailed for that
purpose.

Whether the system in force south of the
line, of advertising for a certain length of
time of intention to apply for patent
stating who are to be the corroborating
witnesses would not act as a check on frau-
ulent applications, is well worthy of con-
sideration. It may be urged that such
has not proved the case in the United
States; and while this is partially true,
would not there have been many more of
them but for this provision? The weak
point in the United States Land System
would appear to be the fact of the agent
being paid by Commission; the result
being no inducement, but rather the
reverse - on their part to examine closely,
into such matters.

The latest report of the Commissioner of
the General Land Office at Washington, lays
particular stress on these grounds. In this

Objections to the
above scheme

and by the time patent was acquired, have improve-
ments of such a nature that it would be
expedient to let the place be unoccupied
and it would either be occupied by the owner,
leased, or sold to a party residing thereon.
However, though at first sight this course
seems plausible enough it would probably
be found - the conditions being the same as
now that the adjoining Homesteader would
make the improvements on his land of so
meagre a character, that he would sell out
and become a tenant on the adjoining quarter
section. leaving his former Homestead unoc-
cupied - both quarter sections being thus
acquired by one and the same interest.
This would have to be met by requiring, not
only residence, but valuable improvements
on both quarter sections. Further the argu-
ment of furnishing employment to the
poor Homesteader loses all its force when
it is considered that the adjoining odd
sections are in most cases now sold under
cultivation conditions, and in very few
instances will the purchaser care to depend
on obtaining assistance from the neighbor-
ing homesteader; besides which, at the season
of the year when his service would be most
valuable, the homesteader has all he can
attend to on his own land, if he be a pushing
industrious man, & otherwise his services
would not be in demand.

Scheme for Settlers
to acquire Homesteads
in 5 instead of 3
years.

It is, however, well worthy of serious con-
sideration, whether a scheme for obtaining
a homestead under 5 years cultivation, can
not be devised; in the interest of a very
worthy class of settlers, who have not the means
to go at once on a Homestead: - Such as
allowing

"According

"to the class of letters, which are not known

"to be known; in the interest of a very

"characteristic manner of cultivation, as

"education, which is a scheme for obtaining

"It is, however, well worthy of serious con-

"sideration, and is not to be dismissed

allowing them the option of taking a Homestead under 5 years; the first year require no residence, but 10 acres to be broken and backset. 2nd year the 10 acres broken to be put under crop, and 10 additional acres of breaking, and erection of a house, the next 3 years ^{personal} bona fide residence to be required for at least six months in a year.

Experience has shown that the vast majority - no matter what their calling or profession maybe - come here with the idea of acquiring a homestead and preemption. The first thing they do is to make entry, later on they find it impossible to comply with the conditions, and exist, the result being, as is expressed in so many affidavits they reside "off and on"; they do not make any progress as agriculturalists, nor yet are their services of much value to the country - Of course parties who were able to comply with the shorter term of 3 years would be allowed to do so.

By having some such alternative system there would be no hesitation about a strict enforcement of the ^{Homestead} provisions of the Dominion Lands Act. The 5 years clause being of such a liberal character that a party cancelled for non-compliance, could not feel that he had been harshly dealt with. Even under the existing régime, were the public to understand plainly that the conditions would be strictly enforced, or otherwise cancellation to ensue; they would be accepted as amateurs of course, and people would govern themselves accordingly.

A very general, but at the same time, I think, a

"A very general, but as the same time

 "be accepted as a matter of course, and
 "otherwise cancellation would be necessary.
 "conditions would be strictly enforced, or
 "the public authorities would have to
 "quit. Even under the existing régime, we
 "satisfy that it has been fairly dealt
 "with cancelled for non-compliance, and
 "being offered at least character that a
 "division funds cost. The same course
 "strict enforcement of the provisions of the
 "there would be no limitation about a
 "sufficiently advanced alternative system
 "allowed to do.

strong ideas as to
the amount of land
for settlement

727
" unlimited quantity of land, and everyone
" should be given a homestead & preemption.
" Let anyone take the trouble to estimate the
" amount of land that will be absorbed by
" a population of 5000 under our system:
" 32 to a township would occupy a tract of
" Country 95 miles square: - In this Country
" two out of 3 are single and if you take the
" average of a family at 5 you will have in the
" area named less than 12000 souls about
" 80 to a township - then if say one half are
" permitted to be absent from their home -
" -steads for a considerable portion of the
" time, what progress can be made with
" Schools, Churches, & Municipal matters."

Have Second Entries
proved beneficial
to the Country?

" The privilege of a second entry appears by
" the preamble of the Order in Council establishing
" ^{the same} ~~the same~~ to have been granted with the idea
" of assisting pioneers in every possible way
" and in many cases the result has proved
" satisfactory: A very respectable number
" have however before us on investigation
" to have acquired second entry through
" cancellation of land in their neighbourhood
" altogether I think is unquestionable that
" the right of 2nd entry has really proved
" beneficial to the country. - Might it not
" be possible to make it so, by imposing
" such conditions as would necessitate the
" applicant becoming as was intended, a
" pioneer? - Say only accord the right when
" distant at least 50 miles from the first
" Homestead."

" There is one point with reference to the
" migration into this country, which appears
" to

" included present of land, and to some
 " should be given a permanent organization.
 " let anyone take the trouble to estimate the
 " amount of land that will be needed by
 " population of 2000 under our system;
 " it is obvious that we are not at all
 " getting it. We are getting - but in quantity
 " two out of a acre and a half of good land
 " average of a family of 5 persons has in the
 " area more than 1000 acres about
 " so that we are - then if we are half as
 " fertile as the best from the United States
 " it will be a considerable portion of the
 " time, what progress could we make with
 " labor, capital, or human power."

" The principle of education appears to
 " the principle of education in the United States
 " is that we have been educated with the idea
 " of acquiring property in the hands of the
 " and in many cases the result has proved
 " disastrous: many people are now
 " more than ever before in our history
 " that we require something more than
 " concentration of land in the hands of
 " a few people. It is a question of the
 " right of a man to the land he needs
 " for his family to the country. Right it is
 " for the people to make it, by improving
 " that condition of affairs. We are not
 " sufficient to be a government, a
 " power: - but only as the right of
 " to the land is that so much from the first
 " moment."

Canadian-American
Settlers and
Immigrants

"to be lost sight of; and that is the number
"who have come, and are coming in, from
"Western Dakota, Nebraska, Montana, Idaho,
"and Washington Territory; many having
"driven in with their own conveyances.
"I had no idea that there were such a
"number of these arrivals until within
"the past few months, when making an
"investigation into certain claims. Before
"it became necessary for me to ascertain
"who were, and who were not British Subjects.
"I met some parties last season, originally
"Canadians, who had been living some
"years in Nebraska, I also know several
"here who came from Kansas, Iowa and
"Missouri, who were either Canadians or
"descendants of Canadians, who had been
"many years in the States."

Efforts to induce
Immigration

"It is frequently charged against the
"Government that insufficient efforts
"are made to procure immigrants and
"in furthering their interests. The United
"States is cited as an example worthy of
"imitation in this respect, and there is
"no doubt that they are looked after there;
"but this, as well as the inducements
"offered immigration is done by the great
"Land Corporations: the chief depôts being
"almost wholly supported by fees from
"Steamship and Railway lines, and
"Municipal taxation. Witness "Castle
"Garden" New York."

"No doubt the Canadian Pacific Railway
"are making great exertions, and their efforts
"are to a great extent seconded by the Canada
"Northwest Land Company; but one of the

many years in the States.
 descendants of Frenchmen, who had been
 married; but were like the Frenchmen or
 the white Frenchmen, have and
 speak the French, like the Frenchmen
 speaking what has been living since
 their name for the last century, originally
 unknown, and who were not French speaking
 it became necessary for me to ascertain
 investigation into certain claims. I have
 the past few months, when making an
 number of these records with the
 that as far as there were such a
 shown in with their own names
 and Washington Territory: among them
 Western Canada, Alberta, British Columbia,
 Yukon, and the last eight of the number

"It is frequently charged against the Government that inefficient efforts are made to procure immigrants and in furthering their interests. The United States enters as an example worthy of imitation in this respect, and there is no doubt that they looked after them."

"But this, as well as the inducements offered immigration is done by the great Land Companies: chiefly British being almost wholly supported by fees from Steamship and Railway Lines, and Municipal taxation. Between Canada "

"Canada "Newport -

"Canada. The land companies have been making great exertions, and their efforts are greatly assisted by the Canada Land Company; but one of the

"largest Land Corporations in the country,
 "the largest - excepting the RR Railway Coy -
 "and the oldest have apparently done nothing
 "and seem to be keeping back, hoping to reap
 "the benefit to be gained by the enhancement
 "of lands, through the settlement about them.
 "It was promised, some two years ago, that
 "active steps would be taken to promote
 "immigration as soon as they could be placed
 "in the country without being brought through
 "the United States: this can now be done, &
 "it is to be hoped that an abandonment of
 "their past - it might be termed selfish policy
 "will be adopted."

Regulations re
 Hay Lands
 suggested.

"It is, I think, desirable that there should
 "be some regulations enforced with reference
 "Hay Lands; and in this connection would
 "make the following suggestions:-
 "Every homesteader (in fact a settler -
 "even if not a homesteader - who is outside
 "of the Railway belt) should have until
 "the 10th June to apply for permits to cut
 "Hay - In his application he should state
 "what legal subdivision, or subdivision
 "of a particular section he wishes to cut on.
 "He might be granted a ^{free} permit for the first
 "25 tons, paying however a fee of \$1.00 for the
 "permit - For more than 25 tons and up
 "50 tons at 25 cents per ton, for 50 to 100
 "tons at 50 cents per ton, and all over 100
 "tons 75 cents per ton. - Lists to be kept by
 "Agents of all the lands on which permits
 "were granted. For the remainder of the
 "Lands, tenders might be received up to
 "the 1st July, at so much per ton per acre.
 "Any such arrangement would I think

require to be carried out through various
 local land agencies, and the fees should be
 paid in advance. The poor struggling settler
 would then be enabled to obtain what
 hay he requires, free of cost; besides which
 he would have the assurance of having
 his hay reserved for him and of obtaining
 it at the nearest point: instead of as now
 being often compelled to go miles for it,
 that in his vicinity being drawn miles
 away to the nearest town, or taken by
 some large stock raiser.

In some sections, no doubt, hay is so
 plentiful that there would be no application
 under these regulations, but in other
 localities there would be, and it is a step
 that would probably each succeeding
 year prove ^{more} beneficial than the preceding
 one. It may readily be foreseen that con-
 siderable attention must be given to
 prevent clashing of interest between
 those holding permits and the successful
 tenderers for the portion not so taken up.
 This may probably be avoided if those
 holding permits are required, say by the
 15th of July, to mark the portion they wish to
 cut upon, by forming a rectangular swath
 around the same, with boundary lines N &
 S & E and W and planting a picket at
 each of the angles, with the claimant's
 name marked thereon.
 This will very likely, result in several
 settlers combining and making appli-
 cation for a whole quarter section, in which
 case I think they should be permitted to
 have each a free permit to the extent of
 25 tons, all above that amount to be

"paid for pro rata at the price named
 "with the stipulation that all of the Hay
 "covered by such permit be cut or paid for at
 "double rates.

"Where such collections prove to be Hay lands
 "they might be leased in legal subdivisions
 "at a fixed rate per acre, or so much per ton
 "to be received annually, up to the
 "1st July. In some cases it might be per-
 "haps advisable to make the lease for a
 "longer term than 1 year as in many
 "instances the lessee would desire to
 "improve the same by levelling up to
 "surface under such circumstances, which
 "would be very desirable."

School Lands.

"In many portions of the country, for
 "some reason or another, there appears to be
 "a very general idea that the School Section
 "nos 11 and 29, are intended for the support
 "of the local school in that township, and
 "in a large number of cases, School Houses
 "have been erected thereon. It might be advi-
 "sable to take steps to enable the trustees of
 "these lands, to grant at a nominal figure,
 "say one acre where there buildings have
 "been or may hereafter be erected, and as
 "by the vast majority in Canada, Churches
 "and their organizations, are considered the
 "headquarters of Education, the same
 "provision might be extended to them on
 "the erection of a suitable building.
 "The erection of Churches and School-
 "Houses, would, as a rule, enhance the
 "value of the remainder of the property,
 "and consequently, no injury would be done to
 "the school fund by granting such
 "privileges."

"privilege. These acre plots should be of
 "uniform shape, say $2\frac{1}{2}$ chains in width
 "by 4 chains in depth, fronting on a road
 "allowance and should if possible be some
 "angle or other of a quarter section."

Stock farming in
Manitoba

"Between Lakes Winnipeg and Manitoba
 "and between the latter and Duck Mountain
 "there is a large tract of land, very suitable
 "for stock farming and mixed husbandry.

"The character of the country is alternately
 "ridges and Hay Swamps. - the ridge is being
 "in some cases rather gravelly and covered
 "with timber, chiefly poplar.

"The swamps are generally well suited for
 "hay and many more might be rendered so
 "by a little ditching and cutting out of
 "hillocks etc. There is any amount of timber
 "for building purposes and fuel, and on almost
 "every quarter section there is land that could
 "at once be put under crop sufficient for
 "vegetables. To persons who desire mixed
 "husbandry, and have sufficient capital to
 "purchase two or three cows, a few sheep,
 "poultry, or a pig or two there is here ~~to him~~
 "a better chance than on the open prairie to
 "the west. It has often struck me as strange
 "that more attention has not been given
 "to this district. An intense desire to go as
 "far west as possible, appears to rule in the
 "minds of the majority of immigrants,
 "but within the past few months more
 "interest appears to have been taken in the
 "district referred to. It may not be out
 "of place here to state, that for many years
 "the Hudson's Bay Company conducted a
 "large stock farm on Lake Manitoba

"about 18 miles Northwest of Fort Point

"In subsection 3 Section 33 it might
 "be deemed advisable to amend to read
 "from line 8 thus: "but such presumption
 "right, if not exercised and payment made
 "within six months after the seller shall
 "have applied for his patent. under his
 "homestead entry - shall be forfeited, and
 "such presumptive entry shall not there-
 "after be open to homestead without the
 "consent of the Minister of the Interior.
 "But interest at the rate of 6 per cent per
 "annum shall be charged on the price of
 "presumption commencing 3 years from
 "date of entry (or it might be equitable
 "to charge interest from date of entry.)

"Subsec 6 to read, any person who at
 "expiration of 3 years from date of entry
 "has not applied for his patent, shall
 "forfeit all right to the same and the land
 "shall revert to the Crown - unless permission
 "has been obtained from the Minister of the
 "Interior to extend the same - but in no case
 "shall such time be extended beyond
 "nine years from date of entry. and if a
 "presumption has been taken in connec-
 "tion with such homestead, all interest
 "on the same up to the limit of the homestead
 "shall be paid before such extension be
 "granted"

and fires.

"The laws against starting prairie fires
 "are pretty rigorous, but so far their prac-
 "tical effect is not discernible, nor is it
 "likely to be visible until the country becomes
 "more thickly populated. It is within the

" Next to say, that 25 percent of all the Hay
 " made in Manitoba and the Northwest is
 " destroyed every autumn by fire. This not
 " taking into account the numbers of buildings
 " grain etc then destroyed.
 " A large number of applications for leave of
 " absence made during the present year have
 " been based upon the plea of losses by such
 " fires.

Cost of Agricultural Implement

" The high cost of agricultural implements
 " which has been the subject of complaint, now
 " it is hoped, speedily belabored by competition
 " among Eastern manufacturers; the price of
 " the raw material should be as low there as
 " in the United States, ~~latter~~ quite as cheap
 " and freight, via the lakes & the C.P.R. Railway,
 " no higher than from where they are manu-
 " factured in the United States. - Generally a
 " Chicago, or the East of it.

" It is perhaps worthy of the attention of
 " manufacturers, whether by adopting two
 " scales of prices: one under the present system
 " of long credit, and the other by selling
 " for cash at a fair profit; it would not
 " only be more to their ^{own} advantage, but at
 " the same time greatly benefit the industrial
 " seller. Manufacturers must sustain
 " great losses through bad debts, incurred
 " by agents, which loss must be made up by
 " those that pay. In no line is this so great
 " as farm machinery. And many, the
 " present hard times, are the sequence of
 " machinery purchased in past years.
 " There is a frightful waste going on in this
 " country through lack of a little attention
 " bestowed on their care. The rush and
 " excitement

" Great loss, that is percent of all the hay
 " made in the winter and the harvest is
 " destroyed every autumn by fire - This was
 " taking into account the number of bushels
 " from the two counties.
 " Large number of agriculturalists for heavy
 " service were during the present year have
 " been drawn upon the other officers of each
 " year.

" The high cost of agricultural implements
 " which has been the subject of complaint in
 " it is hoped, especially determined by comparison
 " among Eastern manufacturers; the price of
 " the agricultural tools is as low there as
 " in the United States, but quite another
 " outlay, on the other hand, is the cost of
 " freight than from where they are drawn
 " factories in the Western States - Generally
 " Chicago, or the East of it.

" It is perhaps worthy of observation
 " manufacturers, whether by adopting two
 " years of prices, one for the present system
 " of long credit, and the other by selling
 " for cash at a fair profit; it would not
 " only remove the "advantage", but at
 " the same time greatly benefit the manufacturer.
 " better - Manufacturers must maintain
 " great losses through bad debts, incurred
 " by agents, which has been made up by
 " that they pay - the value is this system
 " as far as business, but many of the
 " persons and times, and the expense of
 " machinery purchased in past years.
 " There is a significant source going on in the
 " country through lack of a little attention
 " bestowed on their care. The result is
 " " " "

Cost of Agricultural
Implements

708

"excitement of excitement, seems to have been
 "this carelessness; to a large extent it has been
 "increased by want of repair shops - The
 "latter are now springing up, and the hard
 "times will tend to make people economical
 "so that, on the whole, it may be expected, the
 "Country generally, will learn, by this
 "experience, an invaluable lesson."

Extract from letter from myself to the Hon.
the Minister dated a Decr. 1st 1883.

Extension of time in
paying for Preemptions
paying interest at
7% per annum

"I have the honor to enclose herewith, a
 "clip cut out of "The Winnipeg Free Press" of the
 "date. The gentleman alludes to, called
 "He states that many parties applied for
 "their Homestead Patents, as they interpreted
 "Sub-sec. 3. Sec 33 of the present Land Act
 "required them to do so, as soon as they
 "were entitled to them, otherwise they would
 "lose their preemptions; that owing to the
 "harvest and low prices they are unable
 "to pay for their preemptions; and asked
 "for an extension of time, by paying the
 "interest on same, say, at 7 percent per
 "annum in advance.

"I replied that although the clause was
 "open to such a construction, the Minister
 "would not put such thereon, without giving
 "the public full and ample notice: that
 "in every transaction between the individual
 "and the Government, of a financial nature,
 "there was no case on record where the Dept.
 "could be accused of harshness. That
 "although at first blush his offer of paying
 "interest in advance at 7% seemed a
 "fair proposition, that really it was asking
 "the Government to assume the position of
 "a loan."

708

"about company, and, anyone in the
"country had agreed a claim on the Dept.
"for about as a Homestead; hence the
"trouble and expense of looking after
"such matters would be great; the Dept.
"was large enough already for practical
"working without attempting to increase
"it. However I would promise him, that
"an application by each individual, if
"it should prove impossible to raise the
"money at the expiration of the 6 months
"and there was a reasonable probability
"of the applicant being able to do so within
"a short time, the agent would be instructed
"not to take any steps towards cancellation
"of the claim to preemption, until, at least,
"the Minister had time to consider whether
"any steps could be taken, in such cases,
"towards granting an extension of time.
"I have embraced in this my views on
"the principal issue; but practically, I
"can see no objection to granting a year's
"extension, if interest at say 7% per
"annum in advance be paid, but in
"every case interest should be required
"in advance."

Letter from myself to the Hon Minister of the
Interior Dec 4th, 1883. (Confidential).

"The evening papers have announced
"tonight, that both the mile Belt, and
"south of the C.P. Railway 24 mile Belt, are
"to be thrown open for Homestead and
"Preemption entry, on 1st January.

"If such be the intention, I would beg to
"suggest the date be deferred till 1st April,
"better 1st May, next. If it is authoritatively
"Announced

Suggestions for
throwing open
1 mile Belt.

708

announced that it will be opened on
 May 1st, the general effect will be the same
 as if opened on 1st January; besides to me
 certain knowledge at least 50 Squatters
 in the district South of Belt, have gone to
 the Eastern Provinces for the winter. If
 land be thrown open on 1st January,
 these parties may lose claims, to which
 least, they are better entitled, than new
 comers, or at best a large crop of disputed
 claims will be produced, which owing to
 the delay in the settlement of them, which
 must arise, will cause loss in many
 cases to very deserving parties, which will
 be irremediable, by delaying the date of
 throwing open for entry.
 As to the "Mile Belt", I would wait till
 arrivals in spring came up. The fact of it
 being thrown open at, say, 1st May, would
 be a strong lever for inducing immigrants.
 If thrown open now, they will be gathered
 up by the poorest class of settlers, this
 country can produce men who have
 loafed around towns all summer. I have
 reported me that in the town of Brandon
 not less than 40 not desirable settlers are
 loafing there till it is thrown open. In
 this connection I would suggest that no
 one be granted more than 80 acres as a
 Homestead entry in the Mile Belt and 80
 acres as a preemption, subject to breaking
 and putting under crop, one sixth of the
 whole, suitable for cultivation, each
 year until one half is cultivated; the
 residence be begun on June 1st next and
 each continue permanently for at least 8
 months in each year thereafter. When land
 is

[illegible]

708

are squatted upon between this date and
~~the 1st of May~~ to confer no right whatever,
 by reason of said squatting. If, as a paper
 announcement, Homestead and Pre-
 emption rights in the Mile Belt are to be
 granted, it would be a premium on those
 who have done nothing save loafing round
 waiting for it to come into the market, but
 if some such stringent regulations are
 adopted they will be liberal enough on the
 whole. Considering the location of these
 lands, the effect to be produced on travel
 good; seeing a large cultivation and resi-
 dence on each 1/4 section. Give the public
 distinctly to understand, that, so far as
 the mile belt is concerned, a rigid enforce-
 ment of conditions is necessary. A special
 receipt might be given for entry. Those
 squatters now on it, who are bona fide,
 might be more liberally dealt with. I
 have marked this confidential and
 written hurriedly, but you may use it
 officially, if you wish.

I am still of opinion, that the poorest class
 of settlers in the country, are those who obtain
 entry in the mile belt; and at the time that
 these entries were made it was thought that
 the 10 acres as Homestead and 80 acres as a
 pre-emption, was more valuable than 160
 acres as a homestead out of land then avail-
 able.

Extract from a confidential letter to the Hon.
the Minister dated 20th Decr 1883 written on
behalf of the late Commissioner by myself.

"It appeared to me that there were two
 roads to avoid; one not to make receipt
 "So

just on the morning
of September 708
Casselman

"so liberal as to induce Speculative Cancell-
"ation; the other, not to make these sections
"that the lands would not be recultured
"At the ^{same} time, it was thought advisable, first
"at present to stop the local idea that the best
"worthwhile to exist all the money possible
"from out the lands.

"If a person wishes a half section, he can
"have it; but must pay therefor the enhanced
"value for his presumption, and it is required
"in nearly every case all the acres over \$2.⁵⁰
"per acre be paid in cash at once; but if
"he is contented with 160 acres he gets, in nearly
"every case, one half free, the remainder at
"\$2.⁵⁰ per acre, in a settled district, payable
"when acquiring title. It is thought, that
"If a man obtains 60 acres in a settled
"district by paying after 3 years residence,
"\$200.⁰⁰, he does better. He tops out to the
"front and obtains 160 acres; and another
"160 acres at \$2.50 per acre. It might be well
"to limit reculturing solely to these terms for the
"future. It would be argued, that many of
"these lands are below the general average,
"they being cancelled was owing in a great
"measure to that fact; but even so I think
"the terms liberal. If this scheme works it
"will become no doubt popular, as a large
"number in the inhabitants of a district
"will accrue therefrom. During the farmers
"convention here last week a good many
"called upon me. I took particular pains
"to explain and discuss this policy, and,
"without exception, they endorsed it, ex-
"cepting of course their individual cases
"which they urged had peculiar circumstances
"connected therewith and felt that they were

" quarter section the other as Presumption at $\frac{1}{2}$ ⁵⁰
 " per acre.

" On the map enclosed, marked in red, are
 " those cancelled by application; in blue, by
 " Inspectors. A large percentage, at least 80
 " per cent, were initiated prior to order
 " with drawing entry on cancellation. Of those
 " in red many also were gone over by the H&A
 " Inspection and a report made thereon. It
 " was further felt that these cases have been
 " pending some many months, the cases of
 " hardship on the part of ~~defendants~~ had
 " been heard and considered. So that this
 " parties near, of the nature of ~~action~~
 " on the merits of each case by the H&A Board.

" A glance at the map will show what an
 " immense quantity of land was being held
 " in suspense, particularly in the districts
 " and as you resolved on throwing open all
 " lands south of Bell on such favorable
 " terms, which action has been so deservedly
 " popular, the action taken with regard to
 " cancelled homesteads was but a proper
 " sequence thereto.

" As the Session of Parliament was so near at
 " hand, it was also felt that if action
 " were not taken at once it might not be
 " till after the close thereof probably too
 " late to be available for next season's oper-
 " ations. Many complaining that one year
 " has been lost already. In many cases
 " those entitled to first right of entry, not
 " being in the country, so long notice having
 " been granted, so that by the time the agents
 " sent off these notices the time expired and
 " entry obtained by next applicant, it will
 " be nearly the spring when parties should be
 " making

708

"examined preparations for next season's work
 "It will be found that spirits will be found
 "close at hand before the majority are aware
 "in the vicinity of Durlec mountain, many
 "who could not obtain entry, and have gone
 "south of the line, will now. I believe return
 "I also believe this action will relieve you
 "of a great many applications through
 "Members of Parliament, during the con-
 "session on behalf of Conventualists or in-
 "conventualists. The agents have therefore be-
 "instructed in accordance with letter
 "enclosed and which I trust will meet
 "with your approval."

Sir,

I beg to enclose for your information,
 copies of correspondence between U.S. Consul Taylor
 and myself; also copies of certain correspondence
 between Consul Taylor and U.S. Land officials.

The object of this correspondence was to show
 that with our neighbors to the south of the
 49th parallel, Immigration was prevented
 solely by land Corporations, and to some
 extent, by some of the States and Territories.

This was done to enable the Department
 to state to the Hudson's Bay Co^y, and others,
 who were always clamouring that the Govt
 should exert themselves further in promoting
 Immigration, and who cited what the U.S. were

"Doing."

Hon. Thos. White }

Will Mr. Register Siffary or Receiver Anderson
of said Post Land Office kindly give any
information in respect to the enclosed com-
munication of Mr. Pearce, Inspector of Immigra-
tion Land Office and return same enclosed
on, or in a subsequent communication
addressed to me?

1st

Has not been the appropriation annually
by the Federal Government of \$2. for immigration
purposes for the past five or six years?

Ans. There are none.

2nd

Is the State Government liable for expenses
and to what amounts, amount for immigration.

Ans. The State Government of New York, contains
Carroll Garden Immigration Depot & Hotel.

3rd

Where are the chief depots for receiving and
sending for immigrants?

Ans. I know of none but Carroll Garden.

4th

Are these depots supported by the Federal
State, Municipal, Railway and Steamship
Corporations, or partly, by all, or several?

Ans. There is Municipal provision for relief of
paupers in; applicable to immigrants
from Europe, as well as other paupers.

Copy.

These are the things which are
 opposed to the interests of the
 community in general, and
 the interests of the State.
 The interests of the State
 are the interests of the
 community in general.

THE STATE

There are two things which are
 opposed to the interests of the
 community in general, and
 the interests of the State.
 The interests of the State
 are the interests of the
 community in general.

The State is the community in
 general, and the interests of
 the State are the interests of
 the community in general.

There are two things which are
 opposed to the interests of the
 community in general, and
 the interests of the State.

The State is the community in
 general, and the interests of
 the State are the interests of
 the community in general.

5th Are not the chief agents for immigration furnished by the Land Corporations?

Ans. These agencies are numerous and very influential

6th Has the Federal, or State Governments, any immigration agents in Europe? If the State, which ones, and to what extent?

Ans. I know of none.

7th Do not the U.S. Consuls at various points, and Europe, act as Immigration Agents?

Ans. They never refuse information when specially required or asked, but are cautious to avoid further discussions.

Their duties are chiefly to protect interests of Americans abroad and to give information to State Departments.

Ques: Are not the chief agents for communication furnished by the State Government?
 Ans: These agencies are numerous and very extensive

Ques: How the Federal, or State Government, and communication agents interfere? If the State, which one, and to what extent?
 Ans: Almost none.

Ques: Do not the State, Federal, or State Government, and communication agents interfere? If the State, which one, and to what extent?
 Ans: They never refuse information when specially required or asked, but are cautious to avoid further discussion.
 Their duties are chiefly to protect interests of the various States and to give information to the State Department.

November 21st 1883.Hon J.W. Taylor
U.S. Consul
Winnipeg. Man.

We have Examined your letter and answers to Mr Pearce. We have nothing at our command where we could gain any further information for him. I would state, that several of the States publish documents descriptive of the country "to send abroad." Nebraska and Kansas do this I believe.

The federal government do not make any allowance to disseminate information through local land offices, except we are expected to answer correspondents, which we endeavour to do.

I have mailed to your address, several circulars explaining the rights of settlers under the various land laws.

Very respectfully.

Dom. Lands Office

Winnipeg

Dear Sir,

In further answer to your note of 13th inst. I would say that there are large expenditures for support of Agricultural Bureau, Statistical Reports, Land Surveys & administration, Geological explorations, individually influencing immigration, by General Government. So in some measure by States. It would be a proper incident of their duties, for Clerks in local Land Offices, to be detailed for occasional service giving information to settlers; as I think lately happened in a district near Turtle Mountain. Dakota.

I will make further enquiries, and communicate any additional information which I may obtain.

Sincerely

signed J.W. Taylor.

November 28th 5.

Sir,

I have the honor to enclose herewith a blank form of declaration for you to fill up, so far as it can be, to suit the circumstances of the case on behalf of the orphanage claimant Morley. When filled in please make affidavit thereto and return one copy at all the information necessary to these claims may be available for consideration of the minister.

So far as the dispute between you on behalf of this claim and Mr. White it is hoped that it may be amicably settled between you. Judging from Mr. Bellanger's survey there should be ample river frontage for all claimants. Many of them appear to have ^{been} never decided upon, and the improvements, considering the area of the claim, very meagre.

Rev. John W. Douglass

that the Government

the

the

726 object could be best attained
if the request came from your
Association.

One has but to consider
what has already occurred between
"Fort Kipp" and "Slide out" to see
what a very few settlers, located
on bottoms, facing across from
cut bank to cut bank, can
accomplish. Some seventeen
settlers are now claiming rights
in that stretch; with one
additional, rights - obtained as
aforesaid - and three claims being
fenced, some of miles of the
Belle River will become
inaccessible to stock for water,
or the bottoms for shelter.
The matter of shelter I consider
as important as that of water.
I merely cite this to show what
may happen all over the country.

It may be that so far as
the present levee holders are concerned,
they are already protected, but

[illegible]

458

[illegible]

includes everyone, as those
squatters who are not yet
stockmen no doubt intend
becoming such, so soon as their
means will permit them - and
so far all stock runs in herds
without regard to ownership.

It follows therefore that everyone
must be interested in having free
and liberal access to both
water and shelter.

Your association can
I think do very much to
promote the raising interests
of the country generally and I
address myself to you as
representing all parties concerned.

Should you wish to
communicate with me address
Office of Dominion Lands Commission,
Winnipeg.

I have the honor to be,
Sir,

Your obedient servant

W. P. Patterson

W. P. Patterson

The first of these is the
 fact that the population
 of the country is increasing
 rapidly. This is due to
 the fact that the birth
 rate is higher than the
 death rate. The second
 fact is that the population
 is becoming more and more
 urban. This is due to the
 fact that the cities are
 growing faster than the
 country. The third fact is
 that the population is
 becoming more and more
 educated. This is due to
 the fact that the schools
 are becoming more and
 more numerous. The fourth
 fact is that the population
 is becoming more and more
 wealthy. This is due to the
 fact that the economy is
 growing faster than the
 population.

of the fact that the
 population is increasing
 rapidly.

Unofficial

Sir,

For the consideration of the
Commission we have in regard
last to your Association regarding
the Government to receive certain
lands for other purposes. At that time
I confidentially reported to you
your object again this morning
but unfortunately circumstances have
arisen to prevent this and it
is now doubtful whether it will
be able to do so before long.
I am sorry to state that
that some steps should be taken
in the matter above referred to,
and the desired object could be
best attained if the request came
from your Association.
One has but to consider
what has already occurred
between "hot lips" and "cold feet"
to see what a very few words
leading on to further, pending
matters from that point to cut
down, can accomplish.
Some reasonable better are now
claiming and in that regard
with one additional only -
Ottawa as before - and

727

of the Belly River will become inaccessible to stock for water, or the bottoms for shelter. The matter of shelter I consider as important as that of water. I merely cite this to show what may happen all over the country.

It may be that so far as the present leaseholders are concerned, they are already protected, but I think you will agree with me that only a very small percentage of the grazing capabilities of your country is now occupied; and it is not the duty of every citizen to do everything possible to make the country produce all that its natural capabilities will admit of? No one has more at heart than myself the good of the bona fide settlers and I feel convinced that a little attention paid at this time to the subject under discussion will ultimately result in much good.

I am aware that some of the leaseholders have argued that it is the duty of the Government to do of its own accord what I have herein indicated - but

Yours

(2)

727

suppose the Government made these reserves unsold - would not the cry be at once raised that the Government was by its policy interfering with the settlement of the country? As I understand it, the Stock Association represents all parties - the large as well as the small stockmen. That practically includes everyone, so those squatters who are not yet stockmen no doubt intend becoming such, so soon as their means will permit them - and so far all stock runs in herds without regard to ownership. It follows therefore that everyone must be interested in having free and liberal access to both water and shelter.

Your Association can I think do very much to promote the stock raising interests of the country generally and I address myself to you as representing all parties concerned.

Should you wish to communicate with me address: Office of Dominion Lands Commission, Winnipeg.

I have &c

suppose the Government made
these various investigations -
would not the Gov. be at once
satisfied that the Government
was not the party interfering
with the settlement of the
country? As a matter of fact
the State Association represents
all parties - the large as well
as the small settlement. That
frankly includes everyone, so
these questions are not of the nature
of doubt which becoming such,
so soon as they become
known to them - and so far as
these things in fact without
regard to ownership. It follows
therefore that everyone must
be interested in securing free
and liberal access to both
water and timber.
For Association can
of them the Gov. never be possible
the State having interests of the
country generally and of others
itself for an independent
all parties concerned.
Should you wish to communicate
with me address: Office of Division
State Commission, Washington.

I have no
objection to your
copy.

Black &
Secretary of the Commission
for the Commission

20 Nov. 5.

My dear Magrath,

I enclose with this 10 blank forms of declaration for squatters on lands who desire entry. In using them please caution the parties to state as fully and concisely as possible the answers to all questions - particularly as to the land claimed - and if there are any particular points in any case which would merit it to receive specially liberal treatment, the same should be well brought out. If it is desired to make fuller statements than there is room for upon the form (particularly in answer to Q. 42.)

the same may be written on a separate sheet of paper and attached to the form. The whole should then be sworn to and corroborated by the affidavits of two reliable and disinterested parties if possible.

With reference to the claims of the Messrs. Stafford, father and son, I had hoped to visit Lethbridge in company with the Minister of the Interior, when their claims would have been discussed, but not having done so it would be advisable that whatever they may wish to state should be in the form of a statutory declaration, as is required in all cases. If the parties are on land owned by your Company please send a report of what the Company desire should be done in the premises.

I hope to visit Lethbridge

and

the same may be written on a
separate sheet of paper and
attached to the form. The
whole should then be covered
and countersigned by the applicant
of two reliable and disinterested
parties if possible.
With reference to the
claiming of the necessary staffs,
further and our I have asked
to visit the buildings in comparison
with the Minister of the Interior
when their claims were made
been discussed, but not having
done so it would be satisfactory
that whatever they may wish
to state should be in the form
of a statutory declaration, as is
required in all cases. If the
parties are so kind enough to
form themselves please send a
report of what the company
claiming should be done in the
premises.

I hope to visit the buildings

Dear Sir,
 I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter.
 I am, Sir, very respectfully,
 Yours, etc.,
 J. M. Smith

28 Nov. 8.

Sir,

When at Macleod in August last one Adam William Knuth on your behalf asked that you might be granted homestead entry to the S.W. Sec. 9. T. 26 N. 4. Since then I have heard nothing further from you. It would appear also that one Monte had a claim to the same land.

I enclose with this two blank forms of declaration, one for yourself and one for Monte, which please give him, and each having properly and explicitly filled them up, attested and had them corroborated, return them to me

granted these applicants as far as can be done.

In the interview I had with you I think you stated that most, if not all of these squatters know the lands on which they are residing and lay claim to. In any case the Doonishin outline being established, no difficulty need be experienced in locating the same, but I would suggest that great care be taken by them, as otherwise confusion and delay may arise in the settlement of these cases.

In the interview mentioned I promised you that I would certainly visit Pinchen Creek this month. Since then, however, unforeseen circumstances have arisen to prevent this - much to my regret. I now hope that some time in January I shall be able to pay you a visit, but in case I may not, I have caused these forms to be sent in order that nearly, if not all the required information

presented these applications as far as can be done.

In the interview of last week you & I think you stated that most, if not all of these squatters know the lands on which they are residing and lay claim to. As any case the Government's position being established, no difficulty need be experienced in locating the same, but I would suggest that great care be taken by them, as otherwise confusion and delay may ensue in the settlement of these cases.

In the interview mentioned I promised you that I would certainly visit Tucker Creek this month. Since then, however,

unforeseen circumstances have arisen to prevent this - much to my regret. I now hope that some time in January I shall be able to pay you a visit, but in case I may not, I have caused these forms to be sent in order that nearly, if not all the required

736

Prince Albert 14th December 1884

Being required to produce the basis of all claims of title against certain land claims that were made during the survey of the land, it occurred to me that it might be advisable to examine the grant of that portion of the 40th & 2nd 1/2nd lying South of the South Saskatchewan River to the Prince Albert Coal Co. and the late half-breed and Indian Deltwade. I thought it advisable to obtain evidence on that point and have the house to examine the copies or extracts from all affidavits taken by me from all settlers or claimants in that portion of the land. The remaining portion North of the River contains no settlers not being desirable for settlement, unless it is to be covered with a dense growth of poplars.

Many of these affidavits are from those who are merely claimants in some cases no improvements having been made by them in this portion in or there a case of breaking and a few houses by the Crown. Only two settlers W. Barrow and George Fiddler did not give affidavits, not being at home at the time. The latter, John, Thomas and John Fiddler in 1880 gave their affidavits and in their affidavits stated regarding his claim. Fiddler's sister gave her husband's name, Andrew Fiddler, who would give affidavits, not being then their claimants to land in this township were making being away from home. One Frederick Fiddler being absent at Lethbridge (a son of George Fiddler) and the other was Bowden and Boyce. In the case of Bowden the affidavit of him of his brother was obtained in 1880 by Boyce, then of his mother and brother.

The affidavits obtained from whose affidavits were obtained, there are the following settlers and claimants

W. Fiddler }
 John Fiddler }
 W. Fiddler }
 Fiddler }

Thomas

[illegible]

Township 45 N 27 W 20 E and 45 N 27 W 21 E
 Ant. Thos. Sallat claims 36 7/8 12 - 25 - 27 1/2 20 E 20 N 20 W
 John W. Sargent " 37 1/2 2 - 45 - 27 " 7 Oct 1883

 Joseph H. Johnson " 37 1/2 20 - " " " 27 Oct 1883 (approx)
 John E. Johnson " 37 1/2 20 - " " " 8 Dec 1883

and Philip Johnson who claims the 37 1/2 12 - 45 - 14 3/4 and
 sold the same in 1883 to one J. J. Johnson, consideration \$2000, there
 being no record in as matter, as I could ascertain in 1883-27 1/2
 being made in prison on account of his connection with the
 rebellion and his family, not residing on the land was
 unable to obtain the necessary information from him as to the land
 claimed and on what grounds claimed.

The foregoing, whether being settlers and claimants
 to lands within the district granted the Prince Albert Ed. Co.

At the time of survey there were many land grantors
 (settlers & squatters) settled within the Township, and
 they could long ago obtained entry to their claims by the
 fact that some of them were engaged in the business of
 farming. Probably the construction of their claims, having been
 from the fact that they were engaged in the business of
 farming. Many claims, all no doubt would do so under
 the laws available at the time. But by their own acts
 multiplying the construction that to the land is what they have
 so obviously desired. All excepting the above mentioned
 being and having been settled since the old settlers were set apart from such
 but have acquired the same most systematic regardless of the
 or even without any or without objection. The same action
 has, through every District, been taken and has yet been in force under
 settling on land subsequent to survey without obtaining entry
 these are illegal proceedings, the action of such a law being driven
 in the Spring of 1884 commenced the erection of a Chapel. The work

Can 20 logs high. Sides and front in an oval shape 20 ft
 proper logs of timber about 12 ft. thick. The logs are
 are about 100 ft in length. The logs are of the size
 of the logs. In addition there are 14 ft logs in the
 side to about 4 ft. diam. Sides of log about 12 ft. in
 length. Some evidence obtained of the logs being
 valuable to place in the logs in the wall. The logs are
 the logs are 20 ft. in length. The logs are 10 ft. in
 the logs are 10 ft. in length. The logs are 10 ft. in
 the logs are 10 ft. in length. The logs are 10 ft. in

It is stated the contract was let to the House to finish the building
 in 1886. But he secured a liberal advance on each contract but
 failed to complete it. The half house & the other half house
 last spring prevented its completion this year.

I would particularly direct your attention
 affidavit of Herman H. Kergin. It shows all others suggested
 think as explanation.

What I stated to Mr. Kergin is what I have invariably
 done to everyone during the past four years. Whenever the
 urgency and needs regarding the rights and privileges of Col. Co.
 Col. Co. which in brief is:

So far as our Sec. are concerned the Col. Co. is merely
 the agent of the Minister of the Interior to grant homesteads and for certain
 other things.

That so far as the Col. Co. are concerned all their
 duties are given to the Col. Co. and that the Col. Co. are
 within the tract would if desired be protective to the interest of the
 Col. Co. that the Minister has sole control in such cases and the
 treatment would be accorded them as if settled on lands not
 granted to Col. Co.

All of which is respectfully submitted

I have the honor to be

Sir

Your obedient servant

W. H. Kergin

Kergin

Northampton 1st Nov. 1853
 20th Nov. 1853

1st In the Autumn of 1853 I received the
 claim of one George C. Smith of the
 name of in the name of the
 and during the month of November I
 Albert in London and returned to the
 respecting the claim of Smith in the District
 Albert District I spoke to him about the claim
 stating I understood that portion of the
 No. 27 W. 2^d lying south of the River
 had been leased to the District
 Colonization Company and as the
 lease in going on and improving the
 claim. It really was the same person
 who in going ahead. That so far so
 went in advance of their opening that claim
 and even if I saw it when on even sections was
 just the same as any other land in the District
 Albert District. But as far as the even sections
 were concerned the Colonization Company was
 clearly part of the business of the District of
 Somerset and Devonshire and the
 and any section or sections in advance
 of the Colonization Company established the
 Office the business of the District of
 the agreement with the Colonization Company the
 right to grant it and any from such section land
 to the District of Somerset and Devonshire
 I was a long time before I could make out
 the process.

2nd I never was told by any one that I
 did not obtain my entry as desired. In fact it was
 always presented to me by the Department of the
 Interior

inferior State Officials not to be able obtain any information and have been notified that we can make our entry and put the army ashore.

Brown in the air in the morning
 in the evening water in the morning
 This is the water in the morning

The first part of the manuscript (folios 1-10) contains a list of names and titles, including "The first part of the manuscript" and "The first part of the manuscript". The second part (folios 11-20) contains a list of names and titles, including "The second part of the manuscript" and "The second part of the manuscript". The third part (folios 21-30) contains a list of names and titles, including "The third part of the manuscript" and "The third part of the manuscript". The fourth part (folios 31-40) contains a list of names and titles, including "The fourth part of the manuscript" and "The fourth part of the manuscript". The fifth part (folios 41-50) contains a list of names and titles, including "The fifth part of the manuscript" and "The fifth part of the manuscript". The sixth part (folios 51-60) contains a list of names and titles, including "The sixth part of the manuscript" and "The sixth part of the manuscript". The seventh part (folios 61-70) contains a list of names and titles, including "The seventh part of the manuscript" and "The seventh part of the manuscript". The eighth part (folios 71-80) contains a list of names and titles, including "The eighth part of the manuscript" and "The eighth part of the manuscript". The ninth part (folios 81-90) contains a list of names and titles, including "The ninth part of the manuscript" and "The ninth part of the manuscript". The tenth part (folios 91-100) contains a list of names and titles, including "The tenth part of the manuscript" and "The tenth part of the manuscript".

[Faint, illegible handwritten text, likely bleed-through from the reverse side of the page.]

1. The first part of the document is a list of names and titles, including "The Hon. Mr. Justice" and "The Hon. Mr. Justice".

~~Not a witness~~ } In addition to the above affidavit
I was } taken before George Duck on the 28th day
of last July, I further depose that
I claim this as a lot of Chain River land
my neighbors wishing to have it in 1840
claim. I suppose I will not obtain a 10
Chain lot. Knew it was surveyed into quarter
sections at time I took up the claim. never applying
for entry, and always supposed I would obtain
one. Never was told by anyone that this land
had been sold or granted in any way by the
Government to any Corporation, individual or
Colonization Company. Never was told by Red
that entry could not be obtained for this land or
any of it in Township 48 Range 27 West 2^d Meridian
nor did I hear any of the duties in said Township
that they could not obtain entry for these lands.

Sworn before me at Township
Range 27 West of 2^d Meridian
this 10th day of December 1850.
Having first been read in
French by Louis Mariot Thoroughly
It understood by what he was

(Sgd)
John Brown
Subst.

Appended to Affidavit taken before George Duck
at St. Louis de Languevin on the 28th day of July 1850
by the said Alexandre Lamourance

North West Division } Alexander Mc Dougall Esq.
 20th Nov } Township 40 Range 27 1st 2nd 3rd Division
 1st. That the title of the land in
 November 1864 & 1871 up to the present time is
 cause it was formerly concerned that entry
 would be given to the land in the
 portions thereof so as to give the title
 a clear frontage extending back from the
 line about 1/4 to 2 miles.
 2nd. That I never saw or heard that
 any portion of the Township belongs to
 a Colonization Company, nor have not been
 to this day visited at this spot, having
 always understood that the Township was
 had as a reserve, for the use of the
 land of the Township 40 Range 27 1st 2nd 3rd Division
 3rd. That I have not seen any of the
 west extending back one mile from the line

Sworn before me at Township
 40 Range 27 1st 2nd 3rd Division
 This 7th day of October 1871
 Having first been sworn and
 taken and thought it proper
 and as a witness to the fact
 of the same.

(Signed) Alexander Mc Dougall
 Esq.

(Signed)
 John Brown
 Justice.

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter. I am sorry to hear that you are not satisfied with the result of the investigation. I have, however, no objection to your making such use of the facts as you may think proper. I am, Sir, very respectfully,
 Yours, &c.
 J. M. Smith

I have been one of the
 4-10-11-12-13-14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56-57-58-59-60-61-62-63-64-65-66-67-68-69-70-71-72-73-74-75-76-77-78-79-80-81-82-83-84-85-86-87-88-89-90-91-92-93-94-95-96-97-98-99-100-101-102-103-104-105-106-107-108-109-110-111-112-113-114-115-116-117-118-119-120-121-122-123-124-125-126-127-128-129-130-131-132-133-134-135-136-137-138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-323-324-325-326-327-328-329-330-331-332-333-334-335-336-337-338-339-340-341-342-343-344-345-346-347-348-349-350-351-352-353-354-355-356-357-358-359-360-361-362-363-364-365-366-367-368-369-370-371-372-373-374-375-376-377-378-379-380-381-382-383-384-385-386-387-388-389-390-391-392-393-394-395-396-397-398-399-400-401-402-403-404-405-406-407-408-409-410-411-412-413-414-415-416-417-418-419-420-421-422-423-424-425-426-427-428-429-430-431-432-433-434-435-436-437-438-439-440-441-442-443-444-445-446-447-448-449-450-451-452-453-454-455-456-457-458-459-460-461-462-463-464-465-466-467-468-469-470-471-472-473-474-475-476-477-478-479-480-481-482-483-484-485-486-487-488-489-490-491-492-493-494-495-496-497-498-499-500-501-502-503-504-505-506-507-508-509-510-511-512-513-514-515-516-517-518-519-520-521-522-523-524-525-526-527-528-529-530-531-532-533-534-535-536-537-538-539-540-541-542-543-544-545-546-547-548-549-550-551-552-553-554-555-556-557-558-559-560-561-562-563-564-565-566-567-568-569-570-571-572-573-574-575-576-577-578-579-580-581-582-583-584-585-586-587-588-589-590-591-592-593-594-595-596-597-598-599-600-601-602-603-604-605-606-607-608-609-610-611-612-613-614-615-616-617-618-619-620-621-622-623-624-625-626-627-628-629-630-631-632-633-634-635-636-637-638-639-640-641-642-643-644-645-646-647-648-649-650-651-652-653-654-655-656-657-658-659-660-661-662-663-664-665-666-667-668-669-670-671-672-673-674-675-676-677-678-679-680-681-682-683-684-685-686-687-688-689-690-691-692-693-694-695-696-697-698-699-700-701-702-703-704-705-706-707-708-709-710-711-712-713-714-715-716-717-718-719-720-721-722-723-724-725-726-727-728-729-730-731-732-733-734-735-736-737-738-739-740-741-742-743-744-745-746-747-748-749-750-751-752-753-754-755-756-757-758-759-760-761-762-763-764-765-766-767-768-769-770-771-772-773-774-775-776-777-778-779-780-781-782-783-784-785-786-787-788-789-790-791-792-793-794-795-796-797-798-799-800-801-802-803-804-805-806-807-808-809-810-811-812-813-814-815-816-817-818-819-820-821-822-823-824-825-826-827-828-829-830-831-832-833-834-835-836-837-838-839-840-841-842-843-844-845-846-847-848-849-850-851-852-853-854-855-856-857-858-859-860-861-862-863-864-865-866-867-868-869-870-871-872-873-874-875-876-877-878-879-880-881-882-883-884-885-886-887-888-889-890-891-892-893-894-895-896-897-898-899-900-901-902-903-904-905-906-907-908-909-910-911-912-913-914-915-916-917-918-919-920-921-922-923-924-925-926-927-928-929-930-931-932-933-934-935-936-937-938-939-940-941-942-943-944-945-946-947-948-949-950-951-952-953-954-955-956-957-958-959-960-961-962-963-964-965-966-967-968-969-970-971-972-973-974-975-976-977-978-979-980-981-982-983-984-985-986-987-988-989-990-991-992-993-994-995-996-997-998-999-1000-1001-1002-1003-1004-1005-1006-1007-1008-1009-1010-1011-1012-1013-1014-1015-1016-1017-1018-1019-1020-1021-1022-1023-1024-1025-1026-1027-1028-1029-1030-1031-1032-1033-1034-1035-1036-1037-1038-1039-1040-1041

(1891)
 The
 1891

The first thing I noticed when I stepped
 out of the car was a warm, humid breeze.
 It felt like a giant hand reaching out to
 embrace me. The air was thick with the
 scent of tropical flowers and the distant
 hum of a city. I took a deep breath, savoring
 the moment. The sun was shining brightly,
 casting a golden glow over everything.
 I looked up at the sky, where a few
 wispy clouds were scattered. The birds
 were singing their hearts out, their
 melodies filling the air. It was a beautiful
 sight, a perfect blend of nature and city.
 I walked along the sidewalk, my feet
 feeling the soft texture of the pavement.
 The buildings were tall and modern, their
 glass facades reflecting the sunlight. The
 streets were wide and clean, with a few
 cars driving by. The people were
 smiling and waving, their faces lit up
 with joy. It was a wonderful experience,
 one I would never forget.

St. W. 2. I solemnly declare of being 1/2 p.
 Court 3d Apr 27 W. 2. I have been married
 1st. My wife 23 years of age. Once with my
 father Jean Baptiste Bonheur. My wife
 Marie Anne Bonheur. And my brother
 Jean Baptiste Bonheur. And my sister
 Eugene Bonheur. The latter attained the age of
 18 years on the 1st Dec. 1882. Together with
 several other younger brothers and sisters in
 August 1882. And have resided in my father's
 house on the 21st of Dec. 1882. Since then
 continuously since up to this date. I have from
 Paris St Paul and participate in the 1/2 p.
 halfpenny stock.

2^d That my sister Marie Laurence and my
 brother Charles Eugene Bonheur, have also resided
 in my father's house continuously since August
 1882, except my sister who has lived in Philadelphia
 since she was 18.

3^d About 2 weeks ago we came to the house
 Washington. At that time we had about 2 acres
 of breeding. My brother Charles has 2 acres. My
 sister Marie has about 1 acre. My brother Jean
 Baptiste Bonheur. I am not certain whether he has
 any or not.

4th My sister Marie Laurence has one acre. And
 has also the pasture and woods on the land.
 5th I have at least 10 acres of breeding. At the
 house I have about 10 acres. And giving to the
 of 20 acres. and 30.

6th My brother Eugene has 2 acres of breeding. And
 at the house I have about 10 acres. And giving to the
 of 20 acres.

7th At the time of the survey we were told by the
 surveyor

I say that we were on a select section of
the said lands it was an eight and that
we were then camped there then there were
been then that we were not certain. I say
myself & others only thinking that we were in the
camp with King's Co. or with Francis Co. &
therefore to go there. Since this land was
within a Colonization Company's tract but no
official of that Company can say anything
more. I would be inclined to say of the family
& should have been pit. The fact of this land
being within a Colonization Company's tract seems from
our father's letters, sister or myself any other
relation, as we always believed we were, ourselves
of this only as we believe.

I was taken me at Independence
Dec 27th 1834. The 27th of
December 1834. Harrington's
dear son and brother and
brother to him, and to the
through the mountains.

Yours

Wm. R. R.

Capt.

I was taken me at Independence
Dec 27th 1834. The 27th of
December 1834. Harrington's
dear son and brother and
brother to him, and to the
through the mountains.
I should have been clearer of the
affairs of William R. R. and his
claiming the land created by him and
claiming by myself, my brother, sister and
mother

mention (and by our own or perhaps of our
 father Jean Baptiste Roussin Senior) and that
 the same is true and correct in every particular
 with the exception that at the date of the Survey
 by Wm. Wilson that in 1852 I had 1/2 acre of
 bearing on the north, 10 chains of Sec. 11, lot
 27 1/2 2" which land I now claim as a pre-
 sumption, and that I particularly state I never
 heard nor do I think any family ever heard
 that the Government had disposed of the land
 and that I could not consistently claim it by
 therefore. Nor that any of the Settlers in land
 45 Range 27 west of the 2nd Meridian could not
 claim entry for their lands so claimed.

Sworn before me at Township
 47 Range 26 west of 2nd Meridian
 this 11th day of December 1885.
 Having been first read over
 and explained and he
 thoroughly understood and intended
 the same.

J. B. Replich Roussin

J. B. Replich

J. B. Replich

W. J. 2 I William Brimmer of Section 18, lot 27 1/2 2"
 2nd Meridian, I formerly owned and now
 that I came from the British Columbia
 in Manitoba in August 1885 with my family
 Joseph and Almon and a very fine section of land
 Roussin to Township 47, Range 26 west of the 2nd Meridian
 our line, land in Section 18, lot 27 1/2 2"
 2nd Meridian.

2 That about 2 weeks after settling here the same

The Town.
Thoroughly examined & mentioned
the following results were obtained

showing how far back over
the 1st day of December -
to say to what 2nd business
concerned me at present.

was made by David Wilson Esq. at the time of
 survey & has about 2 acres more than the former
 quantity. My son James has no improvements
 and remains with me till following spring. My
 son Alexander has the possession of the house built
 on the S.W. 1/4 10 which he gave to my son William
 who arrived the following year and then began to
 have business transactions & in 1874 Wm. Sec 8 and
 completed the house and commenced a residence
 in in the autumn of 1874. My son Joseph has no
 improvements at time of survey. Commenced to prepare
 for building in the winter of 1873 and com-
 menced residence in the autumn of 1875 but has
 been farming it for the past two years, living
 however with me. My son William since the summer
 of 1873 has been living on the S.W. 1/4 10 till the
 summer of 1875.

Q. What title to the land of survey are we not making
 our claims how we would like the land of claim
 up here on account of my family. They desire
 the land to be taken up in their lots, and we de-
 sired to try and obtain it that way. My son
 Alexander concludes he would be too much damaged
 to give his claim to William Brown and some
 objection. We never applied for entry at the office
 of the Albat. wanting to see whether entry would be
 granted in 10 Chas. River frontage or not.

Q. What I never was told, nor do I believe my
 sons or son-in-law were, or should have heard of
 that we should not obtain entry for the land as
 we desired it. That once told me possibly we could
 not obtain it. But we believed that we would then
 have obtained it, nor continued to make further in-

Agreement as we have none.
 I never before was informed that the survey of the land was made in 1875
 and that the land was then in the hands of the Albat. and that the land was then
 in the hands of the Albat. and that the land was then in the hands of the Albat.

N.W. 3. } I Moises Brenner of Sec 10 - 27 - 27 W 2^d Town
 20th } make oath and say -

1st That I am the Moises Brenner mentioned in the
 foregoing Affidavit of my father Wm. Brenner and
 that I have been read over to me the foregoing
 Affidavit of said Wm. Brenner and that the
 contents therein contained are true in substance
 and in fact. And I particularly declare that I do
 not believe any of the Settlers in Township 27
 W 2^d - were ever told by any one who could speak
 with any authority, or who knew anything about
 it, or saw land claims, that any one would lose
 his or her claim.

Examined before me at Sec 10 - 27 - 27

W 2^d this 9th day of December 1881.

Having first been read over and
 thoroughly explained to him what
 he was to fully understand the same

} I Jones Lavollette of Township 27 N. 27
27 West of 2^d Meridian former owner of
the same.

1st That I have lived in this neighborhood since
the summer of 1842. The present position of the line
in Township 48 Range 27 West of 2^d Meridian.

2^d That when I purchased W. C. Davis claim to which
I now claim entry. There is 8 1/2 of 2 S. 4. 5. 12 & 13. sec
3 and 6 1/2 S. 4 and 5 of Sec 13. Township 48 Range 27 West
I supposed would acquire the right to make homestead
entry for the said claim. I see now I am mistaken and
he told me he thought so. The neighbors and people
generally who live in this vicinity supposed so. I have
never heard the Government has sold
or given this land or any land in this township to any
person or corporation. Never heard that any of the
settlers in this vicinity had been told by anyone that
they would not obtain their claims. And believe that
eventually entry would be granted in 10 claim claims
fronting on the river.

Even before me at Township

48 Range 27 West of 2^d Meridian this 9th
day of December 1881. Having been well
and interpreted in French to him by Louis
Mariot and he seemed to understand
the same.

142

1. I have been thinking of writing to you for some time but have been so busy that I could not find time to do so. I am now at home and have some time to spare. I hope to hear from you soon.

Handwritten (22)

24 June 1897

1. At the time I entered the land though
 2. it was surveyed I did not know anything about
 3. the sections. I made them a piece fronting on
 4. the river which no one claimed. I had possession
 5. of it. never applied for entry, nor was I told
 6. the land belonged to any one except the Government.
 7. There was no claim had been made by the
 8. Government to any one or Corporation or other
 9. person. Suppose I would claim it
 10. whenever I might apply. No one could tell me I
 11. would not win any land. No one I know
 12. had it except the land of the section in township
 13. 41. Range 27 west of 2nd Meridian. or in any other
 14. locality along the River. none nor anyone
 15. then land.

1. Entered from a Government
 2. agent sent by Elmer Swain concerning the
 3. claim to part of section 34 in township 41
 4. Range 27 west of 2nd Meridian. and in 1877
 5. before my name for it in township 41. R. 27
 6. W. 2nd M. on the 10th day of December 1877.

[Faint, mostly illegible text continues in several lines, appearing to be a continuation of the same narrative or a separate entry.]

"I wished to move to Saint Paul, Minn'ton, so
 "as to have schooling for the children and my
 "own husband to get out. He offered the place and
 "its improvements to me for \$200 in
 "June last"

"At the time we entered it was surveyed
 "desires to settle on the River on account of obtaining
 "fish. We might possibly have obtained the place
 "but the State formerly wished to have them left
 "for fishing on the River. So we concluded to take it the
 "same way. Never applied at Land Office for title.
 "Always thought we would obtain title from
 "but did not expect to obtain title till we came for
 "it. Always suppose the Government would furnish
 "us when we applied for it. Never was told by
 "any one we would not obtain it, nor that it had
 "been sold by the Government to any individual, Cor-
 "poration or Colonization Company"

Extracted from a Statement made and
 sworn to by Elizabeth Richard concerning her
 husband. Antoine Richard's claim to portions of
 Sections 4 & 9, Township 45 Range 27 west of
 the Second Meridian, before J. W. Barnes Esq. at
 Township 45 Range 27 W 2' N. on the 10th day of
 December 1881. being her answers to Questions nos
 40 & 42 of said Statement,

Her Statement is corroborated by the following
 affidavit sworn to by her husband.

N. W. D. }
 20th

I Antoine Richard of Secs 4 and 9 Township
 45 Range 27 W 2', make out and say -
 That I know Elizabeth Richard (my wife) who has made
 oath to the above document, and so far as her
 answers to all the questions except to nos 26, 27 & 32
 know

[The following text is mirrored bleed-through from the reverse side of the page and is therefore illegible.]

Know then the correct in every particular
 not so much in 1882: 27th 1882, 18-1882
 The value of having the 2nd-7. That with regard
 to the 2nd-7. I must emphatically state the correct
 the correct.

Even before me at Brimley.

This day of December in the
 year of our Lord 1882 - having
 been fully and thoroughly
 explained to him

his
 (Sgt) Antoine & Richard
 Mack

(Sgt)

John Pierce

Capt

"Never was told no air sever has
 "That the Government has granted the land to
 "any one or corporation no air sever
 "believe we would not obtain entry. The only
 "thing that I was afraid of was that entry
 "would be granted by the Sections but here on
 "hoping to obtain entry as I now apply for
 "it."

The above is an extract from a statement
 made and sworn to by William Pierce con-
 cerning his claim to portions of Section 4 & 9
 Township 40 Range 27 west of 2d Meridian (being
 his answer to question No 42 of said statement)
 before Com. Pierce Esq. at Township 40 Rge
 27 Vol 22 on the 27th day of December 1882

"~~He~~ was told by anyone that my husband
 " could not obtain entry - or since his death - myself.
 " It was inconvenient for me to go and file my
 " application before Mr. Duck his Secy. - Commissioner.
 " I wanted my son Marguerite to enter for it but
 " he refused, wishing one to have it myself.
 " Always supposed we would get this land in
 " 10 chains fronting on the River. If my husband
 " or myself ever imagined we would lose this
 " land we would have abandoned it long ago
 " and not going on to make improvements."

The above is an extract from a statement
 made and sworn to by Marguerite Boyer concerning her claim to portions of Sections 4 & 9
 Township 45 Range 27 west of the 2^d Meridian:
 (being her answer to question No. 42 of said statement) before John Pence Esq. of Township 45
 Range 27 W-2^d N. on the 9th day of December 1880
 and corroborated by the following Officers.

N.W.D. { I Jean Baptiste Boyer of Section 4 & 9
 of wit { Township 45 Range 27 west of the 2^d Meridian
 make oath and say.
 That I know Marguerite Boyer my mother, who
 has made oath to the above document, and as far
 as her answer to all questions numbers 1, 2, 3, 5, 12, 13,
 16, 17, 18, 20, 21, 26, 27, 28, 30, 32, 33, 34, 40, 42 and 43
 I know them to be correct and believe the answers
 are true and correct in every particular.
 That I claim homestead entry to 8 1/2 L.S. S. 6. 11 & 14
 of Sec. 4 and 8 1/2 of L.S. S. 6 (South of River) of Sec. 9,
 45: 27 W 2^d. Here lived in Township 45 since 1880
 and know whereof I speak. And I most emphatically
 swear.

Exp

Nov. 7. A large *Leptis* of township 45-
row 13 Range 27W of 2^d Meridian found on
oak today.

1st I claim a lot for 3/4 of 3/4 of an Acre of the S 1/4 of Sec. 8 lying South of the River. all in Township 48. 27. W 2.

2^d. Have never lived during the past 5 years in the neighbourhood of this land. lived nearly the whole time in Township 45: 28. W 2^d and first land claim to the above land in 1882. first made improvements on said claim in 1883. have never lived on it.

302 never was told that the Government had granted any portion of Township 46. 27. N 2^o to any person or Corporation, and that entry there could not be obtained: nor did I ever hear any one state he or she had been told the same or anything to that effect. And always thought entry would be paid in so cheap claims. The delay in making entry was to obtain it in such claims fronting on the River one of which I desire as a homestead and the other

other as a presumption.

Sworn before me at Township
45th Range 27 West 2nd Meridian
This 9th day of December 1885
having been first read over
and explained and he seemed
to thoroughly understand

Prince Albert 12th Dec. 1880

Sir

I have the honor to direct your attention to certain matters in connection with allowances made the late Agent of Prince Albert, and the present one also the Crown Timber Agent. These statements have been made by Mr Duck and your records will show whether they are true or otherwise. Without expressing any opinion as to whether Mr Duck received too little, or others receive too much it may be stated that from Mr Duck's standpoint it certainly would appear that he had not been treated as well as the others. He states that prior to this house rent and living has been much higher than at present. That at present through very little doing his business has been assisted and doing the heavy part of their work he was alone. It might be stated here that he states his deficiency arose, during the week in 1882, he had found he was short \$128.00, the price of one section, no doubt the person for which was either lost, or more probably some person made the purchase, and obtained receipts and then stated the payment would be made in a day or two, no more than of was kept by Duck. The result was when returns were made, probably a couple of months afterwards it had slipped his memory. It may be that it has been sent to the without a receipt being kept by him. He states he was once advised he had received \$400 in taxes but afterwards discovered or supposed to be by a mistake occurring there. He states he was able to make his cash receipts agree with his returns by "financing" and would have continued to do so if not for it for the Hon^{ble} Dep^y and himself agrees with that would be selling his house, having

Burgess

Prince Albert 10th Dec. 1880

Sir

I have the pleasure to direct your attention to certain
 matters in connection with the above named matter that
 have come to the notice of Prince Albert. Since the present one
 also the same thing again. These statements
 have been made by the last year's accounts
 will show whether they are true or otherwise.
 I think expressing any opinion as to whether or
 not it is correct or not. As others have done
 I think it may be stated that from the
 statement it is not possible to say that the
 but has been as well as others. The statement
 given to this house and some things have been
 higher than at present. That at present things may
 little thing has been done in connection with
 the house part of the work he was doing at
 he stated that he stated his responsibility
 during the year in 1880. In the former he was
 \$12,000 the price of the stock, as stated in the
 for which was either lost or some property
 from which the house and other accounts are
 and the statement would be made in the
 day when, no house thing was left by the
 the house was when there was some property
 a couple of hundred pounds of the house
 his property. It may be that it has been lost to the
 without a house being left by him. The state has
 was a statement for the house and the house
 but otherwise the house is supposed to be
 a statement occurring there. The state has been
 to make his case as exactly as with his statement
 "forming" was made from statement to the
 was made it from the house and house
 with the house by selling his house, having
 property

737

...for sale of it at \$2500 but only for
...by not being able to make clear, honest
...in issue of future course
...to bring it back with him
...on the same expense. I cannot remember
...his name in case he did not make
...to H. O. there was nothing unusual
...in it. Cases in which he would have been given an opportunity
...to make it good, possibly, by giving satisfactory proof
...of his own confidence in his friends that
...could have been arranged. But assuming his
...as correct, I can't have an object that
...for every year. Since I am sure that the
...of his many friends that his association is not one of his
...in relation to the same which
...for your former association which
...to report forwarded with him
...in the case of the 10th of June
...at the time of office work. Work was allowed
...for months. In August & September 200 each
...that it costs for summer. The other
...is allowed 20.
...with nothing, things done.
...is allowed
...for months & for 3 months last winter 250 for months.
...and been paid for the same
...the 1st of 1887 and has
...of his account.

Wm. L. ...
Wm. L. ...
Wm. L. ...

bargained for sale of it at \$2500⁰⁰ but sale fell through by not being able to make deed, patent not having issued, delay in issue of patent caused by O. E. Hughes failing to bring it back with him from Ottawa as he had agreed. I cannot understand why having discovered his error he did not make a report thereon to H. O. there was nothing criminal in it, and no doubt he would have been given an opportunity to make it good, gradually, by giving satisfactory bonds for same, even if he had confided to his friends the matter could have been arranged. But assuming his explanation as correct, and I have no doubt thereof having known him for many years, and I can corroborate the assertion of his many friends that provocation is not one of his vices, he has been extremely unfortunate in adopting the course which he took & I submit for your favourable consideration whether you can see your way clear to report favourably to the Minister with a view to re-instatement in the service of the Dep^y of Interior.

In the item of Office rent. Duck was allowed \$10⁰⁰ per month. Mr. Taggart & Wagoner \$20⁰⁰ each Feb. Duck 15 cents per annum. The others 30 cents each. Rose Indian Agent is allowed 25.

Office attendance Duck nothing, though alone. Mr. Taggart with little to do and an assistant is allowed \$5⁰⁰ per month & for 3 months last winter \$25 per month.

Duck states he has not been paid for December 1884. Though not released till 2nd Jan^y 1885 and has squared up his accounts.

All of which is respectfully submitted

I have the honor to be

Prince Albert 12th Dec. 1885

Sir

I have the honor to direct your attention to certain matters in connection with the investigation into claims of settlers in the Parish of St. Louis de Langevin by Mr George Duck.

On the 2nd of last July Mr Duck was instructed to make the necessary investigation.

On the 11th Sep^r his report reached your office together an account of his disbursements. That has not been acknowledged, nor has he been paid the amount of said disbursements.

On the 10th of June Mr Duck asked that 100 blank forms for obtaining evidence be sent him, that was for the investigation in St. Louis de Langevin, instructed in that matter by letter of the 24th March last, but which owing to the Huf-Breed and Indian outbreak did not reach him till late in May. This letter has been acknowledged nor the forms sent him.

On the 13th Nov. 1885 your office received a schedule of further claims. This has not been acknowledged.

By reference to your letter Register for No 32847, you will see all action on this matter.

It is sent that the attention of the proper officer in your office may be directed to the original Mr Duck naturally concluded that his communication had not even been acknowledged. As to the disbursement I presume no further delay should now ensue.

I have the honor to be

Sir

your obedient servant.

W. J. Stewart

Prince Albert, 12th Dec. 18

Sir

I have the honor to report through you for the information of the Minister, that the local agent for the Prince Albert District has been advised that it will be necessary to have a re-survey made of Tp. 45. R. 4 W. 3rd before entry can be granted there.

The following are said to be now residing in said township, some of whom it is stated, have been for a sufficient length of time to entitle them to receive patent.

It would I think be advisable to have the necessary re-survey made as soon as it can with advantage be done, and in this connection would suggest Col. Sproul be instructed to do so, he being a resident in the vicinity of the land should be able to do with the least amount of expense to the Department.

This survey will I presume require to be done under instructions from the Minister issued through the Surveyor General.

If this suggestion meets with your approval, please enclose it when forwarding to the Minister.

Sir

I have the honor to return herewith
files of ~~Office~~ Office Nos. 1980 and 2033. enclosed
with C 1319.

If I understand your communications
correctly, it would appear Joseph Parenteau
had made entry for W¹/₂ 12-43-2 W 3rd through
error. What he really intended to enter (not entered)
portions of sec² 20 & 31 + 43-1 W 3rd and you were
owing to his absence from this part of the country
that entry he not granted transfer to any other
person till the 1st June next.

You will therefore please give him again
the necessary notice, sending ^{with the necessary blank form} same to the General Post
Office to the General, unless you are aware that his P.O.
address is elsewhere, in which case direct to it.
requesting him to file evidence of satisfactory ^{if before you} ~~entry~~
will be granted. At the time he files evidence you
might also receive his application with the fees
so that it will not be necessary for him to visit your
Office the second time.

It is very desirable that all such land
claims should be settled with as little delay as
possible. And if before the 1st June next no one else
applies to enter and Parenteau has not done so please
report all action to the Com^{re} for his instructions. Should
an application be made by another you will please
receive any evidence offered and refer same to Com^{re}
for instructions.

You will please send copy of yours 1319 C
and this reply to the Com^{re} so that the records in his
Office may be complete.

Prince Albert 15th Nov 1885

My dear Sir

I have the honor to acknowledge the receipt of your letter of the 11th inst. in relation to the proposed extension of the railway to the north-west. I am sorry to hear that the Government is not prepared to grant the extension at this time. I am, however, confident that the Government will be able to find a way to meet the requirements of the country in the future.

I am, Sir, very respectfully,
 Yours truly,
 J. M. Smith

Prince Albert 15th Dec 1888

Sir

I have the honor to acknowledge an application by Charles Thomas Newman of Prince Albert, to participate in the Half-Breed Grant of Resumptions. His application is an affidavit, corroborated by his father and an English Patron. I will have to furnish you with the necessary official certificate.

My opinion is the claim is genuine except that it may already have been made elsewhere in the same supplementary list.

I have the honor to be

Sir

Yours obedient servant

Sir

So much having been said in the public press and by our public men concerning the causes of the late Half-Breed and Indian Rebellion in the North West last March and it having been stated that among the chief causes are the following:

1. That the Half-Breed settlers did not receive patents for their lands through delays the fault solely of the Government, it being impossible to obtain entry for the lands settled upon.
2. That owing to the system of Surveys these parties were unable to obtain the land they had settled on and improving prior to survey.
3. That they were entitled to the same rights that had been accorded to the Half-Breeds of Manitoba.
4. That the lands on which they had for years resided had been sold over their heads to others, chiefly speculators.
5. That the timber dues have proved very onerous to them, a grave cause of dissatisfaction.
6. That the dues for cutting hay on Government lands was also onerous and was also a cause of dissatisfaction.

H. A. Smith Esquire

Comm'r Dominion Lands
Ministry.

Co.

The the Half breed Outbreak
 has been confined wholly to those living
 on the south branch of the West Virginia
 River above Range 26 N of 2nd E. and
 those in the vicinity of and immediately
 west of that river in the neighborhood
 of Duck Lake. The list enclosed, prepared
 with great care and from the best infor-
 mation, furnished Louis Schmitt, an ever
 intelligent Half breed who has lived
 in the vicinity of Duck Lake since
 1850 Louis Schmidt a Half breed who
 lived from 1851 to 1882 on N 45 1883
 Raphael Meyer a Half breed who during
 the past ten years has lived in the vicinity
 of Barbours and George Deane lately
 Agent of Dominion Lands. These letters
 are my authorities for other information
 than what has been obtained from the
 affidavits of the parties themselves, it
 being necessary to obtain information
 from other sources than the said affida-
 vits, ^{as my} personal some however although
 repeatedly requested to do so was able
 to produce in support of their claimed
 claims, the list enclosed I think every
 Half breed who is a settler or claimant
 to land in that District, and who with
 their families constituted probably
 upwards of 90 per cent of the Half
 breeds who took an active part as
 followers of Neil in the late outbreak,
 the remainder were strangers who had
 no interest in the country or cause.
 But

but were addressed by the speaker and
and things incident to all such
beasts, some few probably that had
because their friends were in it.

During my present visit
here I deemed it advisable to collect all
the information possible as to the
of some service to the Country as the
further, a correct knowledge of these
matters will it is hoped, dispel many
illusions which exist.

During my first visit to
Hawkesbury in August 1833 I visited
Mr. Lawrence then Assistant Agent with
a French Canadian to visit every French
settlement as otherwise in the
District, ascertain what particular Quarter
Section he was on and urge him to make
entry, this he did and further the Roman
Catholic priest urged them in a like
manner, but for some reason or other
they failed to do so, some were deterred
through ignorance thinking that if
they made entry they would have to
pay taxes, others have stated they feared
if they did so, the Government might
call upon them to bear arms, but
against what they do not appear very
clear to know. Like all ignorant people
a few designing, unscrupulous men
have their eye on their ignorance
and prejudice for the advancement of
their own selfish ends. This is particularly
noticeable in the case of those who

settling

The first of these is the fact that the
 world is not a uniform whole, but is
 divided into many parts, each of which
 has its own peculiar character and
 its own laws. This is the case with
 the human mind, which is not a
 uniform whole, but is divided into
 many parts, each of which has its
 own peculiar character and its own
 laws. This is the case with the
 human mind, which is not a uniform
 whole, but is divided into many parts,
 each of which has its own peculiar
 character and its own laws. This is
 the case with the human mind, which
 is not a uniform whole, but is divided
 into many parts, each of which has
 its own peculiar character and its own
 laws. This is the case with the human
 mind, which is not a uniform whole,
 but is divided into many parts, each
 of which has its own peculiar character
 and its own laws. This is the case
 with the human mind, which is not a
 uniform whole, but is divided into many
 parts, each of which has its own peculiar
 character and its own laws. This is the
 case with the human mind, which is
 not a uniform whole, but is divided into
 many parts, each of which has its own
 peculiar character and its own laws.

The second of these is the fact that the
 world is not a uniform whole, but is
 divided into many parts, each of which
 has its own peculiar character and its
 own laws. This is the case with the
 human mind, which is not a uniform
 whole, but is divided into many parts,
 each of which has its own peculiar
 character and its own laws. This is the
 case with the human mind, which is
 not a uniform whole, but is divided into
 many parts, each of which has its own
 peculiar character and its own laws.

settled, subsequent to survey along the
 South Saskatchewan River, and in spite
 of the fact that every Dominion Land
 Act was in force, makes it an illegal
 proceeding to settle on land subsequent
 to survey, without first obtaining entry.
 Therefore, the necessity of such an Act is
 obvious, and further, they have no equivalent
 on odd sections. Meadows Bay Couleaux
 and School lands, knowing that they
 were set apart and not open for homestead
 entry, it is said that they were
 urged to settle in this manner by certain
 parties who for some reason or another
 thought it advisable to concentrate ~~settlements~~
 along the banks of the river as much
 as possible. While on this point it might
 be well to direct your attention to the
 fact that the contention has always
 been for ten chain lots and many have
 and all would if the land were
 available, prefer claims of twenty chains
 further many of the landowners in the area
 must have prepared claims or entered
 by Quarter Sections there by their own
 acts protesting against their ten chain
 contention.

Another and the strongest
 point is that except in the case of the
 claimants to those portions of sections
 19, 20, 21, lying east of the Saskatchewan
 in T. 45-S. 11-S. every other section corner
 practically claim what they desired,
 by taking legal subdivisions as portions
 thereof.

The first of these is the fact that the
 system of the world is a system of
 the world. The second is the fact that
 the world is a system of the world.
 The third is the fact that the world
 is a system of the world. The fourth
 is the fact that the world is a system
 of the world. The fifth is the fact
 that the world is a system of the
 world. The sixth is the fact that the

decision on the promise made by the
 Minister of the Interior to the Indians
 of the St. Lawrence and St. John's
 where several had settled together prior
 to 1800, and whose holdings could
 not be made to conform to the sectional
 system of survey in such cases the
 former lot system of survey would
 be adopted. This had been granted to
 the settlers on the south side of the river
 in the river lot survey of the Parish
 of St. Lawrence, and considerable delay
 in granting entries occurred owing to
 the "Unions" Indian Reserve covering so
 close to the river that many of the
 lots could not have their two miles.
 The settlers insisted on having their
 two miles, the consent of the Indians
 had first to be obtained and the neces-
 sary change in the survey effected
 and the Indians refused so that it was
 not till August 1832 that the office was
 in a position to grant entries the necessary
 steps were taken to give the survey on
 the St. Lawrence, and all the parties notified
 to come forward and make entries.

Along the south shore of the
 river outside the Parish of St. Lawrence
 prior to 1800 there were only 25
 families settled and they extended
 along 60 miles of the banks of the
 river (counting both banks) that the
 expense of a survey into river lots
 of that area should be made to
 suit.

quit that number of settlers is absurd. ~~the land is not so large that the settlers could not obtain water by a quarter or half quarter section which would cover all their improvements without interfering with the claims of others. the list show who these so were.~~

In March 1844 Superintendent Mr. George Nye, the head of the Bureau of St. Laurent having just been received, the change in the names of the Indian Reserves however not being effected until the following August, he proceeded to that parish to take evidence in support of those claims there, and all others above and below the same. he engaged the services of the Rev. Mr. Nadeau to assist him in explaining to these people the object of his visit. he obtained applications from nearly all the claimants, from the upper part of the settlement down to the south limit of H. no 1 H. no 2. In this township owing to a bend in the river there were several disputed claims which at this time could only be arranged by making a traverse of the improvements which is now being done. At the time of survey these claimants had furnished the Surveyors the information necessary to adjust these claims they could have been settled as soon as the township was opened for settlement but since then through carelessness.

[illegible]

[The page contains faint, illegible handwriting, likely bleed-through from the reverse side.]

transfers and settlement by other
 means, it had become very complicated.
 And at any time these parties wanted
 and furnished the Department, by
 means of survey, the information
 necessary, the whole matter might
 have been arranged and entirely granted
 long since. Believing that having the matter
 had taken up their claims in such a
 way that with the information on
 the Township map, the river keeping
 across the entire lands claimed in
 an almost due easterly course, it was
 not deemed necessary to visit them
 on the ground. To adjust the claims
 these parties it was thought would be
 able to state on application at the
 Office what lands were claimed by
 them. Many although notified to make
 their applications for entry refused.
 In the case, in some cases perhaps by turning
 their houses when visited for that
 purpose and acted in this manner
 although urged by their priests and
 others to do as requested.

The information and
 evidence obtained by Mr. Deekreacher
 Winnipeg in June shortly after I had
 started for Edmonton and returning
 to investigate and adjust the square
 claims in those localities upon pre-
 dicted not deemed it advisable it
 should not be acted upon by the
 Land Board in any adverse and on
 any

761

inquiries to Humphrey late in the autumn they were taken up and the necessary recommendation made and between the 27th February and the 6th March 1855, all those claimants were notified to come forward and make entry, those who were entitled to patent having resided on their claims three years were informed that upon their applying for patent the same would issue without delay. Only one entry has since been made, by the Rev. P. H. H. on behalf of the Corporation of New Orleans.

The conveyances these lists have been divided into three subdivisions and I trust that the information contained and the remarks thereon will be found sufficiently full and explicit and undivided as far as possible. Those who settled on the west bank of the Charlotte River in the neighborhood of Duck Lake and since Sept 1854 have had no objection to make entry for their lands and apply for their patents so soon as the necessary three years residence had been completed so that the question of surveys or patents does not affect any in this list. There are in this list 75 residents or claimants. Of these six have settled prior to the survey having been made on

on the ground 2 of whom have not yet made entry. Prior to the land being open for entry and subsequent to the field work being done, the records of the Prince Albert Office show that four other parties had squatted on the land, none of whom have yet made entry though for four years they could have done so any day they that they had applied.

In 1880 entry was made by 2 persons

| | |
|------|----|
| 1880 | 20 |
| 1881 | 20 |
| 1882 | 8 |
| 1883 | 8 |

26 claimants leaving 20 who have not yet made entry.

Of those who effected entry 14 were natives of England, Switzer, and the Provinces of Ontario or Quebec.

3 Claimants have land elsewhere either entered as a Home, stand or claimed by virtue of squating or having been squatted upon by others, and purchased by them therefrom.

I have made application for patents, 10 patents have issued, one not being approved on account of insufficient improvements.

List of Claimants to land 2. along both banks of the Saskatchewan River south of Township 45 & N 3rd.

The line is drawn south of this Township because in it the river makes a bend of nearly 90° to the east above the bend the course of the river

river is very nearly due north and
 below the bend nearly due east. As has
 been already explained, this enabled the
 claims to be laid out with a width
 of 10 chains fronting on the river and
 all the claims by legal subdivisions
 or fractional or fractional portions
 thereof, without requiring a survey
 on the ground. This list includes the
 claims of 138 settlers of whom many
 on lots in the Parish of St. Lawrence
 which ^{parish} contains 70 lots of which
 survey was completed in 1877, but
 owing to the dispute between the settlers
 and the "Crows" Indians about the
 location of the Indian Reserve, as ^{was}
 already mentioned, it was not until
 1884 that entry could be granted there.
 When the plan was sent to the Registrar
 in March 1884, so much time ^{had}
 elapsed after the survey had been
 done on the ground, it was feared
 complications might arise, and so
 the result proved disputes over sections
 of the claims had arisen, ^{the Registrar} that
 date verbally instructed the Surveyor
 not to grant entry until he had
 gone through the entire parish, and
 obtained the evidence necessary to
 adjust such disputes, so much time
 was occupied in obtaining the
 requisite evidence as has been explained.
 Having left for Edmonton near
 Rutledge, that the parties were not
 satisfied

notified till late in February or early in March, none later than the 1st of March to come forward and make entry out of the 100 only one has done so up to this date.

Of the 89 remaining claimants 15 had settled prior to survey 8 of whom had made entry according to sectional survey and are as follows:

| | | |
|---------------------|-------------------------|---------------|
| Joseph Huntington | 20 th Feb 82 | Patent issued |
| Sedare Drummond Sr. | 16 th Feb 82 | " " |
| Sedare Drummond Sr. | 17 th Feb 82 | " " |
| Abraham Blinger | 2 nd Mar 82 | " " |
| Piero Garipis | 23 rd Feb 82 | " " |
| Richd. Drummond | 26 th Feb 82 | " " |
| Wm. P. Fisher | 22 nd Mar 82 | " " |
| Gabriel Drummond | 1 st Mar 82 | " " |

Sedare Drummond Senior was the father of Gabriel Drummond (Rev. Commander in Chief) and of Sedare Drummond Sr.

In what is known as the Second Settlement near Fish Creek 12 had made entry according to the sectional survey as follows:

| | |
|----------------|-------------------------|
| Calvin Stewart | 11 th Mar 82 |
| Piero Stewart | 10 |
| Calvin Stewart | 9 |
| Samuel Henry | 12 th Mar |
| Napoleon Henry | 15 th Mar |
| Roger Gaudet | " |
| William Siller | 16 |
| Piero Siller | 26 |

Stewart & Siller

761

Samuel Lloyd
 David Toward
 Joseph Toward
 Elgar Toward

These are not exactly on the river but in the vicinity.

See this list as had resided on their lands three years.

The remainder of the settlers subsequent to survey without obtaining entry and insisted on having the survey changed to suit their ideas.

Out of the 133 claimants 36 failed to furnish any evidence as to the nature of their claim & had made entry which with the addition of the 12 on the Toward settlement made 20 in all. ^{of which 12 had} those entitled to patents could have obtained them on application, leaving 72 claimants who had failed evidence of population in the spring of 1832 and 8 who had made application but who had made no settlement of the land.

In this list those who failed evidence settled in the following years.

| within the Parish of St. John | Settled |
|-------------------------------|---------|
| in 1842 | 2 |
| 1843 | 3 |
| 1844 | 2 |
| 1845 | 0 |
| 1846 | 0 |

1847

[Faint, mostly illegible handwritten text in cursive script, likely bleed-through from the reverse side of the page. The text appears to be organized into several paragraphs and possibly a list or table at the bottom.]

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter. I have the honor to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
 Yours, &c.
 J. B. [Signature]

| Within the Parish Survey | | Outside |
|--------------------------|------|---------|
| 1874 | 3 | 1 |
| 1875 | 1 | 2 |
| 1876 | 2 | 2 |
| 1877 | 4 | 0 |
| 1878 | 4 | 6 |
| 1879 | 7 | 16 |
| 1880 | 8 | 7 |
| 1881 | 2/34 | 0/34 |

It will thus be seen that in the whole list 34 had made a year on the land, if there were any more it is wholly their own fault that the Department was not seized of sufficient information to know whether they were entitled to patents or not, 20 of these were within the river lot survey and the delay in according entry thereto has already been explained, the remaining 14 could ^{long ago have} had entry if they wished.

List D.

Claimants to land along the South bank and in the vicinity of the South Saskatchewan River below the South limit of Township 45 N. R 32 which list includes 45 claimants in all.

Of these patent has issued to one, Michael Caumey

9 of these have had opportunity to make entry since September 1881, but only one has done so.

Mr. Michael Conroy, 4 of them have
 presented claims, two through
 purchase the other two through
 their own actions, but these come
 within the disputed portion in
 T^h 45 & 46 already alluded to.
 entry could not be given on
 account of these parties not having
 furnished the information required
 to adjust their disputes, of the
 remaining 32. four made entry in
 1883 shortly after the land was
 open for entry. two made entry in
 1885 the remainder have not yet
 applied for entry. but have furnished
 this month the evidence necessary to
 enable the Department to know what
 lands were claimed by them.

I thought it well to
 mention that the part of T^h 45-26
 & 2 lying south of the Sacramento
 River though not surveyed till 1862
 the west limit was run in 1844 and
 the part north of the river surveyed
 in 1848 so that any one settling
 on the ^{the present} banks of this River which was open for settlement
 since those dates could readily
 ascertain upon what lands he was
 situated.

13 of the 45 claimants
 were on the land prior to survey
 or at least the land being open for
 entry and could have obtained
 entry at any time on application.
 I settled on the land in 1842.

[illegible]

| | | |
|----|--------------------|------|
| 1 | settled on land in | 1849 |
| 2 | " " " " | 1880 |
| 6 | " " " " | 1882 |
| 12 | " " " " | 1883 |
| 3 | " " " " | 1884 |
| 4 | " " " " | 1885 |

13 have not yet begun residence but are merely claimants, 6 of the above had made Homestead entry, so that in March 1885 there were only 7 who by length of residence were entitled to patents and who could have obtained them if they had conformed to survey but of whom 4 were disputed claims as has already been mentioned.

Out of the 258 claimants included in the 3 lists, 40 had resided on their claims three years 20 could not obtain entry on account of the disputed boundaries between the Parish of St. Lambert and "Coe Uronno" Indian Reserve. Therefore explained 4 were the disputed claims in the 45-1137 also explained and the remaining 16 could have effected entry and made application if they had so desired. The 20 claimants in the Parish of St. Lambert were notified not later than the 6th March 1885 that they could make entry and obtain patents. But going back to say 6th March 1884 and assuming that the delay in granting entries

in St Laurent Parish was wholly the fault of the Government at that date so were entitled to patent so that out of the 258 claimants less than 4 percent of them were entitled to patent.

Out of the 258 claimants
 148 are Kanitoba Half Breeds
 35 " North West Half Breeds
 23 " doubtful whether Kanitoba.
 North West or American Affinity
 52 Claimants other than Half Breeds
 The doubtful ones when correctly classified will not probably add five to the list of North West Half Breeds, so that of the whole number 15% only were North West Half Breeds, granting the whole number of doubtful ones as North West Half Breeds, then of the whole number 22% only were North West Half Breeds.

Now coming to Reil's Camouillons and leaders in the agitation other than Reil himself. Gabriel Dumont. Camouillon in Chief. a North West Half Breed. had made entry for his land on the 18th 1883 and if entitled to patent could have obtained it.

Joseph Delorme second in command a Kanitoba Half Breed first made improvements on his claim in 1882 and began residence the same year the total value of the improvements on.

The Government of the United States
 has the honor to acknowledge the receipt
 of your letter of the 10th inst. in
 relation to the above mentioned
 matter.

The first of these is the
 fact that the population
 of the world is increasing
 at a rapid rate. This is
 due to a number of factors,
 including improved medical
 care, better nutrition, and
 a longer life expectancy.
 The second factor is the
 increasing demand for
 resources, particularly
 food and water. This is
 due to the fact that as the
 population grows, the demand
 for these resources also grows.
 The third factor is the
 increasing demand for
 energy. This is due to the
 fact that as the population
 grows, the demand for energy
 also grows. This is particularly
 true in the case of the
 developing countries, where
 the demand for energy is
 growing very rapidly.

[illegible]

on his claim is \$400⁰⁰, as he settled subsequent to survey he could have obtained entry had he conformed to the survey as made.

Mitch Garret a native of the Parish of Quebec, first began residence on a claim purchased from Charles John in 1882. The improvements were valued by him at \$500⁰⁰ and as he settled subsequent to survey he could have obtained entry had he conformed to survey.

Raphail Roucher a Manitoba Half-breed first came to the Saskatchewan in 1862 never applied for entry.

James Quillett a Manitoba Half-breed refused to appear to give evidence so I cannot state as to his land claims except that prior to the outbreak he was a resident on a river lot in the Parish of St. Laurent.

Rapitob Parantian a Manitoba Half-breed has been living on his claim a river lot in the Parish of St. Laurent since 1842.

Pierre Parantian Sr. a Manitoba Half-breed first settled on a river lot in the Parish of St. Laurent in 1852.

Emmanuel Champagne a French Metis Half-breed first settled on the land claimed by him in 1844 a river lot in the Parish of St. Laurent.

Armand Delorme a Manitoba Half-breed

David first settled on a piece of land in the Parish of St. Lawrence in 1835. He was a settler to a New York. David first settled on his claim in 1845 and could have made entry and obtained patent if he had so desired.

Joseph Sandalle a Hamilton Half-breed first settled on the land claimed by him in 1852 and could have made entry had he conferred to survey as made prior to his settlement.

Henry Henry a Hamilton Half-breed first settled on his claim in 1852 and came to the Saskatchewan in the same year could have made entry had he conferred to the survey as made.

Francis Addicks a Hamilton Half-breed settled not prior to 1852 or earlier from giving evidence could have obtained entry had he conferred to survey made at the time of his settlement.

David Brown a Hamilton Half-breed had a homestead entry in 1852. H.B. made entry on the 10th March 1852 first came to the Saskatchewan in 1852.

Calisto Brown a Hamilton Half-breed had a homestead entry in 1852. H.B. made entry 3 March 1852 first came to the Saskatchewan in 1852.

[The page contains approximately 20 lines of handwritten text in cursive script, which is extremely faded and illegible due to age and ink bleed-through from the reverse side.]

William Joseph a Kawitaba Half
 been settled on land subsequent
 to survey. But it being a
 Section and he knowing
 it was such, could not obtain
 entry, decided that if he given an
 entry lot though from sales
 he has made to others, his claim
 would have had at least no claim
 advantage on the river.

Uwaddu Fisher a Kawitaba Half
 been made a Homestead entry
 and has been told that he could
 have his patent anytime he
 applied for it.

William Joseph a Kawitaba Half
 been had claims on the river one
 which he sold to Wright Reed
 1878, this claim according to the
 description would also cover parts
 of the claims of several other
 persons. Another claim was also
 sold by him to J. L. Agnew for
 \$1000.00 in 1882 which is described
 as the S 12-14-15-16-17. He then went
 and squatted on land in about
 1882-24 N 2. but neither himself
 or family have ever preferred any
 evidence in support of same,
 though knowing it was surveyed.
 William John a Kawitaba Half
 been a member of Agriculture
 in Kawitaba he left Kawitaba
 in 1878 or 79 and settled at Buchanan
 Hills.

761

Hills after residing there for some time
he sold the claim upon which he
had been living, and in 1852 moved
on a claim in 42-1-113. He lived
a year on this land and then sold
his claim to Philip Gaurat, the
Secretary of Rail's Council, and
in 1853 squatted on Sec 11-45-28
1/2nd a school section, and then surveyed.
Nichol Dumas a Manitoba Half-breed
first came to the Country in 1880
settling on Sec 11-45-28 1/2nd and
sold his claim to Thomas McKay
in 1882 never applied for entry.

cousin of Rail, and after Rail's death
he sent his delegation
to persons to investigate
and inquire Rail
if ever had been
the Government on
his application.

Nichol Dumas a Manitoba Half-
breed first came to the District
in 1848. had two claims, one lot 26
St. Laurent Parish and the other
on the west side of the river.
nearly opposite, he might have
made entry for the land on the
west side of the river which
was surveyed at the date of
his settlement he lived on the
claim for some time and in 1852
removed to lot 26 St. Laurent upon
which he continued to reside
up to the time of the outbreak.

of the 21st November
which includes all those provisions
in the movement and investigation
of the outbreak.

and 18 were Manitoba Half Breeds who had received their lands under the Manitoba Act in Manitoba as either Heads of families or as Minors.

H. had obtained entry and could have obtained patents if entitled thereto.

It settled subsequent to survey and could have obtained entry at the date of settlement had they conformed to the survey as then made.

I were settled on river lots in St. Laurent Parish and early in March 1885 were notified to come forward and make entry and obtain patents if entitled thereto. ^{assumed} _{he provided them shortly} ^{here taken in May 1886 that independent}

1. Philip Genipio had ~~ready~~ disposed of 2 land claims one for the consideration of 5000 and had afterwards squatted on surveyed lands without applying for entry.

It may have been stated that the location of the Land Office at Prince Albert was inconvenient to these people. It has been stated that objection to making entry was to some considerable extent caused by certain parties who thought that ultimately the Government would by such a course be compelled to establish

761

establish a Land Agency at Ratcho
and one of themselves constituted
agent, all the Halfbreeds in the Prince
Albert District freight moccasins.
The Head quarters for that is at Prince
Albert, where they deliver the freight
and are paid and there is scarcely
a half breed male adult in the District
who does not at least once, and many
of them several times, ^{in every year} visit Prince Albert.

It has been stated that
if the recommendations of the North
West Council of 1878 had been carried
out there would have been no half-
breed outbreak, an examination
thereof and comparison with the
Dominion Lands Act will show that
the latter was very much more
liberal than the former. As to the
lands held at the time of the
Transfer the Dominion Lands Act
makes liberal provisions therefore
that however did not enter into the
question in this case, as not one
preferred claim to land by reason of
peaceable possession thereof at that
date, the earliest settlement being
in 1872. Further the North West
Council seemed to desire patents
should not issue to Halfbreeds
for ten years after allotment and
at least seven years after settlement.
presumably the idea being that by
that time they would be so securely
anchored

That time the world is a scene
 of beauty and of joy and light
 for the sun is after all the best
 of all the world's lights and
 the world is not so dark and
 gloomy as we sometimes think
 it. The world is a scene of
 beauty and of joy and light
 for the sun is after all the best
 of all the world's lights and
 the world is not so dark and
 gloomy as we sometimes think
 it.

another to this class that they
 would remain. The great
 law has been established by our
 country's constitution for the purpose
 of this, the one purpose that has
 been stated was the cause of the
 people.

These people are determined
 to keep out and within their class and
 to stand or enter or remain to
 obtaining a recommendation for
 talent and no amount of experience
 seems to make them understand
 such transfer as is required.
 To be fair to the people
 injured people who are by constitution
 then, when were they are not in touch,
 and of course to the state of the
 government to the amount of the
 as far as possible. In fact, most of the
 that have in the past, on the one
 side of the river, including on the
 if only the number of things that
 are abundant (the 1848/49 was
 the only one in 1848 that was abundant
 that year but with all the things
 want and have into the country
 and want abundance and plenty
 native the world has not at that
 time (1848) but much better. The
 that were of consequence to both
 the river too. There has been some
 out of the river that has been
 - but, the river from the
 reference.

anchored to their claims that they would remain. This could ~~have~~ have been accomplished by not accepting applications for that length of time, the very ground these parties now state was the cause of the trouble.

These people are frequently buying and selling their claims prior to survey or entry or previous to obtaining a recommendation for patent and no amount of explanation seems to make them understand such transfers are illegal.

As to River lots the greatest injury possible is done by granting them, when more than one mile in length, and it should be the duty of the Government to discourage the practice as far as possible. In 1877 most of the best farmers in ^{mine} Eldorado, on the east side of the river, informed me that if when the Townships of Springfield and Sceneryside (Tos. N. R. 4 & 5 E.) were surveyed in 1877 they had abandoned their river lots with all their improvements and gone into those Townships and made Homestead and preemption entries they would have ~~been~~ at that time (1877) been much better off than they were by continuing to hold their river lots. Some few did remove and by the manner they had succeeded, the remainder drew the inference.

the inference mentioned
 that Question

The total amount collected as timber dues from all the settlers embraced in these three lists since the establishment of a Crown Timber Office amounts to \$80²⁵ which divided by 258, the number of claimants amounts to 31 cents each for two years or at the rate of 15½ cents each year for each settler.

Of that amount \$55²⁵ was paid by four settlers ^{for sections of woods & crops} for timber dues leaving \$25⁰⁰ which has been paid by the remaining 254 settlers as office fees on homestead permits known as free permits, 10 cents for each settler for two years or at the rate of 5 cents per settler per annum.

Hay Permits

As you are aware the object of hay permits was ^{to} protect the small settler against the large stockman or speculator, and it has always been optional with settlers whether they took out permits or not, if they choose they could continue the practice of the past in cutting hay anywhere, this has been explained to these people, they have never been asked to take out any permits or pay any dues, the hay being plenty and no large stockman or speculators.

speculations to interfere with them,
the law for the Town of Prince
Albert or any large settlement in
that District being obtained else-
where than in the neighborhood
of these settlers.

This report shows.

That of all the 258 settlers at the time 1st
of the outbreak not one could not
obtain patents for his lands through
the action or ^{rather} inaction of the
Government and even in March 1884
there were only 10 cases in which
delay was caused by the conflicting
surveys of the "Annoy" Reserve and
the St. Laurent Parish.

That not one man of the 258 or any 2nd.
one else who ever resided in the
District ever lost one inch of land
through the system of survey.

That 85% of the 258 had no rights 3rd
as far West as halfbreeds, of the 85%.
those who were halfbreeds had
participated in all the rights accord-
ed those people in the Province of
Manitoba.

That not one settler in the District 4th
had an acre of land sold over
his head to which he had any
claim, or had even prejud one.

That the Timber dues were not 5th
onous amounting only to
five cents per settler per annum.

That the hay permit question 6th.
never

never affected than in the remotest
degree.

All of which is respectfully
submitted.

Have the honor to be
Sir

Your obedient servant

Wm. Sears

Suplt.

181

never appeared here in the market
 before
 and which is now
 sold at a low price
 for the purpose of
 making a profit

Yours truly

J. H. P.

— Prince Albert, 17th Dec 8-

Sir
 before morning Sarah Whiffen
 Mrs Peter Hornie, called on me today
 stating in Oct. last she forwarded
 you a set of those blank forms
 properly filled out regarding her
 claim to participate in the
 grant to the Half Breeds in the
 North West, and that so far she
 has heard nothing in reference
 to same and if evidence is not sufficient
 would like to be advised of what
 further is necessary. Her P. O. address
 is Prince Albert

I have the honor to be,
 Sir,

Your obedient servant
 W. Pearce
 Sup^t

J. W. Smith Esq
 Com^r - Horse Lands
 Winnipeg

is
the other thing, called on the last
starting at 10. But the furniture
you & the of these about four
hundred pieces are regarding the
main of the furniture in the
front to the top of the in the
back that, and that is for the
the house and in reference
to some case of furniture is not sufficient
more to be the furniture of the
front is necessary. The D. O. section
is given about
I have the same to be

is
for the furniture

Prince Albert 12th Dec. 1885.

903

I have the honor to inform you that by invitation I met the committee of the Agricultural Society ^{happily} ^{enable me} to discuss matters with them. I told them I was very glad to be present and wished them to express their views freely, that my object in accepting their invitation was to obtain their views on the matter, and on that I proposed writing you a report, that they would not be committed in the slightest by anything I might report. I did this so that they would express themselves freely and I might be able to glean something that would enable you to make a proposition which would ^{go} as far as possible ~~their~~ ^{their} wishes fully. If ^{to that extent} not, as far as the public interests would justify.

The account asked for is.

| | Bush. | | lbs. |
|--|----------------------|--------|--------|
| Wheat 6638 | at 60 lbs per bush = | 398280 | |
| Oats 6842 | " 34 " " " = | 232628 | |
| Barley 4520 | " 48 " " " = | 216960 | |
| Placing the stacking at 1 st per bush say = | | 18000 | |
| Total | | = | 865868 |

Adding the freight at 4^{cts} per lb. which is probably about what it will cost. \$34634.72

That probably there are not more than ten persons in the District who could go for freight unless they are paid for same, having no feed either for themselves or teams.

That the actual disbursements for ^{when freight} ~~freight~~ expenses and horse feed, during the winter would be 2^{cts} per pound

Hon. Thos. White
Minister of Interior
Ottawa

Prince Albert 12 Dec 1887

266

Confidential

I have the honor to inform you that
 by invitation I sent the Commissioner of the
 Agricultural Society, ^{Mr. [illegible]} ~~to~~ to
 confer with them. I later than I was very glad
 to be present and indeed have to confess that
 seems freely that my object in accepting
 their invitation was to obtain their views on
 the matter, and on that I have no intention
 of a report, but that they would not be committed
 in the slightest by anything I might report
 I like this so that they would express themselves
 freely and I might be able to glean something
 that would enable you to make a proposition
 which would ^{be} as far as possible ~~least~~ ^{most} favorable
 might meet their wishes fully, off and on for
 as the public interests would justify.

The current value for is
 Wheat 28 28 at 60 the bush = 398 280
 Oats 28 45 " " " 34 " = 232 228
 Barley 42 20 " " " 48 " = 216 960
 Flaxseed the bushing at 1 1/2 for bush say = 18000
 = 862868

Butting the freight at 4 1/2 for 10. which is
 reduced about what it will cost. \$34 6 34. 22
 It is probably that we are not sure that
 the persons in the district who would go for freight
 unless they are paid for same, having no
 interest for themselves or others.

That the actual expenditures for
 raising expenses are less than
 the freight would be 2 1/2 for bush

Hon. J. H. White
 Minister of Finance
 Ottawa

whether if the Govt. furnishes the grain at such a price
 and allow it for the freightage would that
 meet their views. It will not. They state that
 over year ago it was arranged to furnish them
 local grain, and except our own half barrels
 for local purposes, that since then they have
 suffered large losses. They say that some business
 men, who to the west of us, have through
 our fault of having that consideration the proportion
 a better return for our business would be for
 that state that under the arrangement the Govt.
 will not lose money, the wheat can be purchased
 from for the better life. The only one being
 can be satisfied as have fear for the Government
 to see. But on their side the Govt. has been
 paying 50¢ more for our former freight. That
 this freightage if paid for will allow to change
 about the relief absolutely required by the states.
 that the Boarding could be sent down the river
 as that boat was going immediately after
 the we got out and over the settlement in time
 for delivery.

This amount required is not over what
 is absolutely required and it is stated all will be
 paid in. Now for some time asked for money
 than that required. It is also true that some fear
 some more requisition will be in a position to
 obtain it for themselves without any assistance; but
 probably only a small percentage of the whole.
 that and later than the 17th of March
 can be dependent on for freightage by ships.
 therefore it is necessary arrangements should be made
 as soon as possible.

They asked us to send down to commission
 from here to purchase the grain. I think it would be
 well

asked if the Gov^t furnish the grain at South-By-Appler
and allow ^{or pay} 2 cts per lb. for freight they would meet
their views. It did not. They stated that
one year ago it was arranged to furnish them
seed grain, and except one and one half bushels
for each furnished, that since then they have
suffered large losses through ^{the} blight and Indian
outbreak, which to the vast majority was through
no fault of theirs, they considered the proposition
a bushel returned for each furnished would be fair.
They state that under that arrangement the Gov^t
will not lose much, the wheat can be ground into
flour for the Indian Dep^t the oats and barley
can be utilized as horse feed for the Mounted
Police. That on those articles the Gov^t has been
paying 5 cts and upwards per pound freight. That
this freight if paid for will afford to a large
extent the relief absolutely required by the settlers.
That the barley could be sent down the river
on flat boats next Spring immediately after
the ice goes out and reach the settlement in time
for seeding.

This amount requested is not more than
is absolutely required and it is stated all will be
put in. Some few may have asked for more
than they require. It is also true that some few
have made requisitions who are in a position to
obtain it for themselves without any assistance; but
probably only a small percentage of the whole.

That not later than the 17th of March
can be depended on for freight by sleighs.
Therefore it is necessary arrangements should be concluded
as soon as possible.

They asked one or more should be commissions
from here to purchase the seed. I think it would be
well

766

will to accend to this, to the extent of the Gov^t paying the actual expenses of the party, one should be enough, to select the seed. The Gov^t however to do the purchasing.

Many would sooner this grain was paid for in the matter of constructing a road from this point to Humboldt or vicinity, and state they would be willing to pay at the rate of full cost for grain if that were done. Unless the grain were paid for before given I fear a great deal of trouble and annoyance will be experienced in collecting it.

I think the best parties to handle the grain here would be some one nominated by the Agricultural Society here and hold him responsible.

Some one will require to be stationed at South In Appelle to deliver it ^{to freighters}, and he should be enabled to advance on account of the freight say one half to each individual. These parties will require to purchase feed for themselves and teams, also certain supplies for their families which can be procured there more cheaply than here. Or perhaps the better way would be to furnish the man in charge here and let him make the advances and be responsible for same. The advance could then be made here and the freighters could purchase what they required where they chose; but experience would lead me to think that even if an advance to pay one half the freight was made here it would be found money before leaving In. Appelle would be short of the funds necessary to bring them home.

about of the funds necessary to bring them
many before leaving the office would be
freight was small but it would be for me
that even if an advance to pay one half the
cost; but reference would have to be made
to the President what they require when they
could then be made and the President
be responsible for them, the advance
and the President the reference case
forward the money to him in exchange for
the President the latter may want to be
forwarded there have already been
supplies for their families who are
for themselves and others, also certain
these parties will require to purchase from
of the President they are half to each individual
should be directed to advance an account
at least be applied to obtain it, there be
there are will require to be the
their responsibility.

by the representative society have been
the Government would be done on Government
I think the best parties to handle
be experienced in collecting it.
a great deal of trouble and expense will
the grain were paid for before given to them
full cost for grain if that were done. When
they would be willing to pay at the rate of
this point to the point or vicinity, some state
grain for in the matter of transporting a great part
they would have the grain was

the Government to do the purchasing.
we should be enough, to select the seeds. The
but keeping the selected expenses of the party
will be secured to them, to the extent of the

house. It might perhaps be arranged that
 2^{cts} per pound on the grain agreed to be brought
 in might be advanced here. Another 1^{cent} at
 South Br. Appelle when grain is landed on, or 2^{cts}
 in all on the amount actually landed.

As to Security.

The only practical security I can see
 is to make these advances a lien against
 the homestead. Those who have not yet
 had entries to make it a lien against the
 land. If not eventually entered by the person
 or his heirs, this to be a charge against the
 land, and to be paid before entry be granted
 to anyone else. Those who have entry to
 pay same before application for ^{patent} entry can be
~~admitted~~ entertained and in case of cancellation
 to be made a charge against the land, requires
 it to be paid before entry be granted. Those who
 have obtained their patents to give security as
 a 1st mortgage, if that cannot be obtained then
 approved joint notes. This will I imagine require
 an "O in C" perhaps a special Act. Many of the
 French Half Breeds on the South Branch have not
 yet, nor will for some time make entry, though
 this is not 2/3 who cannot do so now, and in
 two months not 1/3 who cannot. They have been
 repeatedly informed of that. I have told everyone
 I have met & requested them to advise their neighbours;
 but I fear very few will do so. Many state as reasons,
 not having the money to pay the entry fees.

Some 376 have already sent in
 their names with the amounts required
 and probably there will be in all by second
 time 450. This would give on an
 average 20 ac to each, which I think
 is

766

is rather large. Many of the half breeds in this country have a very vague idea of the size of an acre, and also the quantity contained in a bushel. It would be folly to have the seed wasted and I would submit for your consideration whether it might not be advisable to detail one of the homestead inspectors to visit each claimant, form an estimate of the ground prepared or what can be prepared for seeding next Spring and allot the grain on his report.

In some cases it would possibly be advisable that the grain be not granted till the ground is prepared. I know that in Manitoba in the winter of 75-76 grain was obtained as seed, which was ground into flour and in some cases fed to stock, the same thing might occur here. So far as grinding it into flour that could easily be prevented, ^{as there are only three or four} flour mills in the district.

In the mean time say two thirds or at least one half of the grain ^{applied for} could be purchased and arrangements for freight in the same completed, and when this information is obtained from the Homestead Inspector, balances required provided and forwarded. He should make reports weekly.

There are about 1000 bushels asked for by some five or six parties who it might not be asking or requiring too much from them to allow freight in all

is better than. Many of the best men
in the country have a very deep
idea of the life of the soul. and
also the quantity of work done in a
month. It would be folly to turn
the best workers and I would advise
for your consideration whether it might
not be desirable to take one of the
most important subjects to visit each
element, for an estimate of the
general progress or what can be
expected for teaching and giving out
about the given or in report.
It seems even it would be better
to estimate that the given is not given
the the progress is progress. I know that
in education in the matter of 75-76 given
now the time is less, which was given
into four cases in some cases free to
state, the same thing might occur in
so far as teaching is into four that
could easily be furnished. as there is four
four units in the district.
In the mean time they are to be
as at least one half of the given could
be furnished and arrangements for
teaching in the same completed, and
when this information is obtained
the Government Inspector, however
regiment progress and formation. It
should make reports made.
There are about 1000 books
added for by four fine or six hundred
it is right. but in getting to giving
the answer from them to other people in
all

all or a large portion of the same
 at their own expense. or only grant
 them so much say the surplus
 guarantee the balance. or 50% over each
 surplus, leaving them to secure the
 balance themselves.
 This is what you were confident
 was to be done by you in your letter
 but. and certainly what I
 could gather with my comments
 there.
 I have the honor to be

Sir

Yours obedient servant

all or a large portion of the same
at their own expense. or only grant
them as relief say the average
granted the balance. or 50% over such
average, leaving them to provide the
balance themselves.

This is sent you under confidential
cover to be used by you as you deem
best. and contains what information
I could gather with my comments
thereon.

I have the honor to be

Sir

Yours obedient servant

23rd Decr 8.

Dear Mr. Hall

Have Schedules of all claims in the Battleford district been sent Agent with instructions, and duplicates of same here? as the recommendations have in some cases been changed since they were copied in the letter book here.

I have marked this personal so that your attention may at once be directed thereto, the Battleford people being clamouring because Agent has not yet received instructions.

Yours truly,

John R. Hall Esq.

Secretary

Dept. of the Interior

Ottawa.

Wm. Pearce

Asst.

General

24th Dec

Dear Mr. Hall

These volumes of all classes in

the British Museum are sent Agent
with instructions, and suggestions of course
here; as the recommendations have in
some cases been changed since they were
copied in the letter book here.

I have marked the persons so
that your attention may at once be
directed there, the British people
being clamorous because Agent has not
yet received instructions.

Yours truly

[Signature]

John R. Hall Esq.
Secretary
Dept. of the Interior
Ottawa

[Signature]

Prince Albert 17th Decr 1885

Sir

I have the honor to inform you that by invitation I met the Committee of the Agricultural Society which met purposely to enable me to discuss matters with them.

I told them I was very glad to be present and wished them to express their views freely; that my object in accepting their invitation was to obtain their views upon which I proposed writing you a report but that they would not be committed in the slightest degree by anything I might report.

I said this in order that they might speak without reserve so that I could glean something that would assist you in making a proposition that would, as far as possible, meet their wishes, having due regard to the public interests.

They asked that the Government would supply:-

| | | |
|--------------------------------------|-----------------|--------------|
| Wheat 6638 Bush | 60 lbs per bush | = 398280 lbs |
| Oats 6842 " | 34 " " | 232628 " |
| Barley 45200 " | 48 " " | 216960 " |
| Placing the Sacking at 1 lb per bush | | 18000 " |
| Total | | 865868 " |

Putting the freight at 4¢ per lb which
 You should allow
 Minister of Exterior
 Ottawa

768

is probably what it will cost. \$3463⁷² would provide for the whole advance.

It is said that freight is now being taken from Le'Appelle Station to Batache at 2 $\frac{1}{2}$ ¢ per lb. The quantity of freight above specified comes to be contracted for with Walters and Baker from Le'Appelle Station to Prince Albert at 3 $\frac{1}{2}$ ¢

If tenders were asked for coal not compared to Prince Albert settlers a rate of 3¢ could probably be obtained.

There are probably not more than ten persons in the District who would go to Le'Appelle for the grain required for their own use unless their expenses were paid, having no feed either for their teams or for themselves when on the road.

They also say that the actual disbursements for living expenses and horse feed when freighting during the winter would be 2¢ per lb.

Asked whether, if the Government furnish the grain at South Le'Appelle and allow, or pay, 2¢ per lb. for freighting, that would meet their views.

They stated that one year ago it was arranged to furnish them seed grain and to accept one and one-half bushels for each bushel advanced; that since then they had suffered large losses through the A.P.C. B. and Indian outbreak,

in

is probably what it will cost. \$34.50
 would provide for the whole summer.
 It is said that freight is now
 being taken from the Appelle station to
 Dakota at 2 1/2 c per lb. The quantity
 of freight shown specifies lumber, the same
 as for with Walter and taken from
 the Appelle station to Price Albert at 2 1/2 c
 of timber was taken for same road
 furnished to Price Albert letter in note
 of a canal probably be obtained
 there one probably, but some other
 the persons in the district and a number
 go to the Appelle for the grain required
 for their own use unless their expenses
 were paid, having no feed either
 their team or for themselves when on the
 road.

They also say that the estimate dis-
 bursements for leaving expenses was some
 feet when freight during the winter
 would be 2 c per lb.
 looked better, off the ground
 must provide the grain at least 2 c
 Appelle and also, or say, 2 1/2 c per
 the for freight, the would need
 their grain -
 from up to this amount is provided
 them seed grain and except one
 and enough trucks for each bushel
 otherwise; this since they have
 sufficient large loads through the
 of the Appelle road between out back,
 in

768

in the vast magnanimity of cases through no fault of theirs, and they considered a bushel returned for each one furnished would be fair.

Under that arrangement, they say, the Government would not lose much: the wheat can be ground into flour for the Indian Department: the oats and barley can be utilized as horse-feed for the Mounted Police: that on those articles the Government has been paying 5¢ per lb freight: that if the freighting of the surplus wheat &c. is paid it will amount to a large extent, the relief which is absolutely required by the settlers: that the barley could be sent down the River in flat boats early next Spring, immediately after the ice goes out, and reach the settlement in time for seeding.

The quantities above mentioned are not in excess of the actual requirements and all will, they say, be saved. Some few persons may have asked for more than they require. It is also true that some persons have made requisition who are in a position, without assistance, to supply themselves but probably these are only a small percentage of the whole number.

It is desired that freighting by stages cannot be depended on later than

27th

in the most urgent of cases through
no fault of their own they have
a vessel returned for such unfurnished
answers be fair.

There is the same argument, then
say, the Government would not have
answered: the vessel can be procured
with a few days for the British Government.
The most sure method can be utilized as
those fees for the Government Police: but
on these matters the Government has been
paying 50 per cent freight: that if the
freighting of the vessel is not for
which it will appear, for example
and, the relief which is absolutely
required by the letters: that the vessel
must be sent down the river in
flat boat every week during winter.
Immediately after the ice goes out, and
near the settlement in time for work.

ing. The question about overland and
and in case of the central Government
and all will, they say, be known.
There are few persons who have asked
for more than they require. It is
also true that some persons have
representation who are in a position
without assistance, to supply them
relieve but possibly these are very
small percentages of the whole number.
It is known that freighting by sea
cannot be depended on later than
the 17th

703

17th March and it is therefore necessary that arrangements be concluded as soon as possible.

They asked that one or more persons resident in Ponice Albert should be commissioned to purchase the seed. I think this request should be conceded to the extent of the Government paying the actual expenses of the one party selected. I am of opinion that one person could make the arrangements, the Government, however, to do the purchasing.

Many wanted paper to pay for the grain in working upon the construction of a road from this point to Hambolt or vicinity and say they would be willing to pay the full cost of the grain if this were done.

Unless the grain were paid for ^{or security taken} before given I fear a great deal of trouble and annoyance will be experienced in collecting.

I think that the best person to handle the grain at this place would be some one nominated by the Agricultural Society here and that he should be held responsible for its proper distribution.

Some one will require to be stationed at South Zui Appelle to deliver the grain to freighters and he should be enabled to advance on account of the
the

of the market and it is therefore necessary that arrangements be made to meet as soon as possible. They asked that one or more persons be appointed in Paris to attend to the business connected with the loan. I think this request should be referred to the extent of the Government paying the entire expenses of the party selected. Some of opinion that some person could make the arrangements. The Government, however, to do the financing.

Many wanted paper to pay for the grain in working upon the construction of a road from this point to the harbor as a security and say they would be willing to pay the full cost of the grain if this were done. Unless the grain were paid for before given I fear a great deal of trouble and annoyance will be experienced in collecting.

I think that the best person to handle the grain at this place would be some one nominated by the representatives. Society here and that he should be responsible for its proper distribution.

Some one will require to be stationed at about 200 miles to deliver the grain to the frontier and be allowed to receive a reward on account of the

768

the expense of freighting, say one half to each individual. Freightmen will require to purchase feed for themselves and teams, also certain supplies for themselves and families, which can be procured more cheaply at Le'Appelle than here. Perhaps the better way, however, would be to furnish the person in charge at Prince Albert with the requisite funds, and let him make the advances and be responsible for the same: the freightmen could then make their purchases where they might choose to do so. Experience leads me to think, however, that even if an advance to pay one half the cost of freighting were made here many of the freighters before leaving Le'Appelle would be short of the funds necessary to bring them home.

It might perhaps be arranged that 1¢ per lb on the grain agreed to be brought in might be advanced here and another cent at South Le'Appelle when grain is loaded. so 2¢ in all might be advanced at Le'Appelle on the grain actually loaded.

As to Security — The only practical security I can think of is to make these advances a lien against the homesteads, those who have not yet made entry to

the expense of freight, and one half
 the freight. It is not
 will require to purchase feed for them.
 return and turn "also better. Supp.
 for the thousands and families, which
 can be purchased more cheaply and
 in smaller lots than here. Perhaps the
 better way, however, would be to
 furnish the person in charge of the
 depot with the requisite funds, and
 let him make the advances and be
 responsible for the same: the freight
 could then make their purchases when
 they thought proper to do so.
 Let him leave out to think, however, that even
 if an advance to pay one half the
 cost of freight were made here every
 of the freighters before leaving in order
 would be short of the funds necessary
 to buying their turn

thought perhaps it was impossible that
 for all on the grain agreed to be brought in
 might be advanced here and another
 part of South or Apple when grain
 is needed. As I in all might be
 needed at Apple on the grain as
 likely loaded.

to security — the only guarantee
 security from that of is to make the
 advances of grain against the warehouse.
 those who have not of course enter
 to

768

to allow the Lien to stand against the land upon which they are residing and whether the land so charged be entered for by the person or the heirs of the person obtaining the advance the Lien to stand against that land and to be repaid before entry is granted to any other person.

Those who have entry to repay the amount advanced before application for patent can be entertained and in case of cancellation the advance to be charged against the land and paid by the person who next obtains re-entry and before such re-entry is granted.

Those who have obtained patents to give security as a first mortgage and if a first mortgage can not be given approved joint promissory notes.

This arrangement would, I presume, require an order - in Council - perhaps a special Act.

Many of the French Half Breeds on the South Branch have not yet made entry and may not do so for some time altho there are not 2% of them who could not now enter, and in two months there will not be one per cent who cannot. They have been repeatedly informed that they might make their entries. I have told every one whom I met and requested them to advise their neighbors but I fear very few will act upon the advice. Many
Ray

I believe the law is there against the
 land upon which they are residing
 and whether the land is changed or not
 for by the person on the land of the person
 obtaining the evidence the law is there to show
 against the land, and to be taken before
 entry is granted to any other person.
 These rules have been in force since
 the moment of our first settlement
 for patent law is established and in
 case of cancellation the evidence is to be
 changed against the land and not for
 the person who has obtained the entry and
 before such is entered is granted.
 These rules have obtained patents
 to give security to a first settler
 and if a first settler has not been given
 approval for his property.
 This arrangement would
 be for the benefit of the person on the land - in
 the case of a person on the land.
 Many of the French settlers
 on the lower French have not yet made
 entry and many are on the same
 time as the others and 2% of them
 who could not make entry, and in
 two months there will be one for
 each who cannot. They have been
 repeatedly informed that they might
 make their entries, but have not even
 one who has not been requested to
 to make their entries. The French have
 few will not make the entries. Many
 say

708

say: "But they have not the money to pay entry fees."

Some 376 have already sent in their names with the quantities of seed grain required by each and probably by seed time there will be \$50. applications. The quantities estimated as

being required would give 20 acres

seed to each which I think is rather high.

Many Half Breeds in this country have a very vague idea of the size of an acre and of the quantity contained in a bushel.

It would be folly to have the seed wasted and I would submit for your consideration whether it might not be advisable to detail one of the homestead Inspectors to visit each applicant and estimate the acres of land required to be seeded next Spring - seed to be advanced in accordance with such estimate.

In some cases it would probably be advisable not to deliver grain until the ground is prepared for seeding.

I know that in Manitoba in the Winter 1875-6 grain was obtained for seed and ground into flour, and in some cases fed to stock. The same thing might occur here.

Grinding it into flour could probably be easily prevented as there are only three or four flour mills in

cap. But they have not the money to pay
entry fees.

Some 876 have already sent in
their names with the quantities of seed
grain required by each and probably
by seed time there will be 450 appli-
cants. The quantities estimated as

being required would give 20 acres
seed to each which I think is rather
high. Many of the farmers in this
country have a very large stock of
seed of grain and one of the quantities
it would be

be fully to have the seed wanted and
therefore submit for your consideration
whether it might not be advisable to
detail one of the Government inspectors
to visit each applicant and estimate
the amount of seed required to be received
next spring. Seed to be advanced in
advance with seed estimate.

In some cases it would prob-
ably be advisable not to deliver grain
until the ground is prepared for seed.
It is known that in some instances

in the winter 1872-3 grain was
obtained for seed and ground with
flour, and in some cases feed to
the same thing might occur
here.

Providing it is from flour
probably be easily prevented as there
are only three or four flour mills
in

in the District.

Two thirds of the grain applied for should — or at least one half — be purchased and arrangements made for freighting it at once. And when the Kamestrad Inspector has reported fully the balance could then be procured and forwarded. The person in charge of the grain at Prince Albert should make weekly reports as to the quantity received and disbursed. ~~The receiving weekly reports from the Kamestrad Inspector~~

There are about 1000 bushels asked for by some five or six parties who might properly be asked to freight in all or part at their own expense granting them only the average quantity or say 50 per cent above such average upon ordinary relief terms.

Something should be done in this matter without delay otherwise the Prince Albert settlers will be in a bad way next year. The freighting should be given as far as practicable to Prince Albert settlers as a means of relief.

My proposition is, in brief, that the Seed shall be granted applicants in accordance with their actual requirements; that they shall repay either its market value here at the time of delivery or bushel for bushel

and

in the interest.
 Some things of the grain applied
 for advanced — or at least one
 half — to purchase and arrange.
 must make for fighting it at once
 but when the theoretical disputes
 has separated fully the balance should
 then be preserved and forwarded. The
 person in charge of the grain at
 Kansas should make weekly
 reports as to the quantity received and
 disbursed, the remaining weekly reports from the
 there are about 1000 bushels added
 for by some five or six parties who
 might properly be added to freight in
 all or part of their own expense
 granting them only the average quantity
 or say 50 per cent above and average
 upon ordinary relief terms.
 Submitting should be done in
 this matter without delay otherwise
 the Kansas Relief Committee will be in
 a bad way next year.
 fighting should be given as for
 as possible to Kansas Relief Committee
 as a means of relief.

My proposition is, in brief,
 that the total value be granted appli-
 cants in accordance with their actual
 requirements; that they should repay
 after its market value less at the
time of delivery or bushels for bushels
 and

788

and that the best practicable security shall be taken in each case for such repayment.

This is sent you under confidential cover to be used by you as you deem best and cautious what information I could gather and an outline of the views which I entertain on the subject.

Handwritten signature

28th Dec

I have received your letter of the 21st concerning certain changes made against you by the Board of Trade of the City of Westminster

In reply thereto I may state that on my own behalf I have not had much business with you. I have not been in the possession of some limited state of affairs but I have two many times or - again I write you on behalf of others throughout the country for information as to what steps were necessary to be taken in the matter of passing details or bills through the House and in many cases you have answered me fully & promptly. I am, Sir, respectfully,
Yours truly,
W. H. W. W.

W. H. W. W.

Secretary of State

W. H. W. W.

763

There also has been several communications
with you, verbal and written, having
reference to certain matters generally
throughout the bank western portion of
the bank west territories and on every
occasion you have taken a warm interest
in our representations made by me
and have, I trust your reason for
believing, followed up the same by
further enquiring; these matters as
far as chiefly to the promotion of the
efficiency of the service - thereby pro-
tecting the honest seller or trader and
deterring our cheating friends on
the subject of the purchase of goods
upon your department.

Thank you for the same to be,
Yours,

Yours obedient servant

Wm. Brown
1874

I have also had several communications with you, verbal and written, having reference to Customs matters generally throughout the South western portion of the North West Territories and on every occasion you have taken a warm interest in any representations made by me and have, I have good reason for believing, followed up the same by further enquiry; these matters referred chiefly to the promotion of the efficiency of the Service - thereby protecting the honest settler or trader and detecting and checking frauds or the attempt at the practice of fraud upon your Department.

I have the honor to be,

Sir,

Your obedient Servant

Wm. Pearce
Supt.

139

was named Prince Albert and was
 for some time the only one of the
 kind in the world. It was first
 exhibited in London in 1854.
 It was then in the hands of the
 Prince of Wales, and was
 being required to proceed to the parish of
 St. Louis de la Pointe à la Pêche to assist certain
 land claims there, and grant entry and
 adding to visit all the settlers or claimants
 at their places who had not obtained entry.
 It appeared to me that it might be advisable
 to ascertain to what extent the granting of
 that portion of the Act of 27th March 1854
 of the Lord's Council was known to the
 Prince Albert Colonization Company and
 since the late Hepburn and Indian
 outbreak I thought it advisable to obtain
 evidence on that point, and I have the
 honor to enclose herewith a paper containing
 from all appropriate sources by me from
 witnesses it is desirable to see the portion of
 said document. The new and old portions
 both of river continued to rise and were
 desirable for settlement, either sand hills
 or covered with a dense growth of poplar.

Many of these applicants are from those
 who are merely claimants, in some cases
 no improvements having been made by them
 in others probably two or three acres of
 breaking and a few house lots drawn thereon.

H. Smith Esq. on 4th Dec. 1854. In reply to a letter from
 Hon. Mr. Galt. Only

[illegible]

Only two settlers, William Brenner and George Dieder did not give affidavits, not being at home failed to see them. The father three brothers and one Brother-in-law of Brenner gave their affidavits and in their sworn statements regarding his (Wm's) claim. Dieder's sister and her husband (Wm. Antoine Richard and husband) gave affidavits. Not more than 2 claimants to land in this Township were missed, being away from home. One Frederick Dieder being absent at Cumberland (a brother of said George Dieder), the other named Boyer. In the case of Boyer the affidavits of his mother and brothers were obtained.

In addition to those from whom affidavits were obtained there are or were the following settlers within Township 18th Range 27 West of Second Meridian and 45th R. 27. West 2nd 1/2nd 1/2nd.

Richard Thos. Satter entered SE 1/4 12. 45. 27 W 2 28th December 1883. now abandoned.

John William Doogood E 1/2 2. 45. 27 W 2nd entered 9th October 1883

Peter Dett Carson entered N 1/2 12. 45. 27. W 2 12th August 1883.

George Alexander McLeod entered N 1/2 14. 45. 27. W. 2nd R. 1st December 1883.

Joseph Dupresne SW 1/4 36. 45. 27. W 2 W entered 2nd October 1883 now abandoned.

[illegible][illegible]

John S. Dillip entered NW 1/4 Sec. 36. T18S R27W
 8th December 1883. He had an interview with
 and Philip Garret who claimed the S 1/2 of
 1863-1. T18S R27W and told the land at 1882 to John
 S. J. Agnew, Commissioner \$2000. then went
 Squatted on as heavily as he could ascertain
 in Township 18S. Range 27. West 2nd Division
 later he was out of or applied for leave for
 either portions. He being now in prison on
 account of his connection with the Kiel
 Rebellion and his family not residing in
 the land, was unable to obtain the
 necessary information from him as to
 the land claimed and on what grounds
 claimed.

The foregoing include every settler
 and claimant to lands within the
 district granted the Prince Albert Coloniza-
 tion Society.

At the time of survey there were only
 two families (Brewster & Baister) settled
 within the township, and they could
 long ago have obtained entry to their claims
 by 1st Section but for some reason to me
 unexplained, desired to claim front
 frontages. Probably the conservation of
 their habit, having been from their child-
 hood accustomed to narrow lots fronting
 on the river was the cause. Being cleared,
 all roads would as so were the land
 available

available, so Chama's frontage, thus by their own acts nullifying the contention that so chain lots is what has been so strenuously desired. All excepting the above two families have settled since survey and knowing the odd sections were let apart for sale, but have ignored the same and squatted regardless of odd or even Hudson Bay or School Sections. They have acted thus, though every Dominion Lands Act that has yet been in force makes settling on land subsequent to survey without obtaining entry thereto without obtaining entry thereto an illegal proceeding, the reason of such a law being obvious.

On the NW 1/4 Section 5 the Roman Catholic Church Authorities in the spring of 1888 commenced the erection of a chapel. The walls are 13 logs high outside and as on ends, size 20 x 34. poplar logs flattened down to about 6 inches thickness. the walls are about 9 or 10 feet in height which will give an idea of the size of the logs. There are in addition 14 sleepers hewed on one side to about 4" face diameter of log about 6' 20" in length. From evidence obtained \$1²⁵ would be a liberal valuation to place on the logs in the wall, 50¢ each for the sleepers.

available, as shown from the above
then even not including the construction
that no other lot would have been so
thoroughly secured. All excepting the above
two families have retired since survey
and removing the old section were the
apart for sale, but have refused the
same and spent considerable money of late
to even the old Bay or other section.
They have acted thus, though every
Government lands act that has yet been
enforced makes nothing out of the independent
to survey without obtaining entry
these without obtaining entry that
an illegal proceeding. The reason of this
a long time ago.

On the 17th section of the 17th
Catholic Church authorities in the spring
of 1884 commenced the erection of a chapel
themselves are 100 ft high outside and 80 ft
wide, 20 ft high. Paper for plaster was
about 6 inches thick. The walls are
about 9 or 10 feet in height which will
give an area of the size of the lot. There
are in addition 12 steps to the entrance
and about 2 ft high. From evidence
about 6 ft in length. From evidence
obtained of 12 inches as a liberal estimate
to place on the top in the wall, 20 ft each for
the steps.

14 sleepers @ 50¢ 7.00
 Total \$74.50

It is stated the contract was let to one
 Bruce to finish the building in 1884, that
 he received a liberal advance on his
 contract but failed to complete it. The
 Half Breed & Indian outbreak during
 last spring prevented its completion this
 year.

I would particularly direct your
 attention to the affidavit of Norman Mc
 Kenzie. It and all others require I think
 no explanation.

What I stated to Mr. McKenzie is what I
 have invariably done during the past
 four years whenever the enquiry was
 made regarding the rights & privileges of
 Colonization Companies which in brief

" So far as even sections are concerned
 " the Colonization Company is merely the
 " Agent of the Minister of the Interior to grant
 " homestead & preemption entries thereon
 " That so far as the odd sections are
 " concerned all bonafide settlers thereon
 " prior to the Colonization Company
 " establishing their agency within the
 " tract, would if desired be protected to
 " the extent of 320 acres, that the minister

was

was sole arbitrator in such cases & the same
treatment would be accorded them
as if settled on lands not granted to
Colonization Companies."

all of which is respectfully submitted

I have the honor to be

Sir

Your obedient servant

Wm. Pearce
Superintendent

"...also advised in such cases to follow
"treatment would be advised them
"as if return on funds was granted to
"Cathay Pacific Corporation."

all of which is respectfully submitted

I have the honor to be

Sr

Yours obedient servant

Wm. H. Brown

J. Norman McKenzie - after 12-

No. 45. R 27 N 2nd M. make oath and
swear:-

1st In the autumn of 1883 I purchased the claim of one Osborne to a portion of sections 12 and 13 in Township 45. Range 27 West of 2nd, and during the visit of Mr Pearce to Prince Albert in January & February 1884 when ascertaining the claims of settlers in the Prince Albert district I spoke to him about that claim, stating I understood that portion of Township 45 R 27 N 2 being South of the River had been handed over to the Prince Albert Colonization Company, and asked if I would be safe in going on and improving the claim. His reply was that I was perfectly safe in going ahead, that so far as settlement in advance of their opening their agency and even afterwards when on even sections was just the same as any other lands in the Prince Albert District, that so far as the even sections were concerned, the Colonization Company was merely agent for the Minister of the Interior to grant Homestead and pre-emption entries thereon and any settlers on odd sections in advance of the Colonization Company establishing their agency. The Minister of the Interior reserving in the agreement with the Colonization Company the right to grant to each and every such settler land to the extent of 320 acres, and in my case, if I was a bona fide settler I would most certainly be protected.

2nd I never was told by any one that I would

not

Not obtain any entry as desired. In fact it
was always represented to me by the Dept:
of the Interior Land officials that I would
obtain any entry, and have been notified
that I can make entry and purchase doing
so hereby.

In addition to the above affidavit taken before George Duck on the 23rd day of July last I further state:

That I claimed this as a 10 chain River Lot. My neighbours wishing to have it in 10 chain claims I supposed I would also obtain a 10 chain lot. Knew it was surveyed into quarter sections at time I took up claim. Never applied for entry and always supposed I would obtain one. Never was told by anyone that this land had been sold or granted in any way by the Government to any corporation, individual, or Colonization Company. Never was told by Dick that entry could not be obtained for this land or any of it in Township 45 Range 27 West 3rd Meridian, nor did I hear any of the settlers in said township state they could not obtain entry for these lands.

Sworn before me at Township 45.

 Clerk

affidavit to be taken before me
 that on 2nd day of July 1877
 day of July 1877 to give the same

North West Territories } I Alexander M. Douglass of Sec
 13 Township 45 Range 27 West
 Farmer, Lake Umbagog.

1st That when I settled on this land in
 November 1884 I took up this claim as I
 did because it was generally considered
 that entry would be given us by legal
 subdivisions or portions thereof so as to
 give the settlers a river frontage extending
 back from the River about 1/4 to 2 miles.

2nd That I never was informed that any
 portion of this township belonged to a
 Colonization Company, and have not
 been to this day notified to that effect.
 having always understood that the
 Colonization Company's tract did not
 extend further north than the southerly
 limit of Township 45 Range 27 west of 2nd
 Meridian.

3rd That I hoped to obtain entry 30
 claims in width extending back 1 mile
 from the river.

Sworn before me at Township
 45 Range 27 west of 2nd Meridian
 this 9th day of December 1885. —
 Having first been read over to him
 and thoroughly explained and
 understood perfectly by him.

Alexander M. Douglass
 Doork

about West Virginia: I understand Mr. Thompson of the
 is township at Range 27 west of
 town, near the boundary.

It has been better on this land in
 November 1884 that up the claim on
 it because it was formerly owned
 that entry would be given to by the
 subdivision of sections there of so as to
 give the better a river forage between
 back from the river about 1/4 to 1/2 mile

That I never was informed that any
 portion of the township belonged to a
 Chesapeake Company, and have not
 been able to find any further notice of it.
 having always understood that the
 Chesapeake Company took the land
 before the land was taken from the boundary
 line of the Chesapeake Range 27 west of 27
 division

It is better to obtain entry to
 claim in order to obtaining back from the river.

have before me at township
 at Range 27 west of 27 division
 this of land of November 1884 -
 having first been seen over the
 and thought to be a mistake and
 was not as perfect as it is.

Chesapeake X Mr. Thompson
 June

Northwest Territories

D. 7. 1. 1. 1.

I Solomon Boncher of section 11
Township 115. Range 24 or 2nd farm
more or less and say:

1st That I am 23 years of age, came with
my father Jean Baptiste Boncher, my sister
Marie Lavillie, a widow and my brother
Jean Baptiste Boncher from and Charles
Eugene Boncher. He later attained the
age of 18 years on the 1st Decr 1887, together
with several other younger brothers and
sisters in August 1887. And have resided
in my father's house on the NW 1/4 Sec 11 in
said Township continuously since up to
present. Came from Baie St. Paul and
participated in the Manitoba Half Breed
Grant.

2nd That my sister Marie Lavillie and
my brother Chas Eugene Boncher have
also been in my father's house continuously
since August 1887 except my sister who
has lived in Prince Albert since last March.

3rd About 2 weeks after we came here
the township was surveyed. At that time
we had about 2 acres of breaking. My brother
Charles two furrows, my sister Marie had
about 1 acre, my brother Jean Baptiste
Boncher I am not certain whether he has
any or not.

4th My sister Marie Lavillie has one
child, and has done no further improve-
ment on the land.

5th I have now at least 10 acres of break-
ing. Set of house log worth about \$50. and
fencing to the extent of 20 chains worth \$25.

5th My brother Eugene has 2 acres of breeding
and a set of house logs which he sold and
also 20 chains of fencing.

7th at the time of the survey we were told
by the surveyor that we were on a school
Section but he said he supposed it was all
right and that we would obtain entry.
Since then have never been told that we
could not obtain entry. Heferred applying
to obtain entry thinking this would be
surveyed into River lots, or entry granted
so as practically to give that. Heard this
land was within a Colonization Company
tract but no official of that company ever
said anything to me, nor do I believe to
any of the family or I should have heard
of it. The fact of the land being within a
Colonization Company tract never gave
any father brother sister or myself any
concern whatever as we always believe
we would eventually obtain entry as
we secured.

Sworn before me at Downsville
in Range 24 N 2nd Meridian
this 9th day of December 1885
having been first read over
and explained to him, and
he seemed to completely under-
stand the same

W. C. Conner, Notary Public

I say further, because the same thing
 and a lot of others the whole of the time
 also to obtain of persons.
 If at the time of the meeting we were not
 by the same. That we were not in the
 position but before the meeting it was all
 right and that we were not in the
 same. Then there have been several that we
 could not obtain entry. The same thing
 obtain entry thinking this was the
 same. But then later, or early, I was
 so apparently to go that then the
 same was not in the same way.
 That but as official of the company we
 are anything to, but not believe to
 any of the family or I should have been
 of it. The case of the same being within a
 Corporation Company that then was
 any further to the fact or simply any
 concern whether we are always believe
 we would eventually obtain entry in
 the same.

The same thing

I have before me at present
 the same of the same
 this is the same of the same
 having been found over
 and the same to him, and
 to be the same to him

Road West Territories } I William Bremner of section
 20-11-12 } 10-45-27 West 2nd M. Farmer made
 oath and lay: -

1st That I came from the parish of St. Charles in Manitoba in August 1882 with my sons Messrs Joseph and Alexander and my son in law J. Baptiste Baucher to township 45-27-112, and have resided here ever since. I lived in St. Charles about 40 years previously.

2. That about 2 weeks after I settled here the survey was made by Hugh Willson D.H.S. At the time of survey I had about 2 acres broken and the foundation of a house laid. My son Joseph had no improvements remaining with me till the following spring. My son Alexander had the foundation of another laid on the SW 1/4 10 which began to lay down William who arrived the following year and then began to have building mentioned on E 1/2 of W 1/2 Sec 4, and completed the house and commenced to reside thereon in the autumn of 1884. My son Joseph had no improvements at time of survey commenced to prepare for building in the winter of 1882-3, and commenced residence in the autumn of 1885 but has been farming it for the past two years living however with me. My son William since the summer of 1883 has been living on the SW 1/4 Sec 10 till the summer of 1885.

3rd That at the time of survey we had not made up our minds how we would take the land. I came up here on account of my family. They desire the land to be taken

776

up at River lots and we decided to try and obtain it that way. Myson Alexander concluded he would be too much cramped to give his claim to William Bremner and moved to location 5. He never applied for entry at R. Office Prince Albert, waiting to see whether entry would be granted in 100 chain river frontage or not.

4th That I never was told nor do I believe myson or son in law were, or I should have heard of it, that we could not obtain entry for the land as we desired it. But once told me possibly we would not obtain it. Had we believed him we would then have abandoned it nor continued to make further improvement as we have done

Sworn before me at Prince
Albert this 4th day of December
1880 after having been first
read over & explained to
him thoroughly which he
seemed to understand fully

 for some time past.

" At the time I settled upon this land
 " though it was surveyed. I did not know
 " anything about the sections. Found there
 " was a piece fronting on the river which no
 " one claimed. I took possession of it. Never
 " applied for entry nor was I told the land
 " belonged to any one except the Government.
 " Never was told my claim had been sold
 " by the Government to any one or corporate
 " or Colonization Company. Supposed I
 " would obtain entry whenever I might
 " apply. No one ever told me I would not
 " obtain my land, nor did I ever hear it
 " stated that any of the settlers in township
 " 45 Range 27 N of 2 Meridian on or in any
 " other locality along the river would not
 " obtain their land.

Extracted from a statement made
 under oath by Elzevir Swain concerning
 his claim to part of sections 3 and 10
 township 45 Range 27 West of the second
 Meridian and sworn to before J. M. Supt.
 Pearce at township 45 Range 27 N 2 Meridian
 on the 10th day of December 1888.

" Let the time be settled upon this land
" though it was known. I did not know
" anything about the location. I found the
" was a piece of land on the line which was
" overgrown. I took possession of it. I
" applied for entry for was that the land
" belonged to my one except the government
" when was told my claim had been sold
" by the government to my one or company
" a California company. I suppose I
" would obtain entry whenever I might
" apply. As we even told me I would not
" obtain my land. As we I even hear it
" stated that any of the better information
" the range of 2 or 3 miles on the line
" often passing along the river would not
" obtain their land.

Extracted from a statement made
under oath by Elmer Davis concerning
his claim to part of section 3 and 10
Township 42 Range 27 West of the corner
between California and Oregon to before the right.
Place at Township 42 Range 27 N 2 West
on the 10th day of December 1887.

I wished to move to Base St. Paul, Man-
 itoba so as to have schooling for the chil-
 dren and urged my husband to sell
 out. He offered the place and its improve-
 ments for \$225 to one Wilson in June last.
 At the time we settled it was surveyed.
 desired to settle on the River on account
 of obtaining fish. We might possibly have
 obtained a 1/4 section but the settlers gen-
 erally wished to go claim lots fronting on
 the river so we concluded to take it the
 same way. Never applied at the land
 office for entry. Always thought we
 would obtain it as desired but did not
 expect to obtain entry till we asked
 for it. Always supposed the Government
 would give it as when we applied for
 it. Never was told by anyone we would
 not obtain it nor that it had been sold
 by the Government to any individual
 Corporation or Colonization Company.

Extracted from a statement made &
 sworn to by Elizabeth Richard concerning
 her husband, Antoine Richard's claim
 to portions of sections 4 & 9 Tps 45 Range 27
 west of the second meridian before W.
 Superintendent Pearce at Township 45
 Range 27 N 2nd meridian on the 10th day of
 December 1885 being her answers to question
 No 2. 40 & 42 of said statement.

Her statement is corroborated by the
 following affidavit sworn to by her
 husband.

Northwestern

" I wish to move to have the
 " that we have been looking for the
 " even and urged my husband to
 " out. He offered the place and its
 " worth for \$500 to our children in
 " At the time we talked it was
 " there little on the river on account
 " of obtaining fish. He might possibly have
 " obtained a license but the license fee
 " would have been too high for
 " the river so we concluded to take it the
 " same way. He offered us the
 " place for entry. Always thought we
 " would obtain it as desired but did not
 " expect to obtain entry till we asked
 " for it. Always supposed the Government
 " would give it as we had no objection for
 " it. He then was told by someone we would
 " not obtain it for that it was too small
 " by the Government to any individual
 " Corporation or Colonization Company

Excluded from settlement
 soon to the United States Government
 her husband, and his children's claim
 of the Government and the range of
 west of the river. He was before the
 Superintendent of the river at Fort Smith
 range of the river on the 10th day of
 December 1881. He was then ordered to
 go to the office of the Superintendent.

The statement is corroborated by the
 following affidavits sworn to by the
 husband.

Bruce Albert,

December 14th 1885.

Dear Sir,

It having been reported to the Minister of the Interior during his late visit here that there were a large number of claimants to lands within the parishes of St-Laurent, St-Louis de Bergeron, and in the vicinity of the South Saskatchewan River, more particularly among the French speaking population whose claims to the land had not yet been investigated and who therefore could not obtain entry. This State sheet is based on insufficient data, as the lists of those claimants which I have assisted you in preparing will show.

Upon receiving your instructions in March 1884 to investigate these claims I consulted with the Rev. Père André, the Superior of this District, as to the best time to carry out the investigation and obtain the information desired; he told me that as many of the claimants were then away from home engaged in freighting and that I had better postpone my visit until after Easter when they would all be at home putting in their crops. I did so and left here for Batouche early in May. On my way up I called in at Grandin where I met Père André, who told me that he had been waiting for me

William J. MacKay
Supt. & Board
Super

Cont

James Brown

1887th 4th volume

W. W. W.

It having been reported that
members of the Interior during his late visit
there that there were a large number of
claimants to lands within the boundaries of
Idaho, it was determined, and with
a view of the best of the Interior
Department, to send a party among the people
of Idaho to ascertain where claims to the land
had not yet been investigated and who
therefore could not obtain entry. This State
agent is based on insufficient data, as
the lists of these claimants which I have
submitted you are preparing in Idaho.

After receiving your instructions
on March 18th I investigated these claims
submitted with the First Free Agent,
in the opinion of the District, as far as
time to pass and the investigation was
obtained the information desired; to
tell me that as many of the claimants
were then away from home engaged in
farming, and that I had better postpone
my visit until after Easter when they
would all be at home putting in their
crop. I did so and left for Idaho
early in May. On my way up I called
on a Mr. [Name] where I was late
before he had been waiting for

788

me to tell me that the people had been holding a series of meetings throughout the Settlement, and they had decided, among other things, that they would make no applications for entry for their lands in the office here. After consultation with him I thought it desirable to secure his services to explain fully & clearly the nature of my mission, and to show to the people the futility of any such resolution on their part. He went with me to Batoche, and at an interview held in the house of Emmanuel Champagne explained fully my object, and advised them to file affidavits in support of their claims. The investigation was then proceeded with in a careful and thorough manner as possible and it will be seen upon reference to the list numbered 2, before referred to, that of the 138 claimants 97 were included in the investigation held before me, and whose claims were reported upon, 2 had settled upon land and had then or afterwards made entry in accordance with the Section Survey. 2 had settled in 1884, and made no application for entry or filed any evidence of occupation, leaving 17 claimants whose claims were not investigated, which number includes the names of Marie Quistette and others, who refused to prefer any evidence in regard to their land matters. It was reported to me as long ago as 1882 that these people, even those who had settled and claimed their lands

and to tell me that the people had been
 having a series of meetings throughout the
 movement, and that the women, among
 other things, that they would make no
 applications for entry for their names in
 the office here. After conversation with
 him I thought it desirable to learn the
 various topics fully and clearly the
 nature of my mission, and then to the
 latter the following story was related
 in response. The men with me to
 take care, and at an interview held in
 the house of the learned Chaplain, for-
 plained fully my object, and advised
 them to give assistance in support of
 their cause. The investigation on their
 part was with in a few days and they
 returned with me to the city and
 a number of people, and it was the
 men upon reference to the last mentioned
 2, before referred to, that of the 1880
 and 27 were included in the investigation
 held before me, and whose names were
 reported upon. In the latter part of
 and that then or afterwards these men
 in accordance with the letter I gave
 a man called in 1884, and made an ap-
 plication for entry or for my assistance
 of occupation, having 17 names who were
 given were not investigated, when
 mentioned within the house of the
 United States, who refused to refer
 any more names except within the
 limits. It was reported to me on
 July 20, 1885 that the people, even those
 who had been and named their names

788

in accordance with the existing survey, had been advised by certain interested parties not to make entry for their land, for what reason I am unaware, unless to coerce the Government into another system of survey on the Banks of the River. From the Schedule prepared you will see how few were then settlers on the River, some 42 in all, of whom 22 could have obtained entry, if they so desired at that time.

With reference to the list numbered 1, which includes the names of 45 Claimants I have made entry, 1 (Cardinal) has settled on a school section subsequent to the plan of the Township being received at the office here, leaving 19 who have never applied for entry, but who could have done entry if they had so desired.

In accordance with your instructions Mr. Gaudreau, the Assistant Agent here, in August 1883 that Gentleman visited the different parts of the District embraced in lists numbers 1 2 & 3, and explained to them fully the Lands Act as bearing upon their claims. Upon his return he informed me that the chief reply that he had received from the people he visited was that they were poor, and had not the money to make entry. There were no other complaints of any nature.

With reference to list number 3 of the Schedule containing the names of 45 Claimants, I have made Homestead entry. 24 filed evidence of claim before me in

the assistance with the existing survey,
has been covered by certain interests
parties not to make entry for their lands,
for what reason I am unaware, unless
the case of the Government into another
system of survey on the banks of the river.
From the evidence prepared you will see
however were then better on the river.
I am as in all, of course I could have
obtained out, if they to be done at that
time.

The reference to the last mentioned
I, which includes the names of 72 claims
and 21 have made entry, 1 (Corvair)
has settled on a school section independent
of the claim of the township being received
at the office here, leaving 19 to be done later
appears for entry, but who could have
been entry if they had no decision.

In accordance with your instructions
the Government, the assistant agent here, in
August 1883 that gentleman writes
the apparent facts of the situation and
in his numbers 1 & 2, and explained
to them fully the facts of the case
upon their claims. Upon his return he
informed me that the chief reply that he
had received from the people of the river
was that they were poor, and had not
the money to make entry. There were no
other considerations of any kind.

With reference to the number 3 of the
section containing the names of 2
claims, I have made investigation
of these claims of claim before me in

July last. 9 were filed before you this month of whom the majority were absent at the time of my visit, while the remainder failed to represent their claims, although requested by me to do so. Of the remainder 5 have failed to make any application at all before any one by reason of their absence either as refugees in the United States or as prisoners at Regina on account of the recent outbreak. This number includes the claim of the Roman Catholic Mission, and as so much has been said about this land I might say that no claim has ever been preferred by any of the Oblats for this land.

I might state that in reference to the Question of Hay Permits, representation was made by me to the Department in June 1884 to the effect that whereas the Hay Question was not of that character to warrant the imposition of dues for the protection of the small Settlers as against the Stockman instructions were sent me not to collect any such fees and no permits have been issued in this district.

I have the honor to be

Sir

Your obedient servant

Geo. Dusk

fully last. I was filled before you the
points of view the majority were absent
at the time of my visit, while the remainder
fallen far from their claims, although
represented by me to do. of the numerous
I have failed to make any application
at all before any one by reason of their
absence either as refugees in the United
States or as persons at Paris on
account of the recent outbreak. This
number includes the claim of the
Roman Catholic Mission, and as
much has been said about this I
might say that no claim has ever been
preferred by any of the others for this

I might state that in reference to
the question of Hay Pensions, representation
was made by me to the Department in
June 1884 to the effect that whereas
the Hay question was not of that character
to forward the information of the
for the purpose of the American letter on
against the American instruction was
sent me not to collect any more fees
and no further have been known in
the subject.

159

24th December 5

Sir,

I have read over the three lists of half breed settlers in the neighborhood of Batavia prepared by you, and so far as their classification into Maniche & North west half breed is concerned I consider it correct. Mr Louis Marion who assists you to prepare the lists is as well qualified for that purpose as any person I know. In fact I know none that possess equal qualifications. It is possible if I was personally to meet the various parties, the lists might in, probably, a dozen instances be changed; but I think the proportions therein would not be much changed.

I have the honor to be

Sir

Your obt servant

William Pearce Esq. &

Winnipeg, Man

R. Gould

24 June 1872

That the proposition herein would not be
 in itself, a proper instance be changed, but I
 personally to send the same better, the list will
 become of great significance. It is possible if I was
 as my former I know. In fact I know more that
 before the list is as well speaking for that purpose
 it would. The time being also exists in a
 favorable a book and speaking is common I cannot
 suppose to you, and so far as this classification will
 be all but better in the neighborhood of Boston
 I have not seen the list

25 June 1891

James M. Smith

Dec^r 28th 5

Sir,

I have the honor to inform you that on my return here, I discovered the last sheet of the Schedule containing instructions as to granting Secty on Townships 45 Range 27 & 28 N 2^d & Tp. 45 R. 1 W 3^d was left in my letter box - which last sheet contained the instructions to you. I have deemed it advisable to prepare a full list of these claims and send it to you.

Should any of the claims disagree with what has been filed in your office, or of which you have any knowledge, please advise me so that the corrections necessary, if any, may be made with as little delay as possible. -

You will please serve notice on all these parties to come forward and make entry

The Agent of Dominion Lands

Dec 28th

Sir,

3

I have the honor to inform you that on
 September 28th, I discovered the last sheet of the
 volume containing instructions as to granting
 letters of citizenship to the foreign born. It is
 No. 1732 was left in my file last
 night but what contained the instructions before
 I have learned it is correct to prepare a full
 list of the claims and send it to you.
 I have sent you of the claims this year
 with what has been sent in your office, as
 of which you have sent the originals. There
 above are so that the instructions necessary
 if any, may be made with as little delay
 as possible.

You will please have notice of
 all these points to our friends and make reply

Yours

The Agent of Dominion Lands
 James Albert

Done

197

will please notify the Commissioner of these
 at the expiration of any of day - you
 within 30 days as provided for under the
 the same as before.

you will receive notification in
 reference to these claims in. You will be
 of the 1st of January as the 1st of January is before
 the same as the 1st of January - (the same as
 in regard to the 1st of January - the same as
 the 1st of January)

There are in any claimant to be
 in the District, of which you are aware & are
 have not made any other notice of them &
 come forward and make the same notice of
 day - at the expiration of the same day
 you will notify the Commissioner of these
 to whom notice has been sent and who has
 failed to respond.

I leave the same to be

Yours

John A. Smith, Secretary

 Department of the Interior

791

within 90 days as prescribed by Sec 284 Vic.
Cap. 27. at the expiration of said 90 days you
will please notify the Commissioners of those
who have not so entered.

You will receive instructions in
reference to those Claimants in Township 45
by LWS² as soon as the Plan of survey is prepared
& forwarded to the Land Board - (Instructions
in regard thereto having been already issued
to Col. Sprout)

Should there be any Claimants to land
in the District, of which you are aware & who
have not made entry please notify them &
come forward and make the same within 90
days - at the expiration of the said 90 days
you will notify the Commissioners of those
to whom notice has been sent, and who have
failed to respond.

I have the honor to be

Sir

Your obedient Servant

Wm. H. Hare
Superintendent

North West Territories } I Charles Eugene Boucher of Section 11
 Do mit } Township 29 N of 2nd Meridian.
 farmer, make oath & say:

That I am the Charles Eugene Boucher mentioned in the attached affidavit of my brother Salomon Boucher; that I have heard read over to me the said affidavit of my brother concerning the lands mentioned therein, and now claimed by myself, my brothers and sisters and by my brother on behalf of my father, Jean Baptiste Bouché, Senior, and that the same is true and correct in every particular, and that I particularly state that I never heard nor do I think that any of my father's family ever heard that the Government had disposed of the lands and that we could not eventually obtain entry in the Land Office therefore, nor that any of the settlers in Township 29 N of 2nd Meridian could not obtain entry for their lands so claimed.

Sworn before me at Prince Albert
 this 17th day of December A.D. 1885
 having been first read over and
 he thoroughly seemed to under-
 stand the same

Wm. Reeves
 Supt.

Charles Eugene Boucher

Look West Territories
Do not

I Magdore Bay of Monaship
Range 27 West of 2nd Meridian
make oath and say

That I know Marguerite Boyer who has
made oath to the affidavit hereto attached
and so far as her answers to questions
numbered 1, 2, 5, 12, 13, 16, 17, 18, 20, 27, 28, 31,
24, 30, 32, 35, 40, 42 & 43. I know them to be
correct, and believe the remainder are true
and correct in every particular.

That I most emphatically state I never
was told by any one that entry could not
be obtained by the settlers in this townsite,
or that the Government had sold the land
to any Corporation.

Sworn before me at Prince
Albert Riv. this 13th day of
December in the year
our Lord 1885.
